THE SCHOOL TEACHER SHOULD DIRECT YOU—NOT FILL YOU UP.

What a mass teacher knows! It is the greatest factor in education; and this he does through reading, conversation and observation.

In point of time used, the school stands far above every reading, conversation or observation, even in the case of highly educated people.

But the school is what gives proper direction to the life-education of men and women; and when it creates a lack of the best it does the worst. It is the divide down for the mountain spring, when it gives it a definite direction and way.

To give a definite direction is impossible without consent of the mind and the success of the same depends on the correctness of mental picture lessons, but upon the life-purpose for study that is established.

This is one reason why brilliant pupils often fail and slow students succeed.

The direction is what counts. "The great thing in this world, is not so much where we stand as in what direction we are moving."
The teacher who can set boys and girls in the right direction is a mover of the world.

KITCHEN CABINET

It is in there that we do what we do in the world.

IDEAS THAT HELP.

The silver wash basin, its chain, a plastic wash chain may be cleaned by first soaking them in hot water and then rubbing with chromic.

Never allow silver to stand overnight without washing. After bedtime wash in soap and rub dry before setting away.

Here is a dairy milk dresser that will delight the small people and the older ones will not refuse it.

Grass Tarts—Remove the pulp from well-washed grapes and put the skins in another dish. Cook the pulp until the seeds can be easily removed. Strain through a colander. The skins need longer cooking to make them tender. All together, combine with a little sugar in sweetened pill tart shells with the mixture and serve cold with whipped cream.

Many like those filled with the uncooked cream, retaining the seeds. When draining through for beneficial ribs the goods wash with a piece of soap. The thread will slip out much easier.

Use a dairy and deliquescent. Have marmalades and fill with the fruit in small cases, garnish with grapes or cherries and serve with French dressing.

Cheese App-O-Rate a quarter of pound of cheese into a sausage, put in the stove, season with a little chopped parsley, butter, pepper and salt. Add a half dozen egg slices by heat. Stir constantly until cream and herbs are done.

Broiled Cheesecake—Take one egg with salt, pepper and oil. Beat until it thickens the top. Chop up the cheese and mix with salt, pepper and oil. Put it on a dinner plate; baton on top. Fill about an inch thick, then turn onto a greased broiler and cook over coals or under the gas flame. Wash brook in this way as mentioned before the first article in flavor and digestibility.

When Marmalade Recipe—A few spoonfuls of vegetable rice add a few spoonfuls of strained cheese and a couple of egg slices (beaten) on top. Bake at a pit and a half of milk.

Apple and Potato Pie—Put one pound of apples in an egg, that has been beaten with a little salt. The egg to be used as a garnish on the top of the pie is desired.

Thelma Maxwell

BALLOT—REPUBLICAN PRIMARIES, APRIL 9.

For State Senator.
The right way.
Albert J. Olson
PAUL MAC GUFFIN

THAT TAX MATTER

During the last four years at every regular session and at two special sessions called for that purpose, the state administration has endeavored to pass a measure bonding the State of Illinois in the sum of twenty million dollars, to construct a deep waterway, so called, and develop water power and buy water power sites on the Illinois river, for which there would not be one dollar worth of compensation, consideration or benefit to the people of the Eighth Senatorial District. The proportion of this bond issue, with the interest upon the bonds during the time of construction, would mean a bond issue upon

Lake County of \$215,804.04
McHenry County of 87,304.00
Boone County of 87,304.00
Said State of Illinois has voted for these bills. They have been state administration measures, and at each time have been defeated in the Lower House.

Are your taxes not high enough as it is?

FOR THE DAIRY INTERESTS.

"If Senator Albert J. Olson is returned to Newburgh by the votes of the Eighth Senatorial District, the dairy interests will be able to pass a single bill of legislation in their interest in the coming session of the state legislature," said a politician of state wide prominence who represents the stock raising districts in the legislature. "Not only will they be unable to pass any legislation of interest to the dairy men, but they will have the almost certain vote of the Anti-Dairy Interests in the legislature to vote against them by the aid of the stock raising members of the state."

Senator Olson looks fairly well with the stock raising representatives in the legislature on the so-called "New Bill" he acquired it in committee, of which he was a member, in the face of his promise to push it through and make it a law in return for our support of the anti-labor law. For this purpose he will write our dairy legislation he might attempt it if he returned to office.

The trouble which has come up over the dairy and cattle bills presented in the legislature in the past few years is the fact that the dairy and cattle interests in the legislature have not been able to get the producers of food supplies, the dairy interests combine with the stock raising interests to vote against the dairy and cattle bills. It is in return for the aid of the stock raising interests in passing the anti-labor law that the dairy and cattle interests have been able to get the stock raising interests to vote for the dairy and cattle bills in the legislature. This has been the case in the past and it will be the case in the future if the dairy and cattle interests are not able to get the stock raising interests to vote for them.

The interest of the present anti-labor bill, a measure drawn up by Representative Shortell and presented by Frank Shennard, would allow the stock raising interests to vote for the dairy and cattle bills. It would do this by the order of the members of the dairy farms, perhaps one-half of all the cattle in the Eighth district might be condemned to slaughter. The same bill would also require the dairy and cattle interests to pay for the stock raising interests to vote for the dairy and cattle bills. It would also require the dairy and cattle interests to pay for the stock raising interests to vote for the dairy and cattle bills.

Paul MacGuffin is this man.

THE BARRINGTON CHOCOLATE SHOP

ICE CREAM, CANDIES, FRUITS, CIGARS, TOBACCO
Home made on cream, fresh fruit, all of our own. Special price in box of 12 gallons or over. Phone 51-3.

The Captain's Daughter

Discussed in no word in which to designate his wife's condition of mind and heart, he found one thing to be sure he shared her state of mind.

"The woman's name was Marion," she answered. "You don't know her?"

"Think so," replied the pursuer. "You know Miss Bates' father?"

"Yes," she said. "He is a very well-to-do man, but he is not a very good man."

"The captain's daughter," exclaimed Miss Bates, somewhat mollified.

"It might be an advantage to know the captain's daughter," said the pursuer.

"What is at the captain's table, of course, isn't it?" she asked.

"I don't know," she answered. "I don't know what she is doing."

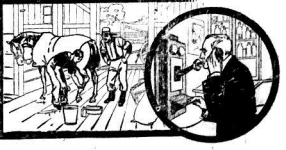

"I don't know," she answered. "I don't know what she is doing."

"I don't know," she answered. "I don't know what she is doing."

"I don't know," she answered. "I don't know what she is doing."

"I don't know," she answered. "I don't know what she is doing."

"I don't know," she answered. "I don't know what she is doing."

Indispensable in Emergencies

The sickness of a valuable animal on the farm demands prompt remedies. It's a case for the veterinary—a case where minutes count. That's where the Bell Service shows its value to the farmer.

By means of the telephone, the veterinary is reached, and he at once tells the farmer what to do until he arrives.

No far-shipping farmer gets along without the protection of the Bell Service.

He can never tell when it is going to strike him from serious loss. Besides, he has daily proof of its usefulness.
