

# BARRINGTON REVIEW

VOLUME 28, NUMBER 10

BARRINGTON, ILLINOIS, THURSDAY, JUNE 13, 1912

\$1.50 PER YEAR IN ADVANCE

## SIX ARE TO GRADUATE

Commencement Exercises To Be Held Next Thursday Evening, June 20, at Salem Church.

A small class of six graduates of the Barrington high school have reached the period in their lives when they must turn from their school books to studies to face the sterner and more intricate problems of life. They are Ruth M. Calow, Mabel F. Kampert, Alta K. Smith, Josephine A. Calow, Leah M. Meyer and Homer H. Plagge, president of the class.

Their class motto is: "One wind serves him who has no destined port." The class colors are purple and white, and the class flower is the white rose.

The commencement exercises will take place at the Salem church next Thursday evening, June 20, 1912. The most important number on the program will be the address by Prof. Francis G. Blair, State Superintendent of Public Instruction, who will speak on the timely subject of "The High School Graduate." The invocation will be pronounced by the Rev. H. H. Thoren of the Salem church and Rev. O. F. Mattison of the Methodist church will deliver the benediction. The balance of the program will be musical selections by home talent and noticeable among these are three numbers to be given by the Barrington concert company.

The Misses Almeda Plagge and Vickie Ulrich will sing piano solo and W. J. Cameron will sing.

The festivities of commencement week will begin Saturday with the Faculty reception. On Sunday the baccalaureate sermon will be preached by Rev. J. Buente, pastor of the Zion church, at the Salem church.

Tuesday, June 18, the class day exercises will be held at eight o'clock at the B. H. S. Assembly Hall where a fine program will be rendered. The junior reception for seniors will be held as above stated. Saturday, June 22, is the date of the alumni banquet.

The class picnic on Monday, June 24, ends the exercises and the class will then bid goodbye to their high school days and be ready to put out into the world to face the battles of life and to make a name for themselves and their school.

## SCHOOL NOTES.

(Written by B. H. S. students.)

The seventh and eighth grades will have their class picnic next Thursday.

The eighth grade have had their spelling examination and half of the class were excused because they had an average above ninety.

This week closes the regular school work for this year. The final examinations will begin on Monday.

The sewing class are completing their sewing for this year and have good reason to be pleased with the results. They are planning an exhibit of their work.

The final meeting of B. H. S. club was a banquet given by Invictus to H. M. M. at which all present became optimists and partook of a sumptuous repast. The table was placed in the long, upper hall and was decked with beautiful bouquets and streamers with bows and ribbons, giving a very gay effect. Each one found their place by a hand painted place-card in the high school colors, a remembrance of the club, and a menu card. The menu consisted of five courses as follows: tomato bullion, meat loaf, potato salad, pickles, olives, sandwiches, fruit salad, water, ice cream, cake, mint, lemonade. The classes were seated together. Miss Leah Meyer, being toast mistress, the banquet opened by remarks from her in regard to the past year's work in the club. The leader of Invictus, Howard Hardeen, welcomed the H. M. M. Frances Plagge, leader of H. M. M. responded.

## WARRIOR BY PUPILS OF ROOM THREE.

Walter White has been sick for the past three weeks with appendicitis.

The following have been neither absent nor tardy for the past school year: Hallo Thoren, Julie Robertson, Dorothy Lageschulte, Vernon Schroeder and Ennie Butler.

## Flag Day.

Governor Denison issued a proclamation designating Friday, June 14, as Flag Day, urging that the day be set aside for patriotic exercises, and that the flag be displayed on all public buildings, school houses, business houses and homes.

## Holiday School Awarded Diploma.

The Holiday school in Cuba township of which Miss Beatrice Gibbons is director has been awarded a diploma by the State Board of Education.

## Waukegan by Pupils of Room Three.

Four young men of Harvard were driven in Delavan, Lake, Wisconsin, Monday, when the boat they were in capsized. None of the four were able to swim.

## POPULAR YOUNG LADY WEDDED.

Miss Elizabeth Brandt Married Yesterday Afternoon to Albert L. Weldenbeck of Cottage Grove, Wisconsin.

Yesterday afternoon at one o'clock at the Baptist church in this village occurred the marriage of Miss Elizabeth Brandt, daughter of Mr. and Mrs. William Brandt of Williams street, to Albert L. Weldenbeck of Cottage Grove, Wisconsin, Rev. G. E. Lohkert performing the ceremony which was witnessed only by immediate friends and relatives.

Immediately after the ceremony they returned to the bride's home where they received the congratulations of friends. At two o'clock they departed for the groom's home at Cottage Grove, Wisconsin, where they will reside.

Miss Brandt has been a resident of Barrington for the past eighteen years and is well known and liked by everyone. For the past two years she has been employed as milliner at Miss Jake's store. She has been prominent in church and social affairs in this village and has a host of friends who wish her all the success and happiness possible in her new home. She is a member of the Royal Neighbors Lodge of this village.

Mr. Weldenbeck, while not as well known here as the bride, is a young man with exemplary habits and a pleasing personality. He is a graduate of the Wisconsin state university at Madison and for the past two years has been engaged in the lumber business at Cottage Grove.

The REVIEW extends congratulations to the happy couple.

## BASE BALL NOTES.

News About the Games Played by Barrington's Two Teams at Home and on Other Ground.

## SCHEDULE OF CONCERTS.

The Sears' School of Music and Department of Oratory presents their schedule for their twenty-third annual concert as follows:

One program at Palatine, June 22. Three programs at Algonquin, June 24.

Two programs at Cary, June 25. One program at Arlington Heights, June 26.

Three programs at Crystal Lake, June 27.

Three programs at Barrington, June 28.

Two programs at Des Plaines, June 29.

The programs at Barrington will be given at the Methodist church at 1:30, 3:30 and 8:15 p. m. Admission: adults 25 cents, children 15 cents. One ticket good for all three programs.

## CHURCH NOTES

SALEM.

Sunday worship at 10:30 a. m. and 1:45 p. m.

Sunday school at 9:15 a. m., J. C. PIGRE, superintendent.

K. L. C. E. meets at 7:00 p. m., S. Gieseke, president.

Prayer services Tuesday and Wednesday, 7:45 p. m.

Choir meets Friday evening.

General missionary meeting held first Wednesday each month at 1:30.

Woman's Missionary society meets first Thursday of each month. Mrs. B. H. Scott, president.

Worship band meets first Sunday of each month at 1:30.

Monthly offering of the church is taken on the second Sunday of each month.

Sunday school council meets first Wednesday evening of each month at 7:45.

The pastor will gladly respond to calls for service. Phone 115-M. Herman H. Thoren, Salem parsonage.

## CARY.

Mrs. Pearl Morris was a recent visitor at the home of Mrs. Ben Rau at Crystal Lake.

Miss Mildred Barr and Marion Shepland left Saturday morning for their home after teaching in the public school for several years. Miss Shepland will return to resume her duties in September.

Mrs. Andrew Stein transacted business in Chicago Saturday.

Mr. and Mrs. Foy Menth returned Saturday night from a several weeks' visit with friends at Mason City, Iowa.

Ray Harrison visited with his parents, Mr. and Mrs. Lyman Harrison at Crystal Lake Sunday.

Will McWorter of Crystal Lake called on friends here Sunday.

Mrs. Lena Goodrich of Algonquin visited recently with friends here.

Paul Lazansky returned Sunday night from Denver, Colorado, where he has been making an extended visit.

Mrs. Martha Osgood and Miss Julia Brown visited with Crystal Lake relatives Friday.

## ST. ANN'S.

Services will be held next Sunday morning at 8:30 o'clock. There will also be services in the evening at 7:30 o'clock.

## METHODIST.

9:30 a. m. Sunday school session. Subject of lesson, "Christ's Witness to John the Baptist." Singing will be led by the Sunday school orchestra.

Announcements for Children's day will be made. The Children's day services will be held on June 30. The work of preparation is in the hands of committees.

10:40 a. m. public worship with sermon. While the public generally is invited the sermon on Sunday morning will be in the interest of women.

Ladies' organizations are especially invited to be present. A choral choir

will open the service.

Card of Thanks.

We wish to extend to our many friends our heartfelt gratitude for the many kind services during the birth and death of our son, Herman.

Don't overlook our "business notice" column. It is one of the most interesting departments in the paper.

## MRS. BARBARA FRICK

Mother of Robert, Herman and Emil Frick Died at Former Home on Last Thursday  
—Other Deaths.

## MRS. BARBARA FRICK

Died, at her home on North Hawley street on Thursday, June 6, 1912, Mrs. Barbara Magdalena Frick aged 74 years, nine months and 25 days. Asthma and old age were the causes of death.

Mrs. Frick, now Agnes, was born in Kanton, Zurich, Switzerland on September first, 1837. In 1868 she was married to John Ulrich Frick and in 1872 they came to America. To this union five children were born, three sons and two daughters. The two daughters preceded their parents to the great beyond. Mr. Frick died in 1895. Since that time Mrs. Frick had made her home with her son Robert.

She was a member of the Evangelical St. Paul's church and had never missed a meeting until sickness compelled her to be absent from the last one.

She was a kind and loving mother and was well liked by everybody and will be greatly missed by the sorrowing children and other relatives.

She is survived by three sons, Robert, Herman and Emil, all of Barrington, one stepson who lives in Wisconsin, and three grandchildren.

The funeral was held from St. Paul's church Sunday afternoon at two o'clock and was attended by a large number.

Rev. W. L. Wilking had charge of the services. Burial was made beside her husband in St. Paul's cemetery.

## MRS. WILLIAM L. HICKS

Mrs. William L. Hicks of Palatine, sister of John Robertson of this village, died at the University hospital, Chicago, where she had gone for an operation.

Lydia Robertson was born in the town of Els, January 29, 1844, and married William L. Hicks, October 3, 1866.

Mr. and Mrs. Hicks have made their home on a farm one mile north of Barrington for a number of years past.

Besides her husband she leaves three daughters, Mrs. Pearl Young and Miss Mildred Hicks of Palatine, and Mrs. Walter Evanson of Chicago; one sister, Mrs. E. R. Clark of Colorado Springs, Colorado; two brothers, John Robertson of this village, and Elmer Robertson of Arkansas.

The funeral was held from her late residence at two o'clock yesterday afternoon.

## JOHN EVANSON.

John Evanson, 60 years old, died suddenly at his home in Leroy Tuesday morning. He was preparing to go to Palatine to attend the funeral of his daughter-in-law's mother, Mrs. William L. Hicks, when he was taken suddenly ill and died within a few minutes.

# GREAT TASK AHEAD

Newspaper Men Preparing For Two Conventions.

## TO MOVE ON CHICAGO SOON

Then They Must Make Quick Jump to Baltimore—How Tickets Are Assigned and Quarters Provided for the Correspondents.

By GEORGE CLINTON.

Washington.—Moving day is imminent in Washington. Very soon scores of members of congress, the campaign managers of three Republican candidates, hundreds of persons who are to be members only, will take trains, regular and special, to move on Chicago for the great Republican national convention.

While the Republican convention is at its height other scores of congressmen and campaign managers of at least four Democratic candidates and more onlookers than can be numbered among the hosts of Chicago spectators, will move on Baltimore. The conventions this year are regarded by everybody in Washington as certain to be of unusual interest. The demand for tickets to both great affairs has been so great that the committees are being put to it not simply to meet the demand, but to discover ways and means of declining demands so diplomatically as not to give offense. It is a case of being asked to put at least a hundred eggs in one hole and this is the thing which is even the sanguine and resourceful committees of the two parties are able to do.

### Army of Correspondents.

Congressmen, political managers and onlookers will not be the only ones to leave Washington for the Chicago event. At least 150 newspaper correspondents will desert the galleries of congress some days in advance of the Republican convention to go to the Lake city to report on the bound-to-be-interesting preliminary.

The American state department through five of its ambassadors has been investigating the system by which the farmers there are enabled to borrow money at reasonable rates. The intention of the state department, after studying the results of the investigation, is to attempt to introduce the European system in this country, so that the American farmer can get money to buy his farm.

It seems to the administration's thought that if the European system is adopted in America the farmer can raise money on his farm by means of a bond saleable in any part of the country. In Europe, it is said, the farmer borrows on equal terms with a big bank, individual contractors or municipalities. The state department in a printed communication to the public on the matter says:

"The investigation is considered one of the most important undertakings yet attempted in dollar diplomacy. Myron T. Herrick, the newly appointed ambassador to France, has been sent to Paris to study the European system. It is also the duty of the chairman to confer with the other members of the committee concerned and to determine whether or not the demands of the different newspapers have been out of keeping with the real news necessities in the case. It is rather a difficult and delicate job to determine just how many seats the newspapers are entitled to. When all the applications are in, the requests for seats will be submitted over by the standing committee to the chairman of the national committee on the management of the two conventions.

In the house press gallery acting as its superintendent is a government employee who had been something like thirty years in the service of duty. He is Charles H. Marx, a Marquette. He is not only a veteran of the Washington service, but a veteran of the convention service.

In the senate press gallery as superintendent is James D. Preston, young and extremely popular. He has been trained here and there between Baltimore and Washington several times a week ever since the Democratic national committee fixed on Baltimore as the place for the convention. It is not too much to say that Mr. Preston probably knows just about every member of congress who has been called in to advise him.

It has been one of his duties to see that the writers have places to which they can go to pound out for themselves, or to dictate, instant copy.

Department Press Agents Assured.

Members of the house rules committee recently have been investigating the use of press agents by the department of government. The agents are employed to get out information concerning the work which the government intends to do along certain lines. Much of this material is sent to Washington correspondents and a good deal of it is used, but it contains news which are of service to writers outside, concerning the work which the government is doing.

It is intended to make the venture, if adopted here, a project primarily for the use of the farmer. The proportion of press agents not to receive any portion of the profits will be the earnings of the stockholders will have to be kept down to very reasonable rates.

Adding insult to injury, "Why is it geometry?" demanded the lumberman, who, when he had been asked to make a new plow, was told by the one he loves best?

"I don't even know that you have a geometry," said the lumberman.

## SCENES AND INCIDENTS AMONG DELEGATES

Somebody during the course of an interview always thinks to ask, "What's new?"

"How do you expect to put on your time, Mrs. Bo and So, while you're attending the convention?" asked the man. "And the interviewee usually tries to frame up some elaborate reply. The question was duly put up to Mrs. William R. Bond, who had just come in from Edina, on her arrival, and right off the bat she said:

"The first thing I mean to do is to straighten up this room. I thought I might make it look as if a woman ever went into it. I'm not a minder, but I'm a place as it was when I got in. Papers everywhere; and books! I'd never been in a room like that for it if I'd been in California, and he telegraphed me to come to be with him. Well, I haven't been home since I got in, but I'm not the sort of person who goes to bed when I'm here. He went down to the harbor, and this morning and I went to the beach, and then we came together in Peacock alley, and I don't think he recognized me. I stepped up to him and said, 'I'm Mrs. Bond, and I say to say, 'Where have I seen her before?'"

### Deserted Wives Retaliate.

Much dissatisfaction is expressed by the wives of politicians here assembled for the convention because they haven't seen their husbands for two years.

"What do you think of such and such a man?" Mrs. Howard asked one of the men in her suite overlooking the lake.

"Gorgeous man! I haven't seen my husband for two years, and he's not been to me for any news of the convention. When I hear it will be stated indeed."

The wives of the politicians instituted what might be mildly called a boy-cott. They have appropriated the entire hotel to themselves, and have stayed in Chicago and have scattered to the four winds. Mrs. William Hayward, in the temporary home he took at the Hotel Belmont, in the South Shore country club for the day and evening. Mrs. Victoria Roosevelt went on a sightseeing tour of the country, and Mrs. John D. Rockwood, of the Rockwood Club, has been spending her time in the suburbs "where she would have some one to talk to," was lonely.

Mrs. Joseph Dixson and her large family had no complaint to offer and remained "on the job." She is the wife of Dixson, who is a well-known and popular man.

The state department also has a particular agent, and a very large amount of material is given out of a kind which simply because this was held secret simply because the holding of everything secret was the department's custom.

### Cheaper Money for Farmers.

A new American state department has been investigating the system by which the farmers there are enabled to borrow money at reasonable rates.

The intention of the state department, after studying the results of the investigation, is to attempt to introduce the European system in this country, so that the American farmer can get money to buy his farm.

It seems to the administration's thought that if the European system is adopted in America the farmer can raise money on his farm by means of a bond saleable in any part of the country.

In Europe, it is said, the farmer borrows on equal terms with a big bank, individual contractors or municipalities. The state department in a printed communication to the public on the matter says:

"The investigation is considered one of the most important undertakings yet attempted in dollar diplomacy. Myron T. Herrick, the newly appointed ambassador to France, has been sent to Paris to study the European system.

It is also the duty of the chairman to confer with the other members of the committee concerned and to determine whether or not the demands of the different newspapers have been out of keeping with the real news necessities in the case. It is rather a difficult and delicate job to determine just how many seats the newspapers are entitled to. When all the applications are in, the requests for seats will be submitted over by the standing committee to the chairman of the national committee on the management of the two conventions.

In the house press gallery acting as its superintendent is a government employee who had been something like thirty years in the service of duty. He is Charles H. Marx, a Marquette. He is not only a veteran of the Washington service, but a veteran of the convention service.

In the senate press gallery as super-

intendent is James D. Preston, young and extremely popular. He has been trained here and there between Baltimore and Washington several times a week ever since the Democratic national committee fixed on Baltimore as the place for the convention. It is not too much to say that Mr. Preston probably knows just about every member of congress who has been called in to advise him.

It has been one of his duties to see that the writers have places to which they can go to pound out for themselves, or to dictate, instant copy.

### CHORUS FOR THIS BOY.

The great loss of city boys is the loss of duties. Their sphere has been curtailed tremendously by the drawing of the city limit lines. When the boy lived on the farm or in the small town, he found plenty of things to do, which were sports in the doing, and only incidentally work at the St. Paul Dispensary. He went about on his duties, performing his chores, and on the way he found rich treasures which he brought back with him, and stored up for a lifetime's use. Did he go after the grazing cattle, he left the soft earth move up between his happy toes and experienced a sensation of the composition, yes, and the poetry of the soil, which the city boy can never know, however much he bares feet to the asphalt. Every turn he made in his chores, in wood or field, in barnyard or stable, he found something to make it pleasure—wars it only the exercise of muscles. The country boy had his limitations, no doubt. The city boy had his advantages, if he only knew how to take them. He has vastly more material to hand out of which to stimulate his imagination, to quicken his intelligence—if only he could retain, or his parents retain for him, some of the virtues of old, some of the chores which would give ballast to his life. This may be the day of the "division of labor," and the hired man of the furnace and the lamp may perhaps do his work more steadily and more explicitly than the boy of the house. But the boy should be considered in this division, and parents should not make their lives so easy that they rob him of doing his immemorial chores.

At a meeting of the Linnean society of London, Prof. Pouillon presiding, a letter was read from Herr Paul Scherding, as follows: "For hundreds of years pigeons have nested on the spire of Strasburg Cathedral. They increased so much that many attempts have been made to extirpate them, but in vain. During the last few years there has been a sudden and startling diminution in the number of these cathedral pigeons. I am of the opinion that this manifest reduction is due to the asphaulting of the streets round the cathedral. Between the stone sets of the pavement the pigeons were able to pick up food in quantity. In consequence of the asphaulting and daily watering and cleaning of the places in the immediate neighborhood the birds have gone."

A woman in Pennsylvania is in jail because she married ten husbands in a vain endeavor to find a perfect one. In the meantime, the wife of the perfect one hunted was getting a divorce from one because she could not stand his perfection. It is impossible to please the women.

Astronomers tell us that the Martian year lasts 750 days. When we reflect on the size of the average Martian coal bill we are thankful to be living on this little old earth.

The Georgia observer who says he saw a flock of robins that had been made drunk by eating berries failed to mention whether they were yellow or blue and pink.

Armor plate is like cheese, according to Hudson Maxim. This is the first time we have heard Andy Carnegie referred to as a cheese magnate.

That report of King George inventing a coal-saving cook stove was sprung just at the moment when it would make him most popular.

It is quite unnecessary to put the Chicago date line over the story that a woman physician praises big feet as indicating big intellects.

The new Chinese government will be called the Ching Hwa Republic. But the present will probably call it the Chink Republic.

It is conceivable when the other man has it, when we have it ourselves it is merely a proper appreciation of our own abilities.

Fashion keeps the world a-bloom—so says the magazine.

Continued from first page.

will render acoustics and lead in the singing. The anthem on last Sunday morning was particularly fine.

The usual services at 1:30 will be omitted on account of the recitation sermon and exercises in the Salem church.

6:30 p.m. the devotional meeting of the Epsworth league, will be in charge of Mr. Sanford Rieke. The topic for thought will be "Strength".

Mid-week prayer service on Wednesday evening at eight o'clock. Topic for study, 2 Cor., 5:1.

SUNDAY SCHOOL begins at 9:45. General preaching at 11 a.m. every Sunday morning. On account of union service being held at the Salem church there will be no Y. P. A. meeting or English preaching in the Zion church Sunday evening.

The Woman's monthly Missionary meeting will be held Thursday afternoon at the home of Hannah Wiseman.

Makes The Nation Gasp.

The awful list of injuries on a Fourth of July slingers humanity. Set over against this however, are the eyes of the spectators at the White Salve of thousands, who suffered from burns, cuts, blisters, bullet wounds or explosions. Its quick healer of boils, ulcers, eczema, sore lipos, piles, 25 cents at the Barrington Pharmacy.

### CUTTING DOWN THE FLESH

Heretic Struggles of a Fat Man Who Thought the Scales Were Deceiving Him.

I have about come to the conclusion that the good Lord intended some of his creatures to be fat and some thin, regardless of medicines and so-called infallible cures, writes a western man. For a long while I tried all the alleged obesity cures and none of them did me any good. Then I determined to starve myself and take lots of exercise.

All my life I had been a lover of good eating, and counted that day lost on which I did not consume for my dinner the better part of a sirloin steak as thick as a dark's foot, with all the trimmings. For breakfast I usually destroyed a platter of cake, bacon, eggs and no end of thin-sliced ham, besides fruits and two cups of coffee.

This lifelong system I abandoned for an entire month, cutting out all the meat and about all the vegetables, a piece of toast and glass of milk taking the place of my morning meal.

At first I did not feel well.

At the end of thirty days I felt fit to run a three-mile foot-race or go in the ring with the champion. About this time it occurred to me that I ought to get weighed and I made a bee line for the scales. My grocer assured me that they were correct to a pound but they showed I had gained 14 pounds in the period of my abstinence. Exchange.

Proteins of Spiritual Life.

The old adage in regard to the way to a man's heart is regarded by some persons as a libel on masculine humanity, but Deacon Sampson of Cranston evidently did not regard it in that light.

He went much farther than the adage, and was willing to experiment at any time when it seemed best. When the members of the Central church were discussing the best way to interest the young people of the town and bring them into touch with church affairs, Deacon Sampson spoke his word.

"I believe in meetings," he said firmly, "but believe in 'em more than I do, but along with the meetings I don't know of anything that promotes spiritual growth more'n strawberry socials and oyster suppers, each according to its season."—Youth's Companion.

### Bomb's Deadly Work.

Paris is truly a city of tragedies. At a quarter past eight last night another explosion on the Place de Montrouge. Policemen rushed up, and found a young man of eighteen, Alfred Hervo, shrieking with pain, and rolling in agony on the ground. His face and hands were covered with blood and his clothes torn. The police pulled him out, put him in a cab, and took him to the nearest hospital. The other policemen found the bomb, it had been made of two metal soap boxes tied together, and filled with powder and nail. Hervo recovered from his injuries, but died the next day on his way to his work, saw the thing lying on the pavement, and kicked it off into the gutter. It broke open, and wondering what the black stuff in it was, Hervo lit a match and bent down to find out. An explosion followed.

### Victims in Compository Work.

Thank God, every morning when you get up that you have something to do that day which must be done, whether you like it or not. Being forced to work and forced to do your best will breed in you temperament and a spirit of cheerfulness and content, and a hundred virtues which the idle never knew.—Charles Kingsley.

## Heads and Hearts

By Belle Montrose

Contributor, 1911, to Associated Library Press

comes for my answer so soon as this storm lets up."

In the basket was a chicken dressed and ready to bake, a mines pie, sugar-doughnuts, a layer cake and stewed cranberries.

"It was thoughtful of him," she said with a little thrill in her voice. "I wish he had come. I suppose he couldn't miss his dinner party, though. Wonder if Joe will get there. He must be snowed in worse than any one."

With a sigh she went to work to prepare her solitary meal.

"I will get the best meal—completely digestible," she said, setting the table with the best, linen and plates. When dinner was ready she heard another loud stamping. This time on the front steps.

"Luke has reconsidered and come," she thought as she flew to the door.

There panting, smiling, rosy-cheeked and snow-covered, stood Joe. With a glad little cry of welcome she ushered him in.

"It was harder work than last year's harvesting," he laughed.

"How did you happen to come, Joe? And aren't you going to your aunt's dinner?"

"I hear you were snowed in and also that you were going to let you eat alone. I took a shovel and tunneled my way through."

"I looked in the cupboard a while ago and found there was nothing. So I planned a ham and egg dinner. Think of the dinner your aunt will have!"

"I can't care if you have only bread and water, if you will share it with me, Vere."

"I was only joking, Joe. Luke sent me down a chicken dinner this morning. It is all ready to sit down to."

Joe looked disconsolate.

"What a chump I am! Mother has taken a chicken dinner which might have brought your dinner as well as not. Luke always outdoes me."

"He didn't this time, Joe," said the girl softly. "It was a thousand times nicer of you to come than it was to send me a dinner. When I got his basket, Joe, I doubted you and thought when we were not thinking of my plight. When I sat at the table I put a place opposite mine and pretended it was for Luke. But now—"

"But now, Vere," may I occupy that place?"

"Yes, Joe."

"And Vere," he concluded, summoning up his fortitude, "may I have the place with you?"

Hearts won. He read her answer in her eyes.

### WHEN THE CANAL IS OPEN

Will Change Course of Freight Traffic Between Europe and Valparaiso, Austria and New Zealand.

The Hansa, the organ of the Hamburg ship owners, after consideration of the probable effect of the opening of the Panama canal upon steamship routes, states that after the month of June, 1913, should the canal be opened to navigation at that time, steamers proceeding to Europe from San Francisco will take the Panama Canal, a route of 13,621 sea miles, but will save 6,200 sea miles via the canal route. Steamers proceeding from Montreal to Sydney now cover 13,696 sea miles, but in the future will be able to do so over a route of 10,962 sea miles.

It is difficult to predict the effect of the canal upon freight traffic between Europe and Valparaiso, the Cape Horn route being only 2,100 miles longer than the canal route. Passenger ships probably will pass through the canal, serving the east coast of South America by means of auxiliary ships sailing from West Indian ports.

Trade between Europe and Japan will not be influenced by the canal, as the Panama route will be 1,000 miles longer than the one now followed. From New York to Shanghai, on the other hand, the distance of 13,621 miles of the canal will be 1,400 sea miles. The present route from Europe to Australia via the canal, which is scarcely enough to threaten any great change. It is assumed that a part of the business from New Zealand to Europe, which took the Cape Horn route, will pass through the canal hereafter, saving 1,600 sea miles. The canal will be selected also by passengers who wish to avoid the rough and stormy rounding of Cape Horn. The chief reason of the steadily increasing business between New York and Australia and New Zealand should therefore go on via the canal, rather than by the Cape of Good Hope, saving 2,300 miles.

It is difficult to predict the effect of the canal upon freight traffic between Europe and Valparaiso, the Cape Horn route being only 2,100 miles longer than the canal route. ## SERIAL STORY

# The FLYING MERCURY

By  
Eleanor M. Ingram  
Author of  
"The Game and the Candle"  
Illustrated by  
RAY WALTERS

(Copyright, 1926, by Doubleday, Doran & Co.)

SYNOPSIS.

The story opens on Long Island near New York city, where "Miss" Emily French, the well-known manufacturer of the celebrated Mercury automobile, loses her way. The car has run out of gas and Emily French, too muddled with drink to drive, is run over by a racing driver who is run by a professional raper named LeStrange. The latter goes up the French's car and reveals how to proceed homeward. Ethan French, Emily's husband, son, has disappeared. He informs Emily plainly that he would like to have her marry him. Emily, however, is responsible, it appears that a part of Ethan's money, which he gave to Emily, was engaged LeStrange, and at the same time, finding out about the young man, they refer pleasantly to their meeting when Dick comes along and recognizes the young racer.

CHAPTER IV.

Mr. French and his niece were at breakfast on the Sunday, when the first account of the Georgia race reached Frenchwood.

"You will take fresh coffee," Emily was saying, the little silver pot poised in her hand, when the door burst open and Dick hurried, actually hurried, into the room.

"He's won! He's got it!" he cried, brandishing the morning newspaper. "The first time for an American car with an American driver. And how he won it! He distanced every car on the track except the two big Italian and French machines. Those he couldn't beat, of course, but the Frenchman went out in the fourth hour with a broken valve. Then he was set down for second place—second place, Emily, with every other big car in the country entered. They say he drove like—like—I don't know what. A hundred and some miles an hour, I suppose."

"Oh," Emily faltered, setting down the coffee-pot in her plate.

He stopped her eagerly, half turning toward Mr. French, who had put on his pince-nez to contemplate his nephew in stupefaction, not at his statement—but at his condition.

"We're in the race," said the Italian fast lost its chain and went over into a ditch on a back stretch, three miles from a doctor. People around picked the men out of the wreck, and LeStrange came up to find that the driver was likely to die from a severed artery before help got there. Emily, by some stroke of fortune, had found the Italian, lifted into the mechanic's seat, and Rupert held him in while they dashed around the course to the hospital. He got him there fifteen minutes before an ambulance could have reached him, and the man will get well. But Lee stopped at the local station, and LeStrange straight to the doctor, given them the man, and gave right on, but he had lost six minutes. When people realized what he'd done, they went wild. Every one thought he'd lost the race, but they cheered him until they couldn't shout. And he kept on driving. It's all he had, he was so tired. He had half an hour to make up six minutes, and he did it. He came in nineteen seconds ahead of the nearest car. The crowd swarmed out on the course and fell all over him. Old Bailey's nearly crazy."

To see Dick excited would have been a marvel, but the stormy boy had not possessed a quality to stir even non-sporting blood. Emily could only sit and gaze at the headlines of the extended newspaper, her dark eyes wide and shining, her soft lips apart.

"He telegraphed to Bailey," Dick added in the pause. "Ten words: 'First across the line in Georgia race. Car in first shape.' LeStrange. That was all."

Mr. French deliberately passed his coffee-pot to Emily.

"You had better take your breakfast," he advised. "It is unusual to see you noticing nothing before this. You are very overexcited, I suppose."

"I suppose it's because I am capable of his work at least. I suppose for the rest, that he could scarcely do less than take an inferior position to the honored. Why are you particular in my case, Emily?"

"I don't know," she acknowledged.

"I don't know," she advised again, and then, "I don't know," said Dick, after a long pause. "It's not to be. I suppose it's because I am capable of his work at least. I suppose for the rest, that he could scarcely do less than take an inferior position to the honored. Why are you particular in my case, Emily?"

"I don't know," she advised again, and then, "I don't know," said Dick, after a long pause.

"I don't know," she advised again, and then, "I don't know," said Dick, after a long pause.

for the young manager, and she was sorry. Sorry, although, remembering Bailey's unfortunate speech the night before, his engineer was proposed, she was not surprised. She had looked across to Dick sympathetically. So sympathetically, that after breakfast he followed her into the library, the colored journals in his hand.

"What's the matter with the old gentleman this morning?" he complained. "He's not the same as he used to be, is he? If he does, he ought to like what LeStrange is doing for it. What's the matter with him?"

Emily shook her head. "You might guess, Dickie. He is lonely."

"Lonely! He!"  
At the feminine impulse to defend him, "Dickie," she exclaimed with passion. "Who has he got? Who stands with him in his house? No wonder he can not bear the man who is hired to do what a French should be doing. It is not the racing driver he likes, but the manager. And not his boy, either. Dick, Frenchwood son has disappeared. He informs Emily plainly that he would like to have her marry him. Emily, however, is responsible, it appears that a part of Ethan's money, which he gave to Emily, was engaged LeStrange, and at the same time, finding out about the young man, they refer pleasantly to their meeting when Dick comes along and recognizes the young racer.

"What's the matter with the old gentleman this morning?" he complained. "He's not the same as he used to be, is he? If he does, he ought to like what LeStrange is doing for it. What's the matter with him?"

"Why hot?" she exclaimed with passion. "Who has he got? Who stands with him in his house? No wonder he can not bear the man who is hired to do what a French should be doing. It is not the racing driver he likes, but the manager. And not his boy, either. Dick, Frenchwood son has disappeared. He informs Emily plainly that he would like to have her marry him. Emily, however, is responsible, it appears that a part of Ethan's money, which he gave to Emily, was engaged LeStrange, and at the same time, finding out about the young man, they refer pleasantly to their meeting when Dick comes along and recognizes the young racer."

Emily turned away to the nearest window. "Dickie," he followed her over, still holding the papers.

"Don't you want to read about the race?" he ventured.

Smiling, though her lashes were damp, Emily accepted the paper offering.

"Yes, please."

"You're not angry? You know I'm a stupid chump sometimes; I don't mean it."

"No; I am sorry I was cross. It is I who would like to think of my work. Never mind me; let us read."

They did read, seated opposite each other in the broad window-seat and passing the sheets across as they finished them. Dick had not exaggerated on his coming to the rescue, and he was not told to do so.

"I am a swift change in his tone, the focus of his hour's attention. The daring, the reckless courage that risked life for victory, the generosity which could throw that victory away to aid a comrade, and lastly the determination and skill which had won the competition after all the whole formed a fine text to continue his idolization of LeStrange and his driving."

"Very," Emily agreed, smiling.

"Two tires off," said the laconic mechanician. "Two funerals postponed. That was a pretty stop, Darling."

"It is too commonplace to say good morning," Emily replied, her color rising. "Dickie, I am very glad you came to me."

"I am a swift change in his tone, the focus of his hour's attention. "Very," Emily agreed, smiling.

No, Cordelia, a man isn't necessarily a beat because he has a red face.

For years Garfield Tea was best on the market. This must mean a remedy worth while.

What She Wants.

"I want you to build me a fashionable home."

"Have you any special ideas as to the style of house you want?" asked the architect.

"Not exactly. I want one of those modern houses. You know the kind I mean—one with a living room too big to keep warm, and a kitchen too small to cook in."—Detroit Free Press.

#### Vogue in Outer Garments.

According to the D. G. Economicist, at the present time tailors are featuring wraps of cashmere and satin. The best sellers are the medium-priced numbers retailing from \$10 to \$30. These are usually attractively lined in some bright color, giving a picture of taste. Lace collars and cuffs are often used as a distinctive touch and are very effective, while white lace is used largely for this purpose. Some garments are shown trimmed with black lace, which is cut away to show the lining underneath.

#### The Smart Way.

"The Smartest Garments, the English anti-visioneer," said an anti-visioneer of Philadelphia, "is delighted with the recent English vision report, which promises to abolish even the use of the live bait in fishing."

"Coleridge once argued here in Philadelphia about the cruelty of killing worms.

"Oh," his opponent said, "the mere fact that a worm writhes and wriggles when impaled on a hook is no proof that it is actually suffering pain."

"No, it is not," said Coleridge seriously. "Because down that is just the worm's way of laughing at being tickled."

#### TO MAKE SURE.

Miss Hascoons — Before announcing our engagement, count, I say, that perhaps it would be more satisfactory if you had your title guaranteed.

## In the Growth of Corn

There's a period when the kernels are plumped out with a vegetable oil, most satisfactory if you had your title guaranteed.

As the corn ripens the "milky" hardness, and finally becomes almost stony.

## Post Toasties

Are made from the best part of choice selected corn.

It is usually soaked overnight with sugar and salt added. The salt has been tested to an appealing brown—with a touch of heat touching the food.

It has been said that Post Toasties are the only cereal that contains a combination of salt and sugar.

One can never be quite sure about this.

"The Mystery Baggage."

It is a mystery bag.

It is a mystery bag.

## TIPS ON COOKING CEREALS

Some Old-Fashioned, Wholesome and Nutritious Foods That Deserve a Revival.

Old-fashioned oatmeal requires a much longer time to cook, as every one knows, than the kind usually found for sale nowadays. Yet many housewives prefer it and when you can get it, it gladly takes the extra trouble required to prepare it. To cook it use a scant quart of water to every heaping cupful of the cereal. Salt it and boil it two hours the day before serving. Then turn it into a double boiler and let it cook slowly all night. In the morning, stir it up and let it boil up well for a minute or two. Serve immediately while hot. Some palates prefer a thicker gruel, in which case only three cupfuls of water to a cupful of the cereal.

Sauerkraut is a delicious meal cereal that should be eaten often. Like old-fashioned oatmeal it requires long cooking. It is very nice for Sunday suppers or as a starchy vegetable in place of rice or potatoes for dinner. Soak in water two cupfuls of sauerkraut all night. In the morning, stir it up and serve hot.

Left over soup is very nice fried. Grate a very hot frying pan and spread the hominy in it. Season with a little salt and pepper. Break an egg and pour it over the hominy. Cook until the egg is set. Serve with tomato sauce.

Old-fashioned wheat cakes for four cups of cold water for every cupful of wheat grain. Let it come gradually to the boiling point and cook steadily for one hour.

## SUNSHINE IN THE HOUSE

Do Not Let a Day Pass Without Doing Something to Brighten That Day for Others.

It was Mr. Barris who quizzically said, "Women who bring sunshine into the lives of others cannot keep it from themselves."

It is a good idea to learn and apply.

If you will not try to be a spreader of joy for the joy it gives do so from selfish motives.

Girls may think this far-fetched. Their one thought is to snatch at joy for themselves. It takes experience, perhaps bitter experience, to learn that the joy that counts most is the one with a rebound. Like a rubber ball, the harder you throw it the quicker its return.

The girl who starts on a joy quest for herself cannot say, "I will be a spreader of joy and have such a simple time," and then go about her sunshine shedding with patronizing airs. She may give joy, but the chances are that her patronage will be felt and resented. The sunshine that counts glows in the heart and must come out. The girl who wants to bring sunshine to her friends in the rays of joy giving. Nor need that sunshine be for outsiders. Sunshine shedding, like charity, can profitably begin at home. It is not so exciting, perhaps, to try to brighten the lives of mother or mother-in-law or sister as it is to be a Lady Bountiful, but the reflex action is quite as strong.

Try shedding sunshine wherever you are. Do not let a day pass without doing some little thing to brighten that day for someone else, and you will find your own day more joyful.

#### Vinegar Pie.

Beat the yolks of four eggs to a thick consistency and add a half cup boiling water over them; stir while pouring. Place an oven to keep boiling; mix well together one and a half cups sugar and four table-spoons flour or corn starch and stir into the boiling egg and water; stir constantly until a smooth paste. Add a dash of salt and a dash of nutmeg. Stir it well together; pour into rich ready baker crust and let bake until well set. Beat the whites to a stiff froth; add one-half cup sugar; spread on the pie and brown; by adding one teaspoonful lemon extract to whites you have an excellent lemon pie. This makes two large ones.

#### Planked Steak With Oysters.

Have an extra sirloin neatly trimmed; put it on the broiler; broil five minutes on one side; turn and broil five minutes on the other side. Make the planking board very hot while the steak is broiling. Put the steak on; garnish the board with oysters and a few mushrooms. Turn the broiler. Turn the steak once. Dot it with salt and pepper and rub it with butter. Cover the top with broiled oysters, then run it again under the broiler for a few minutes. Serve very hot.

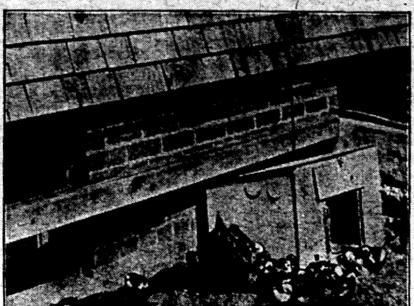

#### To Save Fuel.

When ironing, place an old sea or tin of some kind over your iron. This has been used with gasoline and oil lamps. The ironing may be done on a low fire. The heat is retained in the iron and conveniently there is a saving in fuel.

#### Blanket Stove.

When blocking the stove, draw the ends of ruglets across a bar of iron rods, stretching as taut as possible. The ends of the ruglets are then bent over and the ruglets are then drawn across the floor.

## PROPER CARE OF NEWLY HATCHED CHICKS

Rest Comfort in the Dust and Sunshine

By D. O. BARTO, Associate in Poultry Husbandry, University of Illinois.

In the care of baby chicks, the right thing to do is to make them comfortable all of the time. For a mother how delicate must be the machinery of these little bodies which have been built up from the albumen of the egg mainly in the short period of 21 days. How little resistant power they must have to withstand any kind of adverse conditions. The first need for the first three days is a warm, dry place to sleep and rest and digest the yolk of the egg which was taken into their bodies just before their exhaustion from the shells. Don't try to induce them to eat or drink at all during this period. It is often the cause of nervous bowel troubles to feed them earlier.

It is not possible to go into details in this article in regard to the kind of a brooder to use, whether it shall be heated or freestanding. The one thing to remember is that unless they are comfortable and happy, they will not

thrive, and many of them will die; and they will surely let you know if they are happy by the contented, purring sounds they make by the flapping of their little wings and stretching of their legs, all by themselves in which they flatten themselves onto their stomachs on the floor of the brooder. If they cry and bunch together in a corner of their brooder, something is wrong. Find out at once what it is, if you can, and remedy it. They are easily disturbed and cannot stand up to being handled. They are very susceptible to heat in mind and body, dryness, fresh air, sunlight or bright, cheery surroundings, cleanliness, freedom from ice, and an abundance and variety of good nutritious food together with clean water, sharp grit and clean bedding.

It is a good idea to keep a record and look after. Yet that is what "mothering" young animals means.

Does it pay? It surely doesn't pay to raise them if you don't do it. To make poultry raising a success these little things must not be forgotten or neglected.

## CONSTANT DRAIN ON NATION

Cost of Tuberculosis and Other Preventable Diseases Has Been Put Into Figures.

White state commissions and other bodies are trying to find a method for reducing the cost of life insurance. Prof. James W. Glover of the University of Michigan, who is president of every policyholder of a \$10,000 ordinary whole life policy could save about \$20 a year on his premiums if tuberculosis and typhoid fever were eliminated. Tuberculosis alone causes a loss to such a policy holder of from \$10 to \$20 a year (or 20 to 30 at the rate of six per cent).

At age of twenty with the present high death rate from tuberculosis, this one disease alone shortens the complete expectation of life by two years and 185 days.

While the cost of life insurance

## GUINEA MEAT IS DELICIOUS

When Matured Bird Cannot Be Eaten by Any Chicken for a Pot Roast or Pie.

You have heard of guinea fowl, but did you ever taste one? If not, try the delicious flavor of wild game, especially the prairie chicken, you are sure to enjoy a meal of guinea fowl. When young, the guinea is more tender and more juicy than the prairie chicken, but is far inferior to any other bird as a broiler or a fry. When matured they cannot be excelled by any chicken for a pot roast or pie. Their flesh is rather dark, but fine grained and very tender with an exquisite game flavor. The eggs, while rather small, have a rich taste that most persons like. There is an ever-increasing demand for guineas in the larger cities for restaurant trade. There's profit in raising them.

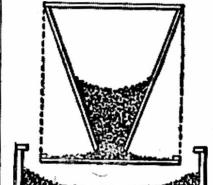

Guineas are not so serviceable as hens when raised in confinement, but if allowed the room of the farm, will practically raise themselves, with hardly any expense to their owners, and will return a profit in both eggs and meat. The guinea is usually a wild bird, and will usually range in the highest parts of the country, so that it is not so difficult to find them. If guineas and turkey eggs are set at about the same time, and the young divided into flocks, half guineas and half turkeys, when given to the brood hen, the guineas will remain with the other birds and will not be eaten by the turkeys when kept alone.

The feed for guineas may be the same as for young turkeys. After three weeks they may be put on free range, feeding three times a day, with plenty of fresh water. They do not scratch like other fowls, and therefore are safe to have in the garden.

## HANDY HOPPER FOR POULTRY

Implement May Be Made of Galvanized Iron or Wood. It Prevents Waste of Feed.

A handsome hopper for preventing hens from wasting their food may be made of galvanized iron or wood, as shown in the illustration. The hopper

Poultry Hopper.

properly hung about the lower box which may be emptied back into the hopper when desired.

## Sprinkler Incubator Eggs.

One of the experiment stations has found that by sprinkling eggs during the last three days of artificial incubation, one-third more eggs were hatched, and the eggs that were sprinkled from the third day on gave about 15 per cent more chicks. Submerging the eggs did not seem to increase the hatch as much as sprinkling. It was also found that while it is easy to develop chicks in large, thick-shelled, dark, Brahmas eggs, it is very difficult to get a good hatch.

## No Sentiment in Hens.

There is no sentiment in a hen. Her only object in life is to get enough to eat. If she is given that and a warm, well-ventilated house to sleep in at night, a dry, sheltered place in winter, she will do the rest.

## POULTRY NOTES

Watch the hens for superfluous fat. The poultry business is not all profit.

Be generous with fresh air and water and sunshine.

Lettuce is particularly well liked by chicks because of its tenderness. It is easier to keep the hen's quarters clean than it is to fight disease. If cabbage is fed too much of its flavor, the eggs may partly quail.

Don't put off buying your breeding stock for the poultry yard till next spring.

Green food is one of the essentials for healthy fowls and for satisfactory egg production.

Leave the hen yard border on the garden so that the vegetables can easily be transferred.

The fact of the business is, the average farm flock produces about 150 eggs per hen each year.

The prairie chicken grows food for winter, in the winter, it is much more sparing than in summer.

Once a month paint the roots with coal oil, using a broad paint brush, and pour a little into any cracks about the ends of perchings.

Provide plenty of dry earth and straw to keep the hens from getting dirty themselves, and there is little danger of body lice in a clean house.

The busy hen in the scratching shed is the one that drops the eggs in your market basket during the winter months when eggs are highest.

Place a shallow pan with a coarse bottom in the scratcher so the hens have to walk through it in entering their night roosters, and mice are not apt to give trouble.

## Business Notices

## Evolution of Chuskeavit.

The selection of a title was always

one of Dickens' first anxieties when he was beginning a new book.

The now familiar name of Chuskeavit went

through a curious process of evolution.

First it was "Sweedlen" then

"Sweedle" then "Gussie" then

of these would do. The Sweedles then

became Chuske, and there was a new

series of Chuskeites, Chuskeboy, Chus-

lewig, and finally Chuskevit—how

Dickens Found His Names.

## Iconoclasts

Now they say the game of golf origi-

nated in Holland. Oh, go on with the

cruel work of delusion, and don't

ask me to believe that the Germans

and probably an Italian will be

along directly and claim the haggis

—while a Greek walks off with the kilt.

—New York Evening Telegram.
