WOOD IS INDICTED

MILL HEAD ACCUSED OF DYNAMIC CONSPIRACY IN LAWRENCE STRIKE.

FAMOUS AS TEXTILE MAN

Is Head of Company Employing 35,000 Hands—Gives \$5,000 Cash Bond for His Appearance—Undertaker Arraigned.

Boston, Sept. 3.—Charging him in an indictment warrant with conspiring to distribute dynamite in Lawrence during the general strike there last winter, President William M. Wood of the American Woolen company was arraigned here Friday.

The American Woolen company which bore the brunt of the great Lawrence strike, from January 12 until March 14, controls thirty-three manufacturing plants in New England and New York state. It has a capitalization of \$75,000,000 and employs 35,000 operatives when all the machinery is in motion.

President Wood is one of the best-known textile men in the country. He furnished cash bail of \$5,000. It is understood that he will be formally arraigned in the superior court.

Dennis Collins of Cambridge, who was indicted and arrested on a charge of unlawfully having placed dynamite in a railroad passenger train for transportation, is in jail in default of \$1,500 bail.

The discovery of dynamite in a gymnasium building, a cobbler's shop and a cemetery in Lawrence last January, while the textile strike was at its height, caused a sensation.

Soon afterward John J. Breen, a Lawrence undertaker, was arrested on a charge of having unlawfully placed the dynamite in the places where it was found. Breen was found guilty and fined \$500.

BOY FALLS TO DEATH

DROPS 2,000 FEET FROM BALLOON AT FLINT, MICH.

Lad Caught by Foot When Craft is Released Dangles From Rope as Thousands Scream.

Flint, Mich., Aug. 31.—His foot caught in the guy rope of a balloon, Chester Betts, aged fourteen years, son of Mr. and Mrs. Bert Betts, living in the city was carried 2,000 feet in the air and then dropped through the roof of a barn. He died while being rushed to a hospital. The tragedy occurred at the fair grounds and 5,000 horrified spectators saw the boy plunge to death.

Among the shuddering thousands who watched the tragic accident were the lad's father and mother, from whom he had wandered in boyish desire to be near the center of the attraction offered by the ballooning. They did not know the swinging form was that of their son until, with others of the crowd, they rushed to the spot where the crumpled little body lay.

Then the mother fainted and the father, with tears streaming down his cheeks, turned from his dead to care for his living.

The boy was standing near the bag when the word to cast off was given. One of the ropes caught his foot and, evidently too frightened to scream, he was drawn rapidly toward the sky.

The balloonist, Abner Amabil of Lansing, made frantic efforts to pull the lad to the trapeze upon which he sat.

Closer and closer the little form was brought to the bar which meant comparative safety when there was a shriek from the watchers as, turning over two or three times, it shot toward earth.

GOES TO ASSEMBLY

VERMONT IS REPUBLICAN BUT THE LEGISLATURE MUST CHOOSE GOVERNOR. PROGRESSIVE VOTE IS HEAVY

Drawn From G. O. P. and Prevents Majority Required to Elect Under State Constitution—Roosevelt Men Win in California Primary.

Montpelier, Vt., Sept. 5.—Vermont's Tuesday primary returns show that while Fletcher, the Republican candidate for governor, has a plurality, a majority is necessary to elect, consequently the legislature will be called upon to choose the governor. This body was almost unanimously Republican in 1910-11 and of the senators and representatives chosen Tuesday, under the plan, then they went to the outside and between and saved my fingers. It also began on the bottoms of my feet and the calves of my legs, and then, oh, my! I never had legs, and then, oh, my! I never had anything like it, but I never will again. The itching was terrible. My hands got so I could scarcely work. I tried different creases ointments but without results. The ointment medicine for it but it did no good. I saw the advertisement, for a sample of Cuticura Ointment and Soap and sent for one. They did me so much good I bought some more, using them as per directions, and in about three weeks I was well again. Cuticura Soap and Ointment cured me. (Signed) Berni Passage, Apr. 8, 1912. Cuticura Soap and Ointment sold throughout the world. Sample of each free with this book. Address: Post-card "Cuticura, Dept. 1, Boston."

Despite a heavy rain during most of the day the voters came out in unusual force.

Four years ago the Republican majority was 28,000 in a total vote of 64,267. In 1912, when Cleveland was elected, it was 19,702, and the total vote cast was only 59,880.

Metzger, the Roosevelt candidate for governor, and in a recent meeting of 15,000 voters and returns show that he has done so. It is evident that many Prohibitionists and some Socialists gave him their suffrage.

The Democratic boozing that they have more than held their own—their normal vote is 17,000—and are not losing to the Progressives. It appears, therefore, that most of the voters who only come out in presidential years, voted for the Progressive candidate.

Analyzing the result on the basis of the figures at hand—and they are practically conclusive—the approximate totals are: Fletcher, Republican, 28,000; How, Democrat, 18,000; Metzger, Progressive, 15,000.

Milwaukee, Sept. 5.—Wisconsin will see Governor McGovern, La Follette Republican, opposed at Tuesday's primary, elected in the state election by Judge John C. Karel, Karel, from early returns, has a substantial lead over Adolph J. Schmitz, the Progressive Democratic candidate.

Columbus, O., Sept. 5.—Returns received at the secretary of state's office show that the result of the suffrage and the adoption of the initiative and referendum home rule and primary amendments.

The returns from the rural counties show that the result on the good roads, minimum wage, liquor license and taxation amendments have carried.

Los Angeles, Cal., Sept. 5.—Returns from the various sections of the state show that the Roosevelt Progressives have swept the state in the primary election of Tuesday and will have a majority in the California legislature. This has the significant meaning that probably no far-reaching amendments will appear on the ballot in this state the presidential election in November.

According to the peculiar provisions of the California primary law, the candidates for the state legislature who have become the nominees of the party in the primaries meet and select the presidential electors.

5,000 HOMELESS FROM FIRE

Flames Sweep Ocean Park at Los Angeles and Destroy the Beach City.

Los Angeles, Cal., Sept. 5.—Five thousand people were homeless in Santa Monica Tuesday night as the result of a fire which originated in the kitchen of the Casino cafe at five o'clock Tuesday evening and burned uncontrolled until nearly nine. The loss is said to be \$2,500,000.

Big solid blocks of cottages and apartment houses, crowded with summer visitors, were destroyed. The famous Fraser's Million Dollar pier, with all its concession buildings, was totally destroyed, except for the concrete pile of the pier itself.

The Deatury hotel, famed to all who have traveled to the Pacific coast in the last ten years, was leveled, along with the long string of small business houses along the "Pike" and the bathhouse, one of the finest and largest on the coast, rests in its own ashes. One Japanese is known to be dead. He jumped into the ocean while trying to escape from the blazing pier, and was drowned. Other Japanese are reported to have lost their lives in the holocaust.

To Operate Canal by electricity. The Panama canal will be operated almost exclusively by electric power. Approximately seven per cent of the electric power supply will be distributed by hydroelectric power, and this will be the excess which is not required for lockage, evaporation, and lockage. The hydroelectric station will be located between the north wall of the Gatun spillway and the plant will have a capacity of 6,000 kilowatts. The average hydraulic head throughout the year will be about 70 feet.

ECZEMA IN RED BLOTCHES

305 Kanter Ave., Detroit, Mich.—"Some time last summer I was taken with eczema. It began in my hair first with red blotches, then scalp spreading to my face. The blotches were red on my face, dry and scaly—not large; on my scalp they were larger, some scabby, but my hands were all little lumps as though full of shot about one-sixteenth of an inch under the skin. Then they went to the outside and between and saved my fingers. It also began on the bottoms of my feet and the calves of my legs, and then, oh, my! I never had anything like it, but I never will again. The itching was terrible. My hands got so I could scarcely work. I tried different creases ointments but without results. The ointment medicine for it but it did no good. I saw the advertisement, for a sample of Cuticura Ointment and Soap and sent for one. They did me so much good I bought some more, using them as per directions, and in about three weeks I was well again. Cuticura Soap and Ointment cured me. (Signed) Berni Passage, Apr. 8, 1912.
