## BLAST TRIAL NEAR

HEARING OF FIFTY-ONE INDICTED MEN SOON TO TAKE PLACE AT INDIANAPOLIS.

### MASS OF EVIDENCE IS READY

Ortle McManigal Is Expected to Be Principal Witness of the Government—Senator Kern to Defend Accused.

Indianapolis, Sept. 24.—On October 1 fifty-one men, who were indicted in connection with the dynamiting cases, will be placed on trial by the government. The district attorney is at work on the cases and expects to be ready by the time the cases are called. Almost the entire list of officials of the International Association of Bridge and Structural Iron Workers for ten years back will appear.

The district attorney has marshaled his testimony, consisting largely of documentary evidence, in such a way as to expedite the trial as much as possible. The records and letters taken from the offices of the iron workers have been arranged in the order of their dates and in the order in which the prosecution assert the writers stand toward the conspiracy that the government charges existed in the organization to dynamite property.

John J. McNamara, the international secretary, is said to have handled all the correspondence and given practically all the instructions regarding places where explosives should be used, and the prosecution holds there is abundant evidence that the instructions were acted upon.

Letters alleged to have been written by Ryan to other members and by them to Ryan constitute an interesting part of the correspondence.

The letters, nearly 200 of which are in the possession of the government, are alleged to be from or about all the men indicted, and the government asserts it is able to trace practically every job of dynamiting to an immediate or remote connection with them. In this connection the evidence of Ortle McManigal will be very important, for it is said it will show that he received instructions in harmony with the letters, and that he carried out in a satisfactory manner the letter and received pay for them.

Senator Kern has recently been employed by the defense and is now going over the indictments and is frequently in consultation with the defendants.

Didapp, diplomatic adviser of the Mexican revolution, with having furnished the money needed to finance the revolution against Diaz in President Madero.

Didapp made this allegation on Thursday before leaving for Mexico.

He said \$5,000,000 had been advanced and the loan had been repaid with a \$20,000,000 premium. Mr. Didapp added that a new junta would be formed to replace the one which has been broken up by the arrests of its members by United States officers.

A plan for the opening of hearing next week was outlined by Senator Clapp for presentation to the full committee when it meets. The first witness probably will be Cornelius N. Bliss, Jr., and the second C. C. Tophoff, private secretary to the late Edward H. Harriman. ## RUSH OUT MARINES

ORDERED TO SANTO DOMINGO TO PROTECT CUSTOMS HOUSES AND FOREIGN PROPERTY.

### SITUATION IS VERY SERIOUS

President Issues Rush Orders After Assistant Secretary Winthrop Informs Him of Critical Conditions—Gunboat Goes to Dominican Waters.

Wilmington, Del., Sept. 26.—A force of 750 marines will sail from Philadelphia on the transport Prairie for San Domingo to protect the American customs receivership there. This decision was reached by President Taft at a conference on Tuesday with Secretary Winthrop, assistant secretary of the navy.

The marines will take charge of the custom houses of the republic endangered by the present revolution, which has under the United States supervision by the terms of the 1907 convention.

The marines will sail from Philadelphia on the transport Prairie, Col. F. J. Moses probably will command the detachment and Brigadier General McIntyre, chief of the bureau of military affairs, and W. T. Doyle of the Latin-American division will also sail on the Prairie.

Although no definite plans were made by the president and Mr. Winthrop on Tuesday, the force probably will be split into small bodies so that the customs of the whole Santo Domingo republic can be watched closely.

There is no United States force in the republic now, but the gunboat Wheeling will land bluejackets, but the authorities will await the arrival of the Prairie.

Washington, Sept. 26.—The gunboat Wheeling is the only American warship in Dominican waters. She has a complement of about twenty marines. The gunboat Petrel left there a few days ago and is now on her way to New York. She was last reported off the Florida coast by an equinoctial storm. She might be turned back by wrecks.

Most of the marines who go to San Domingo will probably be ordered to be drawn from the posts at Washington, New York, Boston, Norfolk and other Atlantic coast stations.

## COULDN'T HAVE DONE BETTER

Marriage Arrangement Seemed Something of a Bargain, but It Turned Out Happily.

George A. Birmingham, the widely known writer who lives in this country in the world where marriage, at least in the peasant class, is more a matter of bargaining, and yet shows a higher average of stability and content than Ireland. Sometimes the man has never seen the woman before they are brought together, the precise number of pounds, shillings, or pence to be handed over having been at that time settled.

This is illustrated in personal recollections of Birmingham, but it is a true woman. She was visiting with an aunt a cottage in the neighborhood, and admired a fine mahogany chest of drawers.

"Was for that I was married," said the mistress of the cottage. A young farmer had also seen and admired. A bargain was struck. There was no money, but the bride was to have a couple of sheep, a yearling bull and the chest. The prudent young man measured it and then turned and asked:

"An' which o' them little girls is it?"

"That was the oldest unmarried—'tis the one with the chest o' drawers, 'An' so I went," she said, "and was happy ever afterwards."—Tit-Bits.
