the Globe—Latest Home and Foreign Items.

Washington

Charles R. Crisp told the Senate yesterday that the \$50,000 which he gave \$55,000 to Senator La Follette's campaign and \$10,000 to Governor Woodrow Wilson's fund before the Baltimore convention.

Evacuation of Nicaragua by all American troops within thirty days was demanded yesterday by prominent naval officials at Washington. They consider the revolt ended.

Admiral Southander, in command of the American forces in Nicaragua, reports to the navy department another fight between revolutionaries and rebels at Chimalapa, in which 6 marines were wounded and 13 of the enemy killed.

"I asked no man to contribute to the campaign fund when I was elected president of the United States, and I wish no man to contribute to my campaign," Mr. Coolidge, both assured me that no promises had been made as a return for any contribution. Neither they nor anyone else having authority asked me to act or refrain from acting in any matter while I was president because no contribution had been made or withdrawn. Gentlemen could I put it more sweepingly?" At these words Theodore Roosevelt summarized his testimony at his hearing before the Clapp committee of the senate investigating campaign funds.

Domestic

Motohiko Kondo, a Japanese aviator, was killed near Savona, N. Y. The airplane he was trying to struck the derrick of a large windmill and the aviator fell about forty feet, fracturing his skull.

The one hundred and third annual meeting of the American board of commissioners for foreign missions has begun at Portland, Me. Officers of the organization will report the board free from debt for the fourth time in its history.

Mount Holyoke college will observe the rounding out of three-quarters of a century of life this week at South Hadley, Mass. The completion of a \$500,000 endowment fund will be reported by a committee.

From the careers of the Mo-Namans and Orcie E. McManigal, as leaders of the "firing squad of dry-namiters," with conversations in which they were said to have plotted to send McManigal to Panama to blow up the locks of the Panama canal, were given by District Attorney Charles W. Miller before the jury at the trial of the accused "dry-namiters" at Indianapolis. Edward Clark of Cincinnati changed his plea from "not guilty" to "guilty."

Ray Pfanzschmidt was arrested at Quincy, Ill., on a charge of murder in connection with the quadruple killing near here a week ago. The victims of the tragedy were Charles Pfanzschmidt, his wife, their daughter, Blanche Pfanzschmidt, aged sixteen, and Miss Emma Kaempen, aged twenty, a school teacher.

Several passengers were hurt when a Pere Marquette passenger train from Chicago to Grand Rapids, Mich., struck a rail five miles east of Michigan City, Ind.

John D. Afrid failed to respond to the subpoena served upon him to appear as a witness in the Waters-Pierce-Standard Oil litigation at New York and was held "in default" by Commissioner Jacobs.

Two young women employed as waitresses in a restaurant at 25 Park Row, in New York city, were suffocated to death in a fire that started on the fifth floor from a defective fuse and spread rapidly to the other floors. Two other waitresses are in a serious condition.

All records for milk and butter have been shattered by Crammelle Vale, a Holstein cow owned by Hart Upton, Brockton, Mass. The cow has given 34,000 pounds of milk with a monetary value of \$1,000, since November 1, 1911.

Eight privates of Battery F, Third United States Field artillery, were injured by a premature explosion of a shell at Tschakale, Rumania. The company was returning from the Constanța station when it was struck by a shell. Otherwise Turkey will attack within a day.

The second international conference of Scottish Rite Masons opened in Washington, 26 out of 29 supreme councils of the world being represented.

Nine persons are dead as a result of a collision between three automobiles on the edge of Fairmount Park. One of the cars, running at high speed, struck another, which was buried against a bridge. The third car, containing six men, crashed through a railing of a bridge and fell 40 feet, killing all the occupants. Three men in the second car also met death. The dead are all residents of Philadelphia.

Six persons were injured, two probably fatally, when a street car collided with a coal wagon at Selby avenue and Kent street, St. Paul, Minn.

Prosecution of the Kansas City Fife and Drum corps exchange as a "bad boy" ended when Judge Wood in the district court assessed a fine of \$18,000 against the exchange and its 16 members. Later he reduced the fine to \$5,000 and granted an injunction restraining the exchange from meeting and fixing prices and deferring its charter formation. The defending its charter formation. The defense filed a motion for a new trial.

Nearly 4,000 United States troops were reviewed at Honolulu by Secretary of State Knox and Secretary of the Interior Fisher prior to the departure of the cabinet officers for the Far East.

John Cook, chief of police of Marinette, Wis., was exonerated by the fife and drum commission on all charges preferred by Sheriff A. E. Schwartau, with the exception of one which the chief of police was holding a revolver at the sheriff. On this charge he was found guilty and suspended for thirty days.

The annual convention of the American Electric Railway association opened in Chicago.

Personal

William A. Peffer, elected to the United States Senate by the first popular legislature of Kansas, died of apoplexy at Grenola, Kan., at the age of eighty-one years.

Edgar Heyburn of Idaho, who was taken ill with heart trouble during the filibuster in the senate in the closing hours of the recent session of congress, has suffered a relapse. It is feared he may not recover.

Prince Ludovic Pignatelli d'Aspremont, of the pretender to the Spanish throne and former suitor of Miss Duke of New York, was held up by the immigration authorities and sent to Ellis Island when he arrived on the steamship France. He is held ineligible to enter the country because he attempted suicide in Paris last July.

Miss Helen Gould, millionaire philanthropist of New York, who was traveling in her private car, which was attached to a west-bound West Coast train No. 1001, which was wrecked one mile west of Criterdon, died in relieving the sufferings of many of the passengers who were injured.

Charles Lathrop Pack, Cleveland, O., millionaire and pioneer in the conservation movement, was elected president of the National Conservation congress for the ensuing year at Indianapolis.

Sporting

Ralph De Palma, in a desperate effort to win the Grand Prix race at Milwaukee, Wis., was seriously injured when the Mercedes car he was driving crashed into Caleb Bragg's machine, traveling 100 miles an hour, and overturned. Bragg's car leaped from the tangle and carried his driver to victory.

Foreign

A new agency dispatched from Chile to the Andes to stop a mule train brigandage near Neteras attempted to cross the Tareo river into Novibazar, Turkish territory, on Thursday and was opposed by the Turkish frontier guards. Over 100 Monegros were killed.

Four hundred men were killed and 1,000 wounded in the first battle of the war between the Balkan states and Turkey. The battle was fought near Harmallici, in Bulgaria, thirty-seven miles north of Adrianople.

The British submarine B-2 was rammed by the Hamburg-American liner America in a fog while maneuvering in English channel off Goodwin Sands and was sunk with the loss of fifteen lives. The only survivor was Lieutenant Bruce, who had a miraculous escape from death.

Divers found the wreck of the British submarine B-2, which was run down and sunk with fifteen officers and men by the Hamburg-American liner America.

On information received from its correspondent at Constantinople, the Tagliche at Berlin, Germany, publishes a report that Turkey will send an ultimatum demanding the demobilization of the armies of the Balkan states within twenty-four hours. Otherwise Turkey will attack within a day.

"EXCUSE ME JUST A MOMENT!"

GIANTS LOSE, 4-3

BOSTON RED BOX LAND FIRST GAME FOR WORLD'S CHAMPIONSHIP.

LAM TESREAU IN SEVENTH

Wood Shows Strong in the Ninth—Twelve Batters Go Down Before American League Twirler—Game Has Many Sensations.

New York, Oct. 10.—By the score of 4 to 3 the Boston Red Sox defeated the New York Americans Tuesday in the first game in the series for the championship of the world.

Speaker got the first Red Sox hit off Tesreau. It was in the sixth and was a three-bagger.

The Red Sox got to Tesreau in the seventh, eighth, ninth, tenth, and forcing "Big Jeff" from the box.

Wood showed his strength in the ninth. After the Giants, with one down, had scored a run and had men on first and third, the Boston twirler struck out Fletcher and Crandall in succession. Wood's speed increased as the game progressed.

Joy Wood, Boston's premier pitcher, was at his best. Although the Giants made 9 hits off of him, he balanced this by striking out 12 men. New York was unable to bunch their hits to advantage except in the third inning, when they scored two runs on two hits.

Tesreau, first man up in the third, struck out. Devore walked. Doyle doubled to left. Devore taking third. Snodgrass struck out. Murray singled to right, scoring Devore and Doyle. Murray was cut down trying to score.

The disaster occurred while the third patrol fleet of submarines, consisting of six vessels, was maneuvering off the south foreland on the coast of Kent. The Americans appears to have cut the submarine completely in two.

Lieutenant Richard I. Pulleyne, who was second in command, was the only man among the crew of 15 who was saved. He was found floating in the sea, too exhausted to say more than he was rescued than: "The submarine is cut in two. I went down a mile."

WAS FEELING WRONG BUMP

Sagacious Physician—Mistaken in His Conclusion, as It Turned Out.

"Ladies and gentlemen," he said, "the protuberance on this little boy's head is remarkably well developed. It is the bump of omniscientiveness."

The learned professor was given a public lecture on phrenology, and for purposes of demonstration he invited a boy to the platform, says the New York American. After a critical examination of the lad's cranium he turned to the audience:

"In the present case that the boy has an extraordinary love for his parents. (Addressing the boy:) Isn't that true, Johnny?"

Johnny hesitated a moment, then said:

"Well, I get along pretty well with the old lady, and the old man ain't such a much."

"Why, how is that, my boy?" asked the professor.

"Well, if you want me to let it out, the bump yer blovin' about is where my pop hit me yesterday wit' a belt buckle."

A CLERGYMAN'S TESTIMONY.

The Rev. Edmund of Wigton, who retired from Dryden for a year, has been a ministering angel, was well and strong, was drowsy and exhausted at the least exertion. Hands and feet were cold and he had such a dragging sensation across the loins that it was difficult to move.

After using 5 boxes of Dodds Kidney Pills the condition was

improved and he felt himself again. He has been blessed and blessed by the use of Dodds Kidney Pills. Several months later he wrote: I have not changed my faith in your remedy since the above statement was authorized.

Concerning the use of Dodds Kidney Pills he said: I keep about this wonderful remedy.

Dodds Kidney Pills, 50c, per box at your dealer or Dodds Medicine Co., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free.

He—I'll give you a promise, if you'll keep it.

Business for Father.

The small daughter of a practicing physician, who evidently has an eye to business, told her mother, in no uncertain terms, that she must call on one of her new neighbors.

"And why must I call on her?" asked the mother, amused at the child's pell-mellness.

"Well, in the first place," explained the little lady, "they've got three of the scranniest kids, and the mother herself don't look very strong."

"Well, in the first place," explained the little lady, "they've got three of the scranniest kids, and the mother herself don't look very strong."

"Well, in the first place," explained the little lady, "they've got three of the scranniest kids, and the mother herself don't look very strong."

For the LITTLE ONES

NEAT TRICK WITH MATCHES

Much Amusement May Be Had With Little Game When Young Folks Cannot Get Outdoors.

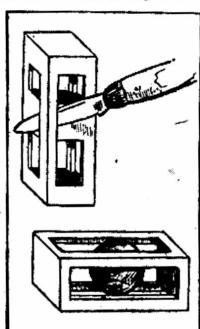

Have say 100 matches. Lay them on table and agree with some one to take one match from the heap any number not exceeding ten, and agree that the last match will come to you. Then remember the numbers 1, 13, 23, 34, and so on, increasing by 11 each time. Supposing you have the first draw, you take one match only, and your opponent can never have a chance, for if he draws as many as possible in the first time, he will have one more, and make the total 12. Say he then draws 8, and you will immediately draw 3. When you have got 99 you will see that the other player has no chance. Should your opponent insist on having the first draw he will make it possible for you to attain one of the numbers 1, 13, 23, 34, etc. Then the game is yours.

A great deal of amusement may be had over the match trick during rainy evenings when the young folks cannot get out of doors to enjoy games in the open.

WHITTLE BALL IN BOX FRAME

Peculiar Epidemic Among Men Lounging in Fairmount Park—Toys Delight Little Children.

There is an epidemic in Fairmount park, Philadelphia, of a very contagious nature. Just so long as it was

Ball in Box Frame.

confined to the whittling of a stick, cases of it were limited to a few who apparently meditated while they sent tiny chips fluttering over the ground, but one day a regular park devotee remarked that he could whittle a ball in a box frame. He was called upon to prove his ability to do so, and no sooner had he done so than his admiring associates tried to manufacture others. The result was that hundreds of children to possess such a unique toy added an incentive to the fascination of whittling, and soon so many whittlers were in evidence that curiosity concerning them created comment, which led to investigation. A stroll through the park the other day revealed 37 gentlemen engaged in whittling "ball-in-frame."

One of the whittlers declared it was "an off afternoon" as only 37 whittlers were found, as several "bunches of boys" found hours of amusement in the pastime.

"What do you get out of it?" he was asked. "Just the satisfaction of making it," he willingly answered.

The illustration shows the method of cutting the ball, and also the toy when finished.

HOW TO SPIN HANDKERCHIEF

Very Effective Trick and Popular With Jugglers May Be Done With Aid of Little Needle.

This is a very effective trick. It was a favorite one with jugglers and magicians until the secret was discovered. A handkerchief is borrowed, thrown in the air, and caught on the end of a whirling stick held by the juggler, when the handkerchief spreads out in its full and complete form, rapidly spins round. The secret is that in the end of the stick a needle is inserted about one quar-

Spinning a Handkerchief.

ter of an inch, leaving the sharp end out. When the handkerchief is caught on the whirling stick the needle goes through it, thus preventing it from falling off the stick, and the handkerchief will revolve and spin round on the end of the stick.

My child I'm fact
I know -
It's queer for
have always
thought -
My Grandpa
very slow!

ENGLISH SPELLING IS HARD

Noted Scholar Makes Strong Plea for Phonetic System—Child Would Save Much Time.

A strong plea in favor of phonetic spelling was made to the meeting of the British Association for the Advancement of Science at Dundee the other day by Sir James Donaldson, LL.D., Vice-principal and principal of the United College of St. Salvator and St. Leonard, says a London cable dispatch to the New York Sun. Sir James told the association that spelling is a thing of no consequence and everybody ought to be allowed to spell as he likes, just as Shakespeare did.

Sir James said that this would lead to phonetic spelling. Our present system of spelling, he told the scientists, is unique in its absurdity. The French, German and Dutch spell phonetically, but the English are terribly behind them.

In the English spelling, it would be possible, said Sir James, to make it easy for the whole population of China to learn the English language, but no foreigner now had a chance to learn easily. The English speaking child taught to spell phonetically, he said, saved at least a year in the task of acquiring an education.

Sir James urged his phonetic plan to scores of compositors in general. The present method of making up words, he charged, was the doing of compositors. "We are slaves of the printers," he asserted, "and if we do not spell according to their ways of thinking they change us over and over again. And there is no redress."

Sir James is an authority on the matter of spelling, being the author of "The Modern Greek Grammar," as well as many works on religious subjects.

NEAT LITTLE PARLOR TRICK

Difficult to Move Second Finger From Between First and Second Without Separating Them.

Here's something which is harder than it looks. Bend the second finger of your left hand forward and join the tips of the first and third behind it. Then try to move the second finger out between them without

Finger Tricks.

separating them and without using the thumb or employing any other assistance.

RIDDLES.

What is the proper length for ladies' skirts? A little more two feet.

If the poker, shovel and tongs cost two dollars, what did the coal come to? Ashes.

What is that which works when it plays and plays when it works? A fountain.

What is everybody doing at the same time? Growing old.

When are silk threads like deceptive friends? When double-faced.

What is that which tastes two people? The hand which touches only one. The wedding ring.

What is a button? A small event that is always coming off.

Why do you always put your left shoe last? When you have put one on the other is left.

What thing is drawn more frequently than another? Cork.

Why does a hen lay eggs only in the daytime? Because she is a rooster or night.

TESTING HOGS FOR TUBERCULOSIS

Tuberculin Test for Hogs, Intradermal Method, Showing Enlargement at Seat of inoculation Due to Positive Reaction.

(By JOHN R. MOYLER)

Tuberculosis in the human family has been lessening materially during the past 15 years, but reports from the various meat-packing centers of the country fail to show the same encouraging condition regarding tuberculosis in hogs during the same period. Such reports have come from several localities during the past four years showing a decrease in the number of tuberculous swine sent to market, but a review of the collective records of the country at large shows an increase rather than a decrease in the number of swine affected by this disease.

The small amount of money required to begin hog raising and the quick returns on the capital invested make this industry an attractive one to the small farmer. The hog will make a pound of gain on less feed than most live stock, and will probably be more profitable to raise than every variety if properly prepared for him. As tuberculous in this species is chiefly acquired by indigestion, the significance of the latter statement is obvious.

The vitality of hogs or their power of resistance to disease are necessarily lowered by the unnatural conditions which frequently prevail in hog raising, namely, the forced feeding for fattening and the small feeding pens in vogue in certain districts. When the enormous growth of a hog is considered, it is realized that in the short space of 8 or 10 months its development is frequently 250 to 300 pounds—a proportionate increase of

weight unknown to any other species of domestic animals, the greatest bodily changes which must necessarily occur can be appreciated. Such rapid development is very likely to take place at the expense of the disease-resisting powers of the animal.

When tuberculous results, the lesions usually observed are discrete and of a miliary type at times retrogressive and at other times slowly progressive, as manifested by calcareous deposits and fibrous encapsulation. It is not infrequent, however, that a more extensive and spreading disease is seen, and the lesions indicate a secondary infection and rapid generalization of the disease, in these cases may quickly follow the initial attack. And whether the disease assumes an acute, sub-acute, or chronic type, tuberculous growths may soon be found attacking lymph glands in widely separated parts of the body.

The intradermal method of testing cattle for tuberculosis is given in full detail for this method of testing cattle is the most reliable. Two drops of tuberculin prepared by evaporating away two-thirds of the volume of the tuberculin previously prepared for the subcutaneous tuberculin testing of cattle, is injected into the dermal layer of the skin near the base of one of the ears of the hog. If the reaction is negative, no change in the appearance of the ear will result, but a positive reaction will at the end of 48 hours cause a swelling near the seat of their injection. This edematous enlargement may remain visible for 10 to 12 days after the injection in case the animal is affected with tuberculosis.

IMPROVING PIG CROP BY JUDICIOUS FEEDS

More Attention Given by Farmers to Rations and Care in Order to Secure Profit.

(By R. G. WETHERSTON)

Many farmers have started out this year with the intention of doing better by their crop of pigs than they have in the past. By doing better, I mean giving closer attention to the rations and the care problem, so that the pigs when mature will have made a favorable growth at a low cost, and at the same time have developed strong frames, especially in the case of those pigs which are intended to be kept for breeding purposes.

It will be well for every man who desires to bring his pigs up to the best in food, form and condition to calculate to supply some of those foods which are known to have a favorable influence on the development of the framework of the pig.

It is needless to say that corn alone will not serve the purpose. While it is true that corn in conjunction with good pasture makes a good diet for growing pigs, such can hardly be recommended, it also often happens that the pasture contains little to attract the pigs.

In that case they are sure to lie around the yards and stuff themselves with grain in preference to seeking the grass and exercise in conjunction, which is so essential to the health and thriftness of the animal.

The bone building foods are those rich in protein and mineral matter. Skim milk perhaps stands at the head of the list, and it will pay to lay in some tankage, shorts and possibly some bone meal as well as some pure mineral matter.

It cannot be expected, however, that the feeding of foods bearing large amounts of protein and mineral matter, such as bone meal mentioned, will change the conformation of any part of the skeleton or, for example, make a pig stand straight.

This improvement will have to be made through selection, using no male or female that is faulty.

It might, too, be urged that if careful selection were practiced it would be unnecessary to consider the diet.

Since strong bones breeding stock must naturally improve these good points on their progeny.

On the contrary, it may be said that men have been trying for years to breed poor hogs out of their herds without giving attention to a balanced ration problem, and they are practically where they started.

We generally find that when men feed little or no grain and do not care to give the hogs a good diet, their the quality of the hogs is generally very satisfactory.

MAINE HEN HOUSE IS ADVANTAGEOUS

Feature of Structure Is Closet Form for Protection in Cold Weather.

In the curtain-front type of poultry house used at the Maine experiment station, feature of the original plan which is considerably improved was the canvas curtain front of the roosts. This curtain, together with the back wall of the house and the dropping board under the roost, formed a closet in which the birds were shut up at night during cold weather.

On the curtain-front house was first devised, it was thought essential to provide such a closet to conserve the body heat of the birds during the cold nights when the temperature might be well below zero. Experience has shown, however, that this was a mistake. Actual test shows that the roosting closet is of no advantage, even in such a severe climate as that of Oregon.

On the contrary, the birds certainly thrive better without the roost curtain than with it. It has been a general observation among users of the curtain-front type of house that the roost curtains are used the birds are particularly susceptible to colds. It is not hard to understand why this should be so. The air in the roosting closet when it is opened in the morning is plainly bad. The fact that it is warm in no way offsets physiologically the effect of lack of oxygen and excess of carbon dioxide, ammoniacal vapors, and other exhalations from the bodies of the birds.

For some time past it has been felt that the roosting closet was at least unnecessary, if not in fact a positive evil. Consequently the time of beginning to use the roosting closet has been delayed. Finally, in the winter of 1910, it was decided not to use these curtains at all during the winter. Consequently they were taken out of the house, or spiked to the roof, as the case might be. The winter of 1910-11 was a severe one. On several occasions the temperature dropped to 30 degrees below zero. During the winter the mortality was exceptionally low, and the egg production exceptionally high.

In view of this experience the station has decided to discontinue the use of the roosting curtains. It would be generally undesirable, or at least unnecessary.

Cherries Stand Age Well. The fourth year after a cherry orchard is planted it will begin to bear, and by the time the orchard is ten to twelve years old it is safe to say we can pick from 100 to 150 pounds of cherries from each tree. For the next few or twelve years they are equal to a gold mine.

Electric Bitters

Used when overeating has filled up the system, and female weakness they are the best remedy, as thousands have testified. FOR KIDNEY, LIVER AND STOMACH TROUBLE It is the best medicine ever sold over a druggist's counter.

Stand drying umbrella — hot and cold water — to "soak" disease — cuts fine cleaving druggery — aiding doctors. Boot heels won't wear more scratch it. It's economical, because it cures. Easily applied.

BARRINGTON HOME BAKERY

LAKE ZURICH.

Mr. and Mrs. R. E. Beutler made a trip to Chicago Wednesday.

Frank Kappa and friend of Schamburg were visitors here Sunday.

Emma Schaefer is a new operator at the local telephone exchange.

Fred Blau, Albert Prelut and Miss Lydia Hoekemeyer have returned from their trip to Michigan.

The new railroad between this village and Palatine carried many people last Sunday. Hereafter trains will be run every Sunday.

Heller & Frank have sold the Dickson cottage in the Hillman subdivision to Mrs. Nickelson who will move into it in the near future.

Mrs. Carl Ernst, Emil Frank, William Tank, Frank Norris and William Graber attended the Masonic meeting at Wauconda last Thursday.

Henry Hillman sold a carload of steers and bulls all in one day last week. He went to Chicago yesterday to buy another car of cattle.

Edward Kleinsmith will give a dance at Oak Park pavilion next Saturday evening. Good music will be furnished. Dance tickets are priced at 50 cents.

A surprise party was tendered Miss Nora Prehn last Tuesday evening. The young people gathered at Oak Park pavilion where they amused themselves by dancing.

Edward Young has bought the old mill on the lake shore and intends to run it this winter. In the spring he will remodel it, making it into a residence. E. A. Pick made the deal.

Saves Leg of Boy
"It seemed that my 14 year old boy was to have lost his leg, as a result of an auto accident, caused by a bad bruise," wrote D. F. Howard, Aquone, N. C. "All remedies and doctors tried failed till we tried Buckle, Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, etc. 25¢ at Barrington Pharmacy.

CARY.

Miss Mary Stern of Hammond, Indiana, visited Saturday and Sunday with parents here.

Mrs. Dick Grantham entertained the teachers of the public school Saturday evening at a 6 o'clock dinner.

Several bus loads of young people drove down to Algonquin Saturday evening to attend a minstrel entertainment.

Mrs. Richard Grantham entertained the members of the Ladies Aid at her home Thursday, the afternoon being spent in music and sociability.

Mr. and Mrs. McLaughlin and children, Glen, Bruce and Dorothy, left Friday night for a visit of several days with old friends here.

The breaking of a valve resulting in a shutting off of the gas in the gas pipes Saturday afternoon caused a great deal of inconvenience and trouble among the housewives.

The rains of the last few days have delayed work on the new cement walks and crossings that are being laid on East Main street. Up to that time rapid progress had been made.

Mrs. G. P. Sprague and daughter Ruth left Saturday morning for Chicago after an extended visit here of several months at the home of Mrs. Sprague's sister, Miss Ann Nash.

Glencoe Woods Picnic

Woods picnics may be had at noon and 4 p.m. on Saturday, a hundred of picnic tables in the bottom of the woods over night. The cook will graduate with the first batch of water in the morning with clear blue.

A MILLION PER YEAR

Inheritance Tax Produces Steady Stream of Revenue.
Due to Perfecting of Assessment Machinery by Attorney General and His Activity—Law Aid to Treasury.

In a steady stream there is a million dollars a year now into the state treasury from the enforcement of the inheritance tax law.

Under the inheritance tax law, the law imposes no unjust burdens and affects only those individuals who can well afford to bear it, hence there is no sentiment in the legislature or in the public in favor of its repeal.

Most of the work of perfecting the collection machinery of this law has been upon the attorney general's department during the incumbency of Mr. William H. Stead, who now stands in the administration upon his record in this office.

The law is not automatic nor is it self-enforcing. Its administration, especially in counties outside of Cook, has been far from perfect and there yet remains many defects which must be removed.

Has Asked for Relief.

Mr. Stead has frequently called the attention of the legislature to the inadequacy and inefficiency of the legal machinery for the enforcement of this law in these counties, but so far the supplementary legislation desired has not been granted, and the attorney general has been forced upon his own resources and ingenuity to get what has been gotten.

Immediately after his induction into office he began a systematic search of the probate records in all the counties outside Cook. Many estates subject to tax were in this manner discovered and proceedings instituted to enforce collection. Hundreds of thousands of dollars as a result of these proceedings have been turned into the state treasury.

Their cost has been paid out of the regular appropriations of the department.

During the two years ending June 30, 1910, through these proceedings, \$1,402,718 was assessed from Cook county estates and \$231,161 from counties outside Cook.

His Total Collections.

During his service in this office, the total assessments on account of his activity have been \$5,377,391.

Out of these total appropriations the amount less than 2% per cent of the taxes assessed through proceedings instituted by him.

Cook county's machinery to collect this tax is fully equipped and adequate.

In 1901 the general assembly provided for an inheritance tax for Cook county to be named by the attorney general, but made no provision for the expenses of his office. He has had to pay his own expenses out of the money he has even been paid and has found it impossible for him to proceed at law against those estates which failed to make voluntary returns. The consequence was that an assessment of \$300,000 or \$350,000 a year was large.

When Mr. Stead became attorney general he at once made provision out of his office funds for a stenographer and messenger, the total cost being \$1,000 a month, averaging \$150 per month. The office had only a plain kitchen table, two cheap rugs and a kitchen chair loaned from the state house at Springfield.

Crude Outfit Profitable.

This crude outfit was profitable and the year increased the collections by \$100,000.

Four years later the assembly made an appropriation to give this office more facilities and the increase per year in assessments was \$150,000. The other increase in facilities was followed by still further gains in collections.

In 1909 strong power was given to the attorney general by a law which prohibited the transfer of personal property of a decedent by a trust company, safe deposit company, bank, insurance company or corporation without his consent.

Chicago Office Pays Well.

Since July 1, 1909, to the present time, this Chicago office has examined, tried and disposed of 14,000 estates, worth in 1905, 1906 and 1907 the annual number of cases did not exceed 300.

In those years an assessment of \$100,000 was large. During the year ending December 31, 1911, this Cook county inheritance tax office produced for the state treasury approximately \$1,300,000.

Nature's Never-Failing Law.

You will realize the vision (not the idle wish) of your heart, be it base or beautiful, or a mixture of both, for you will always gravitate toward that which you, secretly, much love. Into your hands will be placed the exact result of your own thoughts; you will receive that which you earn; no more, no less. Whatever your present environment, stay with it, unless your heart or life with your thoughts, your name or rise with your thoughts, your vision, your ideal. You will become as small as your controlling desire; as great as your dominant aspiration. —James Allen.

No Trickery in Tea.

From the Wilmington (Del.) Daily News: "We don't expect Mr. Taff to report to treasury, no matter to what length Mr. Roosevelt may feel compelled to go in that direction.

WAITING TO SHIP WOOL TO THE U. S.

Australian Sheep Raisers Anxious for Democratic Victory.

From the Glasgow, Mo., Independent: The Hon. James Bryce, British ambassador to the United States, has been in Australia this summer, and in a recent speech at Melbourne he cheered the hearts of the Australian wool growers by telling that there was prospect of an early reduction in the American wool tariff. This he predicted, would mean a large increase in the export of wool from Australia to the United States.

The ambassador is right. That is just what will happen if the wool tariff is lowered, and the Montana sheep men know, because they remember what happened in 1894 when wool wasn't worth anything and when sheep were worth even less. When the Democratic members of the ways and means committee of the house, in the last session of Congress, presented their wool bill for consideration, they claimed that it would increase the imports of wool into America by 190,000,000 pounds.

But there can be no increase in the consumption of wool and the American grower is wondering what would become of 190,000,000 pounds of his wool if the Democratic tariff law, nearly 20,000,000 of that 90,000,000 crown right here in Montana. It is no wonder that England is urging the election of a Democratic congress and that London looks with favor upon the candidacy of Woodrow Wilson.

Mr. Stead has frequently called the attention of the legislature to the inadequacy and inefficiency of the legal machinery for the enforcement of this law in these counties, but so far the supplementary legislation desired has not been granted, and the attorney general has been forced upon his own resources and ingenuity to get what has been gotten.

MANY WORDS OF CHEER

Contributors to the Campaign Fund Who Believe in President Taft.

One of the most encouraging factors in this campaign is the enthusiasm expressed by the many contributors to the Republican campaign fund.

"It is my deliberate judgment," writes a Chicago merchant, "that Mr. Taft has been one of the best presidents that the United States has had in the last forty years and I believe that he deserves re-election."

We do not need any change in the present administration, said a Springfield contributor, "and in my opinion there is no going to have any change. President Taft is an honest, able and conscientious man and he deserves and will receive re-election. In this locality the sentiment is coming his way."

Hundreds of letters contain similar expressions of opinion. They show in every section a strong feeling that President Taft's splendid administration has made a deep impression and that people do not want a change.

SHORT LOCAL ITEMS

Happenings of a Week Told in Brief Paragraphs—About the Visitor and the Visited.

Mr. and Mrs. L. H. Higley returned to their home in Ravenna Monday after a visit with Mrs. Higley's sister, Mrs. Fred Kirschner.

Mr. and Mrs. Wyland Leake and Mr. and Mrs. Frank King of Amboy, were visitors from Friday until Monday with Mr. and Mrs. G. W. Spangler.

Don't forget the New England supper to be given Friday in the Methodist church parlors. Supper will be served from 5:30 to eight at 25¢ per plate.

A number of this village's football fans are planning to attend the game at Palatine next Sunday between the eleven of that place and the Boston Bloomer Girls.

The local lodge of Royal Neighbors has invited the lodges of Cary and Crystal Lake to come here Tuesday evening, October 29, and join them in a social meeting.

Mr. and Mrs. William Shearer departed today for their home in Clarence, Iowa, after a week's visit here with their son and his wife, Dr. and Mrs. W. A. Shearer.

Miss Edna Broughton of Wauconda spent Monday at the Banks' home here. Miss Bessie Church accompanied Miss Broughton from Wauconda and spent the day in Chicago.

Postmaster H. K. Brockway went to Jacksonville Monday to attend the annual convention of postmasters of this state. He expects to visit the state fair at Springfield before returning home.

The Portia club met at the home of Mrs. Emil Myers Thursday evening of last week. The next meeting will be held at the home of Miss Ruth Myers next Thursday evening when a musical will be given.

Mrs. Chris Christensen of Chicago visited here Sunday with her sister, Mrs. D. F. Lamey. Mr. and Mrs. Christensen will leave soon for Los Angeles, California, where they will reside in the future.

Mrs. Charles Butterfield of Libertyville returned home Friday of last week after visiting with Mrs. Arlette Sizer. Mrs. Butterfield was formerly Hattie Bristol and lived near this village several years ago.

John Homuth moved last week from the Frik flat on Hough street to the Sestzinger house on Grove avenue, recently vacated by Mr. and Mrs. Ezra Meier, who have moved to Mr. Suetz's house next door.

Mr. and Mrs. Sam Peck returned home from Mt. Clemens, Michigan, Friday evening. Mr. Peck passed three weeks there taking the baths and is much improved in health. Mrs. Peck was there for ten days.

Mr. and Mrs. F. A. Hawley and Mr. and Mrs. Harry Donley are visitors at the state fair this week. They left here Sunday morning. George Jencks and George Hager also are among those attending the fair this week.

Mrs. Mary Wilmer and son E. L. Wilmer have moved from the Richardson house on Main street to the Harnett cottage on Station street and Henry Volker and family have moved from the Ward house on Liberty street to the place vacated by the Wilmers.

Miss May Meier of Mayfield spent Friday, Saturday and Sunday here with her grandmother, Mrs. Mary Meier. Miss Meier with her sister Florence and mother, Mrs. Jennie Meier, leave this week for Los Angeles, California, where they will make their future home.

An automobile party from Des Plaines of ten friends of Mrs. Rueben Plagge arrived at her home here last Sunday morning at seven o'clock for a surprise. Breakfast was served them with much informal jollity, and they returned to Des Plaines in time for the morning church services.

Saved By His Wife.

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Barrington, is of that kind. She insisted, in her "Daily Discovery," writes Mr. F. "For a dreadful cough, when I was so weak my friends all thought I had only a short time to live, and I completely failed me?" "A quick cure for cough and cold, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, etc., etc. It costs only 50¢ and \$1.00. Guaranteed by Barrington Pharmacy."

Didn't Meet Death.

"She's a widow. How did your husband meet his demise?" "He didn't meet it, mean. Day had to come, and when 'miles to go' day could get him, he'd be lymphatic."

The Home Party.

"We're not the only ones that have parties. You can have parties, too. Just buy a few decorations, and you can have a home party. It's a good idea to have a home party, and it's a good idea to have a home party."

LABOR DOES NOT FORGET

PROF. WILSON'S ANTAGONISM TO ORGANIZED LABOR IS A MATTER OF RECORD.

REMEMBER THE SOUP HOUSES

The Dark Times of Democracy Still Fresh in the Memory of the Workingmen Who Had Nothing to Eat and No Place to Sleep.

PROF. WILSON ON LABOR.

"Labor is standardized by trades unions and this is the standard to which it is made to conform. . . . I need not point out how economically disastrous such a regulation of labor is. . . . It is so unprofitable to the employer that it is not worth while to attempt anything at all. . . . Our economic supremacy may be lost because the country grows more and more full of unprofitable servants."—From an address by Prof. Wilson to the graduating class of Princeton university, June 30, 1909.

Woodrow Wilson, Democratic candidate for president, has addressed many words to the workingman in the hope of securing the labor vote. He would, if he could, have the workingman forget the address delivered by him at Princeton in 1909, in which he regretted that "labor is standardized by the trades unions, and asserted that such a regulation is economically disastrous."

Nor will labor forget that in the same speech he characterized members of labor unions as "unprofitable servants." No wonder that the Minnesota State Convention recently adopted resolutions condemning Professor Wilson for his antagonistic attitude toward organized labor.

And while Professor Wilson is appealing to the workingman to overlook his own personal views and vote the Democratic ticket he should know that the record of the Democratic party in connection with the workingman is upon the tablets of labor's memory.

Labor has not voted for a Democratic president since the terrible experience which followed the Democratic victory in 1892.

And labor will not this year vote to repeat those distressing times.

WHAT LABOR REMEMBERS.

Labor has not forgotten that under Democratic administration, before the election of President McKinley, thousands of idle men were walking the streets of every town, and hamlet in the country in search of employment and the chance to earn an honest living, while those or many of them who chanced to have employment were working for a mere pittance.

Labor has not forgotten the processions of unemployed—from New York to San Francisco, and from the Canadian border to the Gulf of Mexico—not to CHARITY, BUT WORK, during a Democratic national administration.

Labor has not forgotten Cozey's and Kelly's "armies," one of the products of Democracy.

Labor has not forgotten the hordes of men that marched to the Democratic national convention.

Labor has not forgotten that the Democratic national administration caused the depletion of labor's treasury to keep the destitute and unemployed alive.

Labor has not forgotten those trying days of Democratic misrule, when it turned its halls, meeting places and rooms into sleeping quarters for all who could find room therein.

NO BREAD TO EAT.

Labor has not forgotten that labor alone suffered then, that labor lacked bread to eat, clothes to wear and a

The Cheery Light

The expense is low.

Public Service Co.
of Northern Illinois

rest for shelter.

Labor has not forgotten that labor alone worked out the problem of its salvation in those trying days.

Labor has not forgotten that it bouched Democratic rule for Republican rule at its first opportunity in the first presidential election after the Civil War—in 1868, and has not voted for a Democratic candidate for president since.

Labor has not forgotten that trusts and monopolies were born in the White House while a Democratic president stood guard.

Labor has not forgotten that Democratic free trade means free trade for all only.

Now a Fall Dinner Pall.

Labor has not forgotten its lesson on how it passed through poverty and friendlessness and Democratic mal-administration to the full dinner pall of the McKinley and subsequent Republican administrations.

Labor has not forgotten that the American Federation of Labor held its annual convention in the council chamber in the city hall, Chicago, the week of Monday, December 11, 1893, at a time when 5,900 men were sleeping on the cold stone floors of Chicago's city hall building, because of lack of money to secure a shelter.

Farmers Will Not Forget.

And farmers have not forgotten that during the period which brought the most disastrous to labor they themselves were neither poor nor happy.

They worked hard and raised big crops, but their market was gone because their customers could not buy.

The candidate and the party whose policy puts labor out of a job robs the farmer of his profit just as truly if the blow were aimed at him direct.

SHOULD YOU DESIRE Brick Ice

Cream for your Sunday dinner or for some social function, it will be necessary, in the future, for you to place your order in advance, as I will only carry on hand the plain vanilla bulk ice cream during the winter months.

And remember, our "candy case" is always filled with pure and strictly fresh sweets of the highest grade known to confectioners.

F. O. STONE

I CATER TO PARTICULAR PEOPLE

FALL IS HERE

and you will probably want a new fall suit or overcoat. Call and see our new samples and learn our prices; you'll realize then that you cannot do better anywhere.

Wouldn't you like to have a nice, warm sweater coat this cool weather? We have a new stock of sweaters of all kinds.

SHOES—We have a new stock of shoes for men that we can sell at astonishingly low prices. Call and ask to see them. We are always glad to show you our goods, even if you do not wish to buy.

Cleaning, Pressing and Repairing for Ladies and Gentlemen.

All work called for and delivered. Phone 100-R

Bell System

WE sometimes hear that a certain business, a transportation line or some unusual event put a place "on the map."

The Bell Long Distance Telephone Service not only puts 75,000 American cities and towns on the map, but it makes instant inter-communication between them an everyday occurrence.

The three-minute conversation rate to Chicago is 25 cents.

Call "Long Distance" over Chicago Telephone Company's lines.
