BARRINGTON PARK CAMPMETING OVER

Meetings Have Been Successful—Thirty-four Ministers Were Present.

For ten days weather conditions have been almost ideal and the attendance at the camping of the United Evangelical society was larger than ever and more steady. Outside fields have taken greater interest and the finances are in the best of condition. Over \$600.00 were taken in, and all obligations were met. Large delegations from outside churches poured in on last Saturday and Sunday, and the best of spirits prevailed throughout.

Presiding Elder Rev. B. R. Schultze had worked steadily and was happy in the results of the meetings. There were seven conversions to the church and a large number of people renewed their lives to definite christian efforts. Mr. Bilbom, the evangelist and singer, helped very largely the spirit of the services, for his songs and talks have all the stamp of true sincerity. He is remarkable for his aptness in leadership. His brother-in-law, Mr. Fisher, who for years has been co-worker with Billy Sunday, arrived on Friday and remained until Monday morning, singing a number of solos, and duets with Mr. Bilbom, which were highly appreciated.

Bishop U. F. Engel of Pennsylvania preached six times, and his way of presenting simple truths in a profound manner made his talk most interesting. Presiding Elder M. T. Mase from Lincoln, Nebraska, arrived on Friday and preached on Saturday evening on the reasonableness of christian principles and their power in human life. The sermon was well received. Presiding Elder W. F. Hill of Pennsylvania, who served eight years as bishop in the church, surprised the ministers by his visit. He preached on Sunday evening on "Why men should accept the life of Jesus Christ." He spoke from both the legal and moral viewpoint as well as the religious side. His sermon was direct in its arguments and convincing in all its points.

There were present in all 34 ministers during the camping. The Sunday school on last Sunday had 719 scholars, and the offering was \$88.00. Twenty-one schools were represented. By majority vote the bible school will be continued, and a committee has again been appointed with instructions to bring it into more permanent form as a body, and the ministerial union of the Chicago district was made the formulating body for the school.

Annual Meeting of Missionary Society. The Barrington auxiliary of the Women's Foreign Missionary society of the Methodist church, held its annual meeting on Tuesday afternoon at the residence of Mrs. Ernest Rieck on South Hawley street. The attendance was not quite so large as usual, partly, no doubt, because of the extreme heat.

The opening of the mite boxes was an interesting part of the program. It showed that the boxes had not been forgotten as they averaged about a dollar apiece.

Officers for the ensuing year were elected as follows: president, Mrs. O. F. Matlock; vice president, Mrs. John Schwenm; secretary, Mrs. E. S. Smith; corresponding secretary, Mrs. C. O. Winter; treasurer, Mrs. Mason Cole.

The work for the coming year was planned for. It embraces the study of a work of 194 pages called "Our work for the world." The same general plan for study and direction at last year will be pursued. The reports showed that the ladies had raised this conference year more than last. The amount will exceed one hundred dollars. There is a great deal of interest in the local society, which numbers about forty. The meetings are held once a month for ten months of the year.

SCHOOL OPENED MONDAY.

Enrollment At the Barrington Public School is Larger than Previous Years.

The local public school opened Monday with an enrollment of about 20 day more than last year at the same time, and there are still many who have not entered due to ill health or parents being away.

The enrollment in the various rooms is as follows:

- Room one, grade one, 36.
- Room two, grade two, 36.
- Room three, grades three and four, 46.
- Room four, grades four and five, 51.
- Room five, grades five and six, 52.
- Room six, grades seven and eight, 53.
- High school, 55.

Attorney Castle, who had been asked about the alleged violation of the local option law, which was brought up at the last meeting, was not ready to render a decision and the matter was put off for another month. This case was in reference to the delivery of beer within the village limits. Most of the trustees appeared to be of the opinion that the law does not prohibit this act.

It was voted to instruct the attorney to notify A. M. Lanyard, who constructed the septic tank here, and his bondsmen, that the several leaks which are said to exist in the main sewer must be repaired within 10 days, the alternative being that the village would proceed to have the work done and deduct the cost from the contract price.

A new gas ordinance, giving the Public Service company, which has taken over the Northwestern Gas, Light & Coke company, franchises on several new streets, was passed.

George Atkinson was present and made another endeavor to secure street lights in the new Landwehr subdivision and a communication from Mrs. William Dawson relating to the same subject was also received. The proper committee has charge of the affair and it is likely that one or two lights will be installed there soon.

Expecting important matters to come up before the next regular meeting, the board was adjourned until Monday evening, September 15.

JUDGE CUTTING RESIGNS.

Probate Court Jurist Leaves Bench Because of Partisanship in the Judiciary.

The Hon. Charles S. Cutting, a well known Cook county jurist who was a former resident of Palatine and is well known here, resigned Monday from the Probate bench of Cook county because of his distaste for partisanship in the judiciary.

He had presided over the Probate court for nearly 14 years, and was nominated by Mr. Taft, when president, to a position on the federal court bench but Democratic senators prevented his confirmation towards the close of the Taft administration. Judge Cutting is a Republican and his successor, Daniel Gregg of Lacon, Marshall county, is a Sullivan Democrat. Mr. Gregg was selected under the law, by the clerk of the court, although Governor Dunne, if he desired, could a special election to fill the vacancy.

Judge Cutting asserted that if he could see the courts stripped of politics in the near future he would not have resigned.

CARY BRAKEMAN KILLED.

Lawrence Harris, Cary Resident, Fatally Injured by Train Monday Morning.

Lawrence Harris, a resident of Cary, who acting in his capacity as brakeman Monday morning, was thrown in front of a car which was backing down to make a flying switch just below the Cary depot. The car struck him in the hip and abdomen, badly crushing both limbs and injuring him internally. Dr. Theobald and Attorney Charles Allen took him to Chicago immediately but his injuries were too serious for him to survive and he succumbed within a few hours.

Harris has a wife and parents residing at Cary. The funeral was held last afternoon.

SELECT THE STATE AID HIGHWAYS

Supervisors, In Session Next Week, Will Make Recommendations to Highway Commission.

Among the matters taken up at the regular meeting of the Lake county board of supervisors to be held at Waukegan next week will be the question of state aid roads.

The committee having this matter in charge met a week ago and selected the roads in the county which it was thought best to ask state aid upon, and among them are two which will be of particular interest to people of this vicinity. The first comes almost due west from Highwood to Lake Zurich and passing through that village and around the lake on the south side runs west to Manson's corner, south to the next four corners and then west to the McHenry county line. The other road commences west of this village at the county line and runs north and west by the Hartwood farm, north to Kelsey's corner and northeasterly to Wauconda, joining what is known as the Wauconda road at Peterson's corner.

Under the provisions of the new law these roads will be put into condition under the direction of the county superintendent of highways, the expenses being borne jointly by the county and the state, and will afterwards be maintained at the expense of the state.

If the board of supervisors, and in turn the state highway commission, approve of the roads as recommended, Cuba township will have about 15 miles of hard road for which the township will be put to no expense, either for the building or upkeep.

It will be a number of years, however, before the state aid roads will be completed and until they are built the townships must continue to maintain the roads as they are at present.

WOUNDS CAUSE TOPPEL'S DEATH

Local Man Struck By E. J. & E. Train Last Week Died From the Effects Thursday Evening.

Friedrich Toppel, who was struck by an Elgin, Joliet & Eastern train last Tuesday and severely injured, was unable to survive the accident and expired Thursday evening.

Mr. Toppel was born in Pommeren, Germany, June 24, 1847, and was married in Germany in 1864. He came to America eight years later and has resided south of this village since that time. He is survived by his widow and five children, Louis, Henry, Fred and Mrs. Miss Poppe, all of whom reside in this vicinity, and Mrs. Bertha Hemker of Palatine, and 19 grandchildren and two great grandchildren.

The funeral was held Saturday at St. Paul's church, Rev. Eugene Wilg officiating, and interment was in St. Paul's cemetery.

MRS. EDSON HARDEN DEAD.

Well Known Cuba Township Woman Passed Away at Her Home There Tuesday Afternoon.

Mrs. Edson Harden died at her home in Cuba township, six miles from Barrington, on Tuesday at 5:30 o'clock in the afternoon.

There were present at the time only the nurse and the immediate family.

Mrs. Harden had for some years been in poor health so that her death was not wholly unexpected.

Her home until her marriage to Mr. Harden had been in Glen Ellyn.

Besides her husband she leaves one son, Arthur, who lives in Dundee, and two daughters, Lillie and Myrtle.

Funeral services will be held at the home tomorrow at 1:00 o'clock and at the Methodist church here at 2:15 in the afternoon.

Mrs. Harden was a member of the Free Methodist church and a minister of that church will have charge of the services. Interment will be in the White cemetery.

Mrs. Harden was an excellent christian woman as well as a faithful and devoted wife and mother and her loss will be most keenly felt by the family as well as other friends.

Her age was fifty-eight years.

Accident Company Pays Promptly.

Charles Boyce this morning received a check from the Woodmen Accident association due him for injuries received July 3, when he fell from a hay loft while at work at the Commercial hotel barn. He expresses his gratitude for the prompt action and courteous treatment of the company.

The board of auditors of the town of Cuba and Barrington held their semi-annual meeting Tuesday, for the purpose of auditing accounts. The highway commissioners met the same day and held upon the amount to be paid for road and bridge purposes for the year 1913.

LARGE MILK PRODUCERS PICNIC

Dairymen Have Mammoth Outing at Carpentersville. Go to St. Charles On Saturday Next.

Labor day nearly every milk producer of this vicinity gathered at Carpentersville, where the picnic given by the merchants' and dairymen's associations was held, and proved to be one of the most successful of these gatherings ever conducted in this vicinity.

In the forenoon a large parade which was participated in by many merchants and farmers, took place, and was a revelation as to what the farmer can do in this line. Many of the floats promised by Dundee and Carpentersville merchants were missing, but the farmers entered more than had been expected and more than made up for their associates' lack of enterprise.

Especially credit is due the milk producers of Sutton station south of this village, who were present in full force and had about 30 floats, all of them top notches, in the parade.

William Krufus, Mrs. Fred Thies and Mrs. E. H. Gould were enthusiastic from that district and planned many of the floats. On one wagon small, tired, listless pupils were attending school and the placard read, "How the dairy business affects the country schools, no date."

Other Sutton attractions were a band dressed up as merry hay makers, an Indian parade with twelve Indian maids and a load of inspectors who wanted to condemn everything on the farm.

In the afternoon Attorney V. S. Lumley of Woodstock addressed the assembly. He is a most excellent speaker and well versed in affairs of the dairyman, hence his talk was listened to with the utmost interest. A ballgame between Dundee and Union also added to the pleasures of the day.

The farmers and business men of St. Charles have planned a picnic to be given Saturday at beautiful Pottowattomie park, St. Charles. A program for a full day's entertainment from 10:30 a. m. until 11:30 p. m. has been arranged.

There will be a large parade and a drill by 400 inmates of the boys' home, headed by their band. Col. Lumley will also be the speaker of the day there. Many dairymen and business men of this village and vicinity are planning to attend.

COUNTRY SCHOOLS OPEN.

Most Schools in Country District are in Session or Open Soon.

The following list tells of the date of the opening of the fall term of the district schools near Barrington and the names of the teachers:

White—September 2, Cora Kellogg, Elia township.

Honey Lake—September 15, Edna Kampert, Barrington.

Kelley—September 2, Irene Parsley, Crystal Lake.

Porter—September 15, Annabel Welch, Cuba township.

Platt Creek—October 6, Harold Spencer, Wauconda.

Lageschulte—September 15, Addie Filbert, Palatine.

Humphrey—September 2, Ella Reese, Chicago.

Metzger—September 2, Miss Burke, Chicago.

Quentin's Corners—October 1, teacher not engaged.

SUES FOR \$100,000.

Mrs. Minnie Richardson of Volo, Rail Ride Victim, Brings Sensational Suit.

The little village of Volo, 15 miles north of here, had a sensational rail riding orgy a few weeks ago in which several prominent women of the village are alleged to have ridden Mrs. Minnie Richardson, whose husband is a shoekeeper there, on a rail and made it so uncomfortable for her that she was obliged to leave town. Now Mrs. Richardson has brought suit against them for damages to the amount of \$100,000. Tuesday, it is said, Mrs. Richardson filed a practice in the Circuit court of Lake county and has engaged a well known firm of Chicago attorneys to prosecute her tormentors.

The Woman's Christian Temperance union will hold an election of officers next Monday evening at the home of Miss Amanda Schroeder.

ONE KILLED IN AUTO ACCIDENT

Chicago Saloon Keeper Chokes to Death While Under His Overturned Automobile.

John Nemece, keeper of a buffet in Chicago, was killed Sunday and four other persons were injured when an automobile was overturned near Cary. Five persons were in the machine, which was driven by Joseph Moudry, an ice dealer. The party was bound for Cary from Algonquin and was just to go up the steep Gaele hill. At the foot of the hill there is a deep ditch and, according to accounts from Algonquin, Moudry started up the steep hill at good speed and tried to turn a sharp angle near the bottom of the grade.

Something went wrong with the steering apparatus, it is thought, and the automobile went hurtling down the steep embankment, making three revolutions in the air before it struck the bottom. Nemece and Moudry were caught under the machine and Mrs. Nemece, who was not badly injured, pulled Moudry out but was unable to extricate herself.

Nemece's head protruded from beneath the mass of wreckage. His wife in her helplessness, kissed his face and shed tears upon it as she saw him choke to death.

Drs. H. H. Pillinger and S. J. Maha of Algonquin cared for the injured.

Dr. C. A. Peck of Harvard, coroner of McHenry county, Monday evening conducted the inquest and the jury impaneled to hear the evidence returned an open verdict declaring the fatality accidental.

The other four members of the Algonquin party were all badly bruised, according to Dr. H. H. Pillinger, the attending physician. Tuesday all were returned to their homes in Chicago, the remains of Nemece being sent at the same time.

SHORT LACER ITEMS.

Many Barrington people were among the visitors at the Elgin road races last Friday and Saturday.

Miss Cora Kellogg of Elia township returned from a week's visit with Kenosha relatives.

Labor day guests of Mr. Rudolph Wiehrdt of Elia township were Misses Schalk, Scanlon, Herschander and Pahlm and Peter Maynard of Chicago.

A majority of the business houses of the town closed Monday, and that action, with the ball game in the afternoon, completed the observation of Labor day here.

The local chapter of the Eastern Star, which abandoned its meetings through July and August by a dispensation, will hold the first meeting of the fall tomorrow evening.

Henry Gotschalk's new residence on William's street is nearing completion and will be ready for occupancy in about two weeks. Kirsane & Lerch are painting the dwelling this week.

Returning from Lake Zurich Monday evening Philip Pries tipped over at Philip Hawley's home and one member of the party, a lady, suffered a broken arm while others were badly bruised.

Joe Petrovski who works on the R. Wiehrdt farm east of town is improving after his accident of August 24, when he dislocated bones in his back while wrestling. A plaster cast will be necessary for some time.

Labor day the Castle family, as usual, held a reunion, only 22 of the 38, however, being able to meet this year.

Philip Hawley's home and one member who visited here 32 years ago, Mrs. Ira J. Chase of Muncie, Indiana, and Mrs. C. V. Holland of San Antonio, Texas, were guests on that day.

The two and one half months old baby of Mr. and Mrs. William Popp, Harvey Frederick Louis, died Tuesday of summer complaint, followed by convulsions. The funeral was held this afternoon at 1:00 o'clock at St. Paul's church and the burial took place at the Plum Grove cemetery.

Will Donlea of Barrington township injured his head quite badly last Friday while assisting with drilling work on his farm. He was tightening a large pipe when the wrench slipped allowing him to fall backwards. It is not believed that he will suffer any serious results from the accident.

Company M of the Illinois National Guard spent a few days outing the past week at the James H. Allen home south of this village. Mr. Allen's son is captain of the company. Saturday evening the company gave an exhibition drill on the Spunner lawn for Master Lase Spunner and invited guests. Captain Allen was a college friend of both Mr. and Mrs. Spunner.

DAIRY ANNOUNCE THE PRICES THEY DESIRE

Will Ask Average of \$1.92-3-3 for Winter Milk—Say Price Is Most Reasonable.

At a meeting held in Chicago last week directors of the Milk Producers' association suggested the following prices to be asked by the dairymen for their milk during the fall and winter months.

	Per 100 lbs.	Per Can
October	\$1.85	\$1.45
November	1.95	1.65
December	2.00	1.65
January	2.00	1.55
February	1.90	1.50
March	1.85	1.45

The above prices make the average for the six months \$1.92-3-3 per 100 pounds, 54 cents less than was asked by the producers association last year and 22 cents more than was paid last year by the large bottling and condensing companies. In 1911 the dairymen received an average of \$1.79 1-4 per 100 pounds; in 1910, \$1.86; in 1909, \$1.60.

The Milk Producers' association will pursue the same tactics that were so effective last spring and has appointed a milk board to attend to the disposal of the milk if the buyers do not meet the prices demanded. Little trouble is anticipated, however. Directors of the association claim that they have made their demands very reasonable and there is little likelihood that any of the companies will refuse to recognize them. They say the large dairy companies have taught a lesson last spring which will probably affect a more amicable settlement this fall. Each local branch of the association has been asked to appoint a milk board to handle the matter for its members, working in conjunction with the milk board appointed by the directors.

The dairymen's association is probably nearer perfected than ever before and each member avers that he will stick by the association and refuse to sign the contract with companies when the locals are operated under the fifteenth of this month unless the demands of the association are met.

The price asked does not take into consideration any of the bonuses which have been offered the past year for cleanliness or richness in butter fat. The Bonanza and Borden and most of the other large companies, have paid most of the dairymen above the contract price this summer through such bonuses. The price as fixed by the association is on the basis of milk testing 3.5 per cent. For each additional one tenth per cent the association ask four cents per hundred pounds above the contract price and allows a reduction of a like amount for each one tenth per cent below 3.5.

OBSEVRE TUBERCULOSIS DAY.

Great National Movement Set For First Week in December.

Churches, schools, labor unions, fraternal orders and other organizations to the number of 200,000 at least will be asked to join the anti-tuberculosis workers of the country in the observance of the Fourth National Tuberculosis day, which has been designated for December 7, according to an announcement issued today by the National Association for the Study and Prevention of Tuberculosis.

The movement will be furthered throughout the country by more than 1,000 anti-tuberculosis societies working through various state organizations and the national association. Personal appeals will be made to clergymen, school principals and leaders of various organizations urging them to set aside a definite time during the week preceding or the week following December 7, for a lecture on tuberculosis.

Last year over 60,000 churches gave attention to this subject on Tuberculosis day. It is hoped this year to swell the number of churches to 100,000 and to urge similar action besides in a large number of schools and other societies. The tuberculosis day campaign will close this year, during Red Cross Christmas Seal week. It is planned to urge the churchgoers of the country to take a definite part in this movement.

Rev. George E. Lockhardt, recent pastor of the local Baptist church, is now nicely settled in his new pastorate at Pellet, Wisconsin. Lockhardt was pastored by his congregation at Pellet, being his first Sunday. His church numbers 500 members with 150 men who are active in church work. It is a down town church, and has a fine parsonage.

Strengthen Weak Kidneys.

Nearly every human needs a good
laxative. Dr. King's New Life Pills are
good because they are prompt, safe,
and do not cause pain. Mrs. M. C.
Cunlap of Leadville, Tenn. says: "Dr.
King's New Life Pills helped her
trouble greatly. It is a box today
permanent cure of suffering babies
whose skin eruptions have made their
lives miserable. Our baby was afflicted
with breaking out of the skin all over
the face and scalp. Doctors and skin
specialists failed to help. We tried
Dr. Hobson's Eczema Ointment and
were overjoyed to see baby completly
cured before one box was used,"

What He Would Do.

A young lady visiting her relations
on a farm went out in the yard to
watch her young cousin play with
a chicken. Watching him for some
time she asked him, "Willie, if that
chicken were to lay an egg what
would you do with it?" He looked up
surprised, then said: "Oh, I'd sell it
to a museum. That chicken's a rook-
er."

The ONLOOKER

HENRY HOWLAND

A FARMER'S COMPLAINT

They say the farmers sit it all.
They claim we live in princely style.
But still my income's pretty small.
Though I keep working all the while:
And yet I have to scheme, my friend,
Would hardly please a millionaire.

They're blaming 'us because they pay
So much for meat and other things:
To put good food on their plates to say
'You'd think the farmers all were kings.
And yet I have to scheme, my friend,
Would hardly please a millionaire.

My wife ain't wearin' costly furs,
And on her hands no jewels blaze;
But still my income's pretty small.
Though I keep working all the while:
And yet I have to scheme, my friend,
Would hardly please a millionaire.

There may be farmers who have learned
The knack of layin' by a bit
From what my workin' hand, they've
earned.
But I ain't no Croesus yet,
And wouldn't you want durin' good pay
To be a farmer, any way?

Looking Ahead.

"What are you thinking about, John-
ny?" asked the teacher. "You seem
to be greatly worried."

"I was reading an article in one of
the magazines last night about the
danger of our forests being destroyed,
unless something was done to stop the
people who are cuttin' down the
trees."

"Yes. Forest destruction is a thing
that ought to be prevented. But I
wouldn't let it worry me if I were in
your place."

"I can't help thinkin' how sad it
would be if I grew up and got run
over by the cars, and the forests were
all denuded, so there'd be no chance
for me to get a wooden leg."

Premature Baldness.

Little Harry's father was premature-
ly bald. Frequently the child had
heard the mother mentioned and many
times had he heard his parent explain
that he had lost his hair before he
was thirty years old.

One day Harry was sent away to
stay for a week or two with his grand-
mother. When he was taken home again
he found there a little brother. He
looked for a long time at the baby,
and then, turning to his mother, asked,
"Mamma, how old was he when he
lost his hair?"

IMMATERIAL.

"Great heav-
en!" cried the
drug clerk.

"What's a i-
wrong?" asked
the druggist.

"I gave that
boy hair tonic in-
stead of cough
syrup."

"Never mind. We make a profit of
90 per cent on each."

Eccentricities of Genius.

"I wonder," said the beautiful grass
widow, "if it is true that all geniuses
are eccentric?"

"I suppose it is," replied the young
man who had succeeded in getting a
four-line poem published in a maga-
zine. "One of my own peculiarities is
that I never can eat without first
rubbing my fork with my napkin."

Johnny's Plans.

"Our Johnny has saved up \$6 which
he is going to spend for fireworks on
the Fourth of July."

"I suppose you expect Johnny to go
out in a blaze of glory."

Fortunate Mary.

Mary had a little lamb,
She swapped it for a pig;
The price of bacon and of ham
Made Mary's fortune.

The Cause.

"So they are going to celebrate
their crystal wedding?"

"Yes. Neither of them has ever
been willing to surrender the children
to the other."

Generally.

Generally the man who tries, by act-
ing in an eccentric manner, to appear
to be a genius is merely imitating an-
other's faults.

THE KITCHEN CABINET

HERE is an ugly kind of for-

getting footstomach out like

quills. Men take one who has offend-

ed and set him down before the blow-

of his indignation and scorch him and

brown his fault into hot meat, which he

has kneaded him sufficiently with their

fate, then—they forgive him.

—Henry Ward Beecher.

MEATS.

The German sour meat is not well
known among other nationalities, and
is so altogether good that it should be
better known.

German Sour Meat—Add to a half
cup of vinegar a cupful of water, one
onion and a teaspoonful of whole al-
lspice, one tablespoonful of sugar and
salt to taste. Put a piece of meat for
roasting in this, turning it often; let
stand three days, when it is ready to
brown in fat and roast until the
pickle to taste it when roasting.

Sour Batten—Take a nice piece
from the round, lay in vinegar, with an
onion, salt, allspice and pepper, with
one bay leaf; let stand three to five
days, depending on the amount of the
meat. Brown the meat in a deep fry-
ing pan, pour in the vinegar and suf-
ficient water to cover the meat; sim-
mer until the meat is tender. Strain
the gravy from the spices, and thicken
with flour before serving.

Mutton With Peas—Cut mutton in
serving sized pieces, brown and put
to cook in a small amount of water;
when nearly done add a can of peas
and season well. Serve with the peas
poured over the mutton.

Brown Stew—How few people know
how good a brown stew may be. Cut
the meat, which may be the tougher
portions of the round or a piece for
stewing. Cut up in small pieces and
brown in a little hot fat. Add a small
chopped onion, and let it brown with the
meat. Dredge with flour, which will give
the gravy thickening, and cook with boil-
ing water, just kept at the simmering
point until the meat is tender. Serve
with boiled potatoes. The seasoning
may be given before the flour is added
to the meat.

Hamburg Steak—Season hamburger
steak with a chopped onion, allspice,
cloves, paprika and salt. When ready
to serve pour over a cup of well se-
asoned tomato sauce.

One chicken will serve a small fam-
ily for several meals. Fry the bird
like a broiled steak, and have black and
gravy with the larger portions.

Nellie Maxwell.

THE KITCHEN CABINET

HE reason that cooking so falls

is far below the rank of other hu-

man industries, and therefore offend-

more of a hindrance than a help.

—Ellen Richards.

BROTHS FOR THE SICK.

Broth is a liquid containing the
juices of soluble parts of meat and
bone which has been extracted by
long, slow cooking. When cold, it is
more or less solid, according to the
gelatinous nature of the ingredients.

The best object in making broth is
to obtain the largest possible amount
of nutriment from the meat, so we
cut it in small pieces and soak it in
cold water, using the water as well
as the meat in the slow cooking which
follows. A tightly-covered kettle
which will retain the steam is desir-
able, otherwise much of the flavor is
lost by evaporation.

Mutton Broth—Mutton broth is the
accepted kind for the convalescent.
Wipe a piece of the neck weighing two
pounds, cut off all skin and fat and
cut the meat in small pieces. Put the
bones into the kettle with the meat,
add cold water and let them stand an
hour to extract the juices. Heat grad-
ually to the boiling point, season with
salt and pepper and simmer for two
hours, but do not allow to boil. Re-
move fat and strain through a coarse
sieve. Serve hot. In re-heating, use
a double boiler.

Three tablespoonfuls of rice or bar-
ley may be added; soak the barley
over night, add to the broth and cook
until the grains are tender. If the
broth is made in a double boiler, heat
and cold, the fat may be easily removed.

Nutritious Beef Broth—Cut three
pounds of solid meat from the shoulder
or shin in small pieces, put the
cured bone into an earthen jar, cov-
er with cold water and cook slowly
with the meat for twelve hours in
a slow oven. A fireless cooker is an
ideal place to prepare this broth. Re-
move fat and strain through a coarse
sieve. Serve hot. When cold, remove
the fat. Serve cold as a jelly or heat
to 175 degrees; not higher, as boiling
injures its value.

Egg Broth—Beat the white and yolk
of an egg separately and add the yolk
gradually to a cup of hot beef broth,
stirring constantly. Add salt and fold
in the white of egg, reheat carefully
and serve hot.

Nellie Maxwell.

EVENTS AT LAKE ZURICH

News of Beautiful Summer Resort and
the Progressive People Who
Reside There.

Ball Team Badly Beaten.

The local baseball team went to
Waukegan Labor day and was defeated
by a team there to the tune of 10 to 3.

The boys state the fact that they did
not have their regular pitcher as an
excuse. They expect to go back there
soon however and redeem their reputa-
tion. Tomorrow they will play
Rockefeller at the Lake county fair.

A game was scheduled for last Sunday
but the opposing team failed to show
up. No arrangements have been made
for the coming Sunday.

School Opens Monday.

Cook, the Des Plaines contractor, is
plastering the school house this week.
It will then be ready for the dishwash-
ers and should be completed and ready for
occupancy in a month. School will
open Monday in the old building with
the same teachers as last year—Miss
Hannah Schultz as principal and Miss
Maggie Deuts of Waukegan as assist-
ant.

Prospects Good For Bank.

John Hein, president of the Brook-
field state bank, was a visitor here
over Labor day. He is leading the
movement to establish a state bank
here and is receiving considerable en-
couragement. It is probable that such
an institution will be opened as soon
as the necessary arrangements can be
made.

Fred Folk visited friends at Palatine

yesterday.

Henry Branding is having his house
repainted.

Walter Prehm visited friends in Chi-
cago Sunday.

E. A. Ficke transacted business in
Waukegan Saturday.

Emil Frank bought a lot last week
in the Robertson subdivision.

Fred Blau and Miss Lydia Hoke-
meyer were Chicago visitors Labor
day.

Mrs. Maria Kerns and daughter Ailie
are visiting this week at T. Geary
home.

Herman Heifer has purchased the
George Graber residence on the lake
shore.

Miss Edna Hlankenberg, daughter of
Mrs. Doris Hlankenberg, is to be wedded
in the near future.

Miss Nettie Hillman will leave for
DeKalb Sunday where she will attend
the state normal school.

Jack Mathias took his brother,
Robert, who has been visiting here,
home Sunday via automobile.

Mr. and Mrs. Elmer Robertson of
Little Rock, Arkansas, are staying
here at one of the Dymond cottages.

Messrs. William Bicknese, Lou
Geary, Elmer Robertson and John
Meier were Grayslake visitors Tues-
day.

John Meier of Huntley, who form-
erly conducted a blacksmith shop here,
is spending the week with local
friends.

William Bicknese gives a dance at
his pavilion Saturday evening. O'Con-
nor's orchestra of Chicago will furnish
the music.

The dance given by the Lake Zurich
Athletic club at Bicknese's pavilion
Saturday evening enjoyed a most ex-
cellent patronage.

Edward Branding, who works for
Swift & Company in Chicago, is enjoy-
ing a two weeks vacation. He will
return to work next week.

Mr. and Mrs. Lou Geary, William
Bicknese, Mrs. Nora Fuller and Miss
Helen Parsh called on Eman Opatry at
Fox river grove Saturday.

Miss Helen Parsh, who has been vis-
iting at the Geary home here for two
weeks, left Tuesday morning for her
home at Grand Rapids, Michigan.

Henry Hillman disposed of two car
loads of milk cows at private sale dur-
ing the past two weeks and firm of
Freelich sold a car load at auction.

The two local merchants are planning
on installing automobiles next spring
for delivery purposes. August Fre-
elich is also another prospective autoist.

Miss Mamie Hokenmeyer arrived here
Monday evening from Sheppard, Mich-
igan, and will take the place in John
Fick's store vacated by her sister,
Lydia, who is to be married soon to
Fred Blau.

Today is the big day at the county
fair for Lake Zurich people. Among
the visitors from here are Mr. and
Mrs. Lou Geary, Mr. and Mrs. Fred Hoff,
Mrs. Charles Weaver and Will Schu-
macher. William Bicknese also took
over a big load today.

Most of the people who have been
spending the summer here at the cot-
tages have returned to their city
homes. Last Sunday was, however, a
big day for Lake Zurich. The Lake-
side hotel fed 250 people that day and
other hotels and boarding houses had a
goodly patronage.

Our Friends and Enemies.

The things which our friends do
with and for us form a part of our
lives, for they strengthen and advance
our personality. But the things which
our enemies do to us, as well as do not
form part of our lives; we only ex-
perience them, reject them, and guard
ourselves against them as against
frost, storms, rain, hail or any other
external inconvenience which may be
encountered.—Goethe.

Milk and Music.

It is a little known fact that the
most delightful music at the present
day is produced by playing on milk.
The supply of ivory nowadays does
not to a great extent meet the de-
mand. Strange as it may sound, skim
milk forms a substitute. It is used
for making the keyboards of pianos,
and in appearance this hardened sub-
stance is hardly distinguishable from
ivory.

Primitive Shaving.

The Harpur barber places around
his customer's neck a peculiar pan
with a semicircular piece cut out of
one side, so that it fits partially
around the neck under the chin. Wa-
ter is put into the pan and the barber
makes a lather with his hands and
rubs it on the customer's face, usually
using his hands for this purpose also.

Whaling at Natal.

The whaler Eyland the other morn-
ing brought in the first humpback
whale captured in Natal this season.
It was a good whale and very fat. On
a second visit to the ocean the same
whaler captured a blue whale 72 feet
long, which landed in the evening. Ap-
parently the baleen whales are early
this year.—Natal Mercury.

Safest Laxative for Women.

Don't suffer longer with weak kid-
neys. You can get prompt relief by
taking Electric Bitters, that wonder-
ful remedy praised by woman every-
where. Start with a bottle today.

NEIGHBORHOOD ITEMS

The "Palatine Day" picnic held last Saturday at Deer Grove park was a most enjoyable outing and a successful one from a financial view point. In the evening especially the crowd was as large as could well be accommodated. The dancing pavilion was filled to its utmost capacity all the evening and the dancers apparently were having a very good time although nothing complimentary can be said of the music. The fireworks display was complete and costly, but would have been improved if it had not been thought necessary to drag it out as it was done.

Palatine's new schoolhouse was dedicated Monday afternoon. Judge C. S. Cutting and County Superintendent Edward J. Tobin delivered addresses and in the evening a band concert and ice cream social was given.

The village of Wauconda has recently purchased a lungmoter, a new machine similar to the pulmonary but smaller and said to be more efficient as a mechanical respirator in cases of apparent drowning.

Don't Let Baby Suffer With Eczema And Skin Eruptions.

Babies need a perfect skin covering. Skin eruptions cause them not only intense suffering, but hinder their growth. Dr. Hobson's Eczema Ointment can be relied on for relief and you will soon feel like a new woman with ambition to work, without fear of pain. Mrs. John Dowling of San Francisco, writes: "Gratitude for the wonderful effect of Eczema Ointment prompts me to write. It cured my wife when all else failed." Good for the liver as well. Nothing better for itching or itching skin. Price, 50c and \$1.00, at Barrington Pharmacy, Adv.

Homemade Cedar Chest.
Get a large pine packing box. Hinge on the lid and putty up the cracks if there are any, but it is better to get one without cracks. Purchase a bottle of cedar oil from the druggist and paint the inside of the box with this, being sure that the oil soaks into all crevices. Use the oil plentifully, and when thoroughly dry line the box with cambric. Cover the outside with any preferred material. The cedar oil will retain its odor for years, and is as much disliked by moths as the cedar wood itself.

Something He Had Forgotten.
When little Marjorie tried to spread her toast with a piece of butter almost as large as the bread itself, her father remonstrated, saying: "You mustn't be so wasteful, Marjorie; some of the poor people in China have to get along on a few grains of rice each day." "But, father," replied Marjorie, "you must remember that rice swells."

Poor Provider.
An old negro in Texas was asked if he was going to register. He wished to know how he would have to proceed. On being told that he had to swear to support the constitution, his eyes widened, and, drawing a long breath, he said he couldn't do it, because he couldn't support himself.

Emergency Supply Restricted.
The world's supply of emery comes from Greek islands and from Asia Minor near Syria. Importations into the United States average \$250,000 annually.

Economic.
"Has Billy a special tutor at college?" "No," his regular chauffeur does all the teaching.

Elgin Butter Market.
Butter was advanced to 30 cents on the Elgin board of trade Monday, an increase of two and one half cents over last week's price.
