

# BARRINGTON. REVIEW

VOLUME 29, NUMBER 48

BARRINGTON, ILLINOIS, THURSDAY, NOVEMBER 27, 1913

\$1.50 PER YEAR IN ADVANCE

## ROAD COMMITTEE MAKES INSPECTION

Members of Cook County Road and Bridge Committee Look Over Barrington Township.

## SAV ROADS ARE IN FINE CONDITION

Local Commissioners Complimented—Expect \$120,000 From State Next Year.

The road and bridge committee of the Cook county board of commissioners visited Barrington Friday on a tour of inspection of the roads. The three Progressive members of the county road and bridge committee, John J. Gard, chairman of the committee, A. M. Anderson and Avery Coonley, accompanied by Col. Moriarty, one of the Democratic members, arrived on the noon train from Chicago, and were met by the local highway commissioners, Messrs. Humphrey, Krunfus and Schwemm, and J. F. Gieske, town clerk.

Before starting out on the roads the commissioners took dinner at the Commercial hotel, and each of them took occasion to compliment Mr. Lines on their entertainment. After dinner they were taken in two machines, accompanied by the clerk and highway commissioners, and made a thorough inspection of the roads with special reference to those which have been improved this year on which the county is in a position to pay a percentage of the cost.

The county commissioners were interviewed as to their impression of the work done, and expressed themselves as feeling that Barrington township was getting excellent returns for the money spent upon the roads. Messrs. Gard, Anderson and Coonley, the Progressive members of the county road and bridge committee, went so far as to say that they had inspected hundreds of miles of road in Cook county in connection with the work of their committees, during the summer, and that they knew of no town whose roads in general were in better condition. They were particularly pleased with the fact that our commissioners have done regular work in grading and repairing, thereby maintaining the roads in excellent condition.

They also visited the concrete bridge just completed on the Higgins' road, two miles southwest of Sutton station, and were surprised that so good a bridge could have been secured at so small a cost. The county will pay 50 per cent of the cost of the bridge, and will allow 15 per cent for the road improvements; this being the maximum amount possible.

The county board is composed of fifteen commissioners, five of whom are selected from the districts outside the city. These five county members, so called, composed of the three men who made this inspection, together with Harley B. Mitchell and Ellsworth M. Board, led the fight for a large road and bridge fund a year ago when the county budget was being made up. They are all members of the Progressive party. They were supported by Col. Moriarty whose interest in the roads is shown by his voluntarily joining the party on Friday, and as a result of their efforts a fund of \$60,000 was secured, which left a substantial amount in addition to the 50 per cent required for bridge work.

In addition to their efforts during the budget fight they did everything possible to secure the good roads law by which Cook county will probably have \$120,000 of state money spent upon its state aid roads. This is the amount that the county will be entitled to from the state, the only requirement being that the county must appropriate a like amount. Town Clerk Gieske is circulating a petition, which is being freely signed by the leading taxpayers of Barrington township, asking the commissioners, in making up their next budget, to make the appropriation for road and bridge purposes as large as possible.

### Improvements at Postoffice.

Math Peck is rearranging his building in which the postoffice is located, so that it will be much more convenient to the patrons of the office and the employees as well. A corner entrance has been put in and Postmaster Barrington will add several additional rows of lock boxes, and it is likely, after the changes have been completed, will leave the outer door open later in the evening, and on Sundays and holidays to accommodate owners of these boxes.

## W. R. C. GIVES FLAGS TO SCHOOL

Local Public School Receives Seven Flags, One for Each Room, from Women's Relief Corps.

An occasion, momentous in the history of the local schools, was last Thursday afternoon, when each room was presented with a handsome silk flag by the local Women's Relief corps. The flags measured five by seven feet and the presentation was made separately to each room by some member of the corps and accompanied by appropriate remarks.

The high school flag was presented by the president of the Women's Relief corps, Mrs. Anna Grunau, and with it was a framed document setting forth the history and origin of the American flag.

Mrs. John Page presented the flag to room one, Mrs. Belle Brassel to room two, Mrs. Sarah Domsler to room three, Mrs. Clara Galloway to room four, Mrs. Myrtle Bennett to room five and Mrs. Edna Hensett to room six. After receiving their flags the pupils of each room responded by a flag salute.

The local Grand Army post and the Women's Relief corps marched to the school in a body and were congregated on the stage in the assembly room where all the pupils were gathered.

Prof. E. S. Smith made a few remarks, the pupils sang "Illinois" and Mrs. Grunau gave a talk about corps work, which was followed by the presentation of the flag to room one. Previous to the presentation of the balance of the flags Fred Lageschulte, commander of the G. A. R. post gave a talk and Lincoln's Gettysburg address was read by Angie Graham. The other rooms then received their flags and following this event H. H. Hubbard recited an original poem, "The Old Flag," and made a few remarks, after which Mrs. Grunau thanked all who had assisted and the song "America" by the entire assembly completed the afternoon's program.

The presentation of flags to the schools is part of the patriotic work of the Women's Relief corps and Mrs. E. M. Cannon, patriotic instructor of the local corps, was the promoter of the work here.

### NEIGHBORHOOD ITEMS

Fred Vogel, who has been running a blacksmith shop in Cary for the past year, has left town suddenly. He left a family.

Mrs. F. H. Hrdlicka has received her appointment as postmistress at Cary, to succeed Miss Ann J. Nish, who has resigned the office.

Mrs. Bessie Harris of Cary Station has accepted an offer of \$5,000 from the Chicago & Northwestern Railway company in settlement of her claim against the company for fatal injuries received by her husband, Lawrence Harris last September, while in the company's service.

### SCHOOL NOTES

The first entertainment of the lyceum course was given Thursday evening, November 20. Mr. Kemp proved himself a worthy entertainer, and easily held the power of holding the attention of his audience. He read "Seven Oaks" in five main scenes, and a complete description of each scene was given. A large audience attended and appeared to enjoy Kemp's laugh as well as the comic expressions brought up in the different acts of the story. He had a very fascinating way of presenting his theme and entertained his audience over an hour. The next entertainment will be given December 11, and we hope the entertainers will be as interesting as Mr. Kemp.

Twenty-five head of live stock were cremated in a fire which destroyed the marmoth barn on the Dan Webb farm near Hickory in Lake county Sunday evening. A large quantity of hay and grain was also destroyed, together with a number of tools. The barn was a total loss. Spontaneous combustion is given as the origin of the fire.

Five hundred cigars and between \$75 and \$80 were taken from the Greek restaurant in Crystal Lake by three thieves last Friday night. The thief took the glass out of the back door of the restaurant to get into the building and secured the keys to their house the same way. Footprints of three men around the door were traced by officials of the town this morning but did not lead to any promising clue to the identity of the trio of robbers.

Miss Evelyn Behn, a 17-year-old Park Ridge girl, swallowed poison late Saturday evening on the platform of the Chicago & Northwestern station in that village and died a few minutes later. A note was found in her pocket addressed to her mother, and read as follows:

"Forgive me, mother. I love you. I have caused you worry and am very unhappy, so it is best this way. I am a coward, but a person not even worthy of the name of a coward is the cause of this. I love Fred and I love you, and for you and him I tried to better myself. God forgive me. Good bye."

The fact that gossips had linked her name with that of a young man of the village is said to have led her to commit the act.

All of the real estate owned by the late John C. Collins of Lake street was sold in the real estate rooms in Chicago last Friday by Wirt E. Humprecht, master in chancery, under a partition suit brought by William J. Collins, a son. Mrs. Anna Collins, widow of John C. Collins, purchased the homestead on Lake street.

## NEWS OF THE CLUBS AND LODGES

What Local Organizations Are Doing in a Social Way—News of Interest About Them.

The Dorcas society will have an all day meeting next Tuesday.

The Merri Octavia club met at Mrs. Willard Abbott's Tuesday evening.

The next meeting of the Thursday club will be at Mrs. H. T. E. White's December 4.

Six Portia club members were dinner guests of Mrs. Cora Jahnke Mundhenke Thursday night in Palatine.

Autumn Leaf Rebeccal Lodge of Barrington will entertain the Elgin Rebeccas tomorrow evening. The work and program will be given in Masonic hall and a supper will be served in Odd Fellows' hall. The initiatory degree will be conferred upon a class of dozen candidates.

Remember the dance to be given by the local Royal Neighbors in the village hall Thursday evening, December 4. Moore's orchestra of Woodstock has been secured to furnish the music. Tickets will sell for 50 cents.

The Ladies' Aid society of the Methodist church will have a bazaar and chicken pie supper in the parlors of the church next Wednesday afternoon. Mrs. Clark, instructor of the girls' class, will be present. The proceeds will be given to the city man's head swim, with the money to go and take your girls.

The ladies of the Baptist Dorcas society will hold a bazaar and chicken pie supper in the parlor of the church on the afternoon of December 6, to which the public is invited. This year the ladies have made a special feature of plain sewing, such as aprons, night dresses and shirts, colonial rugs, picnics, etc.

There will also be the usual books of fancy work, candy and many articles. The hot supper served will have for "piece de resistance," roast beef and mashed potatoes. The ladies are making great efforts to have the 1913 bazaar the most successful on record.

### SCHOOL NOTES

The first entertainment of the lyceum course was given Thursday evening, November 20. Mr. Kemp proved himself a worthy entertainer, and easily held the power of holding the attention of his audience. He read "Seven Oaks" in five main scenes, and a complete description of each scene was given. A large audience attended and appeared to enjoy Kemp's laugh as well as the comic expressions brought up in the different acts of the story. He had a very fascinating way of presenting his theme and entertained his audience over an hour. The next entertainment will be given December 11, and we hope the entertainers will be as interesting as Mr. Kemp.

Much interest is being shown by the pupils of the high school in their literary club. They held a meeting on Wednesday night of last week and showed talents in reading their plays which concluded with a debate.

Rooms seven and eight enjoyed a holiday yesterday because there was no school in their rooms for two months. All are, of course, having a vacation today, and following the usual custom, school will remain closed tomorrow.

### Thanksgiving.

Thanksgiving day is here again and it might reflect some light on the event of its observance by giving the small boy's composition relating thereto: "Thanksgiving was brought over from England by the Puritan fathers in the year 1620. It has stood here ever since. On Thanksgiving every body goes to church in the morning so as to get everything out of the way before dinner. Then you come home and hang around a little and get a awful hungry smelling the turkey. After dinner Thanksgiving is over."

In the extensive correspondence at the Red Cross seal headquarters an occasional letter is received which attracts more than passing attention, even from the staff, which is somewhat "calloused" to the unusual. One such fresh letter the other day brought a smile with a touch of pathos just behind it. It was as follows:

"To the Red Cross Seal,

"Washington, D. C.

"While looking over a paper I found an advertisement of the red Cross Seal stating that it was good for consumption and other diseases; I wish that you would please send me a bottle and also the price so in case I need more I will know what to send to the medevon.

"No What is to send me the medevon? I know what it cost I just send the money to you at once please dont fail to send it at once please let me have from you at once."

The Women's Foreign Missionary Society will meet with Mrs. W. A. Shearer Tuesday December 2, at 3:00 o'clock. Mrs. Erman S. Smith will have charge of the program.

## LAKE COUNTY WANTS 1,000 EARS

Preparations Being Made for County's First Corn Show—Every School Will Be Represented.

"Lend me your ears" is Lake county's official slogan from now until January 12, but the ears referred to are ears of corn and the date given is that set for the opening of the Lake County Agricultural board's monster corn show at Libertyville.

One thousand ears of prize corn are being sought to make up a monster exhibit that will be the chief feature of the show. Ten ears or more will be on display from each school district in the county and suitable prizes will be offered for the best specimens.

Attendance prizes also will be given, the township, exclusive of Libertyville, that scores up the greatest attendance by actual door count, will receive a suitable trophy.

Tempting meals, consisting entirely of the products of the corn and comprising every corn dish from soup to pudding, will be served to visitors at the show in Libertyville. As an addition feature Saturday, January 17, will be "Market day" upon which the farmers, with their produce, will deal directly with the consumers.

The market basket will be the only delivery wagon. Butter, eggs, poultry and every seasonal farm product will be on sale at prices that will make the city man's head swim, with their reasonableness.

Wednesday will be "Dairy day." Among the speakers at the daily afternoon lectures will be Forrest Crissey, Miss Grace Carlson, Bert Hall, C. V. Gregory and R. G. Holden.

Donald S. Blair, Lake county's soil expert, is in charge of the arrangements and persons in search of further information about the show should address him at Libertyville.

The corn show, like every other event that the Lake County Agricultural board is planning in its farm improvement work, is open to the public without admission fee.

### NEWS OF THE FARM AND DAIRY.

P. G. Skinkle of Richwood holds a record as a thrasherman, having followed the work for 57 years. He first began threshing in the fall of 1856 and has been "on the job" every fall since.

Of the 25 or 40 farms of Cuba township who are members of the Lake county soil improvement society, but three were present Friday afternoon to meet Donald S. Blair, farm advisor, at the home of Fred Kirschner.

College Bravais, a 17-year-old brown Swiss cow owned by the Michigan agricultural college, has established a new record for milk production by a female of her breed. In a year she yielded 19,304.6 pounds of milk, which tested 4.102 per cent and made 1,000.0 pounds of butter.

Pres. H. J. Waters of the Kansas Agricultural college on a recent occasion expressed himself as follows:

"The International Live Stock exhibition, which will this year be held from November 29 to December 6th, is the court of last resort in all matters pertaining to the improvement of live stock. It is the place where all controversies regarding superior merit are settled for the year, and as such contributes more to live stock improvement than any other single agency in America. As an object lesson it is unequalled on the continent. As a means of awakening interest in improved live stock and similar shows is indispensable. It is a liberal education in live stock production for any farmer, reader or student to attend the International."

### BOTTLE OF RED CROSS SEAL.

The exclusion of air is necessary to preserve the green forage and prevent decay. Walls must be rigid enough to allow doors tight enough for this purpose.

Wood and concrete or hollow tile are the common materials used in silo construction. If the wood is decided upon, there is probably no better material to be found than northern cypress. This, however, is generally so expensive that a cheaper material, such as hemlock is used. Whatever wood is selected, it must be sound and free from loose knots.

The single wall concrete silo is the most common type of construction.

The thickness of the walls now in use varies from six inches at the bottom to four inches at the top for the lightest wall to a wall two feet in thickness. Six inches seem to be the most desirable thickness for common sizes of silos under existing conditions.

The hollow tile silo has but recently come into general use, but has proved a very efficient and serviceable form of silo construction.

### ANNUAL ELECTION OF OFFICERS.

The annual election of officers of Barrington Camp, No. 809, Modern Woodmen of America, will take place at their hall Tuesday evening, December 1. All members are requested to be present.

WILLIAM GRUNAU, Clerk.

Annual Election of Officers.

The annual election of officers of Barrington Camp, No. 809, Modern Woodmen of America, will take place at their hall Tuesday evening, December 1. All members are requested to be present.

WILLIAM GRUNAU, Clerk.

## RED CROSS SEALS NOW ON SALE

Mrs. W. J. Cameron is Local Chairman and Has Supply of Seals On Hand.

Preparations have been made for the sale of Red Cross Christmas seals and the American Red Cross society has appointed its state, county and village chairmen and sent out supplies of seals and advertising matter.

The accompanying cut shows the seal being used this year. It is attractively printed in red and green and is rectangular in shape instead of being square as the seals were last year.

By DONALD BLAIR.

The advantages to be obtained through the use of a silo for preserving coarse fodders for the feeding of farm animals may not be the same for each individual case; but the points enumerated below will cover average conditions.

First. The product of an acre of land stored in a silo occupies less space than when stored in any other way. Hay in the mow takes three times the space and corn fodder stored in the same manner five times the space, as the same quantity of food material placed in the silo.

Second. An acre of corn can be put in the silo at less cost than the same quantity can be put up and cured as fodder. The storage of the corn crop in the silo makes it possible to clear the land completely and earlier and thus facilitate the preparation of the land for seedling grass and fall grains.

Third. The use of silage enables one to feed more economically than by the use of dry roughage.

Fourth. The use of a silo makes it possible to preserve roughage at a minimum loss of food value, and supplements the pastures at such times when they are short.

Fifth. Crops can be put away in the silo during weather that could not be availed of to make hay or corn fodder.

Sixth. More cattle can be kept on a given area of land when silage is fed than when the roughage is cured for hay or fodder, or when the land is used for pasturing.

Seventh. Crops suited for making hay often make good silage and carry the stock during the time when the hay crop is a failure.

Eighth. Silage is a succulent and nutritious food for the year around, is beneficial to digestion and general health of animals, and is a mild laxative and keeps the digestive system in good healthy condition.

Ninth. Every farmer who is interested in the feeding and maintenance of live stock should have a silo.

The size of the silo will naturally vary with the amount of stock and the length of the feeding season. Silage is usually fed to cows and steers at the rate of 30 to 40 pounds a day. This would mean that in 200 days, the average cow will require from three to four tons of silage. These figures give a safe basis for calculating the requirements of a herd.

In building, several points require special attention. Inasmuch as the entire weight of the silo and contents rests on such a small area of ground, special attention must be given to the foundation. It should extend below the front line and rest on hard solid ground. In concrete silos the bottom should be at least three times the width of the wall.

The exclusion of air is necessary to preserve the green forage and prevent decay. Walls must be rigid enough to allow doors tight enough for this purpose.

Wood and concrete or hollow tile are the common materials used in silo construction. If the wood is decided upon, there is probably no better material to be found than northern cypress. This, however, is generally so expensive that a cheaper material, such as hemlock is used. Whatever wood is selected, it must be sound and free from loose knots.

The single wall concrete silo is the most common type of construction.

The thickness of the walls now in use varies from six inches at the bottom to four inches at the top for the lightest wall to a wall two feet in thickness. Six inches seem to be the most desirable thickness for common sizes of silos under existing conditions.

The hollow tile silo has but recently come into general use, but has proved a very efficient and serviceable form of silo construction.

### BLAIR WRITES ABOUT THE MODERN CORNCRIB

Farm Advisor Discusses the Advantages Gained by Use of Silo on Dairy Farms.

### EXPLAINS THE VARIOUS TYPES

The Best Kind of Silos and How Built—Size You Will Need for Your Stock.

By DONALD BLAIR.

The advantages to be obtained through the use of a silo for preserving coarse fodders for the feeding of farm animals may not be the same for each individual case; but the points enumerated below will cover average conditions.

First. The product of an acre of land stored in a silo occupies less space than when stored in any other way. Hay in the mow takes three times the space and corn fodder stored in the same manner five times the space, as the same quantity of food material placed in the silo.

Second. An acre of corn can be put in the silo at less cost than the same quantity can be put up and cured as fodder. The storage of the corn crop in the silo makes it possible to clear the land completely and earlier and thus facilitate the preparation of the land for seedling grass and fall grains.

Third. The use of silage enables one to feed more economically than by the use of dry roughage.

Fourth. The use of a silo makes it possible to preserve roughage at a minimum loss of food value, and supplements the pastures at such times when they are short.

Fifth. Crops can be put away in the silo during weather that could not be availed of to make hay or corn fodder.

Sixth. More cattle can be kept on a given area of land when silage is fed than when the roughage is cured for hay or fodder, or when the land is used for pasturing.

Seventh. Crops suited for making hay often make good silage and carry the stock during the time when the hay crop is a failure.

WORLD'S EVENTS  
TERSELY and  
BRIEFLY TOLD

## Washington

President Wilson nominated Henderson Martin of Kansas, Winfield Denison of New York and Clinton L. Rigs of Maryland as members of the Philippines commission.

In the presence of a brilliant assemblage of distinguished guests, Miss Jessie Woodrow Wilson, second daughter of the president, and Francis Bowes Sayre were married in the famous east room of the White House at Washington.

The first step in the administration's attack on the four trusts was taken when Attorney General McLevyns issued orders at Washington for a countrywide investigation of the cold storage combine which is believed to be responsible for the present high price of eggs.

Railroad earnings are not commensurate with the increased cost of operation, higher taxes and wages and additions to equipment necessary to meet commercial demands of the country, according to arguments submitted to the Interstate Commerce Commission at Washington by representatives of railroads asking for a general increase of five per cent in freight rates.

Cabinet members will probably follow the ancient Washington custom of holding open house on New Year's day, despite the determination of President Wilson to do away with this practice.

President Wilson is expected to send to Congress early in the regular session the nominations of three members of the Interstate Commerce Commission.

President and Mrs. Wilson lent their assistance to a bazaar held at Washington for the benefit of the Starvation Aid for Consumptives. Autographed photographs were sent by the president and dowager by Mrs. Wilson.

Information on the telephone situation which has been acquired by the independent companies is to be given to the government to aid in its dissolution suit under the Sherman antitrust act against the American company.

W. F. McCombs, chairman of the Democratic national committee, after a conference with President Wilson at Washington announced that he believed the Republican party would be the chief contender against the Democrats in the presidential election.

John Hobart Marhs, a member of the Interstate commerce commission, died at Washington following an attack of acute indigestion, by which he was stricken on Thursday in Philadelphia.

Thomas Ross, editor and owner of the Springfield (Ill.) Register, and former state senator, was appointed commissioner general to the countries bordering the Mediterranean, in behalf of the Panama exposition.

Washington society received the greatest shock administered since President Wilson assumed office. Official announcement was made that the annual New Year's reception, which has been held at the White House for nearly a century, will be abandoned for the present.

President Wilson sent to the Senate at Washington the nomination of Henry M. Pindell of Illinois, to be ambassador to Russia.

## Domestic

A move to create a commission of 25 leading business men of the state of New York to study the state's finances and recommend to the next constitutional convention a system of management which will take the business affairs of government out of politics was inaugurated by Governor Glynn at the dinner of the chamber of commerce of New York at the Waldorf.

After an arrangement of 17 years, Branswell Booth and Barrington Booth shook hands as the luncheon guests of Rev. Alden L. Bennett of New York.

A brand new legal holiday, specially proclaimed by Gov. Hiram W. Johnson, was celebrated in California in honor of the two hundredth anniversary of the birth of Father Junipero Serra, a Franciscan monk, who founded the California missions.

Harvard, in the person of Charles Brinkley, crushed Yale in the annual football game on the Stadium gridiron at Cambridge, Mass., by a score of 15 to 5. All of Harvard's points were due to the superb kicking of General Sherman.

Pickey McFarland of Chicago easily defeated Kit Albert of New York at Waterbury, Conn., at the Auditorium in a ten-round glove contest. It was Pickey's bout from start to finish, and at no time was he forced to extend himself.

One trainman was killed and two fatally injured in a locomotive explosion on the Big Four railroad near Shiloh, O.

Four United States soldiers were instantly killed and two mortally injured when their automobile, on the Galveston-Houston & Henderson railroad crashed into the automobile in which they were riding. The soldiers were driving at a very high speed in order to beat the train to Galveston, Tex.

Exactly \$125,519.41 was spent for the John Purcell Mitchell campaign in New York, as against \$262,000 for Edwin E. McCall, the Tammany candidate.

Fourteen dead, a host hurt—that is the grim toll in the U. S. for 1912. Of the many injured, 56 have been incapacitated, temporarily, at least.

Every saloon in Des Moines must close immediately, according to a decision handed down by the Iowa supreme court. The decision ends the appeal of the liquor interests.

Eight officials and agents of the Florida Fruit Land Company were indicted by the federal grand jury at Kansas City, Mo., on a charge of conspiracy to use the mails to defraud in connection with the sale of 150,000 acres of land in the Everglades district of Florida to 12,000 purchasers in various states.

## Mexican Revolt

Simultaneously repulsing a front and right and left flank attack, turning the rebels back into a general engagement along his line of defense, 12 miles long, General Villa, after dark, drove the attacking federal forces, commanded by Gen. Jose Inez Salazar, out of their camp before Tierra Blanca, Mex., and hurled his cavalry after them as they fled in panic to their trains. More than 10,000 men were engaged in the fight, the rebels numbering 6,000 and the federales 4,000.

Most of the evidence at hand continues to indicate that Provisional President Victoriano Huerta is unalterably determined not to accede to the demands of the United States for his elimination as president of Mexico.

Provisional President Huerta ordered General Mass, commander of the garrison at Vera Cruz, Mex., to resist the American marines, if an attempt is made to land them.

General Mass asked the American marines at Vera Cruz, Mex., to surrender Evaristo and Daniel Madero, who have taken refuge there after the government had granted them liberty from Ulua under small bail. Consul Canada has asked Washington for instructions—whether to deliver the men or not.

## Foreign

Three natives were killed and 22 wounded by the police in a riot at the Premier mine at Pretoria, Union of South Africa. Of the 22,000 natives employed, 5,000 joined the rioters.

A movement has started to organize an Irish national volunteer force to uphold the authority of the crown and government in Ireland on the same lines as the Ulster force which Sir Edward Carson is organizing.

Representatives from all the important universities in America and Europe were present at a banquet in Winstrop in honor of the inauguration of Dr. James Alexander MacLean as the first president of the University of Manitoba.

## Personal

Lieutenants Kelly and Ellington of the United States army aviation camp at San Diego, Cal., were dashed to death in an airplane.

Dudley Field Malone, recently third assistant secretary of state, took office as collector of the port of New York to succeed John Purcell Mitchell, mayor-elect, as head of the customs service.

Anne Kidder, the first unmarried woman to become a Baptist missionary in Japan, died at Tokyo. She came to Japan in 1875.

C. V. Smith, game warden at Grand Rapids, Minn., arrested his son, Fred Smith, with hunting with a dog. The young man was fined \$10 in a justice court.

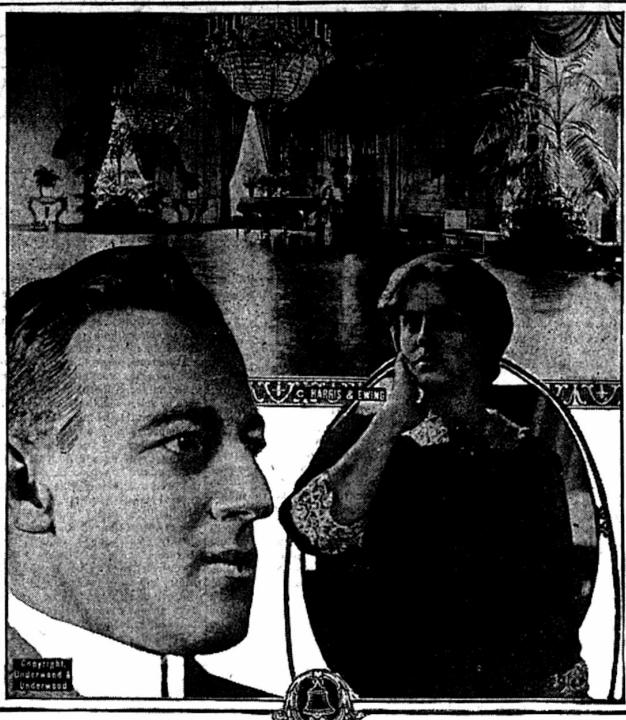

Hans Schmidt, slayer of Anna Muller, is sane and must go to trial for his life next Tuesday, according to a decision made by Judge Foster at New York.

George H. Hatcheller, who for more than thirty years was known throughout the country as a circus huckster and rambler, died at his home at Providence, R. I.

Mrs. Minnie Sherman Fitch, wife of Lieut. Thomas W. Fitch, U. S. ret., retired daughter of William Tecumseh Sherman, died at Chafford, Conn. Her remains were taken to St. Louis Sunday for interment beside the body of General Sherman.

Pickey McFarland of Chicago easily defeated Kit Albert of New York at Waterbury, Conn., at the Auditorium in a ten-round glove contest. It was Pickey's bout from start to finish, and at no time was he forced to extend himself.

## WEDDING OF MISS JESSIE WILSON AND FRANCIS B. SAYRE

Mr. and Mrs. Sayre and East Room in Which They Were Wedded.

Washington, Nov. 25.—Jessie Woodrow Wilson, second of President Wilson's three daughters, was married to Francis Bowes Sayre at the east room of the White House. The ceremony took place in the east room of the White House, and was performed by Rev. Sylvester Beach of Princeton, N. J., the president's former pastor and the close friend of the Wilson family for many years.

The entire affair was very simple, as had been arranged by the bride and groom, and the number of guests was rather small—distracting so many persons in official and social circles of Washington who had expected to receive invitations but were disappointed.

Miss Margaret Woodrow Wilson, eldest of the three daughters, was married to Francis Bowes Sayre at the east room of the White House. The ceremony took place in the east room of the White House, and was performed by Rev. Sylvester Beach of Princeton, N. J., the president's former pastor and the close friend of the Wilson family for many years.

Those who attended the wedding for those who attended the wedding for the gifts were not put on display. It is known that the bride and groom, the close of 1912, being also elected member of Phi Beta Kappa. For two years after her graduation she engaged in settlement work in Kensington, Pa., and she is a member of the executive board of the National Young Women's Christian Association. She has delivered several excellent addresses to the young people for the Representatives in New York.

Guests Limited to 400.

Those who were invited to witness the wedding were mostly personal friends and the number was kept down close to four hundred. The list was paraded and reviewed several times, and it was found that the operation resulted in many heartburnings. For the house of representatives' circle, for instance, the only guests were Speaker Champ Clark, Mrs. Clark and Miss Genevieve Clark, Majority Leader Underwood and Mrs. Underwood, and Minority Leader Mann and Mrs. Mann. Also, Mrs. Clark, Mrs. Mann, and Miss Mary E. Brown, daughter of Mrs. Wilson, were present.

There was one disappointment for those who attended the wedding, for the gifts were not put on display.

## VALUATION OF STATE PROPERTY

Reaches \$7,261,169,523 According to Report of Board.

AN INCREASE OF \$237,339,351

Tax Rate for Next Year Based on the 1913 Assessment Will Not Be Lower Than 70 Cents, According to Commission.

Springfield.—According to the report of the state board of equalization, the value of all classes of property in the state of Illinois is valued at \$7,261,169,523. This is an increase of \$237,339,351 over the total valuation of all classes of property fixed by the board last year.

Illinois' tax rate for next year, based on the 1913 assessment, will not be less than 70 cents on the \$100 assessment. This was admitted at the first meeting of the new Illinois tax commission, consisting of Governor Dunne, Auditor Brady and Treasurer Ryan.

It was stated at the meeting that a rate of at least 70 cents will be made to cover that portion of appropriations made by the last general assembly which is payable next year as the amount due at the end of the first half of the biennial period.

The tax rate will be the highest in the history of the state. Last year's rate was 38 cents on the \$100 assessed valuation, and Democratic state officials claim that rate was not adequate to bring in revenue for the state's expenses. It is to this situation that the present dilemma in part, and the reason of having a decreasing balance of three and one-half million dollars in the state treasury, the state just now is literally "broke," with not money enough on hand to pay either appropriations which are due, or the state's incidental expenses. State Treasurer Ryan held up practically every bill standing against the state but funds can be had from the county level.

As a result of the high rate not only in the state, but in city, park, board, county and nearly every other taxing body except the city board of education, Springfield's tax rate will approximate \$6 on the \$100 assessed valuation. The rate which held this year was \$4.31 in the city of Springfield. The board of education tax the coming year will be a little less than last year.

About \$1,350,000 is paid into the state treasury annually now by the Illinois Central railroad, under its charter. It is estimated that the fees from the secretary of state's office, insurance department, and other state departments will show a substantial increase in the next year. It is impossible, of course, to estimate the amount of inheritance taxes that will be collected.

Appropriations of the last legislature aggregated \$37,915,467.93, and of this amount \$23,859,576.42 was appropriated for use by June 30 of next year. Appropriations of \$25,225,310 have been paid out of this amount, leaving \$15,864,576.42 to be paid before July 1 of next year, when the remainder of the appropriations made by the last legislature become payable.

Returns made by the equalizers show substantial increase in the valuation of every class of property with the single exception of the capital stock of railroads. The assessment of Illinois' railroads was increased by a reduction of \$40,581. In other classifications, however, the railroads were hard hit. The assessment on personal property and lots of railroads was increased \$9,164,694, the assessment of their tangible property by the state board was increased \$35,781,501 and the assessment of electric lines was raised \$26,316, making a total increase in the assessments of railroads of \$23,426,509.

The personal property assessment shows the greatest increase, this year's valuation being fixed at \$1,538,871,142, which is an increase of \$119,154,067 over last year's figures. The valuation of farm lands is raised \$8,525,663, aggregating \$2,084,316,731. Town and city taxes are given a valuation of \$5,951,417,273, an increase of \$1,417,471.

The capital stock of corporations other than railroads is valued at \$87,937,582, an increase of \$4,754,901.

### State Teachers' Meeting.

Gerard T. Smith, superintendent of the Peoria city schools and chairman of the Illinois State Teachers' association, was in Springfield conferring with Superintendent H. S. Magill, and making arrangements for the regular annual meeting of the association, which will be held here Monday, Tuesday and Wednesday, December 29, 30 and 31.

### Eureka Man is Named.

The grand encampment of the Illinois Odd Fellows elected the following officers at a meeting in the city of Springfield: Grand high priest, Norman Waltrip; Whitehall; grand senior warden, Mark Jardine, Rockford; grand scribne, Samuel J. Baker, Olinay; grand treasurer, Samuel Watson, Chicago; grand junior warden, M. B. Heorn, Springfield; grand representative, George B. Rollo, Canton.

### Past Test for Mine Inspectors.

The following eligible list of persons who passed the state examination in Springfield November 17 for state inspectors of coal mines was transmitted to Governor Dunne by the state mining board:

David Z. Thrus, Farmington, Fulton county.

David H. Wals, Springfield. Sangamon county.

William Hartman, Belleville, St. Clair county.

John Kaney, Centralia, Marion county.

Thomas E. Myers, Marion, Williamson county.

John E. Jones, Danville, Vermilion county.

John McClintock, Murphysboro, Jackson county.

James S. Held, Carterville, Williamson county.

E. M. Coulson, Glen Carbon, Madison county.

W. W. Stark, Georgetown, Vermilion county.

Joseph Haskins, Catlin, Vermilion county.

John W. Siddle, Tower Hill, Shelby county.

George L. Morgan, Benton, Franklin county.

J. C. Duncan, Benton, Franklin county.

Patrick Hogan, Canton, Fulton county.

Thom H. Devlin, Assumption, Christian county.

Ben D. Roberts, Streator, LaSalle county.

Archibald Frew, Gillespie, Macoupin county.

### Miners Ballot Announced.

Secretary-Treasurer John McGarrett of Springfield subdistrict, United Mine Workers of America, has announced the complete list of candidates and the union to which they belong for the election December 9.

The list of aspirants follows:

President—John Glenwright, John Clark, Perry Carrollton, George Clark.

Vice-President—Mark McGraw, Thomas Parry, Peter Joyce, John J. Tierney, John Sullivan, Carl Hibbs, George McManus, Albert Ketchum, A. Davison.

Secretary-Treasurer—John McGarrett, Jacob Wisseng, E. H. Hammons, W. T. Casey.

For Executive Board—John Walker, Henry Knox, John Marker, Thomas Gillespie, Frank O'Dore, John Heffron, William Patterson, James Brady, Maurice L. Ladd, Peter Lamb, George Eger, George Robinson, Otto Seitz, George Denning, Mike Hofstetler, James Brennan, Charles A. Marion, Alexander Skelton, John Hughes, P. J. Gaffigan, R. W. Jackson, David Graham, John Tunney, W. Williams.

For Executive Board—Patrick Gilligan, Ezra Shoshan, Hiram Muir, Frank Bohne, Frank Hashman, Alexander Beck, John Worsam, J. Daniel, John Cheanot, George Kidd, William Howard.

For Auditor—Frank Huddleston, John Corrigan, Joseph Quinn, Charles Morris, John C. Jones, J. M. Montague, Shuster Miller, Wm. C. Davis, W. B. Herndon, Peter Preboda, Margaret Hushong, James E. Scattergood, Fred Stanley, Fred Huelzel, Julius Semple, Charles Bremen, John B. Hedley, Frank J. Esper, J. C. Douglass, Elmer Howard, Thomas J. Davis, John Strelbel.

**State-Wide Fire Drill is Urged.**  
School children of Illinois will observe December 5 as school "fire prevention" day. State Superintendent F. G. McRae has asked the state fire marshal's department sent out a circular to all schools in the state, urging a program for the afternoon and fire drills as one of the essential features of observance.

The booklet is designed to encourage greater care on the part of children in the matter of fire prevention, and to instill in their minds the importance of the elimination of fire hazards. That Illinois last year suffered a fire loss of \$12,000,000 and a loss of 300 lives from fires, is mentioned by Acting State Fire Marshal F. R. Mogridge in the booklet.

The following program of exercises for the afternoon of December 5 is suggested:

Opening song—"America." Reading of the governor's "proclamation."

Recitation—"The Fire Brigade." Short talk by the teacher on the "Proposed Method of Kindling a Fire."

Essay—"Cause of Fires and How to Avoid Them."

Recitation—"The Great Fires of the World."

Debate—"Resolved, That the Life of a Fireman is More Dangerous Than That of a Policeman."

Instructions by the teacher on "How to Do in Case One's Clothing Is on Fire."

Recitation—"Illinois."

N. B.—Other things that might be used in a program of this character are the "Story of the Chicago Fire," "The Burning of Rome," "Causes of Fire and How to Avoid Them," and "Dangers in the Use of Gasoline."

"Prairie Fires," "Forest Fires," and "Avoid Them."

Recitation—"The Great Fires of the World."

## RED CROSS SEALS.

Once again we have an opportunity to impart a special significance to our Christmas giving. We refer to those cheery red and green messengers of good will, the Christmas stamps. These little emblems of humanitarianism have become almost an institution within recent years—so much so that it is almost a break of etiquette to mail a holiday parcel without a Christmas seal affixed to it.

These stamps not only lead the "Christmas spirit" to the holiday season but they represent the great, broad, charitable spirit of Christ. Little penny things that they are, they have been the means of collecting thousands of dollars to combat the great white plague, tuberculosis.

If we could eradicate this plague we could abolish at least half our poverty and could bring hope and encouragement into the hearts where now only despair reigns.

## DEATH'S MOST ACTIVE AGENT

Worry. Never Hard Work, Responsible for the Desolation of the Human Race.

We hear daily of men and women who are "working themselves to death." But work is as surely the death of man as worry is his deadliest foe. Unless caring care and sickening foreboding are labor's own killer. Yet worry plays its part and hundred of thousands every year.

The person who wishes to live long and beneficially should cultivate the desire to see others as comfortable as he wishes to be himself. He must not regret that others are better off in work than he is.

Here is a fact that some so-called philanthropists never learn: there lives not the human creature who is wholly uninteresting. Be on the alert to say something in those whom you meet that will commend them to your regard. Listen to them and the capacity for doing good among the old people to the greatest degree of disease or actual sorrow. If you have no other "job" in life, make one by forcing yourself to be interested in the welfare of your associates—Youth's Companion.

## Supplying a Necessity.

An English policeman entered the house of a publican one morning and informed him that it would be necessary to hold an inquest there in the afternoon. Now the landlord had a great objection to anything of the kind, and said: "Oh! I can't be troubled with inquests in my house. There's what you have to drink." Robert said he had a bottle of Scotch, which he did. "Have a cigar, too," said the host. After the consumption of two Scotches and cigars, the constable said he thought he could get the inquest held somewhere else, but as he was leaving the landlord remarked to him, "What, who are they going to hold the inquest on?" "One as I know of," said the man in blue; "but it ud a' been me if I hadn't had these drinks an' smokes."

## Real Gratitude.

When Blaine was a young lawyer and cases were few, he was asked to defend a poverty-stricken trap-assembly man, who was to be pleased with all the ardor at his command, drawing so pathetic a picture (with such convincing energy) that at the close of his argument the court was in tears and even the trap-wep. The jury deliberated a few minutes and returned the verdict "not guilty." Then the constable drew him aside, tears streaming down his face, as he said at the future "plumed knight" and said: "Sir, I have never heard so grand a plea. I have not cried before since I was a child. I have no money with which to reward you, but (drawing a packet from the depths of his ragged clothes), here's the last of it and welcome!"—Pittsburgh Chronicle (Telegraph).

## He Thought Quickly.

She (coldly).—"So you've been saying to people that I am fond of my own voice?" He—"Er—well, you have yourself admitted that you like music."

## Saved His Foot.

H. D. of Upton, G., suffered from horrid ulcer on his foot for four years. Doctors advised amputation, but he refused and reluctantly tried Plastic Surgery. After a year he then said: "I used your salve and my foot was soon completely healed." Best remedy for burns, cuts, bruises, scalds, and a bunion. One box recommended by Barrington Pharmacy. Adv.

## EVENTS AT LAKE ZURICH

News of Beautiful Summer Resort and the Progressive People Who Reside There.

Philip Young spent Wednesday in Chicago.

Otto Frank made a trip to Chicago Tuesday.

Henry Pepper of Waukegan was seen on Saturday.

Mesdames W. Tank and H. Prehn visited Chicago Monday.

H. G. Hillman and J. D. Fink were Chicago visitors Monday.

Lou Geary and children were Barrington visitors Wednesday.

Misses Ella Fodder and Myrtle Heifer visited Wauconda Sunday.

Mrs. Fred Hoeft and Mrs. John Scholtz were Barrington visitors Monday.

Mrs. Irvin Seip is spending Thanksgiving with her mother, Mrs. Brownkamp.

Mrs. Paul Schallenkamer and son visited relatives in Chicago a few days last week.

Miss Cora Prusia and brother, Joseph, are visiting with their sister in Wisconsin this week.

John Gabler has returned to his home in Detroit, Michigan, after visiting relatives here two months.

The village authorities are putting in a large water reservoir for additional protection in case of fire.

Mrs. C. Hockemeyer of Shephard, Michigan, who has been visiting here the past week, started for her home Sunday.

A petition is being circulated for subscriptions to a fund to be used in the building of a new depot here on the new road.

A birthday surprise party was given in honor of John Gebler last Wednesday evening at Young's hotel. Those in attendance were: Mrs. Lou Geary, Mrs. Nora Fuller, Misses Rose Young, Ella Fodder, Clara Prehn, Myrtle Heifer, Mamie Hokemeyer, Edith and Grace Geary, Charles Cordes, Walter Prehn, Dick Eichman and Reed Geary.

The show given by the young ladies of this village at the Lake Shore pavilion Saturday evening was well attended, the large hall being filled to its capacity. A special train from Palatine brought more than 100 people. The show was the best ever given here and the young ladies were complimented by everybody on its success. The dance following the show was enjoyed by all. Nearly \$125 was taken in and the proceeds will be divided in building a cinder walk to the church and the depot fund. It is planned to repeat the show either at Long Grove or Palatine in the near future.

Return Empty Bags.

Our customers are requested to return promptly all empty cement bags they may have. These bags are worth cents apiece if returned in good condition.

## DON'T TRIFLE WITH COUGHS OR COLDS.

Many Have Filled Consumptive Graves Because They Neglected a Cough or Cold.

You never know how soon a cold will become a serious malady. It may be in the head to-day; in the lungs to-morrow and the next day you may be fighting deadly pneumonia for your life. It's much the same with a cough. Inflamed and cough-worn throat and lungs offer the best chance to consumption germs to begin their murderous work. There's only one way to prevent these deadly diseases getting a hold on you. As soon as a cough or cold attacks you take Dr. King's New Discovery until you are entirely cured. Some a dose or two will do the business, saving you suffering and a doctor's bill. Thousands of cures like these below prove its wonderful power to cure coughs and colds.

"I feel sure it's a Godsend to humanity," writes Mrs. Elsie Morton, Columbia, Mo., "for I believe I would have consumption to-day, if I had not used this great remedy." "I take great pleasure in recommending your Dr. King's New Discovery for the benefit of suffering humanity. It's a thoroughly reliable remedy for all coughs, croup and lung troubles. We have used it in our family for fourteen years with the best results. It saved my mother when two doctors gave her up. She had a very severe case of pneumonia and was in bed seven weeks and part of the time 'out of her mind' so that she did not know me. I told father to get me two 50c bottles of Dr. King's New Discovery, which he did, and on taking it she soon began to improve, and four bottles cured her entirely. You may publish this if you wish and I will answer all inquiries, with postage enclosed for reply."

"Yours respectfully,

"Wm. Cogger."

## "61" FLOOR VARNISH

Gives a hard, shiny coating—elastic too.  
LAMEY & CO., BARRINGTON

SYNOPSIS.

Professor Diamond of the Pest Observatory caused a great sensation throughout the country by announcing that what appeared to be a natural destruction of the earth at terrific speed was the destruction of the earth itself. Panic prevails everywhere. The atmosphere is filled with smoke. The atmospheric disturbance knocks people down, bearing a cabalistic design flatters down among the grass at the lawn parties. Identical designs with curious ornamentation were by Doris Fulton, ribbons made of the skins of dead animals, found in the midst of the guests. He notices Doris, and is smitten with her. She must feel he interests some harm to Doris and a fierce battle ensues, in which Tolleriv, the aviator, is the victor. Professor Diamond is dead. The Flying Man, the Flying Man, the Flying Man.

The governor offers a reward of \$5000 for his capture. Doris, however, is not to be found, and the aviators to respond. After a thrilling chase in the air he finds Doris, who has run away to a flying man and killed. Doris tells March of awakening in the night to see the face of the Flying Man at her window.

## CHAPTER VII.—Continued.

"HIM. Yes, I saw him as plainly as I did that night on the lawn when he fell from space, only now he was a hundred times more hideous. And he was making mouths at me or trying to say something or this, I don't know what he was, but anyway I jumped out of bed and ran to father's room. He came back instantly with the gun he has just bought, but there was nothing in sight then. Why is he haunting me? What can it be? The first night on the lawn he seemed to single me out and everyone else and the rest of the world of it these horrible things is doing he comes to my window at midnight. I am frightened, dreadfully frightened and do not want to be alone a moment I had to call up some protector to be with me this afternoon, so I rang you. Can you imagine what that must mean? A cold prickly chill had enveloped March, a nameless fear at the thought of the monster's apparently strange fascination for the sweet woman at his side, but while his voice was more or less serious as he answered her, he was smiling at her in a light a form as possible.

"I am inclined to think like this.

"It is probable that your trinket with its peculiar likeness to a leaf with which he was familiar in his own world and which may have some symbolic meaning among his people, first attracted his attention and curiosity to you. You are a sweet girl, March had to start his love making at the first opportunity—and your sweetness and prettiness—" She checked him.

"As if a monstrosity like him could appreciate what we are pleased to call prettiness among us. You are a real beauty, and of us possess it him. We are not less as grotesque to him as he does to us, with our wingless bodies, earth-bound forms, clumsy looking limbs, queer flapping garments and snail-like gait."

"Very well. We will assume that you are really, really a secondary consideration and that he was merely dominated by the trinket. That should relieve your mind, and nothing is simpler than to leave him the ornament outside as a peace offering. Also, you must remember this house is the place where he received his first introduction to the world, and last night in his prowlings he probably chanced this way and stopped for a moment only out of curiosity."

"Why come to my window?"

"Probably through coincidence pure and simple. Perhaps he merely wished to see what kind of scenes like—"

"Aha!—dark, you know."

She removed her hands from her face and once more sat composedly.

"Of course it is that what you have said is true, since all any of us can do is guess. However, I think differently. I think he was here, for that he is unfeeling and reverent. There can be no doubt. And it was here, remember, that he was first attacked, attacked before he had offered violence to us. You know Clay started by shooting him, and Clay was here for several days afterwards with a gun. It is possible that the creature knew that to be so, does not know that Clay has left and came here looking for him. And then again, perhaps he was after me once more. Oh, I don't know, but I am terribly worried."

"Doris!" he cried almost fiercely.

"We are all right enough as far as they go, but what you need above all other things is one who can be at your side in the darkness as well as the light; someone who can guard you, protect you and comfort you. In fact, I think he is as no father can."

"Which I suppose means that I need a husband," she broke in quietly.

"You have guessed marvelously."

"And therefore that the husband should by rights be you."

"Unquestionably."

A faint smile rippled across her face.

"Very well, sir. I will file this application among the others, and a little later if I find I have need of such an

assistant I will be pleased to communicate with you further," she responded in a monotonous, businesslike voice. She leaned forward, looking down the stairs. "There comes Clay," she announced.

Intrepidity amounting to anger, and disappointment approaching disgust pervaded Alan's being. After ten days of not seeing her and now, just when they were getting started on the right conversational track, she had an exasperatingly disagreeable word reported who had just left her house after staying there constantly for days upon days. The professor for the time disappeared and Alan even condescended to accept the cigarette that Clay condescended to offer him. They in the midst of their light chatter, the strength of which was unbroken, the aviator, in a fit of sudden anger, leaped from his chair, shouting, "I am to do battle, while Tolleriv, muttering a fierce imprecation beneath his breath and the girl grew pale as death. For a moment they looked at each other with starled eyes, then Tolleriv forced a laugh.

"I am to do battle. Too realistic he was to be comfortable. But of course it was nothing but a fool cloud, and thank goodness we are not superstitious. Listen to that!" From overhead there came the peculiar clanking whistle of aerial propellers and stepping quickly to the lawn they gazed up at two small aeroplanes, the speed of which made the little trees play around the park a mile away beyond which has been set aside for their use.

"It is North and Luther arriving,"

March told them. "I saw in the paper that they were expected to arrive to-morrow. North is an old friend I suppose and Luther is to do battle with him."

Doris quickly assented, and walking on at each side of her March and Tolleriv passed out of the gate and wandered towards the alighting place of the planes. Her heart uncovered, her glossy hair glinting opaque in the sun, her slender limbs, her youthful, faultless form in her perfectly fitting gray gown, no man passed her without a second admiring look, few women without envy. And proud of her indeed were the two who walked so erectly at her side.

They were not long away about their business, tightening this, loosening that, testing everything. He was a good-looking young fellow of about twenty-five, determined of face and sinewy of form and an aviator of the foremost rank, although almost the antithesis of the flying man.

The aviator, a bold man had been born.

North was modest, where one had been reckless the other was merely brave, and where obstinacy had been predominant in the former in the man they now saw cool determination held sway. He greeted March enthusiastically.

"It is impossible that you with your keen perception have not read my feelings towards you for my woman could remain oblivious to such a patent state of mind as mine has been."

"You have not given me your name?"

"I am to do battle with him," he said.

"I am to do battle with him," he said.

## CANADA WINS AGAIN

This Time at the International Soil Products in Oklahoma.

Last year and the year before, and the year before that, the farm products of Western Canada carried off first premiums, championships and honours, together with medals and diplomas, feats that were likely to give a smile to any other than those who were more behind.

At Columbus, Ohio, and then again at Columbia, North Carolina, a farmer of Saskatchewan carried off the highest prize for oats, and in another year, will become the possessor of the \$1,500 Colorado Trophy; another farmer made two successful exhibitions at the state fairs in the United States, another farmer of Manitoba won championships and sweepstakes at the live stock show to Chicago, and this year expects to duplicate his successes of last year. These winning are the more creditable as none of the cattle were ever fed on corn, but rather fattened on natural grass and grain.

At the Dry Farming Congress held at Lethbridge in 1912, Alberta and Saskatchewan, farmers carried off the principal prizes competing with the world. The most recent winning of Canada have been made at Tulsa, Oklahoma, where seven of the eight entries won the highest rewards at the International Soil Products Exposition were taken by Canada in competition with eleven states.

The chief prize, a threshing machine, valued at \$1,200 for the best bushel of hard wheat, went to Peter Gerlach of Allan, Saskatchewan. Manitoba took all the sweepstakes.

Russia sent one delegate, Spain two, Belgium three, China four, Canada fifty, Mexico five, Norway one, Brazil three.

In the district in which the wheat was grown that won this prize, there were thousands of acres this year that would have done as well. Mr. Gerlach is to be congratulated as well as the Province of Saskatchewan, and Western Canada as a whole, for the great success that has been achieved in both grain and cattle.—Advertisement

Had to Be Careful.

An old man who had led a sinful life was dying, and his wife sent for a nearby preacher to pray with him.

The preacher spent some time praying and talking, and finally the old man said: "What do you want me to do?"

"Renounce the devil!" replied the preacher.

"Well, but, parson," protested the dying man, "I ain't in position to make any enemies."

## ERUPTION SPREAD ON FACE

Good and Sufficient Reasons Why Married Men Lives Longer Than the Bachelor.

It is a good thing for a man to have a wife to look after his ingoings and outgoings—to enforce regularity in his mode of living—to see that he is clothed according to the requirements of the temperature, and to keep him trim, when there is likelihood of showers, and gets good meals at stated hours.

Jacques Berillon, the French expert on occupational diseases, has found that low death rates occur particularly in occupations in which the workman is under more or less supervision as regards not only his health and safety, but his life, and in which he is surrounded by influences tending to prevent dissipations, and conducive to regular hours and regular habits. Bank clerks and fiduciary employees who feel their responsibilities are types of this. Berillon's principle is to have the influence of the wife, and family life.

The married man is supervised for his good, and, having added incentives to self-restraint and to the care of his health, he has a lower mortality than the bachelor.—Journal of the American Medical Association.

Greatly Desired Lady.

It would appear from bits of the social gossip of her day that Miss Bettie Conti's nearest approach to an occupation was refusing offers of marriage. It is stated that the name of the "Princes of Adventures" was connected with her, that she refused to go to the Duke of Wellington and a score of lesser gentlemen.

For years the great heiress was the most glittering matrimonial prize in England, and when at last she consented to change her condition by marrying an American, a London club will strike a responsive chord by writing to the Duke of Wellington and a score of lesser gentlemen.

For years the great heiress was the most glittering matrimonial prize in England, and when at last she consented to change her condition by marrying an American, a London club will strike a responsive chord by writing to the Duke of Wellington and a score of lesser gentlemen.

At last I thought of Cuticure Soap and Ointment and I commenced using them tooth and nail to keep them to complete their cure." Signed Miss Carr. Cuticure Soap and Ointment sold throughout the world. Sample of each free, with \$2.50 Skin Book. Address post card "Cuticure, Dept. L, Boston."—Adv.

FULLY NOURISHED.

Grape-Nuts A Perfectly Balanced Food.

No chemist's analysis of Grape-Nuts can begin to show the real value of the food—the practical value as shown by personal experience.

It is a food that is perfectly balanced, supplies the needed elements for both brain and body in all stages of life from the infant, through the strenuous times of active middle life, and is a comfort and support in old age.

"For two years I have used Grape-

Nuts with milk and a little cream, for breakfast, I am comfortably hungry for my dinner at noon.

Take a little meat, plenty of vegetables and fruit, in season, for the noon meal, and it takes at tea time, take Grape-Nuts alone and feel perfectly nourished.

"Nerve and brain power and memory are much improved since using Grape-Nuts. I am over sixty and weigh 165 lbs. My son and husband seem to have improved more, using Grape-Nuts.

My son, who is a traveling man, eats nothing for breakfast but Grape-Nuts and a glass of milk. An aunt, over 70, seems fully nourished on Grape-Nuts and cream." "There's a Name given by Postman, Battle Creek, Mich. Read "The Road to Wellville" in pigs.

Ever read the above letter? A new one appears from time to time. They are issued, free and full of human interest.
