The new members will take their seats at the next regular meeting of the board which will be Monday evening, May 3.

Prof. Herbert Blaney of the Department of landscape extension of the University of Illinois, who was here taking charge of the work of setting out the trees and shrubbery for the park, addressed the board. Mr. Blaney said that the committee had been very fortunate in securing him as the length of time that he was here as the department had been forced to refuse his job from other townspeople of having so much work to do.

Mr. Carmichael, who resides on the corner of Main and North, Mr. Blaney was to be here only for a day, but on his arrival he found that he couldn't do in that time what was needed so stayed longer. He said that when the park was completed Barrington would have, without question, the finest depot grounds on the Northwestern and as good, if not better than any in the state.

Mr. Blaney stated that in looking up the county records of Barrington streets, he found there was a strip of land, triangular in shape, just south of the railroad at Main street, that never was platted as a street and he suggested that the village park it. He said that from his observation this land was dead space and not used by drivers. This was the place that he picked to be used for a new location for a fountain and also advised discarding the old iron and building a new cement one. This, however, will probably be one of the first questions to confront the new board. The board extended a vote of thanks to Mr. Blaney for the work he had done.

The following resolutions were passed by trustee Plagge and approved:

"Whereas, Railway street between

Cook street and Grove avenue, adjoin-

ing the property of the Chicago &

Northwestern railway company on the south, as originally platted, is but

thirty-three (33) feet wide, which is

Now that Barrington's park is near-

judge of the beautiful effect that will
be produced when the numerous vari-
eties of trees and shrubs have leaves
and blossoms, criticism has in nearly
every case given way to enthusiasm.

Citizens who at first professed alarm
at Railroad street would not prove of
sufficient width when reduced to its
proper width, now realize what a tremen-
dous gain the public will make in
the transformation of what was form-
erly but a bare expanse of half used

Mrs. Esther Falkenstein Dead.

Mrs. Esther Falkenstein, pioneer

settlement worker, died at the Mercy

hospital, Chicago, Tuesday evening

at 8 o'clock. She was operated on for a

tumor about two weeks ago. Hope for

her recovery was abandoned Monday

evening and Tuesday morning she be-
came unconscious.

Nearly every club woman in Cook

county knew Mrs. Falkenstein and

all the children of the poor from

the Falkenstein settlement at 1917

North Richwood street, Chicago, knew

her.

She is survived by one daughter, Miss

W. Brooks who in April was

born at 47 years old. Her

husband died several years ago.

Mrs. Falkenstein addressed the mem-
bers of the Third club and friends

here of her settlement work a year

ago. She gave an interesting and in-
structive talk and made many friends

here.

Castor Brothers will present "The

End of the Trail" under canvas in this

stage Wednesday evening, May 5, at

8:30 o'clock. The company is being

organized here and will be much larger

than last year when they gave "The

Flaming Arrow."

"The End of the Trail" is one of the

few western plays true to nature. It

is not an absurd travesty, full of lurid

impossibilities to disgust an intelligent

and discriminating audience. All

blood and thunder is noticeable, the

story being clearly and cleanly

told, accurately staged, and acted with

every attention to a perfect perform-
ance.—Adv.

George E. Shufeldt, son of the late

terms of the will Mr. Shufeldt was cut

off with \$20,000, another feeling that he

had received his share of the estate

during her lifetime.

THE MERCHANT AND THE COMMUNITY.

The small town merchant is a necessity, and that which is necessary should be protected. The community needs his wares as much as he needs the community cash.

But not every small town merchant is alive to his opportunities and obligations.

Many of them fall by the wayside because of their ignorance of, or indifference to, the rights of the public.

Fifty years ago the merchant sat in his store and waited for business to come to him.

Today the successful merchant is a hunter—he must go out gunning for customers—and his ammunition is his stock in trade and his gun is the local newspaper.

Courteous people of today are as intelligent and up-to-date as their city cousins, and it is up to the merchant by his own action:

If he is a hunter—if he keeps his store clean, his goods neatly displayed, his advertisements running early in the local paper—he attracts the public eye, and the public follows its eye.

But a clean store, neatly displayed goods and newspaper advertising are not the only requisites to a successful mercantile career.

The country merchant should not bank too much on the fact that he is a necessity.

He should be progressive—constantly adding to his trade—dividing means of bettering the condition of the community, and acquainting them of his fact. He should consider their welfare as well as his own.

The merchant should have one iron creed, and that creed should never be broken. He should treat all customers alike, never misrepresent his goods, and keep his shelves well stocked with truth.

He should be considerate of other business men in the community, for their rights are as great as his own. They do not own the town, and neither does he.

He should join wholeheartedly in movements for building up and expanding the business interests of the community, for success is only found on the steepest rounds of the ladder.

The merchant who has built up a reputation as a public spirited man, as one who labors for the well being of the whole community, never lacks customers at his store.

They migrate toward his door as naturally as the birds fly south in winter.

Such merchants gain the confidence of the people, for the people know that the same intelligence and fair dealing which he exerts in behalf of the community will be extended to his customers in commercial life.

Most country towns have a few such merchants in their midst, and the com-

munity is the better off for their presence.

You invariably find their advertisements in the local papers, telling of the merits of the wares they have to sell, and giving the people the information to which they are clearly entitled.

Such business men are successful, because their method of business and their very attitudes breathe success.

They have many customers because the people admire a hustler.

We have some good business men in this town.

They are well supplied with brains and those brains are capable of accomplishing great results.

Individuals they can do much, but collectively they can revolutionize trading conditions of this community.

The money that is being daily sent away for goods might just as well be spent in our local stores—and would, if the merchants gross to the opportunities before them.

It is the easiest thing in the world to keep the money at home, for consumers are not fools.

Just keep the goods the people want and of the quality they want.

Sell those goods at a fair margin of profit, thereby competing in quality and price with the outsider.

Then advertise persistently—keep the home goods constantly in the mind of the customer—awaken him to the fact that it is as much to his interest as to yours to keep his money in circulation at home.

When you CONVINCE the consumer that you HAVE the goods that he wants, and that they can be purchased here JUST AS CHEAPLY as elsewhere, he will keep his money in home BY TRADING AT HOME.

The people WANT a live community, and are willing to SUPPORT live business men.

WOMEN IN ARMS.

Think of it! Women in arms—fighting the battles of their country!

The bitterness and horrors of this war should be brought forcibly home to all civilized people by the action of the women of France.

When fighting becomes necessary it is assumed to be the exclusive province of man to engage in the active fray.

And yet this frivilous wife has reached the stage where the women of Paris are recruiting a regiment of soldiers among their own sex for duty in the field.

Men are needed on the battle line and this regiment of women soldiers will shoulder their rifles and convey ammunition and provision trains, carry on conquered territory, and perform other field duty necessary, in order to relieve men who are needed at the front.

Women in arms!

Has the civilization of this world fallen so low that the mother of man must sink her sex and express her ferocity to the mutilation of shot and shell?

Must she face the horrors of the battlefield, the risks of a campaign and the perils of armed camps in order that kings, emperors and gods may satiate their cravings for continual war?

Women in arms!

Is the law of man for power so great that the soreness of command must be brisht aside, her frailty trampled in the dust, her privacy outraged by the grays of camp life?

God forbid!

The patriotism of those women is sublime.

It has few parallels in history. But what a disgrace to mankind—what a blow to our blood bespattered civilization!

DUST OFF YOUR BRAINS.

Listen—it up—take notice! Every ounce of your brains will be needed in commerce life this year—and more, if you had them.

Dust them off—get rid of the cobwebs—give them full sway!

Dig up your surplus capital and start it working.

Better times are biding, feel even now all over the country—opportunities are opening up to us—prosperity is knocking at our door.

Dust off your brains!

Put them and your capital to work reconstructing our battered commercial life—foist new energy into the

farmers and our business enterprises—spread the gospel of confidence abroad in the land and BOOST FOR OUR OWN COMMUNITY.

Push up your brains—oil their nerves—put them in condition for meeting the demands of the hour.

There's work ahead for them—opportunity for every ounce of them.

Opportunity was never greater than it is today.

It knocketh at our doors were never more beaten.

Trade possibilities were never better—there was never a greater demand for American products—and yet a few months from now the demand will be tremendously increased.

The great nations of Europe will swamp us with their orders for manufactured articles, and foodstuffs—and Europe pays to gold.

SEEING LIFE with JOHN HENRY

by George V. Hobart

John Henry on Turkey Trotting

(Copyright, 1913, by the McCook Newspaper Syndicate.)

SAY I did ever get up and go to Turkey Trotting? I did.

You wouldn't think it, but here in New York the Pet of Fortune who makes it his life's work to burn Money is sometimes hard put for an excuse to Light the Match.

With a Peaches with nothing in his stick but a pencil what falls into his hatful of Maxima he quickly realizes that the money has to be ignited—but how to do it!

The sawing that hangs between his pompadour and his eyebrows becomes Car-coufroum from trying to figure out how to get the fire to the cold. Dad left him without attracting the attention of the police.

The Poor Thing soon discovers that it's awfully hard to invent a new style in Financial Bonfires, to be fatal kick on the flint-and-steel method of ignition, and Games is a Party.

The last straw is a hatful of green and yellow matchbooks with a brighter flame if he can induce a lot of Night Riders to burn his hearthstones during the ceremony.

And Joy in abundance is his when they begin to kick the ashes around his \$5,000 apartment with their slipper-toes.

Having heard Peaches broach a desire to be Among Those Present at a Turkey Trot, our friend Hep Hardy got busy with his favorite paying teller and gave one.

I tried to explain to friend wife that she'd find herself in a blushing predicament when she was invited to those discussing White Slave dramas, hot from the Grand Jury room, but she merely stung me with a dimpled smile and said, "Fush; come on; let's take a taxi."

Hep lives in one of those expensive shacks with the end of the map made up 40 feet like the Queen Louis the Fifteenth used to get shaved off.

When you step in the front door you think you've suddenly arrived at a forced sale of art objects and bric-a-brac.

The attendant who greets you with a grin and a shrug of the shoulders has been at one time a Captain in the Imperial German Army, he still

wears his Ushlan uniform with the hand-painted steeds and the Murillo-like Indians in the all-over pattern. Some class, take it from Uncle John.

There is such an air of subdued elegance and concentrated luxury about the layout that you want to rush to a telephone, call up your office and tell them you're not going to work again as long as you live.

The elevator doors swing open disclosing a picture past can't of a Turkish seraglio—whatever that is. Then a West Indian chauffeur, all dolled like Sir Walter Raleigh on his way to see Queen Elizabeth, gives you a high sign and you're off to the boudoir where you sink to your waist in the Persian rug on the floor of the gilded cage.

Hep's parlor grounds are on the Twelfth floor. His apartment consists of eleven rooms, and nine baths, and the butler's pantry has no bath attached, but Hep says that defect will be remedied if he has to drop another \$3,000 a year into the Kitty.

The Party was in full blast when we reached the scene of the Conflagration.

A string orchestra concealed behind a lot of astrotacotic rubber plants scattered enough ras-time for everybody to dip in and help themselves, so up and down through Hep's library into the drawing-room, through the living-room across the hall, and through the card room, around theoyer, back through the hall, and back into the drawing-room, the various couples pranced and galloped and wriggled and squirmed and jostled each other into the belief that this was Life.

Hop met us at the door of the Fun Factory and introduced us to all the

I bring the bacon every time the flag drops. It's a pipe I can learn any day. I tell you, Hep, Hardy, didn't know, and we boys are like a couple of nervous ferry-boats.

"Ah the Turkey Trot needs is two arms, two legs and a sunny disposition."

"Here's my card—anything you like I'll learn you—the tango, the dip, the trip, the waltz, the foxtrot, the fox, the mazurka, the samba, the spiral, the foxtrot and alt., and the side-wheel. Say! if your wife will come out on the fire escape, where it's quiet I'll learn her the Texas Spider in eight minutes by a stop-watch—get me?"

"I get you," I said, "but I don't know how to teach."

Then we permitted Hep to fade abruptly out of our lives while Peaches quipped, "Why should any sane person want to learn those awful dances?"

"Trust for you, little bright-lamps," I chorused; "but they tell me there's a mighty big ol' germ that gets in the blood when you learn to dance, and when you break out in a Bunny Hug."

"Nonsense," she snorted and left me flat just as Hep hustled up again

"Pardon me," he said, giggling, "but to a man with my keen sense of humor the end of the world is nigh."

"I am a little bit ludicrous."

"Now that my laughter has subsided, would you mind doing it over again that I may study the situation from a psychological point of view?"

"What are you going to do with it?"

"I wanted to catch him into one of the traps of the side-wheel, the shiner on him, but Peaches begged me not to dampen his youthful ardor, so I told him what particular ingredient of a cheese sandwich he resembled and passed him wp.

George is fearfully crude. With his thick, dark hair, his bulging forehead and assembled teeth, into neat little paragraphs. These he carries on a tray to a magazine where kind-hearted men pay him money and beg him not to come back until he has spent it all.

Gloria was getting along very nicely until one of the girls in the room began to sing, and Hep closed his eyes and fell asleep.

Now he makes up his pieces in front of a mirror and when he thinks of something devilishly cute he and his reflection exchange loving glances. Then he puts a medal on his breast and quits work for the day.

Somehow he always manages to catch and strip his violet red hair.

In the meantime, the war dance of the Manhattan Indians went bravely on. It was catch-a-catch-can all over the place.

They swayed and toddled and wobbled and bobbed, each and all of them, in a frantic effort to catch the fact that they were human beings.

They danced the Lamb Duck and

Hoofed It Down the Room.

To inquire if we were having a good time.

"Great!" I announced; "but, say, hep! you've been getting some new statuary, haven't you? What's that over in the corner there, with the bright lights around it?" Venus was a real show-off.

"Let go!" Hep snickered. "That's Garibaldi Saitt of the Frivolity Theater."

"Oh!" I said; "what's the matter with the dressmaker's disappoint?"

"Why, no!" Hep assured me; "she's wearing—let's see—French crepe."

"Well, why not?" Hep whispered.

"Let go!" Hep snickered. "That's Garibaldi Saitt of the Frivolity Theater."

"Which part?" I queried; "that makes seven we've counted in half an hour."

"What are you referring to? I mean to say?" I moaned the son of a Beldar Earl.

"I'm afraid it's been slipping over since the night I started."

"Some of these girls do the Turkey trot like a hunger; man going up an apple-tree for a midday meal?"

"Quite so," puffed the last of his race; "but I was referring to the affair—the party! Rippings! I didn't know I was going to like America, I mean to say?"

"I'm afraid it's been slipping over since the night I started."

"Come out of the hardware store," I answered. "She's doing the Armistice Blitsch."

"I'll be gone up and ahead."
