BARRINGTON, ILLINOIS, THURSDAY, JUNE 24, 1915

\$1.50 PER YEAR IN ADVANCE

PROF. SMITH WRITES ABOUT SCHOOL WORK

Reviews School Year and Tells Many Interesting Things About Pupils and Teachers and Attendance.

MISS GARDNER ENCLOSES LETTER

Unfolds Idea That Are Good—School Play Ground to be Equipped With Coaster Slide, Swings, Etc.

School closed Friday, June 18, for the summer vacation. The total enrollment for the year was 316; total enrollment for the year ending June, 1915, was 337.

School was closed, because of the diphtheria epidemic, 104 days. The actual teaching time was made up, in part by teaching on days that have usually been given as holidays, also on two visiting days. Teachers and pupils have made an excellent effort, so that the usual amount of work, in the essential studies this has been done, so that the pupils may advance as usual. The work throughout the year has been marked by the earnestness of all. The days have passed by rapidly and happily. The spirit of loyalty to the school, the spirit of pro- and anti-enthusiasm for the school prevails and we are looking forward to a bigger and better future.

The teaching corps for next year remains practically unchanged, there being not one vacancy to fill, that of German teacher in the high school. The grading of pupils for next year has been done in such a way as to keep the enrollment of all the rooms at nearly 40 pupils. It was made possible because of the entering class for next September being unusually small, so that grades one and two may be placed in the first room.

The course of study in the grades will remain unchanged. In the high school it is hoped that we may add one or two subjects and perhaps give attention to manual training and domestic science again.

During the summer there will be installed on the playground back of the school building, some athletic play apparatus. This apparatus will occupy a space about 30x50 and is 14 feet high. It will consist of a coaster slide, two sets flying wings, two swings, two climbing poles, flexible ladder, turning bar and two hanging rings. The purchase price is \$200 and nearly all of that amount is now at the disposal of the superintendent, Prof. E. S. Smith. This fund comes from money received at the last two school exhibits.

Play and work are essential to physical and mental development and play is work, or work is play, depending largely on the doer. This apparatus we believe will especially interest the younger pupils and materially assist in giving them the necessary amount of play, while it is hoped that the Junior Chautauque rest room will be instrumental in getting all of the older pupils interested in organized games.

In the high school, the number of subjects offered have been decreased in order to meet requirements for graduation, with the state university. The conditions have been met and our school has been granted a certificate as a recognized high school from the state superintendent and has been placed also on the accredited list by the state university.

Our boys and girls have kept up the standard of the school in both educational and athletic contests. In spelling they received six badges for perfect scores and Harriet Kampert won first place for the divisions in the oratorical contest. Pearl Hinchbaugh won first in the district and second in the county in basketball our boys are second in the Peoria league; in the division track and field events the school earned more points than all the other schools combined and in agricultural activities the school won the \$100 Chicago Tribune prize, while Henry Riecke won second place in this division.

Pupils called "the A pupils" of the year, of those who ranked highest in every way are, in the fourth grade, Ruth Schumann, Helen Abbott and Dorothy Kilgus and second grade, Mildred Gleason. The number of tuition pupils is 38; five years ago in 1910 the number was 20.

Superintendent of Schools, E. S. SMITH.

Miss Mabel F. Gardiner, who has the position of ranking teacher in the high school and is next in authority to Prof. Smith in the public school here, writes for the Review:

I am very much in favor of some plan whereby the teachers have a definite time and place of meeting, not only for the discussion of the needs and outlook of the local school, but also for

Continued in next column

MISS PLACGE'S ANNUAL MUSICAL

Miss Elva Chrysler's Vocal Students and the Pupils of Almida Plagge Did Very Creditably Indeed.

The annual public musicals given by the piano pupils of Miss Almida Plagge and the vocal pupils of Miss Elva Chrysler of Chicago, took place on Tuesday afternoon and evening, June 22, at the Salem church. The afternoon festival opened at 3 o'clock with Ruth Harrover and Helen Neeher at the piano. They and the many little folks who followed them rendered with true artistic taste their splendid solos, duets, trios or two-part parts. The audience made up of parents and friends of the participants was highly entertained and the enthusiasm shown by the little folks was contagious reaching out to all present. I cannot here comment upon each number but wish to commend these young players on their success thus far, hoping that the spirit and interest shown will grow with their years.

Miss Genevieve Pomeroy ended the first half of the program by giving two fine vocal solos, the last one "Rock a Bye," one of our old fashioned lullabies, which she sang with perfect ease. The program ended with two vocal solos by Mr. Charles Thomas. The old adage "All's well that ends well" applied here, for both were greatly appreciated and the audience left feeling that much work had been done. The pupils and teachers for the fine talent brought forth.

The evening recital began at 8 o'clock with Mabel Grobo, Loh Garblich, Ruth Waterman and Violet Landwehr rendering two- and three-part songs. The opening number of a program which proved to be most entertaining. A goodly crowd were assembled and enthusiastically applauded each number. Most of the piano solos rendered were difficult and were executed in a way that showed careful study and excellent technique. The best player of a performer may be perfect and yet his playing be devoid of expression. Here, however, both were equally good. Miss Frances Dolan, formerly a resident of Barrington, delighted her audience by giving several excellent recitals. The second time she appeared the song "How Salvador Won" by Ella Wheeler Wilcox. This required great skill on her part and kept her audience in a state of tense interest, the excitement of the recital being shared by everyone present, to its measure. Miss Edith Hahn also gave two very fine vocal solos, her second, "Gaily," being especially well adapted to her voice and so rendered beautifully. The "Rock a Bye" song given by Miss Genevieve Pomeroy in the afternoon was repeated in the evening by request. Too much can be said of the rapid advance made by the pupils and the audience showed their appreciation. Miss Chrysler's class numbers and pupils and Miss Plagge's 40, all of whom did not appear on the program.

MISS REUBEN PLACGE, Cried of Thanks.

We extend our heartfelt thanks to the many friends who so kindly assisted us in sickness and death of our beloved mother and brother, especially the W. R. C. and the G. A. R.

MISS E. E. O'NEAL, MISS J. E. JENSEN, MISS SARAH SEEN.

some study which might be carried on in common. There are so many phases of our work which are peculiar to individual rooms, of course, that we need some one interest which would appeal intimately to every one.

For my own work I am planning to give more time to oral composition, which in the third and fourth year classes will be largely argumentation. I wish also to revise some drill in parliamentary rules, that our high school students may become familiar with the correct procedure for presiding over a meeting, conducting an election, etc.

Mabel F. Gardiner.

Pupils who have been neither absent nor tardy for the school year 1914-15: Room 1—Chris Gardner and Eldora Hutchinson; Room 2—Ira Mae Garblich and Jack Weinman; Room 3—Lucille Steffenhagen, Marion Schroder, Harold Hutchinson and Walter Hase. Room 4—Bessie Fowler, Edna Webster, John Plagge, Foster Hilde and Donald Groll; Room 5—Herman Friel, Merrill Garblich, Archie Cowan, Walter Schlegel and Vernon Schroeder. Room 6—Maudie Smith, Elsie Gleason, Curtis Jahnke, High School—Vernie Richardson, Bessie McLaughlin, Lucile Robertson and Ruth Barnes.

AUTOMOBILE SPEEDWAY GONE DRY

Authorities Think Prohibiting Sale of Liquor Will Uplift Sport Here and Everywhere Races Are Held.

"The Automobile Speedway has gone dry" was the announcement made at Maywood park this week, and this announcement stands. When the first set of cars arrived at the track, thereby attracting a daily crowd, the Maywood authorities were petitioned to grant a permit for the sale of liquor on the grounds. The permit was duly delivered and immediately a big business was noticeable at the various stands. It was the intention of these holding refreshment concessions to confine with the sale of beer throughout the trials and on the day of the big 500 mile derby, June 20, but now it is all off. "For the good of the automobile racing game and for the uplift of sport here and everywhere we have decided to prohibit the sale of intoxicating liquors on the grounds," was the explanation offered by one of the Speedway park officials when asked the meaning for all the business of teaming away cases and kegs of the amber nectar. "It would have been what it is today if it had not been for the prohibiting of intoxicants on the grounds," said C. F. Wells of the Speedway committee, "and we want to make a clean and pleasing start at our new speedway. Beer should not be allowed on the grounds, let alone in the park, and this rule which prohibits the sale will stand as long as the speedway races continue."

Starter Fred Wagner who represents the American Automobile Association mentioned several incidents in which the sale of liquor resulted in accidents on the track. The Vanderbilt cup race was robbed of its success on two different occasions because of the throwing of empty beer bottles, one directed at Wagner, and two fatal accidents resulted from this same cause. Practically every city and town in the country will be required to banish 500 mile derbies which is scheduled for Saturday, June 26, and according to the books dealing with the advance sale of seats, there will be few seats left for Chicagoans after the visitors have been cared for.

ORGANIZE LAW AND ORDER LEAGUE

Village of Des Plaines Retain Howard P. Castle to Look After the Legal End of the Matter.

Our neighboring village of Des Plaines, which as a part of the town of Moline, Cook county, voted out saloons a year ago, has been having some trouble with "blind pigs." As the village authorities failed to enforce the local option law number one of prominent citizens, headed by W. L. Smyser, organized themselves into a law and order league and retained Howard P. Castle of Barrington to take charge of the legal end of the matter.

Detectives were employed and they had little difficulty in securing the best of evidence. On May 11 warrants were sworn out and placed in the hands of the sheriff who made arrests and in some of the places seized bootlegged beer as evidence. The preliminary examinations were before Justice McKee at Oak Park and the last case was heard last Saturday.

All of the new defendants, including Justice of the Peace Fred Thomas and his three sons were bound over to the grand jury in bonds of \$500 each. Much liquid evidence, in the way of whiskey and beer, helped to convince the court that the law had been violated. Clarence Thomas, one of the sons, is well known in Barrington as a pianist who has appeared here on programs.

Chautauque July 23 to 28.

The National Lincoln Chautauque system will give a series of entertainments in Barrington from July 23 to July 28. The programs will be given each day and feature talent that ever is promised. Season tickets enable the people to attend six days, or 12 times, good lectures and musicals for a small sum. The main feature will be the Ellis Bros. Military band. The subject of the lectures will be to be given. The program reads "Grand Jubilee Number, the Opera 'Martha' given in costume by the Chicago Artists quartette."

One of the new ideas to be followed this year will be the Junior Chautauque and an special playing card and set will have charge of the amusement of children. Vesper services and other suitable features have been arranged for Sunday.

Miss Gilly.

Miss Eliza Gilly, second daughter of Mr. and Mrs. Daniel Gilly of Cuba township was married last Saturday afternoon, June 19, at St. Paul's church at 2:30 o'clock to William C. Rice of Dundee.

Rev. Herman Tietke performed the ceremony and those who were attendants are Miss Eliza Gilly, sister of the bride and her brother, Daniel Gilly, Miss Mary Kahl of Dundee, a cousin of the groom and his brother, Edward Rice.

Miss Gilly wore a gown of white and carried flowers. The church was filled with relatives and members of the church congregation. Many of them went to the Gilly home for the wedding reception and evening of games and amusements.

Mr. and Mrs. Mrs. Rice will live in Dundee.

Concert Next Monday.

Miss Irene Keeler will give a concert next Monday evening, June 28, at the Methodist church at 8:15 o'clock. Her pupils assisted by J. Luther Jones, quartet and Miss Edna Riebel, soloist, of Chicago will appear on the program. All are cordially invited. A silver collection will be taken.

Barrington girls who will play are: Florence Schur, Harriet Kampert, Madeline Schur, Alice Rowe, Hazel Meyer, Ruth Meyer and Frances Garblich. Others from Crystal Lake, Arlington Heights and Chicago are to be here.

The Music News, of June 11, a Chicago publication, published a hearty commendation of Miss Keeler's playing and she was graduated two weeks ago from the Western conservatory, Chicago.

COMMENCEMENT NIGHT WAS COOL

Very Different From Many Former Suffragette Gatherings and so Was 'Far More Interesting to Hear.

Thursday, June 17, Commencement night for the class of 1915, Barrington High school, was the coolest evening for the graduating exercises in years, making the occasion far more pleasant than many of the suffragette gatherings of other years. The Salem church, where the graduates received their diplomas, was filled with invited guests and others interested and expecting for one change the commencement program was completely as expected.

The six young lady graduates and three young men sat in a semi-circle under a large representation of their class emblem, paper-like in shape, which was developed in rose red paper and showed the class motto, "Our Aim, Success; Our Hope, To Win." The girls, who are the Misses Pearl Kieley, Violet Landwehr, Ann Schlegel, Pearl Burkhardt, Edith Riebel and Genevieve Cullen, wore simple white dresses of various materials, thin silks and velvets, and were as fresh and sweet as the beautiful American beauty roses which each one wore as a corsage boutonniere. The boys, graduating were Milton Landwehr, Roscoe Nightengale and John Canlow. They received many gifts from their people and friends.

Red roses, the American beauty rose being the class flower, were placed in bouquets around the chapel and long assumed red and white benches were laid around its edge, while ferns and potted plants backed its elevation above the church floor.

Pastors, school board members and speaker of the evening sat with the graduates. Several musical numbers on various instruments and two vocal solos were a part of the program. Rev. J. Hoerner, pastor of Salem church, offered the invocation and Rev. G. H. Lockhart of the Baptist church gave the benediction. Howard P. Castle of the school of education presented the diplomas, the honor certificate by graduation for each hour of study have been made.

John C. Hanna, representing the state of Illinois as "high school director," lectured, taking the subject of character building as the foundation for his talk, he presented a paper on "Laboratory of traits in human life" which was interesting and reminded his audience that while no one is responsible for the good or bad characteristics received from ancestors, that parents are responsible for what a child grows to be. He spoke of traits in human life which have descended to us from the days when men were ape-like creatures running wild.

All along his speech were facts of scientific knowledge worth hearkening to in pleasure, simply spoken in a manner with a nice gentle and affable personality.

The class picnic, to have occurred last Friday, was postponed until June 24.

Saturday evening, the final event of commencement week was the Alumni Banquet served by the Directors of the Baptist church in the church parlors for 35 graduates of the Barrington High school and 25 of their guests. The class of 1915 and Professor and Mrs. E. S. Smith were seated at one table in the center and two long tables were arranged for the others who were grouped according to the year of graduation.

The banquet was in three courses and the class flower of the various classes graced the tables. The school Victrola made a pleasant orchestra. Afterwards in the church auditorium the program was given as follows: quartette, Mesdames V. Hawley and Brown, Misses Frances and Almida Plagge; piano duet, Almida Plagge and Violet Landwehr; song, duet by Newton, Plagge, Clarence Miller and Howard Harnden and read by the latter; song, class of 1915.

Attention is called to an ordinance passed by the board of trustees of the village of Barrington, June 23, at 9 o'clock, which prohibits the sale of fireworks, firecrackers and other explosives in the village of Barrington. One who violates this ordinance will be given by the president of the board to any person who is desiring to give a public display of fireworks.

EDWARD PETERS, Marshal.

Constitution Cured Overnight.

A small dose of Po-Do-Lax tonight and you enjoy a full, free bowel movement in the morning. No griping, no Po-Do-Lax in the stomach (May Apolo) without the griping. Po-Do-Lax corrects the cause of Constipation by arousing the liver, increasing the flow of bile. Bile is nature's cathartic in the bowels. With proper amount of bile digestion is perfect. No gas, no fermentation, no constipation. Don't be sick, nervous, irritable. Get a bottle of Po-Do-Lax from your drug store and cure your Constipation overnight.

ONE MORE OLD YET-ERAN PASSED AWAY

John A. Crozman, Aged 83 Years, Formerly Lived Here and for Years Worked in Cannons Saw Mill.

MRS. MINNIE PLACGE ALSO DEAD

Aged Lady Was Member of the Zion Church From Where the Funeral Will Be Saturday at 2:30.

The death of John A. Crozman, aged 83 years, occurred Thursday, morning, June 17, at 10:30 at the home of his sister, Mrs. Sarah Senz, on South Hawley street where he had lived for four years and had been an invalid nearly all of the time with a heart trouble and dropsy. For the past three months he had been unable to lie down and was obliged to rest in a large chair. He was well known among the older residents of this village which was his home for many years. His reputation as a man was good and he was always called industrious and honest with a friendly manner and cheerful way. As a veteran of the Civil war and a member of the G. A. R. of Crystal Lake, he was much affected in listening to the sound of the parade, passing near on the recent Decoration day, which he could not even see. The G. A. R. was the only organization to which he ever belonged. He moved to Crystal Lake years ago.

John Crozman was born in Prattsburg, Steuben county, New York, on December 26, 1831. With his parents he came to Illinois when young. They settled on the farm known as the Jay's farm, towards Algonquin. The only living member of his father's family is the sister, Mrs. Senz, who was Sarah Crozman. When 35 years old he married Miss Frances Tumburg of Barrington who died 11 years later in 1889. There were three children: James, who died at 18 years; Corwin, now Mrs. Edward O'Neal of Woodstock and Ellen, now Mrs. John Jeffries of Madison, Wisconsin. There are five grand children in the Jeffries family.

His regiment was the 15th Illinois Cavalry and he enlisted at the beginning of the war when 27 years old and was honorably discharged in 1861 at Springfield. He was captured during the war and exposed to awful treatment in a Texas prison.

The main business which he followed through life was that of a stationary engineer and he was employed for years at the Cannons Saw Mill at which stood where the Plagge living barn and Riecke store are now located.

The funeral was held at the Christian church in Crystal Lake on last Saturday morning. Rev. G. H. Lockhart accompanied the funeral party across country from here and assisted the pastor of that church in the service.

About eight members of the Barrington Post, G. A. R., also attended and the service at the grave in Union cemetery, Crystal Lake, was conducted by the Post of Chicago.

Mrs. MINNIE PLACGE.

Mrs. Minnie Plagge, aged 67 years, wife of Henry Plagge, died at her home on South Hawley street on Wednesday morning, June 23, at 9 o'clock. She had been in fair health up to three weeks ago, although the cause of death was a cancer of the liver.

Only the later years of her life were in this village. She was a member of the Zion Evangelical church and one who had lived a long life of good acts for her family and friends.

She was born May 17, 1842, at Elmhurst and was married to Henry Plagge May 9, 1862. Their golden wedding was celebrated three years ago. For 43 years she lived on a farm south of Barrington and then in Lake Zurich. Seven years ago the family moved here. One daughter is living at home, Miss Minnie M. Plagge and there are three sons, Frank, of this village, Fred E. of Elgin and Walter B. of Lake Zurich. There are 15 grand children.

The funeral will be held Saturday afternoon at 1:30 o'clock at the home and another service in the Zion church will follow. Rev. John Kiest of Oak Park will officiate assisting Rev. J. Hoerner of the Salem church. Burial will be in Evergreen cemetery.

Birthday Party.

The eighteenth anniversary of the birth of Mrs. Warren Powers of Wauconda, mother of Lyman A. Powers of Lake street, was celebrated Sunday, June 20, at the home of Mr. Powers. Guests who bore company were Mrs. Powers and her family were: Mrs. Hannah Powers of this place; Mrs. Cora Bang, Miss Velda and Andrew Bangs late Ray Cook of Wauconda; Miss Georgia Sallor and W. H. Adams of Chicago.

THURSDAY, JUNE 24, 1915.

SO SIMPLE IT'S TRUE.

Sometimes we run across a person who always has a wall because his neighbors have plenty and he has nothing. And it would just follow them to the end of their careers we would probably find the neighbors continuing in the enjoyment of plenty while the wailer drifts along with his umulation of nothing. And then we care to dig down and exhume the cause we would doubtless find: the neighbors working and improving their opportunities while the wailer carelessly allows his to slip by. At least that is the way it appears to us and it is so simple we believe it to be true.

As a Reminder.

Frances was finding it tiresome to be kept in on a rainy day. After every child futile appeal to be allowed to go out, she said emphatically: "Well, I am going to leave this house and not come back." Thinking to frighten her out of the idea I said: "Very well, then I'll pack your clothes." "No," was the calm reply. "I think I will leave them here so you can always remember just how big I was when I left."

Couldn't Solve the Problem.

After retiring from business a certain man continued to maintain an office in a downtown building. He had no need of it, and furthermore was out of town almost all the time. A friend of his pointed out the inconsistency, and asked him why he didn't give up the office. "I would," said the other, "but I don't know what to do with the rug."

Nothing New.

This time it has been discovered that the steam engine was known in Egypt as early as the year 200 B. C. The machine in question was a rotary affair and more theoretical than practical. A Greek adaptation of the same idea was used a little later for turning the spit. Then steam power dropped out of sight for centuries.

Crafty Editor.

A Virginia editor threatened to publish the name of a certain young man who was seen hugging and kissing a girl in the park unless his subscription to the paper was paid up in a week. Fifty-nine young men called and paid up the next day, while two even paid a year in advance.

Sizing Up Baby.

"Which side of the house do you think the baby resembles most?" proudly asked young Poppy. "Well, I'm!" answered Smith. "I can't see that he looks so very much like the side of a house."—Woman's Home Companion.

Near-Sightedness.

Many people believe that a child may be born near-sighted, but this is not the case. Near-sightedness always results from strain, and in the great majority of cases can be prevented, or at least kept down to low degrees.

Coined "Angels."

An "angel" was an ancient gold coin weighing four pennyweights and valued at 66 in the reign of Henry IV, and at 106 in the reign of Elizabeth in 1562. It took its name from the obverse of an angel embossed on one side.

THE BEST SECURITY ON EARTH IS EARTH

First Mortgage Real Estate Series 65 Gold Bonds, secured by First Mortgage on Improved Residence and Business Property in Chicago, are absolutely safe; they are not affected by the war. Pooling by the State, they have a place to live; they must pay their landlord as they must pay the grocer and butcher. You can invest through us as little as \$100 in such bonds, paying six percent interest, three per cent every six months. We have specialized for years in bonds of this kind, and of all the different classes of investments, these bonds have given the best satisfaction—perfect satisfaction—not a dollar loss of principal or interest. Send for illustrated circular.

To Appreciate Colors.
Only a few of the great painters have been given the credit for the remarkable reason that they could not distinguish color, and up such painters the master colorist has been called crude and garish. This is the thing for everyone is to cultivate the eye to a close and ever observation of all hues and shades in nature, for in that way only one can have the pleasure of the highest appreciation of nature, which is the wondrous revelations of the spectrum is in its divination of the composition of rays of light.

Insect Feigns Death.
The deathwatch beetle has the formidable habit of feigning death when seized or disturbed. The stimulation is so persistent, that when immersed in water, or even in alcohol, the insect remains perfectly immovable, and will allow itself to be burned alive rather than betray life. The trick made by the deathwatch resembles that made by tapping the finger nail upon the table—so much so that the insect may be led to recommence his feigning by doing this.

All Have Three Forms.
All things in the world have three forms: they are gaseous, liquid and solid. Everything is coming from one of these forms into another. For instance, the sperm is a liquid. Dried in the open air, it soon becomes a solid. Then, purified, it is taken up by the air and circulates in minute dust particles, some of which are too small to be seen.

Safety First in the Ministry.
"And what safety would you expect?" asked Deacon Kutchinsky of the church at Hardscrabble. "Seven hundred dollars a year, without doing anything," replied the applicant for the pastorate. "Eight hundred and fifty," with.

Well, What Do They Do?
Experts say that, writers to the contrary notwithstanding, bullets neither whine, hiss, howl, hum nor whisper. Very well, Majority will take the experts' word for it.—New York Evening Telegram.

Lazy Folk.
"Even if some folks knowed dar was a free possum farm in de 'nest' world," said Brother Williams, "dey wouldn't be no hurry ter git dar, for fear dey'd better climb a tree ter git a possum."—Atlanta Constitution.

Almost the Ideal.
"How are the springs in this car?" "Steadily wonderful! You don't notice a child, and even when you run over a grown man, it's no discomfort at all!"—Lila.

Power of the Individual.
If only one person—you—makes up his mind to do his best for the meeting, from that nucleus the contagion of best-doing will spread through the society.

Self-Righteous.
"Some people," said Uncle Eben, "talk about being like it was served own property dat day was prepar to tack a 'No admittance' sign on to"—Washington Star.

Something to Think About.
It isn't always safe to marry a girl who looks good enough to eat. A wife disgraced with a man often has a dinner.

FOR RENT

FOR RENT—Large house on Limited street with bare and good vacant lots commencing July 1. Phone 202-M.

FOR RENT—Upper flat, steam heat, bath, electric light. Situated on South Haverly street. Rent reduced. E. BAUMAN, telephone 133-N-2.

FOR RENT—Furnished rooms near depot. Men preferred. Address P. O. Box 308, Barrington.

MISCELLANEOUS.

Call up or write M. E. Tate, Electrical Contractor, top floor, wiring, electrical fixtures or motor work, Phone 4, Palatine, Illinois.

WANTED—Laundress to iron one day a week. Must be neat. Apply at this office.

LOST—Pocket book containing \$10.75 and check for \$5.00. Reward for return. MARTIN GERDAS, Barrington.

FOUND—Two bicycles, two and one-half miles southeast of Barrington on the Illinois Central. Owners may have same by identifying property and paying for this notice. Telephone Barrington 133-N-1.

FOR SALE

FOR SALE—A 40-acre farm two miles west and three miles south of Barrington, water and sand pit on farm. Will be sold to settle an estate. If interested phone 55-W. Write address box 14, Waukegan.

FOR SALE—Dead Philadelphia lawn mower for \$3.00 cash. Cost \$8.00. LAMEY & COMPANY, Phone No. 1.

FOR SALE—House and lot on Franklin street. For particulars call at this office.

Loved Daddy, Too.
Pinning a flower on my little four-year-old boy's suit on mother's day, I said to him: "You must wear this rose today to show that you love your mother, Edward." In a little while he returned to me saying: "Mother, please pin another rose on me so people will know I love my daddy, too."—Exchange.

Poor Diagnosis.
"What you need," said the eminent medical man, "is more bodily activity. You should exercise your back and limbs and feet. What's your business?" "I am the leading lounge expert on the champagne floor of the elite lobster palace," replied the unhappy patient.—Cleveland Plain Dealer.

No Comes.
"Where do we find the most miserable of men?" exclaimed the exhorter fervently. "You don't have to find him," responded the man in the fourth row, center, "he hunts you up and tells you all about it!"—Philadelphia Public Ledger.

That Remembrance.
"What a funny looking man that conductor is!" said Mrs. Jiggles on the trolley. "Yes," said Jiggles. "I've been trying to think whom he looks like. His face is very familiar to me." "Oh, I know who it is!" said Mrs. Jiggles. "It's our goldfish!"—Judge.

Thirty-Six For 25 Cents.
Dr. King's New Life Pills are now supplied in well-corked glass bottles, containing 36 sugar-coated white pills, for 25c. One pill with a glass of water before retiring is an average dose. Easy and pleasant to take. Effective and positive in result. Cheap and economical to use. Get a bottle today, take a dose tonight—your constipation will be relieved in the morning. 35c for 50c, at all drugists.

What It Was.
Six-year-old returned from his first day at Sunday school, very proud that he had learned the song that the children sang as they marched to the assembly room. "What was the song?" asked the fond parent of orthodox persuasion. "Onward, Christian Soldiers!"—Judge.

What J. F. Gloom Thinks of T. J. Daff.
"Do you read my comic poems?" inquired Tennyson J. Daff, evidently anxious for a compliment. "Occasionally," replied J. F. Gloom, who has a bright though evil mind, "and they always make me sadder if not wiser man."—Kansas City Star.

J. HOWARD FURBY, Dcn-
list, has moved his office from the Groff Building to the Peters Building, three doors west.

Y. P. M. Society first Tuesday each month.

Mission band first Sunday of each month.

The Children's day programs of songs, music and recitations given by the Sunday school last Sunday morning and evening were exceptionally good throughout and greatly enjoyed by the large audience present. The happy faces, the words of appreciation and the offerings, for Home Missions, greatly encouraged the faithful officers, teachers and scholars.

On Wednesday, June 30, at 7:45 p. m., Prof. Roy M. Smith of Western Union college, Lo Mars, Iowa, will speak in the Salem church. Everybody welcome.

REV. J. HOERNER, Pastor.

Neuralgia Pains Stopped.

You don't need to suffer those agonizing nerve pains in the face, head, arm, shoulders, chest and back. Just apply a few drops of soothing Sloan's Liniment, it quietly a few minutes. You will get such relief and comfort! Life and the world will look brighter. Get a bottle today. 3 ounces for 25c., at all drugists. Penetrates without rubbing.

Would Satisfy Him.

To the young man who sat timidly in a corner telling a handsome young woman 15 feet away that he would cross the world for her, she coyly said that she but he satisfied if he simply crossed the room.

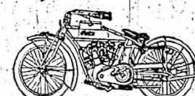

Measure of the Dollar.

It may be useful to know that a silver quarter of a dollar measures three-fourths of an inch across its circumference; a half-dollar one inch and the "dollar of our daddies" one and a half inches.

We are same opinion.

Mildred—"Don't you think Miss Elderly looks much younger than her new hat?" Helen—"Indeed I do. Why, Mildred, it makes her look but very little older than she says she is."—Judge.

Clean Up for the FOURTH

Bring your suits to me and let me clean and press them up for your use on the Fourth of July, when you will want to present the best front while celebrating.

Suits cleaned, pressed and repaired—a lot of work for just a little money.

By our new process we make them look mighty good—almost like a new suit.

Very reasonable and very satisfactory.

ITEMS OF INTEREST TO LOCAL PEOPLE

Happenings of the Week Told in Short Paragraphs—What's Doing in and Near Our Hauling Village.

The Rebekah Sewing circle met at Mrs. Edward Wichman's this Thursday afternoon.

Autumn Leaf Rebekah lodge will hold election of officers and initiation of a new member Friday evening.

The Women's Country Life association will hold a bread exhibit Friday afternoon, June 25, in the village hall.

The Huns family attended the marriage of Hilbert Huns to Miss Elsie Rosenberg in Chicago Wednesday evening.

The Chicago Tribune camp for sick children and mothers opened this week north of Algonquin on the west bank of Fox river.

The Woman's club picnic to have been held Wednesday on Fieck's lawn, Lake Zurich, has been postponed until mid-summer.

Miss Margaret Lamey, Mrs. D. F. Lamey and Mrs. W. H. Snyder went to the funeral of Mrs. John Slack in Chicago Wednesday.

The B. Y. P. U. business meeting and social will be held in the church parlors next Monday evening, June 28. All are invited to attend.

Three recitals of the Sears' School of Music occur this Saturday at the Methodist church, June 28. They will be at 1:30, 3:30 and 8:15 o'clock. No charge of admission is asked.

The Porita club held its annual picnic at the Clark grounds, Lake Zurich, on Wednesday. The resident membership has grown small so that only eight members were present this year.

James A. Vaughan of Boston was expected to reach here last Friday to visit Rev. C. H. Leckhart but en route was called home by a telegram telling of the sudden death of his wife in Massachusetts.

The Women's Relief Corps was entertained with a luncheon Wednesday afternoon by five members whose birthdays occur in June. They are: Mesdames Washeck, Kendall, Tuppitt, Seebert and Drasel.

Mr. and Mrs. A. D. Church have sold their South Hawley street home to George Bauman of Barrington township. The price paid was about \$1,000. The Church family will continue to occupy the house until September.

William Gieske and Edward Peters have been busy during the past week mowing the streets. Most of the main streets are completed and other streets half mowed. The work is stopped at present waiting for the arrival of another tank of oil.

Mr. and Mrs. H. H. Hubbard and Mrs. Jennie Coteles who have lived on Lima street for several years have rented the Akela house on Main street, formerly the Howarth home, and will take up their residence there the last of the week.

The monthly business and social meeting of the Epworth league of the Methodist church will be held at the home of Mr. and Mrs. William Skinn, Lake street, on next Tuesday evening, June 28, at 8 o'clock. A cordial welcome is extended to all.

The Ford automobile of Lake County Superintendent of Schools R. Arthur Simpson was stolen in Waukegan Wednesday morning from in front of his office in the court house. It was 1913 model and license number was 77622, engine number 203,042. Police officers in a 100-mile radius were informed.

The Lake County Odd Fellows' association, comprising Waukegan, Highland Park, Libertyville, Waukegan and Rockford lodges, and also the lodges of Crystal Lake, Cary, Palatine and Barrington will meet in the village hall Saturday evening, June 26. The guest of honor will be Grand Master W. H. Pense of Illinois accompanied by other leaders of the grand order.

Mrs. Reuben Plagge, teacher of room four, which includes the third and fourth grades of the village school, took her scholars to the baseball park on Walnut street last Saturday morning for an outing and picnic luncheon to mark the closing of school. A baseball game between the grades and other contests were hard fought. There were 32 pupils in the party.

Rev. Herman Tietko and Gottlieb Kuhlman, as delegates of the St. Paul's congregation, will attend the Conference of the Northern Illinois district of the Evangelical Synod of North America which will be held at St. Peter's church at Champaign from June 23 to June 28. They left here yesterday. Mr. Kuhlman will visit at the home of A. Ultsch in that city; he was a former resident of Barrington and is the father of Albert Ultsch of the local bank here. There will be no service here next Sunday.

The Jolly Girls' club met last week with Miss Bessie Penn on the Hawthorne South farm. She proved a charming hostess and the evening was spent in an interesting way. The club presented Miss Alma Hendricks with a silver spoon as it was her last meeting with the girls whom she organized into a club. Several club guests were present and ice cream and cake was served by the hostess.

Her Waist Measure.
A teacher in one of the city schools—who, to say the least, is of rather generous proportions—was trying to explain to her scholars the correct measurements of the human frame. "For example," she said, "twice around my thumb, once around my wrist, twice around my wrist, once around my neck, once around my waist." Then she paused, and a shrill voice from the back of the room exclaimed, "Twice around my waist, once around the city hall!"

A Doctor's Prescription for Cough An Effective Cough Treatment.
One-fourth of one teaspoonful of Dr. King's New Discovery taken as directed, will soothe and check coughs, colds and the most dangerous Bronchitis and Lung Affections. You can't afford to take the risk of serious illness, when so cheap and simple a remedy as Dr. King's New Discovery is obtainable. Go to your Druggist to-day, get a bottle of Dr. King's New Discovery, start the treatment at once. You will be gratified for the relief and cure obtained.

When We Work Best.
Autumn and spring are the best seasons of the year for all kinds of work. At a very low temperature both mental and physical work are depressing. Mental work reaches its highest efficiency at a temperature of 58 degrees; while physical work reaches its maximum at 63 degrees for men and 60 degrees for women. Recent investigations show that weather variations are distinctly good for us and promote our mental efficiency.

To Make Sandbags.
Sandbags can be prepared from the good parts of worn sheets or pillow slips if perfectly clean. Rolls six to eight yards in length are most convenient—one inch wide for finger, two inches for feet, and one and one-half inches for head and arms and four inches for legs. A good way of keeping them in condition for use is to seal the rolls in a perfectly clean glass fruit jar.

Expert in Silver Linings.
"Hall—'By the way, a pretty optimistic character, I hear.' 'Well—I should say so. If he failed in business, he'd thank heaven he had his health; if he failed in health, he'd thank heaven he had his business; and if he failed in both, he'd say there was no use having one without the other."

Her Own Business.
The charming young woman who expected to be married soon, went to the registration book for the first time. The man in charge asked: "With what party do you expect to be afflicted?" "That's none of your business," she replied. "If I have to tell his name I'm not going to register, so there."

Reason for Her Social Prominence.
"The lady" said the landlord of the tavern at Polkville, Ark., in reply to the question of the Kansas City drummer: "The lady that just passed is one of our most prominent society leaders. She's already caused four men to be shot, and as you saw, she's still me alone young and considerable handsome."

Dangerous Method.
"What are your usual modes of punishment?" was among the questions submitted to a teacher in a rural district in Ohio. Her answer was, "I try moral suasion first, and if that does not work I use capital punishment." As it was a neighborhood where moral suasion had not been a success and the children were scarce, the commit tee took no risks.

Brooklyn Navy Yard.
The Brooklyn navy yard was established February 22, 1801, when the first land, twenty-three acres, was bought from one John Jackson for \$40,000. The yard now comprises 144 acres and has a water front of nearly three miles, protected by a sea wall of granite.

Told Her about It.
Eugene attended the wedding of his Aunt Nan, which took place in church. The bridegroom and best man were waiting at the altar for the bride, who was slowly advancing up the aisle, to the strains of the wedding march, when Eugene's childish treble sounded out a shrill cry: "Where is Aunt Nan, Mr. Abbott's waiting for you."

Price of Drugs Fixed.
The German government has for years fixed the retail price of drugs, even to the extent of designating what must be charged for bottles, cork, label or patent box used in dispensing the medicine.

Why Vaccination Pays.
Statistics show that to vaccinate a person against smallpox at public expense costs about twenty-five cents, while the disease itself costs the public on an average about \$50 per case.

Brief Personal Items ABOUT THE VISITOR AND VISITED

Henry Bohmer of Chicago is spending the week with his cousin, Earl Schwenm.

Mrs. John Davis of Des Plaines was a guest of Mrs. Reuben Plagge on Wednesday.

Miss Hallo Liles left Wednesday afternoon for a month's visit with relatives in Beloit.

Miss Madeline Olcott of Chicago is visiting her grandparents, Dr. and Mrs. E. W. Olcott.

Mr. and Mrs. J. E. McKay of Algonquin visited at the home of Mr. and Mrs. S. Ziegler Sunday.

H. G. Aurnand, who is ill with typhoid fever, is better this week and sat up in bed yesterday for a while.

Miss Eva Castle and Mrs. R. W. Jones went today to visit at C. F. Castle's in Austin for a few days.

Mrs. Maul Singer of Woodstock and Mrs. D. A. Jaxpe of Hebron, Wisconsin, visited Mrs. Sarah Seon Friday.

Mr. and Mrs. Percy Evans of Chicago Heights visited Sunday at the home of Mr. and Mrs. Edward Smith of Station street.

Rev. G. Bohnstengel of Aurora and Rev. Vogt and family of Hanover were guests of Rev. H. Tietko and family Monday.

Miss Lillian Volker is at home for the summer from Forest Park where she taught school. She will return there next year.

Willis Wright, president of the American Banking Credit company of Chicago, spent Wednesday here with Harvey Harnden.

Misses Alma Stuebenhofer and Louise Burton of Chicago were guests of Miss Freda Waltheussen at her farm home Saturday and Sunday.

Mr. and Mrs. George Page spent Monday and Tuesday with Oak Park relatives, returning from here Sunday with Dr. Harry Olcott.

Mrs. C. Canover, mother of W. J. Canover, departed Monday evening for Robbinston, Minnesota, where she will visit relatives until fall.

C. H. Morrison, stationery purchasing clerk of the Northern Trust company, Chicago, is finishing a two weeks' vacation at his home here.

Mr. and Mrs. Louis Reese and family returned Tuesday from Racine, Wis.

Remarkable Double Tree.
There is said to be in Kentucky a tree bearing each year a crop of walnuts and a crop of mulberries; and the curious phenomenon is accounted for by the supposition that a millinery seed fell where a walnut lay in the ground, and the young shoots came up side by side and united their forces into one solid trunk. This supposition seems feasible from the fact that the bark of the tree is on one side that of walnut and on the other that of the mulberry.

More Appropriate.
"But Eliza," said the mistress, "your little boy was christened Frank Walcott. Why do you call him Frank Walton? Walton, you know, was the famous fabulist." "For," answered Eliza, "but that child's reputation for telling so true made that change imperative."

Emasculation of Old Brother Fiesler.
"Po' Brudder Fiesler has been sick a long time," sympathetically stated Brother Sawney. "De miserable man has groined so to he don't think much 'no' room dan a time out on edgeway."—Kansas City Star.

Remarkable Bamboo Bridge.
In Java Dutch government engineers have built a road bridge more than one hundred feet long and with a central span of more than sixty feet, entirely of bamboo.

Psychological Advantage.
"What kind of an auto have you?" "I got one of those cars everybody is telling jokes about. Every time I think about it I have to laugh and forget the trouble it may cause me."

An Invitation.
Local Practitioner (to his wife as he goes through his daybook and ledger)—"Old Smith hasn't called me to lately about his indigestion periods. You'd better ask him in to dinner."

Saving Money on Shoes.
You can save money on shoes if, before wearing a new pair, you soak the soles for two hours in liniment oil and dry. Repeat the process three times.

Loss of Life by Earthquake.
The loss of life occasioned by earthquake generally depends on the density of population rather than the severity of the shocks.

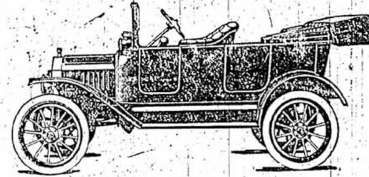

SHORT LOCAL ITEMS.

Gibbs' Special Ice Cream

—the kind that is served at my fountain—is the purest and richest made. Chocolate and Vanilla bulk and Brick Ice Cream always on hand. Try it.

F. O. STONE

I CATER TO PARTICULAR PEOPLE

Half the joy of motoring, either for business or pleasure, comes from dependable service and Ford economy, and explains why half the car owners today drive Ford cars. An average cost of two cents a mile for running and maintenance. Barring the unforeseen, each retail buyer of a new Ford car, between August 1914 and August 1915, will receive from \$40 to \$60 as a share of the Ford Motor Company's profits.

Runabout \$440; Touring Car \$490; Town Car \$590; Complete \$750; Sedan \$975; F. O. B. Detroit with all equipment.

BILLS PASSED BY THE LEGISLATURE

Summary of Measures Enacted Into Laws by the Forty-Ninth General Assembly.

MEMBERS WILL RECONVENE

Both Upper and Lower Houses to Meet on June 30 to Find Out What Action Governor Has Taken on the Bills.

Springfield—The Forty-ninth general assembly has concluded its work and the return trip to receive any veto or other messages from the governor's office.

On June 29 the members again will meet in their places, and if they find some of the measures passed have been vetoed by the governor they will have the opportunity to exercise the constitutional power of passing such measures by a two-thirds vote of each house, in which event they will be laws despite the veto.

The following is a summary of the laws passed by the Forty-ninth general assembly:

Appropriations.

For expenses, salaries and incidentals, special session of general assembly, \$168,503.

For general expenses of the various departments of state government for the biennium beginning July 1, 1915, \$15,209,887.

For the biennium beginning July 1, 1915, \$15,116,169 for the state board of agriculture, \$2,500 for the State Beekeepers' association, \$5,000 for the Illinois State Poultry association, \$3,000 for the Illinois Live Stock breeders' association, \$4,000 for the Illinois State Academy of Science, \$10,000 for the Illinois State Horticultural society.

Deficiency Appropriations—various state departments, \$147,432.

Thirty thousand six hundred dollars for the payment of awards made by the state court of claims during the sessions of 1913 and 1914.

Deficiency appropriation of \$25,000 for the state public utilities commission.

For state and county fairs and agricultural societies, \$165,000.

For the installation and extension of equipment in the state light, heat and power plant at Springfield, \$140,000.

For mileage of members of the general assembly, \$24,270.

For the purchase of land in Springfield for sites for additional state buildings, \$125,000.

For the salaries of members and of officers of the next general assembly, \$7,171,226.

Courts.

RESORTS—Makes it a nuisance to maintain a disorderly house and provides for abatement by injunction of such houses.

FALSE STATEMENTS—Makes a person making a false statement regarding his financial condition, in order to procure credit, subject to imprisonment for one year, a fine of \$2,000, or both.

FAKE BEGGARS—Makes it a misdemeanor for anyone to represent himself as blind, deaf, dumb or otherwise afflicted for the purpose of procuring alms.

JUDGES AND SECRETARIES—Increases the salaries of private secretaries to judges of the supreme court from \$2,000 to \$3,000 a year.

CHILD MENDICANTS—Prohibits children under ten years from begging or peddling.

FAKE ADS—Provides a fine for fraudulent advertising.

MORTGAGE RECORD—Gives five working days in which to record mortgages and makes sale of mortgaged property within that time fraudulent and void.

CHILD DELINQUENCY—Provides a new child delinquency act, providing a fine of \$200 imprisonment for one year, or both, for taking a male child under seventeen and a female child under eighteen into disorderly houses, gambling rooms, pool rooms or saloons.

FAMILY DESERTION—Makes child and family desertion a continuous offense.

Waterways.

CHANNEL—Provides for the construction of an eight-foot channel waterway from the power plant to the sanitary district near Lockport to a point in the Illinois river near Ursa, under the direction of a board of five commissioners to be named by the governor.

LEVEES—Appropriates to the use of the rivers and lakes commission \$25,000 for levee work at Cairo, \$10,000 for levee work at Mound City, and \$10,000 for levee work at Shawneetown.

Revenue.

CERTIFICATES—Exempts from

the tax the net value of benefit construction—Permits the construction of drains, ditches and levees across the land of another for agricultural, sanitary, or similar purposes.

INTEREST PAYMENT—Appropriates \$250,000 for the payment of interest on bonds to be issued by the state for the building of the deep waterway.

THEATERS OF fraternal beneficiary societies.

ASSESSMENTS—Permits five institutions for the payment of all special assessments.

UNPAID TAXES—Prohibits the subdividing of property on which taxes are unpaid.

PROPERTY REDEMPTION—Allows seven years for the redemption of property sold for taxes.

REVIEW POWERS—Enables boards of review to go back any number of years and place on the tax duplicate property which may have been omitted.

BARRIED TAXATION—Excludes from taxation the property of beneficiary and charitable organizations.

INHERITANCE TAX—Provides that the percentage of inheritance tax collections now retained by county treasurers hereafter be paid into the county treasury.

Highways.

STATE AID—Appropriates \$1,000,000 a year for the next two years from the road fund for the building and maintenance of state aid roads.

BALANCE—Appropriates the unexpended balance of the appropriation made by the last general assembly for the building and maintenance of good roads.

WORK—Appropriates \$50,000 for the use of the state highway commission in building state aid roads.

CONTRIBUTIONS—Allows counties to accept voluntary contributions for the building of state aid roads.

OIL TREATMENT—Provides for the oil treatment of state aid roads.

RIGHTS—Gives county boards the right to levy special taxes to specify the use of state aid roads to be constructed in the county.

ISSUES—Enables counties to vote bonds for the construction of roads.

MOTOR—Amends the motor vehicle act; provides for license fees for electric vehicles on a sliding scale, according to horse power, reduces the amount of the number plate, and makes other minor changes.

POLL TAX—Authorizes the use of a poll tax collected in towns and villages for road purposes.

IMPROVEMENTS—Provides for the laying out, widening and vacating of roads upon petition of lot less than twelve lots owned by one owner.

LIVE STOCK—Changes the highway commissioner with the duty of enforcing the law prohibiting turning stock out to graze on highways.

BRIDGES—Requires county boards to build bridges in municipalities of less than 15,000 population.

Corporations.

STOCK—Gives the state public utility commission authority to fix the amount of capital stock any corporation under its jurisdiction may issue.

FEE—Authorizes the state to collect fees of five dollars on bond issues of public utility.

REALITY—Permits the incorporation of real estate agencies, but not for the sale of real estate.

INSURANCE—Permits the organization of life insurance stock companies with power to carry on casualty business.

ASSOCIATIONS—Provides for the incorporation of co-operative associations upon petition of five or more persons.

CAPITAL INCREASE—Provides that if cities increase in size the capital stock of building and loan associations shall be increased proportionately.

INSURANCE CHANGE—Enables the organization of life insurance companies to do business on a mutual or co-operative plan; permits existing corporations to change their type of life insurance to qualify under new law.

Parks.

BONDS—Enables park commission to issue bonds for the completion, improvement and maintenance of parks, boulevards and pleasure ways.

DISTRICT—Legalizes Wilmette park district, embracing 40 acres at junction of Sheridan road and north Sheridan.

TOWNSHIPS—Authorizes township to acquire and maintain lands for park purposes; gives township authorities right of eminent domain to acquire not to exceed two acres tracts for parks.

PARK TAX—Provides for a three mill tax for small parks in towns or townships.

Memorials.

STATUES—Creates ex Vicksburg military statue commission and approves the erection of the statue of Gen. U. S. Grant and other Illinois generals from Illinois who participated in the siege of Vicksburg.

is placed in the National cemetery at Vicksburg.

GOLEBY MONUMENT—Makes an appropriation for the erection of a monument in Lincoln park to the memory of former Gov. Richard J. Goleby.

NEGRO—Appropriates \$25,000 to the Illinois commission for the observance of the half century of negro freedom.

Elections.

BALLOTS—Planes names of judicial candidates upon separate ballots.

VALIDATION—Makes valid any election held by counties or municipalities for the issuing of bonds for state aid roads and validates such bonds.

MAJORITY—Limits auxiliary districts in borrowing money and issuing bonds to five per cent of the valuation of taxable property of the district and requires a majority vote in an election for bond issues.

Education.

TAX—Authorizes boards of education and village authorities to levy an annual tax not to exceed one-half of 1 per cent for educational purposes and 1 1/2 per cent for building purposes. Raises the taxing rate in Chicago from six-tenths of a mill to 1 1/2 per cent in other cities of the state from 1/2 per cent to 3/4 per cent for library purposes.

PENSIONS—Creates a state teachers' pension and retirement fund and provides for participation in the same after twenty-five years of teaching service.

GUARANTY—Requires that all book publishers deposit a bond with the state department of education as a guaranty that they will sell text books in this state as cheaply as they are sold in any other state before they may sell any books in the state.

UNIVERSITY—Appropriates \$5,000 for the use of the University of Illinois for the next two years, and money granted to the state for educational purposes by congress.

DELINQUENCY SCHOOLS—Permits boards of school inspectors to establish and maintain schools for delinquent children.

Prisons.

UPKEEP—Appropriates \$157,700 for the use of the two state penitentiaries and the state reformatory for the biennium beginning July 1, 1915.

ALLOWANCES—Permits all prisoners, except those serving sentences for felonies, to procure food, clothing, medicine and other articles at their personal expense and permits time allowances for good behavior.

PAROLE—Provides for the parole of inmates and other long term convicts.

ROAD WORK—Permits all convicts to work on public highways.

JAIL LOCATION—Makes it unlawful to erect a jail within 500 feet of a school or church.

PONTIAC COMMITMENT—Changes the age of commitment to the Pontiac reformatory from twelve to fifteen years and permits the transfer to the penitentiary of refractory reformatory prisoners.

Charity.

FEELING MINDED—Provides better care and detention for feeble-minded persons.

CARE OF BLIND—Makes duties of county boards regarding the blind mandatory instead of optional.

Municipal.

FUND—Authorizes municipalities under 10,000 population to set aside for the maintenance of a pension fund the entire proceeds of the 2 per cent tax on the business of foreign fire insurance companies.

CHANGES—Enables municipalities to abandon the commission form of government.

UTILITIES—Authorizes the connection of municipally operated utilities.

TOWN CLERKS—Allows boards of town clerks to allow larger compensation for assessing property.

PENALTY LIENS—Enables judgments for local improvements penal liens on property.

ART COMMISSIONS—Makes it optional for cities with city council whether the approval of city art commissions shall be had on civic improvement projects.

CHOLERA SERUM—Requires that the state veterinarian furnish hog cholera serum at cost.

OFFICE DUTY—Provides that county superintendents of schools shall take office on the first Monday in August following their election.

POSTERS—Legalizes the use of posters in park district elections.

INTEGRITY COVENANTS—Enables two or more incorporated towns to unite upon a majority vote.

National Guard.

EXPENSES—Appropriates \$139,917 for the ordinary and contingent expenses of the Illinois National Guard and the Illinois naval reserves, together with an emergency fund of \$50,000 for use of the governor in case of emergency for the biennium beginning July 1, 1915.

ARMORY—Permits commissioners of Lincoln park to convey certain lands to the city for an armory.

ARMORIES—Appropriates \$24,000 for the completion of armories now under construction at Aurora and Ottawa and the Elgin infantry armory in Chicago. Appropriates \$50,000 for a site and to build an armory at Monmouth. Same amount for an armory at Peoria.

SALES—Ratifies the sale by the state of the old Second infantry armory building and ground in Chicago. Appropriates \$125,000 for completion of new armory.

FIELD ARTILLERY—Increases the number of batteries of field artillery in the National Guard from three to six.

Labor

COMPENSATION—Extends the workmen's compensation act to include additional employment; raises the minimum of compensation for death and of weekly indemnity; broadens the powers of arbitrators, and authorizes circuit court to review arbitrators' findings.

ASSIGNMENT—Provides that employer may become a party defendant to action by assignee of wages.

UNEMPLOYMENT—Appropriates \$100,000 for the expenses of the commission on unemployment.

STATE AGENCY—Establishes a state free employment exchange.

MINE INSPECTORS—Requires that mine inspectors have had at least ten years of practical experience.

DAY OF REST—Provides for a one day rest in seven for persons working an average of eight hours a day, seven days a week.

FIRST AID—Makes it the duty of railroad companies to provide first aid and to carry first aid kits on all engines and trains.

Health.

PHYSICIANS—Authorizes the state board of health to revoke licenses of physicians engaging in improper practices.

EYES—Requires a report to the state board of health within two weeks of the birth of an infant having sore eyes and provides for free distribution of silver nitrate; designed to prevent blindness of infants.

SAFETY—Provides more stringent regulations for health, comfort and safety of employees in factories, mills and workshops.

REGISTRATION—Requires registration of birth and death certificates.

CATTLE BARRIER—Prohibits shipment into state, except to stock yards, of cattle without tuberculin test.

JOINT—Provides for the removal of subject to one year's imprisonment for the purposes of curing contagious diseases.

ALCOHOL DISEASES—Provides for the prevention and spread of contagious diseases among domestic animals.

FOOD—Makes possession or control of food manufactured in violation of the state pure food act a misdemeanor and provides for standards for certain brands of food.

HOSPITALS—Provides for the state inspection and regulation of maternity hospitals.

Miscellaneous.

FLAG—Provides for the return to the women of New Orleans of a flag presented to General Jackson and captured by the women in the trenches.

CIVIL SERVICE—Gives veterans of the Spanish-American and other wars the same civil service privileges that are accorded veterans of the Civil war.

EMPTINESS—Provides for the return of the personal property of an estate not to exceed \$4,000 the clerk's fee shall not exceed \$100; where the estate does not exceed \$1,000 the court may remit fees.

TIPS—Prohibits the renting of "tipping" privileges.

REPORTS—Requires uniform sized reports of state officers.

MOTHERS' PENSIONS—Amends the mothers' pension act to include mothers whose husbands have deserted them for more than two years and to include mothers whose children otherwise would be committed to dependent institutions.

EMBALMERS' LICENSES—Requires that applicants for embalmers' licenses shall have had two years of practical experience under a licensed embalmer.

ROGUES' GALLERIES—Prohibits the taking of pictures for rogues' galleries before conviction.

LOAN INCORPORATION—Authorizes the incorporation of co-operative loan associations.

DENTAL STANDING—Amends the dental act to give holders of Illinois certificates standing in other states.

MORTGAGE LIMITATION—Makes mortgages or trust deeds lapse twenty years after maturity unless renewed by a written agreement.

FARM NAMES—Permits the recording of farm names and provides for the recording of the same with the county recorder.

PERSONAL MORTGAGES—Provides that mortgages on personal property have been recently renewed by a mortgagee or a person authorized to act as his attorney in fact.

diplomata the men will have spent \$1,779,111 during the four years of their military life. The most affluent members of the class spent \$4,500, and the most frugal only \$200 in actual cash during the freshman year.

Foolish Creatures.

"You are sure?"

"Yes," they murmured over their social standing; and neither one had any doubt.

ILLINOIS STATE NEWS

Galesburg—Jack Waymack of Barton was drowned while bathing.

Quincy—Mary, wife of Charles Palmer, banker, fell dead in her home just after returning from a drive.

Sterling—Announcement made that 2,100 schoolchildren of Sterling passed through school bus during the year \$2,600 and the total for four years is \$12,200.

Gillespie—The Superior coal mines at Gillespie will be closed for mining coal this week, when mine No. 3 in a single day hoisted 5,195 tons, or 1,640 cars.

Galena—Rather than go to a sanatorium for treatment for dementia, Agnes Robertson, an active church worker, committed suicide by drowning herself in a neighbor's cistern.

Peoria—The statewide annual golf and tennis tournament of the Central Illinois Country Club association will be held at the Peoria Country club the week of June 21. One thousand visiting club members are expected to attend.

Rose Island—Hunting business and a river excursion occupied the delegates to the Illinois encampment of the United Spanish war veterans in north annual session here. The military ball, the social features of the encampment, was held.

Louisville—The body of Fred H. Cull, a barber of Flora, south of here, was found in an old orchard in the south part of Olney, Richland county. Identification was made through postcards and an Odd Fellows' record.

A small open pyre, blood-stained, was found under the body.

Springfield—John W. Workman, farmer and stock raiser, is at liberty on bond of \$1,000, the result of threatening to kill. It is alleged, a deputy federal revenue collector, who attempted to find Workman he had to pay for his escape.

Workman was indicted by the federal grand jury on a charge of resisting the officer. Inspector O. A. Seal of Chicago.

Van Buren—The thirty-ninth annual meeting of the Egyptian Hustlers, an organization of traveling men of southern Illinois, was held here. A. J. Pickrel, secretary, presided, gave the welcome address for Mayor James R. Huxley, President George Probst of New Athens responded. A white suit parade of 500 Hustlers was a feature. An old-fashioned contest for prizes at the night session attracted a large crowd.

Elmhurst—Judge Barney Overbeck has sentenced Len Angel and John Huxley to days in the county jail for bootlegging. It is the only instance in fifty years where the jail sentence has been given here for the illegal sale of liquor. After the sentence was served the men are to be tried under the new civil ordinance passed under the new commission form of government, and then they will be given over to the state penitentiaries.

Bellefonte—When Donald Gray, nineteen years old, of East St. Louis, appeared in County Judge Messers' court in Bellefonte in answer to a charge of delinquency, brought by his father, Trevor Gray, the youth surprised his parent by introducing fifteen-year-old Emily Daily, also of East St. Louis, as his bride of two days. Gray and the girl were married in St. Louis. The father immediately withdrew his charges and gave his blessing.

Springfield—Governor Dunne appointed the following as delegates to the ninth conference on taxation, to be held in San Francisco August 10 to 14, 1915: Frank P. Crandall, Chicago, tax commissioner of the Chicago & Northwestern railway; Douglas Sutherland, Chicago, secretary of the Chicago Civic Federation; George H. Hocker, Chicago; Charles Jones, Peoria; Fred H. Steele, Peoria; and George J. French, Decatur.

DeKalb—Commissioners' warrants have been issued for William Lawson, South Bend Ind.; William Little, Pittsburg, Pa.; George Brown, Albany, N. Y., charging them with attempting to rob the post office at Alvin. The three men were arrested following the attempted robbery and sent to jail, pending an investigation.

The depiction of Lawson is said to identify that of a man seen in a number of towns near here, where post offices have been robbed recently. Lawson was seen in Alvin the day before the attempted robbery.

Clayton—An offering of \$1,877.55 was taken up and presented to Rev. Huxley at the close of his revival meetings here. Four hundred and thirty-seven conversions were reported during the meetings.

Carlyle—Joseph Simons and James McCormick, young farmers, were found guilty of burglary and larceny. This means an indeterminate sentence in the penitentiary. The prosecution was the sequel to the activity of Sheriff Hagen last year. Property belonging to clubhouses along the Kankakee river in the vicinity of Posey was stolen.

Perils of College Life for One Who Is Not a Christian

By REV. HOWARD W. POPE, Superintendent of the Moody Bible Institute of Chicago

TEXT—Having no hope, and without God in the world.—Ephesians 2:12.

1. Without Christ you can never have a satisfactory philosophy of life.

"Where did I come? What am I here for? What is my purpose? These are questions which will forever remain unanswered unless you have a philosophy of life which will give you a definite answer to these questions."

2. Without Christ you can never do your best work. You have an insatiable craving which no one can satisfy but the Lord Jesus. You have a fund of energy which no one can dispel, and powers of usefulness which no one can develop so well as the Savior.

Jesus Christ is as indispensable to a thinking man as sunshine to a flower. Consider too the incompleteness of searching all creation for facts, and yet ignoring the greatest fact in the world's history that Christ died and rose again. This alone, the best-attested fact in history, makes the appeal to become a Christian supremely rational. If you refuse the appeal, it devolves on you to give the reason why.

3. One's incapacity to know God weakens by disease and may be utterly lost. Charles Darwin said in early life, "I believe God will reveal himself to every individual soul, and my conviction is that the desire for a deeper and clearer vision of God. But one can easily lose all belief in the spiritual by giving up the continual thought and care for spiritual things."

4. One's incapacity to know God weakens by disease and may be utterly lost. Charles Darwin said in early life, "I believe God will reveal himself to every individual soul, and my conviction is that the desire for a deeper and clearer vision of God. But one can easily lose all belief in the spiritual by giving up the continual thought and care for spiritual things."

INTERESTING ITEMS FROM NEARBY TOWNS

Happenings in the Villages of Lake
Zurich and Wauconda as Written
by Regular Correspondents.

WAUCONDA.

Miss Bessie Clough spent Wednesday
in Chicago.

Paul Broncheon and Earl Broughton
spent Monday in Chicago.

Mrs. Jane Neville spent Friday and
Saturday at Libertyville.

Walter Grantham of Chicago is here
for a week's visit with relatives.

A. C. Stoxen of Harvard attended
the funeral of E. W. Brooks Friday.

Mrs. Gertrude Broughton visited her
sister, Miss Edna, at Winnetka Monday.

Mrs. John Murphy and children of
Chicago are the guests of relatives
here as guests.

Mrs. Brand is entertaining her
brother, Mr. Leonard, and family and
friends from Chicago this week.

Miss Lesch and family will give a
reception at the home of Mr. and Mrs. M.
S. Clark, Friday evening, June 25.

Mrs. A. C. Stoxen of Harvard and
Mrs. D. H. Fleet of Fayette, Wisconsin,
are visiting Mrs. Laura Cook this week.

Mrs. and Mrs. George Darrell will
celebrate their golden wedding anni-
versary July 3 at the home of their
son, Willard.

Mrs. Barnett and children arrived
here from California last week to glad-
den the life of Mrs. Barnett's father,
P. A. Nimsger.

Misses Grace Wells and Lillian Brown
and other members of the Palatine
graduating class, attended a play in
Chicago Monday evening.

William Basely, Miss Amy and
Harry visited Mrs. Joseph Dowell in
the Columbian hospital, Chicago, Sun-
day, where she is recovering from an
operation for appendicitis.

Invitations have been issued to call
together all members of the Cook and
Cough families to witness the mar-
riage of Miss Bessie Clough and Rev.
Rollin C. Hallock June 25 at high noon.

The funeral of E. W. Brooks held at
his late home on Friday was attended
by a gathering of friends from all parts
of the county. The members of the
society board and county officials at-
tended in a body.

LAKE ZURICH

John Prehn is now home on a
vacation.

Mrs. and Mrs. Carl Ernst entertained
relatives Sunday.

Mrs. Leo Bricker entertained relatives
from Elgin Wednesday.

The Lovett family of Chicago are
now here in their summer home.

The summer confirmation class will
begin taking instruction on July 6.

Miss Esther Bartolomeo is the
guest of Mrs. William Eichman, Jr.

Miss Elsie Walgren is now working
at the home of Mrs. William Tonne.

Born to Mr. and Mrs. George Bradlee
a little boy, Saturday evening, June 18.

Mr. and Mrs. G. A. Smith and
daughter, Hazel, are in their summer
home.

Grace Brommelkamp has been visit-
ing at the home of her sister, Mrs.
Irving Selp.

Carl Ernst and Louis Grady attended
the funeral of Eugene Brooks at Wau-
conda last Friday.

Carl Golbeck and a young lady friend
of Chicago were guests of Miss Myrtle
Bicknese Thursday and Friday.

A large celebration has been planned
for the Fourth of July. Let's hope
rain does not interfere with the plans.

Mrs. C. R. Weaver has returned
home after spending several weeks
with her mother who resides at Wau-
conda.

Misses Rose Young, Rose Prehn,
Anna Frank and Olga Eichman at-
tended the graduating class play at
Palatine.

Mrs. Fred Doolittle and daughters
returned to their home in Waukegan
Monday after an extended visit here
with relatives.

Mrs. Fred Selp, who has been visit-
ing in California, is now in Nebraska
and expected to return to her home
here next week.

Chicago visitors during the past week
were: Miss Julia Fox, Mrs. William
Eichman, Olga Eichman and Fred Selp.
Visitors to Palatine were Miss Nettie
Hillman, Miss Myrtle Bicknese, and
Mr. and Mrs. Roland Beutner.

Detail Needed.

"I am looking out for a porch client
who you direct where to go?"
"Well, Mr. until you participate, I
don't know whether you want me to
direct you to a forest or to a police-
man."

KEEPING THE RANGE SHINY

A Little Work, and the Knowing How,
Will Prevent It Ever Becom-
ing Dull or Red.

To a good housekeeper nothing is
more unsightly than a dull or red iron
range. Much energy is wasted by
these same housewives trying, yet not
knowing how to correct the trouble.

Here is a suggestion:
Let the range cool (not get cold).
Scrub it as you would boards, all over
the top thoroughly, with hot water
and soap, let it dry. Have a thick
lamb's wool mitten such as comes for
the purpose; slip the hand in it. Rub
paraffin wax over the range, then rub
it in with the mitten. When there is
an even coat, shake powdered stove
blackening over it and rub it in with the
same mitten. Behold a beautiful, shiny
range!

Perhaps it will wear off soon. Do
not feel discouraged, for it will last
much longer than when polished by
the old method, and no vigorous, tire-
some polishing with scrub, no dust,
no say nothing of having clean hands.

This may be done after breakfast.
If the fire is used at noon or night
just give it a rub with the mitten, not
using any more paraffin or powder
this time. In the absence of a mitten
old underwear serves admirably.

The range should only be scrubbed
once before first applying paraffin.

VINEGAR AS A CLEANSER

Housekeeper Should Familiarize Her-
self With Good Qualities of
That Liquid.

Vinegar is useful in many ways
other than culinary. It will remove
stain-blackening from clothing. It
will remove fly specks from al-
most anything—windows, picture
frames, woodwork, etc.

Vinegar is something of a tonic for
the skin, and cures roughness of the
skin and chafing if applied after wash-
ing the hands. It should be permitted
to dry on the skin.

It will soften a paintbrush on which
the paint has been permitted to dry.
Heat the vinegar to the boiling point
and let the brush simmer in it a few
minutes. Then remove it and wash it
well in strong soap.

Vinegar is unrivaled as an agent for
cleaning. It removes dirt, grease and
woodwork, especially yellow pine.
It should be applied with a flannel
cloth, and the flannel washed out in
clear water as soon as it becomes
soiled and before being dipped into the
vinegar again. This makes the vinegar
an inexpensive cleanser, besides being
the most satisfactory way in which
the work can be done.

Oatmeal Bread.

Oatmeal is a valuable substitute for
wheat flour. Here is a recipe for
tempting oatmeal bread. In a mixing
bowl put two cups of oatmeal, two tea-
spoons of salt, one cup of molasses,
one rounded tablespoon of shortening.
For every cup of the product
boiling water. Let stand until lukewarm.
Add one-half yeast cake dissolved
in two tablespoons of warm wa-
ter. Add two quarts flour, either
white or whole. To make
heartier bread, one which is espe-
cially suited for luncheon sandwiches, add
one-half cup of chopped nuts and one-
half cup of seeded raisins.—The De-
licator.

Cream of Barley Soup.

Cook two tablespoons of butter
with two tablespoons of flour three
minutes, stirring constantly; add one-
half cup of pearl barley and cook
slowly two minutes, stirring constantly.
Add two cups each of boiling
water and milk; cover and let simmer
one hour; rub through a sieve and add
three cups of vegetable stock; season
with salt and pepper. Thick with
one tablespoonful of cornstarch dilu-
ed with enough cold water; pour
quickly; bring to a boiling point, strain
and serve; accompany with imperial
slices.

Chicken à la Soufflé.

Boil the chicken until it is very tender.
When cold remove the skin and bones.
Place in individual cups a
layer of chicken, sprinkle with salt,
pepper, bits of butter and some finely
chopped celery. Cover with good
crackers. Add another layer of chicken
and ingredients and so on until the
cup is nearly full. Over this pour
some of the chicken liquid and some
heavy cream. Bake until brown and
garnish with radishes.

Stuffed Tomato Salad.

Peel a dozen large, smooth to-
matoes, cut off the stems and scoop out
centers, saving the solid portions.
Chop and mix with one cup of
chopped celery, one teaspoonful
minced onion, two tablespoonfuls
chopped almonds and salt to taste. Fill
the tomato shells with the mixture,
arranging them on a bed of lettuce.
Stand each one on a fresh lettuce leaf
and serve at once.

How to Serve Beefsteak.

Broil steak and season on a platter
as usual. Make a dressing of bread
crumbs with plenty of onion in it, as
a stuffed fowl. Shape into small
cakes, using an egg to help bind mix-
ture, and brown in butter in a frying
pan. Place these on the surface of
the steak with a bit of parsley, if you
have, and serve.

Steamed Graham Loaf.

Two cups of graham, one cup of
flour, one-half cup of molasses,
one teaspoonful soda, sour milk to
mix soft; steam three hours or more.

FREE PORTS BUILDERS OF COMMERCE

CONGRESS SHOULD GIVE THEM
PREFERENCE IN APPROPRIATIONS.

By Peter Radford.

Our nation is now entering upon
an era of marine development. The
wreckage of European commerce has
drifted to our shores and the world
war is making unprecedented de-
mands for the products of farm and
factory. In transportation facilities
on land we lead the world but our port
facilities are inadequate, and our flag
is seldom seen in foreign ports. If
our government would only divert the
energy we have displayed in conquer-
ing the railroads to mastering the
commerce of the sea, a foreign bot-
tom would be unknown on the ocean's
highways.

This article will be confined to a
discussion of our ports for the prod-
ucts of the farm must pass over
wharfs before reaching the water. We
have in this nation 51 ports, of which
41 are on the Atlantic and 10 are on
the Pacific Coast. The Sixty-second
Congress appropriated over \$51,000,
000 for improving our Rivers and
Harbors and private enterprise levies
a toll of approximately \$50,000,000
annually in wharfage and charges for
franchised stevedore services rendered.
The latter item should be lifted off
the backs of the farmer of this na-
tion and this can be done by Congress
directing its appropriations to ports
that are for citizens vessels can tie up
to a wharf and discharge their cargo
free of any fee or charge.

A free port is progress. It takes
out the unnecessary link in the chain
of transactions in commerce which
has for centuries laid a heavy hand
upon commerce. No movement is so
heavily laden with results or will
more widely and equally distribute
its benefits as that of a free port
and none can be more easily and ef-
fectively secured.

THE VITAL PROBLEM OF AGRICULTURE

By Peter Radford.

There is exciting the market
problem and the highest development
of agriculture will not be attained
until it is solved, for a market
exists for the producer as land on which to grow his crop.

Governmental and educational in-
stitutions have spent \$180,000,000 in the
United States during the past ten
years for improving soil production
and improving seeds and plants, but
very little attention and less money
has been given to the marketing side
of agriculture.

The problem is a monumental one
and one which will never be solved
until it goes within the grasp of a
gigantic organization where master
minds can concentrate the combined
experience and wisdom of the age.

It is a problem which the farmer,
the farmer, merchants, bankers, editors
and statesmen must unite in solving.

The Farmers' Union stands for the
best in farming from the most
scientific methods of seed selection to
the most systematic and profitable
plans of marketing, but does not be-
lieve in promoting one to the neglect
of the other. We consider the work
of farm demonstrators valuable and
we ask that governmental and com-
mercial agencies seeking to help us
continue to give us their assistance
and advice, but we believe that their
influence should be extended to the
marketing side of our farm problems
also.

We cannot hope to develop manu-
facturing by over-production of the
factory; we cannot build up mercan-
tile enterprises by the merchant lead-
ing their shelves, with surplus goods
and no more can we develop agricul-
ture by gutting the market with a
surplus of products.

DARIUS

The nigh of a horse made Darius
King of Persia, the six confiding
powers for the thrusting among
themselves that the one whose horse
should nigh first should possess the
kingdom. This ancient method of
settling disputes among politicians
should be revived with profit today.
If our partisan factions and petty poli-
ticians could only settle their dis-
putes by the nigh of a horse, the
bark of a dog or the bray of a donkey,
it would be a great blessing and would
give our citizens a better opportunity
to pursue the vociferous of industry
for the thrusting among politicians
themselves that the one whose horse
should nigh first should possess the
kingdom. This ancient method of
settling disputes among politicians
should be revived with profit today.
If our partisan factions and petty poli-
ticians could only settle their dis-
putes by the nigh of a horse, the
bark of a dog or the bray of a donkey,
it would be a great blessing and would
give our citizens a better opportunity
to pursue the vociferous of industry
for the thrusting among politicians
themselves that the one whose horse
should nigh first should possess the
kingdom.

Let those who pick political parties
by raising rows and who flash swords
dripping in the blood of industry in-
dignant that they cannot turn the
public forum into a political arena and
by a clash of personal aspirations
and the hammer and sickle the plow
and the quill the quill must be settled
in the book alleys of civilization.

Two cups of graham, one cup of
flour, one-half cup of molasses,
one teaspoonful soda, sour milk to
mix soft; steam three hours or more.

CARE IN SELECTING MUTTON

Healthful Meat May Be Good or Bad,
According to Condition—Much
Fat Good.

Mutton is generally considered the
most healthful meat and is eaten by
many, to the exclusion of any variety.
Consequently great care should be ex-
ercised in the selection, and a little
time should be given to the study of
quality.

In buying mutton (or lamb) care
should be taken to see that the fat is
clear, hard and white, as mutton with
soft or yellow fat indicates too long a
stay in cold storage. It might appear
that a great quantity of fat on mutton
signifies waste; but the lean part is
much juicier and more tender when
this is the case, so the wise housewife
makes purchases with this in view.

The leg has the least fat in propor-
tion to weight. Next comes the neck
der. The color of lean mutton is a
deep red.

Lamb is good to eat when one year
old and is much more digestible than
other immature meat, such as veal or
young pork. The wise housewife
knows the value of nutrition, so she
will hesitate about buying lamb mere-
ly because it is in market, as it is gen-
erally expensive.

The meat of spring lamb should be
a clear pink, with plenty of pure white
fat.

VINEGAR KILLS THE GERMS

Best of Reasons Why the Condemn-
ment Should Always Be Used Liber-
ally on Salads.

Drs. Lohr and Legagneux of Paris
have been testing vinegar as a de-
stroyer of the germs of typhoid fever.
That they are killed by a mixture of
vinegar and water, in equal parts has
long been known. These investiga-
tors prove now that twenty grains of
vinegar to a liter of water kill the
typhoid bacillus in an hour and five
minutes.

"From this," writes the Paris cor-
respondent of the Lancet, "a practical
inference may be drawn concerning
salads. After washing the salad as
usual, dressing each leaf, it should
be put into water acidulated with ten
grams of vinegar to the liter and re-
mained immersed in this liquid for
about an hour and a quarter. All
vegetables ordinarily eaten uncooked
may be subjected without any incon-
venience to the same process."

A liter is equivalent to about a
quart and ten grams are equivalent
to about a third of an ounce. So, if let-
tuce or other greens for salad be
placed in water to which about one-
third of an ounce of vinegar has been
added and be left for about an hour
and a quarter, all danger of typhoid
fever will be removed.

Cream of Onion Soup.

Since sufficient white onions to
measure one and one-half cups. Heat
two tablespoonfuls of butter in a
large pan, add the onion and cook
slowly, shaking now and then until
the onions are tender, but hardly be-
ginning to color. Sprinkle with two
tablespoonfuls of flour and stir un-
til absorbed. Add gradually one quart
of hot milk, stirring that it may
thicken evenly. When the milk has
point season and draw to one side, let
simmer ten minutes. Rub through a
sieve, return to the fire and serve
hot.

Maple Cream Puffs.

Stir half a cupful of butter into one
cup of boiling water; when melted
add one cupful of milk and stir until
the mixture leaves the sides of the pan,
cool, add three unbeaten eggs one at
a time, beat thoroughly, drop from a
spoon on buttered paper and bake
about twenty-five minutes.

Beat half a pint of heavy cream un-
til solid and fold in three tablespo-
onfuls of grated macaroni. Do not con-
fection in each puff, fill with the
cream and garnish the tops with maple-
icing.

Steeped Prunes.

Take required amount of prunes.
Wash thoroughly and sterilize them
by pouring boiling water over them
and let stand for two or three min-
utes. Drain, cover with cold water
and set aside to soak for 24 hours, at
which time they will be perfectly ten-
der. No sugar is required. They are
ready to use in any recipe calling for
steeped prunes. Any kind of dried
fruit may be prepared the same way,
and is more palatable this way. Cook-
ing develops a disserviceable acid in
dried fruits that sugar cannot cover.

Cold Bean Croquettes.

Here is a nice way of using cold
beans in croquettes: Get them ready
at night, so it takes just a moment to
cook them for breakfast. Soak two
cups of beans, yolk of one or two
eggs, one tablespoonful melted
butter, pinch of salt. Form into cones.
Roll in cracker crumbs. I do not con-
sider as they are rather moist. Cook
and find the cracker crumbs stick
on all right—Exchange.

Sugar With New Potatoes.

New potatoes are very much im-
proved and have a delicious taste if
boiled with a lump or two of sugar
along with the milk. Make one cup
sugar to a pound of potatoes give ex-
cellent results, rendering them firm
and more appetizing.

Cover the Bread.

Newly-baked bread should be light-
ly covered with a clean cloth while
it is cooling. If it is not covered
it is taken from the oven it is apt to
be soggy.

Pure Bred Holstein Bulls

We have a fine selection six weeks to a year old and
in order to start something will give you a bull calf from an
advanced registry dam sired by a first class bull for a very
low price.

Our Loss is Your Gain

You cannot afford to miss this opportunity to get a good
one at a low price.

HAWTHORNE FARMS CO.

Welding Machine

I have purchased a new machine
to weld cast and malleable iron,
copper, brass, aluminum and all
other metals. Prices reasonable.

Plow and cultivator grinding and
polishing done.
