

# BARRINGTON REVIEW

VOLUME 31, NUMBER 41

BARRINGTON, ILLINOIS, THURSDAY, OCTOBER 14, 1915

\$1.50 PER YEAR IN ADVANCE

## ANOTHER OLD VETERAN HAS PASSED AWAY

John C. Myers of Station Street Died Suddenly Monday Afternoon at the Home of His Daughter.

## WAS STRICKEN WITH APOPLEXY

He Had Been Confined to His Home This Summer but Recently Had Been Feeling Quite Well.

The Barrington post of the Grand Army of the Republic has lost a loyal member this week in the death of John C. Myers of Station street who suddenly departed this life on Monday afternoon, October 11, at half past three o'clock at the residence of his daughter, Mrs. Walter Harlow of Appleton street.

In July Mr. Myers, who was nearly 73 years old, was ill with an attack of an acute bladder disease, but of recent weeks had not been ill. On Monday afternoon he was stricken by apoplexy but was down town in the afternoon returning home he went up stairs and came down again directly; death came immediately after from a stroke of apoplexy while he was alone in the house with Mrs. Harlow.

Long residence in this village made him well known and there are many words of praise for the manner of his life here, one of industry and good habits; he was of quiet disposition and attended to his own affairs in an exemplary way with "malice toward none."

Mr. Myers was a veteran of the Civil war. His regiment was the 7th Illinois Infantry. He served from 1864 to 1865 and was wounded in the eye at Antietam Pass.

His life began in the province of Hesse, Germany, January 31, 1843. The family of parents and three sons came to America when this son was five years old and lived at Schaumburg, 12 miles south of here. May 15, 1868 Mr. Myers married Miss Emma Hackley of Barrington in Chicago. They lived in Barrington for ten years when Mr. Myers was employed at the Barrington office. He was appointed to the position of superintendent of the farm work at the Cook county farm at Dundas and was there for twelve years. In 1888 the family returned to Barrington and Mr. Myers has been employed by the village, the Methodist church and the Cemetery association at various work.

Mrs. Myers died on November 10, 1913. There are four children living: Mrs. Walter Harlow and Miss Ruth Myers of this village; Roy of Carlisle, Ark., and Emil of Decatur there are three grand-children. All members of his father's family are dead. Two sons died when young boys. The funeral services were held at his home on Station street this afternoon at 3:30 o'clock and were conducted by Rev. George H. Lockhart of the Baptist church, assisted by Dr. W. J. Libberton, newly appointed pastor of the Methodist church. W. J. Cameron sang two solos, "Saved by Grace" and "I have heard of a Beautiful City" and Mrs. Cameron accompanied him with the piano. Burial was in Evergreen cemetery.

**Milk For London At 12 Cents**  
Announcement of the three largest dairy companies in England has just been effected at London. The new corporation, to be known as the United Dairies, has a capital of \$5,000,000 and will control the bulk of the trade of London and the surrounding district.

According to the big dairy men, the combination was made necessary by the strength of the farmers' organizations which fix the wholesale prices which these farmers' societies, which are banded together in a strong central body, have recently been considering radical changes in the milk contracts and their delegates will meet this month to fix the wholesale price for the coming twelve months. It is expected that they will fix a figure that will give the farmer a generous profit. According to it, a gallon of milk will be sold at 12 cents per quart. As the average cost of retailing is a little more than 3 cents a quart, it will necessitate the retailer charging 12 cents a quart as against the previous winter price of 8 cents.

**Welch-Beck Wedding.**  
The marriage of Miss Anna Beck, oldest daughter of Mr. and Mrs. John Welch of Cuba township, to Nicholas T. Beck of Kenosha, will occur Wednesday morning, October 20, at 10 o'clock at St. Peter's and St. Paul Catholic church in Cary. Father Joseph Lutzgans, pastor of the church, will officiate. A dinner for relatives will follow at the Welch farm.

## I. O. O. F. OFFICERS INSTALLED

Impressive Ceremony Staged by Visiting Brothers From Elgin—Supper Served by the Rebekahs.

Installation of the officers of Barrington Lodge 1142 P. O. to receive the visiting brothers from Elgin—Thursday evening, the occasion being made one of instruction and social enjoyment.

The ceremonies were conducted by Deputy Grand Master William B. Shales of Elgin, assisted by a quartet from Elgin who were highly proficient in the work. It was the first time in the history of Barrington Lodge that the work of installation has been delegated to others than its own Deputy Master and his associates, but Edward Rieko, Deputy of Barrington desired the lodge to witness this important work put on by experts and delegated his authority to William B. Shales, a charter member of Barrington Lodge, and one of the most efficient workers in the jurisdiction.

Beautiful and impressive was the ceremony which was witnessed by members from Crystal Lake, Cary, Palatine and Elgin. The musical selections by a quartet from Elgin was most entertaining and the pretty decorations of the hall added much to the embellishment of the scene laid for the work.

A bountiful luncheon served by the Rebekahs was a feature most heartily relished and enjoyed by the many present.

The officers for the ensuing term are as follows:

J. F. Hollister, N. G., William Rieko, H. H. Powell, S. W. S. G., E. P. Priddy, Chairman, A. W. Sutherland, J. G. Max Nagel, O. G. August Rohmiller, R. S. S. Charles Witt, L. S. S., Edward Rieko, R. S. N. G., A. C. Lines, S. S. G., H. P. Askew, R. S. V. G., Oliver Anderson, L. S. V. G.

Representative to Grand Lodge, E. D. Priddy.

Secretary Morrison and Treasurer G. H. Beck are hold over officers, being elected annually.

## Hold Third Reunion.

The third reunion of the "Galaxy Club" occurred last Thursday at the home of Mrs. August Meyer, Main street. There are eleven living members of the club, eight of whom were at Mrs. Meyer's party. Twenty-nine young ladies, who were members of the social life of Barrington, 30 years ago, the old desire to see one another again assembled brought about the reunion idea. This year the members present were, besides the hostess, Mrs. Martha Kingley, Jefferson Park; Mrs. Zoe Meyer and Mrs. Louis Coltrin, Austin; Mrs. Ida Cole, Spring Grove; Mrs. Ruth Barrett, Elgin; Mrs. Emma Brockway and Miss Eva Castle, Barrington.

Luncheon was at twelve noon and the colors used for decorations were green, yellow and white; a farm yard effect was arranged at one side of the dining room and souveners of the occasion were dairy articles adorned with yellow bows.

Plans made was played during the luncheon by Prof. P. J. Fisher of Chicago and Miss Leah Meyer gave an afternoon program of piano selections.

## Return From Road Congress.

Superior George Balzart of Waukegan township, Lake county and Supervisor Emil Ficks of Elgin township returned Thursday with County Superintendent of Highways, Charles Russell, from the Northwest Road Congress held at Cedar Rapids, Iowa. The general opinion of the congress of 300 road workers was that the voters of this district should have the privilege of voting how much money should be spent to building or repairing roads to the district without the state legislation. These Lake county men returned filled with renewed interest and ideas in road construction.

## Cook County Fair Is Off.

The Cook county fair at Palatine postponed from September date until October 14, 15, and 16, has been abandoned entirely to prevent possible spread of foot-and-mouth disease. Notwithstanding the injunction which the fair association obtained, restraining state officials from interfering with the meet, officers of the association decided last week to comply with the wishes of the state board of live stock corporations.

## To Celebrate Golden Anniversary.

To celebrate Golden Anniversary, Mr. and Mrs. Gustav Krueger of east Main street will celebrate their 50th wedding anniversary tomorrow evening, October 15, with a six o'clock dinner for 100 invited guests. They will receive their friends at five o'clock in the parlor of St. Paul's church, where the dinner will be served. Their marriage took place in Germany, although they have lived here many years.

## ONLY SMALL AREA QUARANTINED

Federal Restrictions on the Movement of Livestock Removed from Indiana, Michigan and Virginia.

All Federal restrictions on the movement of live stock because of foot-and-mouth disease in the States of Indiana, Michigan and Virginia are removed by an order, signed by the Secretary of Agriculture, effective October 9. With the removal of the quarantine from these states, the whole country, with the exception of northern Illinois, is now practically free. Small areas in Steuben county New York, Hudson county New Jersey, and the so-called "neck" in Philadelphia are still under a modified form of quarantine, however, and a part of the West Philadelphia Stock yards are in the restricted area. With the exceptions, however, the quarantines which were imposed as a result of the outbreak in 1914 have now all been removed.

In northern Illinois a considerable territory is now in the closed area on account of an outbreak of the disease which occurred last August. This outbreak has resulted in the quarantining of all that part of the state which lies north of the northern boundaries of the counties of Calhoun, Jersey, Macoupin, Montgomery, Fayette, Ellington, Jasper and Crawford. In this area the entire counties of Bureau, Lake, La Salle, McDonough and Putnam and portions of Douglas, Lee, Hancock, Schuyler and Cook are under closed quarantine. The Union Stock Yards in Chicago are maintained as a restricted area, handling live stock for immediate slaughter only. The remainder of the quarantined territory is also classified as restricted area.

## Makes Final Accounting.

The final account of John Robertson, Executor of the last will and testament of Caroline E. H. Ela, deceased, was approved last Thursday by the Probate Court of Cook county and the Executor discharged. Pursuant to the provisions of the will, the \$1,000 bequeathed by Mrs. Ela as a nucleus for a free public library, was deposited in the First State Bank of Barrington to await the establishing of a public library and the election of library trustees. When a library is founded, the income from this fund will be available for the purchase of reading matter.

The Executor also paid to the Highway Commissioners of Ela Township, the bequest of \$1,000, to be known as the "George Ela Road Fund," the income from which is to be applied toward the repair and maintenance of the public roads of that township.

## Attacked by Cow.

Last Sunday towards evening Mrs. William Johnson of the Otis South farm and her two little daughters, aged 3 and 4 years, went to get a rail of water from the barn yard and were attacked by a Jersey cow. Mr. Johnson was near and tried to protect them as much as possible, but the cow was very quick and unmanageable; the father succeeded in picking up the children and was trying to get away when the animal caught the three of them on her head and carried them about 20 feet. A hired man came to their rescue. Dr. Sharpe was called at once and found the children in a bad condition, being bruised on the head, body and fingers. No bones were broken but they have been unable to walk at a.

## Announcement.

I have purchased the store building and general merchandise business of P. A. Hawley which will give me the additional room necessary to give my customers the best of service. The patrons of the Hawley store are invited to continue trading at this store where a complete line of dry groceries and general merchandise will be found. Miss Alma Rieko, who was employed as a clerk by Mr. Hawley, will be retained by me. She is familiar with your wants and you can rest assured that you will be given the same attention to which you have been accustomed.

## JOHN C. FLAGGE.

Look At Label On Your Paper.  
The mailing lists of this paper were corrected up to August 11. Please examine the label on your paper and if you find that your subscription is not paid in advance please favor us with remittance.

## M. T. LAMEY, Publisher.

**Electric Fixture Display.**  
Come and see the full display of Electric Fixtures at greatly reduced prices. Main street or call at my home on West Lake street. Satisfaction guaranteed. Housewires neatly done. Time or cash. C. C. PHILLIPS, Electrical Contractor, Barrington, Phone 34-W.

Mr. and Mrs. Martha Judd will celebrate their tenth wedding anniversary on Saturday evening, October 16, at their home south of town. Invitations have been extended to 25 friends.

## HUNDREDS ATTENDED MEETINGS

Missionary Society Sessions at Evanston Were Attended by Largest Crowd Ever Entertained There.

The forty-fifth annual meeting of the Northwestern Branch of the Woman's Foreign Missionary society was held in Evanston, October 5-7. The Northwestern Branch is composed of four states: Illinois, Indiana, Michigan and Wisconsin. The annual meeting rotates so that each conference entertains the Branch meeting once in every year.

The Rock River conference this year took its turn as host.

This was probably the largest gathering of women ever assembled in Evanston, the delegates alone numbering 1153.

So great was the interest in the sessions and so large the attendance, that it was necessary to arrange supplementary meetings at the other churches in order to provide seats for the visiting delegates in the First Methodist church.

Many returned missionaries spoke and speakers of national reputation were heard, among them were Bishop McIlwain, Homer C. Stuntz, resident bishop of South America, Dean Shuller Matthews, Dr. Guthrie, Mrs. Lena Leonard Fisher and others.

The programs were inspiring as well as highly educational, while banquet, luncheons and receptions afforded a pleasant change.

One could not mingle with this body of earnest women, without being impressed with the fact that most truly "the women who publish the glad tidings are a great host."

Forty-five years ago, the first year of the organization of the Northwestern Branch, its contribution to missions the past year was \$220,000.

Mrs. Erman S. Smith, Mrs. J. E. Nield, Mrs. F. C. Peterson, from the Women's Auxiliary, while Mrs. Frank Harrower and Mrs. William Skinner were delegates representing the two children's missionary societies of Barrington. Others who attended were Mrs. Freeman, Mrs. E. Rieko, Mrs. John Schwem and Mrs. J. A. Calkins.

## SCHOOL NOTES.

The first meeting of the "High School Literary Society" will be held Friday evening. The new officers are as follows:

Captain, Louise Pedersen; Captain, Edwin Plager; President, Linde Ott; Vice-President, Verdelle Richardson; Secretary and Treasurer, Ruth Waterman.

About sixty pupils enrolled and the club looks forward to many interesting and pleasant evenings during the coming year.

Dates of the Lyceum entertainment course are expected to be as follows: November 8 and 10, December 13, January 16, February 8 and 21, March 27.

Mr. Dodge, District Superintendent of Chicago public schools, and a former resident of Barrington, visited the school Tuesday afternoon.

Tuesday morning, the High School students on Accredited Schools for the University of Illinois paid a visit.

The teachers will meet alternate Tuesday evenings in the school library to study psychology, using Colvin & Bagley's "Human Behavior" as a text.

Room 2 celebrated Columbus day by a flag salute and patriotic songs.

On October 8, Fire Prevention day, room 6 learned to work out problems in insurance and was told about the fire insurance policy, after which they wrote excellent compositions on causes and prevention of fire.

Room 6 celebrated Columbus day by reading a short time singing patriotic songs and writing short compositions concerning the discovery of America.

The basketball game between the Freshmen and Eighth grade ended in a defeat for the former by a score of 19-8.

The tie-up was as follows:

Team	Center	Lage	Brooklyn	guard	Schwem	Schnefer	guard	Stiefenhofer	Gallagher	forward	Catlow	Waterman	forward	Titus
1														
2														
3														
4														
5														
6														
7														
8														

The rank of the grades in attendance is as follows:

Rank	Room	Per Cent.
1	1	98.8
2	5	98.6
3	8	97.72
4	2	96.97
5	High School	95.45
6		95.31
7	3	95.40
8	7	94.89

The Woman's Missionary society of the Salem church is planning to hold an apron and home bakery sale Saturday, November 13.

## HAWLEY RETIRES FROM BUSINESS

Sold Building and Stock to J. C. Plagge—George Hager Buys Building Occupied by F. J. Alverson.

There was considerable activity in sales of business property in this village during the past week. John C. Plagge sold to George J. Hager the triangular lot and building facing on the park, occupied by Frank J. Alverson for a meat market. The consideration was \$2,800. Mr. Hager bought as an investment. Mr. Plagge will continue to run the market.

P. A. Hawley, who will retire from business, sold his store building with a frontage of 27 feet on Cook street and a depth of 60 feet to John C. Plagge. The consideration named in the deed was \$5,500. Mr. Plagge owns a lot in the rear of this property and his store adjoins on the north.

The stock of general merchandise owned by Mr. Hawley is also included in the sale and is to be taken over by Mr. Plagge at a lower price. The work of inventorying the stock is now in progress.

It is the intention of Mr. Plagge to open an opening between the two stores giving him additional room needed to take care of his business.

## LAKE ZURICH

Miss Marion Jesson left here Saturday for Wisconsin.

John Prehm visited at his home Saturday and Sunday.

Mrs. Henry Spli is visiting relatives in Chicago this week.

A masque ball will be held here soon. Watch for the date.

Mr. and Mrs. Phillip Schaefer visited relatives here Sunday.

Miss Emma Nowak of Chicago visited Sunday with Miss Myrtle Bicknell.

Mr. and Mrs. Doughton spent Saturday and Sunday at their cottage here.

Mr. and Mrs. Herman Helfer and son Teddy, took a trip to Elk Grove Sunday.

Mr. and Mrs. Roland Bessler were Waukegan visitors Wednesday and Thursday.

Mr. and Mrs. James Dymond have returned home after an extended visit in Chicago.

Mr. and Mrs. E. D. Branding and two children spent several days visiting in Chicago.

Mr. and Mrs. Fred Halverson were in the home of Mr. and Mrs. Fred Wolf.

Misses Mildred and Rose Andrews were the guests of Miss Rose Prehm Saturday and Sunday.

A large number from here attended the moving picture show at Palatine Sunday. The pictures shown were the ones taken at Lake Zurich this summer.

## Prehm-Bielski Nuptials.

Walter H. Prehm, son of Mr. and Mrs. H. L. Prehm of Lake Zurich, and Miss Francis A. Bielski, daughter of Mr. and Mrs. John Bielski of Chicago, were united in marriage at St. Peter's church, Lake Zurich, Wednesday of last week at 12:30 noon. Rev. John Heinrich, pastor of St. Peter's church, performed the ceremony.

It being a double ring ceremony, Miss Rose and Albert Prehm, brother and sister of the groom, and Miss Rose and Frank Bielski, brother and sister of the bride, acted as witnesses. Following the ceremony they all returned to Chicago, and a wedding supper was served at the home of the bride's parents, 1401 Blackhawk street.

The guests of honor were as above and Stanley Lipinski, Mr. and Mrs. Frank Wajski, Mrs. William Tank, Miss Lillian Hilmuth, Mr. and Mrs. James Ratner, Fred E. Pries and Wilbert C. Neuber.

This wedding was quite a surprise to Lake Zurich and also to friends in neighboring towns, as Walter is well known among the young folks. The bride's father was known throughout the Franco-Prussian War (1870-71) as General John Bielski who led at the head of the Cavalry through that war.

Mr. Prehm is employed at one of Chicago's largest wholesale hardware stores. The newly-weds will reside at 2155 Alice Place, Chicago.

## Large Order For Seals

Monday, an order for 27,000,000 Red Cross seals was placed by the Illinois State Tuberculosis association with the American Red Cross at Washington, D. C. This order, far exceeding in size any ever before placed by the state tuberculosis association, is based upon the plans now made to bring the seals to the attention of the people in all the towns of the state and upon the increased need of the 35 local anti-tuberculosis agencies in the state for funds to maintain and develop their anti-tuberculosis work.

## WATSON'S BARN MAR-

VEL OF SANITATION

Built so That Cows Can Be Taken Care of in Short Time and Also Has All the Modern Improvements.

COST IS APPROXIMATELY \$20,000

The Equipment is the Latest and Most Modern Manufactured—Automatic Water System for Troughs.

A modern barn of wonderful equipment, owned by J. V. Watson, nearly completed on Valley View farm, No. 1, located southwest of town beyond Randall's lake and familiarly known as the old Brand farm. It has been under construction for months and will be ready for use in a few weeks. As one approaches the building it appears to be more like a fine abode for humans, rather than a shelter for cows; a visit within makes one realize the sanitary methods developed in these days for the care of dairy cows.

The exterior is done in concrete with white painted window casings and ventilating shafts; the other section, the original barn on the place, measuring 40x60 feet, has been enlarged by a concrete wing to the east, about equal in size; 74 windows, each of nine large lights, allow the sunshine to penetrate to all corners, which, by-the-way, are all "rounded corners" to assist in the new plans for hygiene.

Every device has been installed for comfort, health and cleanliness of the cattle and to save time and labor for the hired men. "The James Way" has been followed in installing the equipment, according to the ideas of the James Manufacturing company of Fort Atkinson, Wisconsin, known widely as an authority on "cow comfort."

The expense of providing accommodations for seventy to one hundred head has been large, approximately \$20,000, at present the Red Cross and Jerseys on the farm will be housed together, but eventually separate buildings for breeds will be added. The new wing will be the milking station. In the other part is divided into bull, calf and breeding pens. The floors and concrete floors and walls; partition into stalls is made by steel piping nearly two inches in diameter, strongly fastened; adjustable parts worked by levers allow various changes in the stalls for various needs, especially at milking time when each animal is positioned to reach only a given amount of food.

Ventilators are placed at the side of each window and huge shafts in the ceilings are expected to adequately ventilate the barn. Each pen and stall is provided with a metal drinking bucket, so that the cattle may drink up, lifting the covers themselves; the buckets will be filled automatically; a part of the water system includes a tank of 34,000 gallons capacity, water to be pumped by electricity. Electric power is furnished by two motors and illumination by the Public Service company.

Piping arrangements from the eaves will carry all rain water up, the lake across the street, and siphon tanks will care for drainage from the stalls. Curved flushing trenches are in rear of stalls and elevated feeding trenches are conveniently located. These are lifting feed managers, litter carriers, feed trucks and milk can carriers will be used.

This splendid building seems the "last word" in barn construction and is one of the interesting sights of the vicinity.

Thomas Page, a Chicago carpenter, has been head man in charge of the work of building and George Atkins put in all the plumbing.

Mr. Watson is president of the United Supplies and Manufacturing company of Chicago, a firm making railway supplies; the office are in the Railway Exchange building. He is also owner of four modern farms in Barrington township and also has a summer home out here.

## Leaves For Moose Hunt.

George W. Spunier leaves tomorrow for a month's moose hunting trip in Canada. His companions will be three Chicago men, Frank Campo and Ed Meckling who are both attorneys-at-law and Otto Henning of the Hennick Pledge company.

They will go to a station of the Hudson Bay company in a little village named White Pine near to Winnipeg, D. C. This order, far exceeding in size any ever before placed by the state tuberculosis association, is based upon the plans now made to bring the seals to the attention of the people in all the towns of the state and upon the increased need of the 35 local anti-tuberculosis agencies in the state for funds to maintain and develop their anti-tuberculosis work.

During Mr. Spunier's absence from his position as post-master in Barrington H. K. Brockway will be in charge of the office.

## BARRINGTON REVIEW

ESTABLISHED 1882

M. T. LAMEY, Editor and Publisher

Published every Thursday afternoon at Barrington, Illinois, and entered at second-class matter at the Barrington postoffice.

Subscription price \$1.00 per year in advance. Advertising rates made known upon application.

Telephone No. 1, BARRINGTON, ILL.

THURSDAY, OCTOBER 14, 1915

## UP AND DOWN.

Two brothers near the same age once lived in a small country town. The elder of the two was a fascinating, hardworking, dashing young fellow, popular with the girls and a "ball of fire" with the boys. He was regarded as a "rising young man."

The other brother was quiet, diligent, a hard worker, more reserved than cultivated in social affairs, and with apparently but a faint thought in his mind that of doing his work well and to the satisfaction of his employer.

Today these brothers are both in a great city. The younger is at the head of an immense manufacturing corporation employing many hundreds of people, while the "dashing and fascinating" brother is but a clerk in his employ, on the payroll, because he is his brother's brother.

Is there food for thought in the life work and purpose of these brothers? We have many young men growing to manhood in this community, and to them the future is in their hands.

Opportunities will be plentiful, but only those who enter upon the careers of life with a will and a determination will rise to the more important spheres of usefulness in the business or professional world.

The best advice this paper can give to any young man is to EARN YOUR PAY. When you do that other employers will soon be wanting you at INCREASED PAY.

There are many rungs to this ladder of life, but they are easy of access to the young man who starts his career with a determination to earn by his own efforts the approval of his employer.

Who knows but what some young man in our midst may yet rise to the head of this state or nation?

Will it be the dashing, fascinating, half young man? Or will it be the sturdy young man who resolutely puts his shoulder to the wheel and never leaves it until the last turn has been made.

## HAVE YOU BEEN?

Today, a corps of earnest and energetic instructors are laboring to implant in the minds of the children of the community that knowledge which will enable them to cope with the insuperable obstacles which beset the rocky road of life.

What have you done to encourage the teachers?

Have you been to the school to lend them the inspiration of your presence, to let them know and understand that your heart is with them in their work of educating our children?

Your visit may not mean much to you, but it has its effect upon both pupil and instructor. To the pupil it is an evidence that while they are in the hands of others they are yet uppermost in your thoughts and that you are keeping a watchful parental eye to their welfare. To the instructors it signifies your moral support, your confidence in their efficiency and your unflinching interest in the welfare of both.

## SAFETY, BUT NOT MILITARISM

A wave of patriotic fervor is spreading over this country as a result of the exposures made in the public press as regards our national weakness in matters of defense.

No sane American citizen will want to see his country exposed to attack from some powerful foreign country. Today such an attack could only result in disaster to us, because of our utter lack of the means of self defense.

Congress should take prompt measures to insure our immunity from attack from abroad, but it should be done in such a manner as not to impose the burdens of militarism upon the country. The details should be carefully worked out by experts in that line, instead of by some politician who

has no eye upon the national defense and the other upon the votes in his home district.

From a purely economic standpoint, it is cheaper by far to take measures to prevent a war than it is to fight one after it comes.

## QUALITY WHEAT COMMANDS A PREMIUM

Illinois Farmer Scores High in Extra Profits.

A prominent Illinois farmer sold his last year's crop of wheat to a Chicago Board of Trade member last week for a premium of ten cents per bushel over his neighbor whose wheat was sold in the same market the same day. The wheat that brought the premium was hard, flinty, plump and of the highest quality. The inferior wheat had a high percentage of shriveled kernels, was soft and inferior.

The grover of the premium wheat on being questioned regarding his grain said: "Two years ago I sold wheat of the same market as No. 3. At that time I was not getting a poor quality of fertilizer, but my yield was about 12 bushels per acre, on what I thought was fairly good wheat land. I had fully made up my mind to quit growing the crop when I happened to get hold of an Ohio Experiment Station bulletin which reported some tests that had been carried on regarding the effects of fertilizers on the physical and chemical properties of wheat."

"While the experimenters paid more attention to quality than yield they increased the yield in 1910 from 8.45 bushels per acre where no fertilizer was applied to approximately 20 bushels per acre where a complete fertilizer was used and to over 34 bushels where the measure was reduced with fertilizer. More than that, there were 85 per cent of plump kernels and 90 per cent of unfertilized kernels in the unfertilized. The percentage of plump kernels was increased to between 85 and 90 per cent where fertilizer was applied and to 94 per cent where reduced measure was used. But bullets set me thinking."

"I immediately ordered the best wheat fertilizer I could get. I plowed my wheat early, harrowed and planted it well and had a fine first seed. I believe in using good seed so I reseeded my wheat and drilled first class seed. Then I drilled 150 pounds of fertilizer to the acre. Last harvest my crop averaged slightly over 25 bushels an acre of the best wheat I ever grew. I am going to beat that as I have a market set at 40 bushels. As soon as I get a little draining and increase the organic content of my soil I'll get it."

As the farmer folded the check for the year's crop and closed the heavy rubber around his bill book, the elevator man who had shipped his wheat to Chicago, shook his head knowingly and said: "Whatever that man goes after he gets."

## PEACH Dainties OF MERIT

Many Ways of Preparing Fruit Which All Appreciate for its Perfect Flavor.

For peach cobbler, prepare plain pastry from three parts of flour and three-fourths of a pound of mixed lard and butter. Line the baking dish with this and pour in two quarts of freshly stewed peaches, covering the dish with a pastry lid, pierced here and there to let steam escape. Bake until brown and then cover thickly with powdered sugar and serve steaming hot with rich cream.

Here is another peach pie recipe: Bake a rich pastry crust until brown and crisp and then cool. Just at serving time beat it high with sifted peaches, sprinkle with sugar and pile whipped cream on top. A variation of this recipe is this: Cut short pastry into squares and fold the four corners to the center. Moisten them with milk, press them down so that they will remain in place, prick the pastry with a fork and bake one square for each person. Brown the oven, chill and serve high with poached hot tater large pieces, stewed just until tender and sweetened to taste. Top with a big spoonful of whipped cream.

Still another peach pie, the favorite of a very good cook, is this: Sift together a cupful and a half of flour, a quarter of a cupful of sugar, two teaspoonfuls of baking powder and a pinch of salt. Into this mix half a cupful of butter and add enough milk to make it stiff batter. Use as little milk as possible. Roll into a thick sheet. Line a deep pie pan with it and slip peaches into it. Sweeten them well and cover them with sour or sweet milk, then bake until done in a moderate oven.

A tempting dessert is peach whip. To make it press ripe peaches through a vegetable press, sweeten to taste and mix immediately with whipped cream or whipped egg whites. Pipe in tall eggs; and serve very cold.

Another tempting dessert is a peach and vanilla cake for each person. Slice a loaf of cake and dip the slices quickly in milk. Then brown in butter. Between each two slices place fresh sliced, sweetened peaches and pile on whipped cream.

United States Lenses Trade.

Brazil exports great quantities of rubber, but buys its automobile tires from Europe, not because European tires are best, but because European better trade connection in Brazil than has the United States.

## MAKING GOOD COFFEE

CERTAIN RULES THAT WILL HAVE TO BE OBSERVED.

Buying It Green and Roasting It for Oneself Is Always Advisable—Material Never Should Be Placed in Tin.

Buy your coffee green and roast it yourself. Therein lies the main secret of the good cup of coffee. Coffee after having been long roasted loses its aroma and delicacy of flavor. From ready ground or ready roasted coffee the best results are impossible.

But if the roasting is not done properly the brew may be worse than the worst made from prepared coffee. If roasted too much the flavor is spoiled and the berries injuriously affect the digestion. To prevent the decomposition of the acid, gum and resin in the coffee bean it is necessary that the roasting proceed uniformly with out excess of heat. It is better to employ a closed receptacle, which should be shaken thoroughly about every ten minutes to prevent scorching. It should be removed from the oven in about forty-five minutes, when the coffee is reddish brown. An expert tell off by the odor when the roasting is perfect.

Real Mocha coffee—something rarely seen, by the way—requires less roasting than any other because of the great amount of oil in the bean. In other coffees the dampness prevails over the oil and the excess of moisture disappears with the roasting. Mocha is roasted more when it has a cinnamon color; other coffees should have more of a chestnut color. In no instance should the coffee approach blackness.

When properly roasted the coffee should be emptied on a stone or marble table, taking care to separate the husks. The sudden contact with the air and the cold surface arrests the evaporation of the essential oils. As soon as the coffee is cooled it should be placed in a glass jar and hermetically sealed. Never should it be placed in tin. It should be used as soon as possible after roasting, for no matter how carefully kept its aroma rapidly disappears. The best plan therefore is to roast only enough for one day. That insures this really good cup of coffee.

Every housewife should have a coffee mill and grind the coffee just before making the brew, grinding only enough for immediate use. When you do not use a percolator the best results are obtained by not grinding too finely. A tablespoonful of medium ground coffee to a cup of water and "boil for the pot" is the usual rule for making good strong coffee.

The percolator has come to the aid of the young housewife who was uncertain of her skill under former methods.

## Walnut Caramel Cake.

Cream one-half cupful of butter with two cupfuls of sugar and add the well-beaten yolks of four eggs. Sift together three cupfuls of pastry flour and three teaspoonfuls of baking powder and add to the mixture alternately with one cup of milk. Flavor with one teaspoonful of vanilla, add one cupful of flaked and chopped walnut meats, then fold in the stiffly beaten whites, bake in a loaf and cover with caramel frosting.

Caramel Frosting—Beat three-fourths cupful of oil cream, one-half cupful of sugar and one tablespoonful of caramel and flavor with one teaspoon of vanilla. To make the caramel, melt one-half cupful of sugar, stir in gradually one-third cupful of water and let boil up once.

## Black Currant Souffle.

Have two medium sized soufflé dishes. Take two pounds of black currants, add four ounces sugar, two spoonfuls of water. Cook to extract the juice and press through a fine sieve. Melt one ounce of white leaf gelatin and add, and then whip in half a pint of thick cream. Place in dishes and fill so that when the berries are removed the souffle will be half an inch beyond the top of the dish. Keep on ice an hour or two before serving, pipe, or cut into cover the top with whipped cream.

## Tomato Caperes.

This is a pretty luncheon dish as well as a substantial one and easy to make into the bargain. Slice large, well-shaped tomatoes without peeling them and cut slices of bread to fit that of the end, and square mile for square mile. Animal life is found nearly everywhere, even at the greatest depths of the ocean, others have gradually increased in number and variety from their beginning to the present time. How long ago life began no one has definitely determined; but it is known to have been many million years ago, for the remains of extinct animals and plants are found in the oldest sedimentary rocks.

## Nut Patties.

Beat one egg without separating, until light. Add gradually one cup of powdered sugar and beat until very light. Add a tablespoonful of oil, one cupful of finely chopped nut meats, and stir until thoroughly and smoothly mixed. Drop by the tablespoonful on greased tin and bake for 15 minutes, or until they are a light brown, in a quick oven.

## Pepper Relish.

One dozen red peppers, one dozen green peppers, 15 medium onions. Remove all the stems and seeds and put through grinder. Pour boiling water on and let stand ten minutes, drain. Add three cupfuls of vinegar, cupful and a half of sugar, three tablespoonfuls salt. Boil 15 minutes. Seal in small jars. Delicious with cold meat.

## NEWS OF THE CHURCHES.

ST. ANN'S.

Mass will be at 8:00 o'clock next Sunday morning.

FATHER E. A. MCCORMICK, Pastor.

ST. PAUL'S.

The Young People's society meet on the first Tuesday evening of each month at half past seven.

Prayer meeting at 2:00 o'clock on the first Thursday afternoon of the month.

Sunday school at 9:30 o'clock p. m.

Regular services at 10:30 p. m.

Rev. H. THURTELL, Pastor.

BAPTIST.

Sunday morning worship, 10:30 o'clock.

Sunday school at 9:30 o'clock.

Facts for Sufferers.

Pain results from injury or congestion. Be it neuralgia, rheumatism, lumbago, neuritis, toothache, sprain, bruise, sore stiff muscles or whatever pain you have to Sloan's Liniment—brings new fresh blood, dissolves the congestion, relieves the injury, the circulation is free and your pain leaves as if by magic. The nature of the ailment penetrates immediately to the sore part. Don't keep on suffering. Get a bottle of Sloan's Liniment. Use it. It means instant relief. Price 25c and 50c. \$1.00 bottle holds six times as much as the 25c size.

Original Forms of Life.

It is believed that the original forms of life began in the ocean many million years ago, and at no time since has life there ceased. Many of the earliest forms are now extinct, others have gradually increased in number and variety from their beginning to the present time. How long ago life began no one has definitely determined; but it is known to have been many million years ago, for the remains of extinct animals and plants are found in the oldest sedimentary rocks.

Life in Its Various Forms.

The sea teems with plant and animal, and it has been estimated that the amount of life in the sea exceeds that of the land, and square mile for square mile. Animal life is found nearly everywhere, even at the greatest depths of the ocean, others have gradually increased in number and variety from their beginning to the present time. How long ago life began no one has definitely determined; but it is known to have been many million years ago, for the remains of extinct animals and plants are found in the oldest sedimentary rocks.

## ITEMS OF INTEREST TO LOCAL PEOPLE

### Happenings of the Week Told in Short Paragraphs—What's Doing in and Near Our Hurling Village.

The Dorcas society of the Baptist church expects to hold its annual bazaar on Tuesday, December 14.

Columbus day, October 12, was noted here by the display of the big G. A. R. flag down town and other flags about town.

The Women's Country Life association meets tomorrow afternoon in the village hall at 2:30 o'clock to enjoy a "Cora Party."

The Portia club has a "Moonlight Hike" scheduled for next Thursday night, October 21. Mrs. John Caldwell is hostess.

Miss Dorothy Brasel had a social evening Saturday for the benefit of the Baptist Young People's union. Her young lady friends made up the party.

Jacob Dubon of Arlington Heights has rented part of the John Thies residence on Grove avenue and expects to move here soon. He recently married Laura Miller, daughter of the late Paul Miller.

John Wolf has completed with an order recently issued by Justice of the Peace L. R. Lines to vacate the residence owned by Frank Krizowski at Chicago Highlands. He has moved into part of the factory building at Chicago Highlands.

Please note that we cannot set in type on Thursday morning all the news of the week. Even when we think that because the paper is not printed until Thursday afternoon that no news need be gathered, written and set until Thursday morning.

J. F. Gieske, proprietor of the Barrington laundry has installed a complete set of press machines for laundrying shirts. The machines are of the latest pattern and Mr. Gieske now has one of the best equipped laundries in this section of the state.

Mrs. Ernest Schultz was taken to the Augustana hospital, Chicago, Monday and was operated Tuesday morning for an affliction of the kidneys. The Schultz home is on the E. J. Lagache farm, southwest of town, formerly the Willmarth farm.

Mr. and Mrs. John Greenberg have moved from the Lardner apartment on the Platte road to the new apartment on Williams street, recently vacated by Benjamin Schroeder and family. Mr. Greenberg is employed by E. F. Wichman and came here from Chicago a few weeks ago.

E. A. Hawley sold two of his automobiles Tuesday. Fred Hawkins of Park Ridge bought the Studebaker six and T. J. Dockery of this village purchased the four passenger E. M. F. Mr. and Mrs. Hawley and son, James, expect to go to Colorado soon where they will spend the winter.

Besides the lecture by John D. Shoop of Chicago at the Women's club meeting at the school, next Wednesday night, October 20, Mrs. Robert Ferrigno, reader, and Miss Eula Ferrigno, whistler, of Austin, will entertain. Mrs. Ferrigno was a childhood schoolmate of Mrs. G. W. Spunner at Lee Center.

The reception for husbands of members and other guests to have been given by the Women's club in the new club rooms on Tuesday evening was definitely postponed on account of the death of the father of a club member. The public library books were moved this week into the new library rooms and are being re-catalogued.

Mr. and Mrs. H. S. Kincaid left Saturday to motor to Minnesota to buy some two weeks. Their children are staying at the Hawthorne, East farm with Mrs. William Meekins. November 1 the Kincaid family will move to Lake Forest where Mr. Kincaid will be employed on Melody farm the property of J. Ogden Armour, the multi-millionaire packer of Chicago.

Miss Ella Witt, daughter of Mr. and Mrs. August Witt of Barrington township, was married Tuesday evening, October 12, to Herman Nerge of Dundee. The wedding took place in the Immanuel Lutheran church in Dundee at 7 o'clock and Rev. Paul Deederlein read the service. A reception was held at the Nerge farm at which the young couple will live with the bride's parents.

An autumn magazine issued by Marshall Field & Company of Chicago this week contains a large picture of the nursery in the hospital at the Vickers kennels, Honey Lake. The luxurious equipment in nurseries and kennels, covered, willow "puppy" baskets, cots, furniture, modern bath room and many other articles for the care of the baby dog are described. However, local people who have visited the beautiful blue and white nursery, especially in the puppy house know that the nursery is only for display and furnished by Mrs. Augusta Crawford, owner, as an amusement and not used actually, in the care of the little new Alsatians and wire-haired fox terriers.

Alfred Church will go to Charlotte, Michigan, Saturday for a 10 days' vacation at the home of his sister, Mrs. E. H. Sodi.

R. W. Gracy of Crystal Lake was here Wednesday and removed the tent, which he formerly used as a moving picture theatre, to his lot on Williams street.

Mr. and Mrs. George Landwer are moving into their new home on Limits street. "This is the house that George built," nearly alone, and it has all the latest improvements.

The October 7 issue of the Iowa State Student published an eight line song written by Newton Plagge to be used as the "arsity" song. It is named "We're Loyal To I. S. C."

Mrs. Arthur Wadsworth will receive the Thursday club on October 21 when a lecture will be given by Mrs. Theodore Sabre. Mrs. Otto Sodi had the weekly club meeting this afternoon.

The cottage owned by John L. Meiners on his 11th street property has been nicely painted and other improvements made in the sub-division. Elmer Fry's new house is nearly completed.

Dr. W. J. Liberton of Newwood was appointed to the Barrington Methodist conference at the Rock River conference in Chicago this week at the request of the Methodists of this place.

Mr. and Mrs. H. G. Aurand visited Sunday at Elgin with A. Aurand, who is at the Sherman hospital on account of injuries received in an automobile accident some time ago. He is recovering nicely.

Charles Lipofsky entered the Augustana hospital, Chicago, last Thursday for treatment. He has not recovered from his operation of the early summer as was expected and may have to be operated again.

The Baptist Missionary society met at the home of Mrs. Sanford Beck Monday afternoon with twenty-eight ladies present. Mrs. Laderbach, state director, gave a very instructive talk. Tea and wafters were served.

Rev. G. H. Lockhart's subjects for next Sunday at the Baptist church are: morning, "Does God Care for Our Grief, Sorrow and Pain?" evening, "Forgive People." There was baptism at the church last Sunday evening. Watch for the date, October 25, for church news.

The first annual state Baptist convention will be in session in Aurora next week, from October 15 to 22. Rev. George B. Lockhart and several of his parishioners will be present, all or part of the time. The Missionary society will be represented by Mrs. Howard Castle, Mrs. George Banks and Mrs. Edward Smith. One thousand delegates are expected.

Dr. Albert Gieske, who has been in Elmhurst for nearly two months, notified here Monday evening to see his family. With him were Dr. Adolph Casper and Dr. W. Savage, both veterinarians representing the federal government in the infected cattle district of Lake county. They returned to that territory Wednesday. These doctors say they believe the epidemic is about conquered, as there have been no new outbreaks in the nine days preceding Wednesday and that money settlements are being made with the farmers whose cattle were killed. They also state that in case of foot-and-mouth disease broke out near Willow Springs, within 12 miles of Chicago, this week, probably spread by thrashers.

**Wear Furs of Necessity.** Throughout the cold latitudes of China during the winter the Chinese of all classes wear fur, not in tailored garments. Even the coolies have their sheep or goat skins, and people of the middle and official classes have many sets of garments lined with the richest furs. Their houses are rarely heated to a comfortable temperature, and in consequence they wear their furs both indoors and out.

**His Disinclination.** "Come, my rubber," invited Doctor (laughing, addressing a stranger who was reviled into the street) "don't you want to 'fine do heavenly band?' "No, sah; but 'fanks for de old, dese de same!" was the polite reply. "I don't play de trombone in a minstrel band all last week, and I can't do no half much any more!"—Kansas City Star.

**Peculiar Flint Rock.** J. C. Oliver of Woodstock, Vt., has a white flint rock somewhat smaller than a man's fist. Through one end of it is an irregular hole smaller than a lead pencil, caused by a vein of iron which had run out. The long root of a dock plant has grown through the hole, and it is so tightly embedded that it is difficult to pull out. The distance in the ground between the hole and the root is about 100 feet.

**Coughs That Are Stopped.** Careful people see that they are stopped. Dr. King's New Discovery is a remedy for coughs and croup, and it is its own on the market for 46 years. Youth and old age testify to its soothing and healing qualities. Coughs and croup are often caused by colds of treatment. Dr. King's New Discovery stops these hacking coughs and relieves the grippe tendencies. Money back if it fails. 50c and \$1.00.

## ADD SALAD DISHES TO MENU

People Today Eat Too Much Cooked Food That Is Frequently Lacking in Nutritive Qualities.

It has long been a joke how cats and dogs, when out of sorts, fly to grass or some kind of green food for relief. The animal knows by instinct what only a few human beings are beginning to learn from experience—namely, that nature has provided vegetables of the best order rich in mineral salts. These salts possess a double power—they not only combine with the acids and poisons in the body, rendering them powerless, but they also drive them out of the system altogether.

It is not too much to say that no great mental, moral or physical progress can be made without an ample supply of this vegetable food. Salad is the one ingredient of our regular diet which we cannot afford to do without.

Some people say salad is cold and indigestible, but cabbage, if eaten raw, needs only two or three half hours' digestion, as against five hours when boiled. The boiling of green foods destroys the original organic combination of the mineral salts.

The blood of a healthy person should be alkaline—that is, the opposite of acid—and it is the alkaline salts in raw vegetables which bring about this healthy condition.

Many thousands of men and women of all ages suffer from anemia, from having lived almost entirely on cooked food.

To those long accustomed to high flavoured food, salads will at first seem tasteless, but a liking for them comes with use.

Salad should be very carefully washed in several changes of clean water. This is essential. During washing the leaves should be well picked over and inspected.

Leaves should be torn, not cut. When done, they can be allowed to soak for an hour or overnight, but not longer, in cold water, to which a little lemon juice has been added to increase the crispness of the leaves.

The Japanese use the petals of many flowers for salads. Chrysanthemums, stocks, violets, roses, nasturtiums and dandelions are especially good, as they possess strong antiseptic powers.

## PARSNIP NOT GIVEN ITS DUE

With Proper Preparation the Vegetable Should Be One of the Greatest of Table Favorites.

Do you like parsnips? If you don't, why don't you? If they cost as much as French artichokes—which have far less flavor—wouldn't you like them? Perhaps the reason they have never appeared to you is because they are so common that they are fed to the cattle. Often our likes and dislikes for food are based on such reasoning.

Of course, parsnips must be carefully cooked to be really worth the eating. Baked parsnips have a delicious flavor. To prepare them, wash them and pare them, then slice them lengthwise and put them in a baking dish, with butter and pepper and salt sprinkled over them. Bake them until brown in moderate oven.

Parsnips are made of parsnips that have been steamed until tender, sliced crosswise, dredged in flour and fried brown in butter. Chill them and put them on lettuce leaves and add a tablespoonful of chopped ham and one of hard-boiled egg chopped fine to each plate. Sprinkle a little chopped parsley over them and serve with mayonnaise.

Parsnip fritters are made from mashed boiled parsnips. To a pint of it add a tablespoonful of flour, a well-beaten egg and salt and pepper. Make into flat cakes and fry brown.

Scalloped parsnips: Mix two cups of cold, mashed parsnips with two tablespoonsful of butter and cream enough to make smooth. Put in a pudding dish, sprinkle with buttered bread crumbs and bake until brown.

**White Bread.** Into your bread mixer put one cup of flour, one tablespoonful of salt, two tablespoonsful of sugar and one teaspoonful of yeast. Add one cup of cold water and mix until smooth and allow to cool. Add one quart of lukewarm water and one-half a yeast cake dissolved in one cupful of lukewarm water. Then add flour enough to make a firm dough; knead until smooth. In the morning mold into loaves and allow to raise. Bake for one hour. This recipe makes three loaves.

**Italian Mold.** Cook two tablespoonsful of rice until tender in a pint of milk in a double saucepan, with the very thin rind of a lemon. Strain to get rid of the rind, add a half pint of water and the yolks of three eggs. Let cook in a double saucepan a few minutes longer to cook the yolks, add the butter, stirring constantly and two tablespoonsful of cream. Pour into a wetted mold and turn out when stiff and set.

**Peach Bombe.** Scald a quart of milk, add a heaping teaspoonful of cornstarch mixed with four tablespoonsful of sugar. Cook until the mixture coats the spoon. Mix a pint of whipped cream and one pint of raw peach pulp to the scalded milk. Freeze to a mush, turn to a two-quart bowl, mold and pack in ice and salt for two hours.

**For Egg-Stained Silver.** Egg stains can be removed from silver by applying dry salt with a soft cloth.

## PERSONAL ITEMS.

Miss Emma Hager is teaching the Quintan's Corners school which opened last week.

Mrs. Virginia Tate of Park Ridge was a guest of Miss May Boyer from Friday to Monday.

Fred Klein of Crystal Lake is spending a few days here at the home of his brother, A. H. Klein.

Mrs. Christina Cameron of Garfield street has gone to Chicago to stay about two weeks with relatives.

Mr. and Mrs. M. W. Noyes, of Elgin, returned to their home Saturday after a few days visit at the home of Mr. and M. D. Prosky.

Mr. and Mrs. Charles Jabnik, Mrs. Louisa Gieske and son, Elmer, Mrs. Etta Gieske and Winifred Decker motored to Wheaton and Naperville Sunday.

George Froelich, Jr., who was in Montana and Seattle, Washington, for three years is at home on Elia street for a visit. He attended the fair at San Francisco on his way home.

Miss Eva-Jeline Bohnermann of Irving Park visited here Sunday at the home of Gus Hoffmann of Lake street. The engagement of Miss Bohnermann to Edward Rehfeldt has been announced.

Berbert Lockhart of Grove avenue who has been "crippled" for several weeks is improving and feeling much better this week. Years ago he sprained both ankles and recently, while engaging over considerable territory on business in Chicago, he strained the ligaments of his already weakened ankles. For the past two weeks the feet have been in plaster casts.

Mrs. George Spunner and daughter, Justine, will motor to Lee Center near De Kalb, Friday, to visit Mrs. Spunner's parents, Mr. and Mrs. A. A. Lane until October 20. Mr. Lane will motor to Barrington to get them and on their return Mrs. Lane will be with them to remain here several weeks. Mrs. Spunner will give her lecture on "Shells" before the Amoy Women's club on Monday.

**The Colds of Mankind Cured By Pine** Have you ever gone through a typical pine forest when you had a cold? What a vigorous impulse it sent! How you opened wide your eyes and nose in those invigorating and mysterious qualities. Yes, Dr. Bell's Pine-Tar-Honey possesses these stimulating qualities and cures those hacking coughs. The tender lining of the throat is strengthened in its attack against cold germs. Every family needs a bottle constantly at hand. 25c.

**Nails Used in Surgery.** It is said that common iron nails are now successfully used by surgeons in the repair of broken bones. The nails, which are used to hold the pieces in place while the healing process goes on, are soon covered with a sort of rust-resisting membrane and their presence occasions no trouble or ill effects. Sioux City (Ia.) surgeons report cases in which nails and even iron stovepipe wire have been used for this purpose.

**Knew Value of His Work.** Incomparably the best epitaph for Sir James Murray, greatest of dictionary makers, might be taken from one of the conversations between Johnson and Boswell. In old age Boswell said to Johnson, apropos of the dictionary: "You did not know what you were undertaking." "Yes, sir," was the answer, "I knew it all what it was undertaking—and very well how to do it—and made none of it very well."

**Lay Out Their Time Poorly.** A lot of men are so busy planning for tomorrow that they never find time to do the things which they yesterday planned to do today.

## Hot Drinks

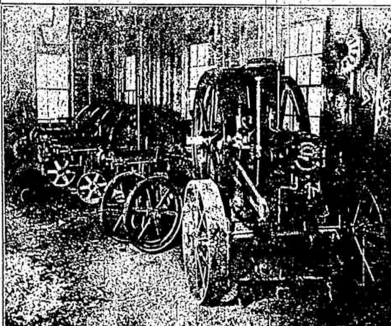

Now is the season for Hot Drinks. Try a Hot Chocolate or Malted Milk. Also Beef Tea and Chicken and Tomato Bouillon. They are very fine.

## Happenings of the World Tersely Told

### European War News

The area of war in Europe may be further widened shortly by the entrance of the kingdom of Sweden into the conflict. Official and authoritative information received at Washington is to the effect that Sweden's reason will be the interference of the British fleet with trade between the United States and that country.

No further progress by the Germans in the battle for Dvinsk is reported by the war office at Berlin, although it is stated that Russian attacks in this region were repulsed. German troops captured the heights of Hinal.

The city of Belgrade and the heights to the southwest and to the northeast have fallen into our hands. The Serbians were thrown back from their positions farther to the east and we are still advancing, says the official German statement issued at Berlin.

Payments on subscriptions to the third German war loan up to October 7 amounted to \$1,605,227,000. It was announced at Berlin.

The French and British are landing troops at the rate of 14,000 a day at Saloniki to go to the assistance of the Serbians, says a dispatch from Athens.

The advance guard of the Austro-Germans who crossed the Danube at Belgrade, has been partly destroyed and partly captured, and those who entered Serbian territory across the Sava have met with enormous losses, according to an official dispatch received by the Serbian legation at London from Nish.

The new Greek coalition cabinet decided that it was not called upon to alter the war policy of Serbia and, according to Berlin advices, Bulgaria issued a manifesto announcing her intention to enter the war on the side of the central powers.

Since the war in Europe started more than 2,000,000 men have been killed; the wounded number nearly 4,000,000, while the total number of prisoners and missing is more than 2,000,000. There are conservative minimum figures compiled by Eric Gen. Francis Vinton, U. S. A., retired, and made public at West Point, N. Y.

### Domestic

A German-American society has asked for the arrest of J. P. Morgan, the New York financier, under the neutrality statute forbidding any American from accepting a war commission from a foreign government. The department of justice at Washington held there was no ground for action in Mr. Morgan's case.

The greatest robbery in history was staged in train "Wild West" style near Central, Va., when train robbers held up a Baltimore & Ohio mail train and escaped with more than \$1,500,000 in negotiable currency. One million dollars of the booty was in Federal Reserve bank notes.

Shadowed from the time he was first detected by secret service men, Joseph Prutik, who says he is from Brussels, was halted at the door of the Presbyterian church at Baltimore when he started to enter the edifice immediately after President Wilson, his fiancée, Mrs. Norman Galt, and party.

Practically a complete denial of having knowledge of wrongdoing on the part of anybody in the primaries, registration sessions and general election was made by Mayor Joseph E. Hall, on the witness stand in his own behalf in the case in which he is accused of conspiring to commit a felony at the primaries, registration sessions and general election of 1914, in the criminal court at Indianapolis, Ind.

The new naval board of admirals elected the following officers at its first business meeting at Washington: Chairman, Thomas A. Edison; first vice-chairman, Dr. F. E. Corcoran; second vice-chairman, William D. Sawyer; secretary, Thomas Robbins; assistant to chairman, M. R. Hutchinson.

Mrs. Olga H. Walsh, of Chicago, through her attorney, Frank S. Monet, filed in the United States district court a petition to compel the Mutual Life Insurance company from participating in the \$200,000,000 loan to the allies.

Mrs. D. L. Gould, her daughter, Mrs. Robert E. Johnson, and the latter's young son, Robert G. Johnson, were killed and Mrs. M. E. Summers fatally hurt when Pere Marquette train No. 33 struck an automobile containing the party at Moseley, Mich.

Under the auspices of the American Peace society, the fifth American peace congress met at San Francisco for a three-day conference. The subjects to be taken up include "the formation of a league of peace," a world court, the church, schools and colleges.

Rev. Dr. John H. Miller, rector of St. George's Episcopal church at New Orleans, shot and killed Lausling Pearson, son of a prominent railroad man. Doctor Miller said he shot Pearson thinking he was a burglar.

A steel tube, containing 200 pounds of powder and believed to have been intended as a bomb, was found in a car laden with coal at the war munitions plant of the J. L. Mott company at Trenton, N. J.

### Foreign

The German potato crop, estimated at 90,000,000 bushels, is the largest in the history of the country, says a Berlin dispatch to the London Post. Germany has withdrawn the prohibition against exporting potatoes to Switzerland.

Vice-Admiral Boue de Lapeyere, commander in chief of the French navy, has resigned because of ill health, it was announced at Paris. Vice-Admiral Durrig de Fournet has been appointed to succeed him.

Rev. Reginald J. Campbell, who last month resigned the pastorate of the City Temple of London, in his farewell address at the momentous time that he was about to return to the Church of England, after twenty years spent in the nonconformist ministry.

British cotton stores at Bombay were recently destroyed by fire with a loss of \$10,000,000, according to the Overseas News agency at Berlin.

### Washington

"America First." President Wilson launched this slogan in a speech at the twenty-fifth anniversary meeting of the Daughters of the American Revolution at Washington. He declared himself in favor of extracting through public opinion those who use the name of the United States to aid the aims of another country.

A formal announcement was made by the secretary of state at Washington following a Pan-American conference at Washington. The declaration of Gen. Venustiano Carranza as president of Mexico.

The Daughters of the American Revolution held a silver jubilee in Memorial Continental hall at Washington in celebration of the twenty-fifth anniversary of the founding of the society.

The largest and most valuable wheat crop ever raised in the United States will be harvested this year. The government report issued at Washington as of October 1 estimates it at 1,500,000,000 bushels and its value is estimated at \$210,814,000. A corn crop will yield 3,624,000,000 bushels, with a value estimated at \$2,133,000,000. The oats crop is estimated at 1,517,000,000 bushels with a value officially placed at \$422,230,000.

The Haitian chamber of deputies ratified the new treaty with the United States by a vote of 75 to 6, and awaits action by the upper house, according to advices received at Washington from Rear Admiral Caperton.

### Mexican Revolt

A military train arrived at Guaymas, Mex., with four pieces of artillery, two machine guns and about 1,000 Villa troops.

An impartial embargo on shipments of arms and ammunition into Mexico was put into rigid effect at Douglas, Ariz., and was reported to have been completely operative all along the border. Supplies consigned to both Villa and Carranza factions were held up.

Venustiano Carranza and all other constitutionalists in Vera Cruz are overjoyed at the news from Washington that the Carranza government is to be recognized.

A passenger train bound from Vera Cruz to Mexico City was wrecked near Matamoros, according to dispatches to the state department at Washington. Fifty were killed and a score injured.

### Sporting

Grover Alexander met his superior in the third game of the world's series at Boston when he was outpitched by Hubert "Duke" Leonard of Carrigan's staff. The Red Sox won, 2 to 1, from the Phils. Forty-two thousand, three hundred fans witnessed the game.

Johnny Kilbane, featherweight champion, outclassed Cal Delaney in a twelve-round bout before a crowd of 4,000 at Akron. O. Kilbane boxed rings around Delaney through the latter part of the bout, setting ten of the rounds, and two twice over.

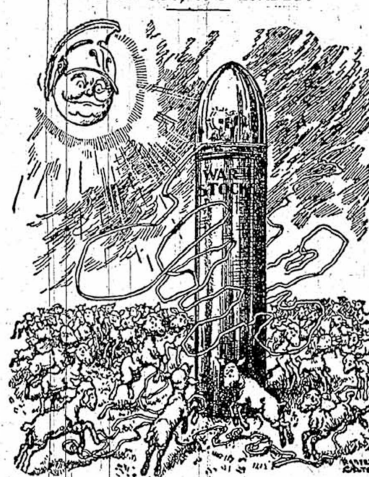

It is all over now. The Chicago White Sox defeated the Cubs at Chicago, 11 to 5, and brought home their fifth successive city championship. They routed the West side club in four out of five games played.

Grover Alexander, the star pitcher of the National league, won the first game of the world's championship series for the Phils from the Boston Red Sox at Philadelphia. The final score was 3 to 1 and was bitterly contested. Ernie Shore twirled for the Red Sox.

### Personal

Mrs. Abigail Scott Duniway, known as "the mother of woman suffrage in Oregon," died at Portland, Ore. She was eighty-one years old.

## LOOK OUT, IT'S LOADED!

## TO WAR ON PLAGUE

HOOF-AND-MOUTH DISEASE FIGHT TO BEGIN NOVEMBER 26.

Experts to Plan Action at First National Conference to Be Held at Chicago.

Washington, Oct. 9.—The first national conference of experts in hoof-and-mouth disease will be held in Chicago November 26 and 27.

The department of agriculture is sending out the call for the gathering with a view of deciding on plans to wipe out the disease. The federal government and each state is expected to have official representation, along with the inspectors, the stockyards, the breeders' associations and banking interests intimately concerned with stock raising.

If accurate figures could be given the shifts in the stock industry of the country is a result of the hoof-and-mouth epidemic would be startling. Department of agriculture officials say that the business is moving westward with great rapidity, and they attribute this to the fact that the epidemic has taken business away from the former leading markets of the country.

Today practically the only state and a federal quarantine in Illinois, and that is in large part because some of the local courts in that state have been willing to interfere with the enforcement of the federal regulations.

Great sections of the live-stock yards in Chicago, as they were described by federal officials recently, are cleaner than ever since they were constructed, but there is no business going on because nobody can ship out of there.

In holding the forthcoming conference it is confidently believed that in the light of recent experience it is now possible to make rules under which a repetition of a national epidemic will be impossible.

## WHEAT RECORDS SMASHED

United States, for First Time in History, Produces Billion Bushels of Grain.

Washington, Oct. 9.—For the first time in its history United States this year produced a billion bushels of wheat. The crop reporting board, department of agriculture, estimated Thursday that this year's crop based on October 1 indication would total 1,500,000,000 bushels. Last year's output was 1,291,000,000 bushels. Record crops also were produced in oats and barley. With an estimated output of 1,517,000,000 bushels the oats crop of the September forecast by 10,000,000 bushels and surpassed any previous crop. The barley crop is 237,000,000 bushels.

## WAR GAME COMES TO AN END

United States Is Theoretically Invaded by the Enemy Landing in Delaware Bay.

Washington, Oct. 12.—The United States has been invaded by a foreign foe. The "Red" fleet—theoretically, the enemy—effected a landing in Delaware Bay, getting past the "Blue" defending fleet. This brought the "war game" of the Atlantic fleet to an end. Rear Admiral Knight commanding the invading fleet, and Admiral Fletcher directing the "Blue" squadron.

## Huerta Minister Is Slain

Washington, Oct. 12.—G. G. Grand, minister of the interior in the Huerta cabinet, was executed in Mexico City, says state department advices. He was charged with complicity in the killing of President Nader.

## Pope Writes to Sultan

Rome, Oct. 12.—Mgr. Delol, having reported to the holy see on the sufferings of the Armenians, Pope Benedict has written an autograph letter to the sultan of Turkey interceding for the unfortunate people.

## SWEDEN IS NEAR WAR?

NATION OPPOSED TO INTERFERENCE OF TRADE BY BRITAIN.

Reported That Country Will Join the Teutons—reference to Denmark May Aid Allies.

Washington, Oct. 11.—The area of war in Europe may be further widened by the entrance of the kingdom of Sweden into the conflict.

Official and authoritative information received here is to the effect that Sweden's reason will be the interference of the British fleet with trade between the United States and that country.

The real ground for action, it is asserted, will be the desire of Sweden to profit territorially from Russia's defeats.

If Sweden should throw her forces on the side of the central powers it would be a serious blow to the allies. Norway and Denmark will be able to keep out of the mainland which has engulfed most of Europe.

Norway is traditionally pro-English in sentiment and policy, and Denmark's hatred of Germany, because of the latter's seizure and absorption of the "lost Danish provinces," has not been diminished by time.

The Scandinavian kingdom has a total war strength of about 425,000 men. Its navy comprises one ocean-going cruiser, 13 coast-defense battleships, eight destroyers and more than fifty torpedo boats and submarines.

While there is no question that the British fleet has interfered with trade between the United States and Sweden, and this government will protest a few days against violations of American rights, as a matter of fact there has been a sixfold increase in commerce with that country. During the last fiscal year the United States sold to Sweden products valued at \$78,272,818, as against \$14,644,226 during the fiscal year preceding the war.

## CRANK TRIES TO SEE WILSON

Police Halt Foreigner as He Enters Church—Galt With the President.

Baltimore, Md., Oct. 12.—Shadowed from the time he was first detected by secret service men, Joseph Prutik, who says he is from Brussels, was halted at the door of the Franklin Street Presbyterian church on Sunday when he started to enter the edifice immediately after President Wilson, his fiancée, Mrs. Norman Galt, and party.

Prutik said he had been in this country three months and had been in Washington three days. He is kept under surveillance.

## U. S. AVIATOR IS DROWNED

Lieut. Walter R. Talliferro Falls 1,000 Feet With Aeroplane Into San Diego Bay.

San Diego, Cal., Oct. 12.—Falling with an army aeroplane 1,000 feet into San Diego bay, Lieut. Walter R. Talliferro, stationed at the United States army aviation school at North Island, sank with his big tractor machine. A fifty feet of water and was drowned.

## Kills Rich Man as Thief

New Orleans, Oct. 12.—Br. Byron Holley, rector of St. George's Episcopal church, shot and killed Lausling Pearson, son of a prominent railroad man here. Doctor Holley said he shot Pearson thinking he was a burglar.

## Big Hotel Burns

Waycross, Ga., Oct. 12.—The La Grande hotel, covering an entire block, was destroyed by fire Sunday with a loss of \$170,000. W. B. Ellington, a real estate dealer, lost his life by jumping from the fourth floor.

What He Used Them For.  
Customer—I want another fire extinguisher. Used the last one all up last night.  
Clerk—Glad to sell them to you, sir, but aren't you rather careless at your place. That is the third one I've sold you in a week.  
Customer—Oh, I don't use them for fire. They are the greatest thing on earth for chasing out your daughter's late callers.—Judge.

Most of the so-called golden opportunities that come our way are only plated.

Motto for a lawyer: "I will." Motto for a fruit preserver: "I can."

Warrior of Today.  
George Wharton Pepper said at a luncheon at the Pittsburgh training camp for officers:  
"The methods of warfare have changed enormously in the past year. The sword, for example, is no longer carried. The sword has quite disappeared from war."  
"A story comes from the Argentine about a French chasseur, who took a German officer prisoner. The chasseur, a lyro, said to the officer:  
"Give up your sword."  
"But the officer shook his head and answered:  
"I have no sword to give up. But won't my vitriol spray, my oil projector or my gas cylinder do as well?"

## The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. L. Fletcher for over 30 years. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper has his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used it know that their little ones in the past years need no warning against counterfeiters and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families dangerous medicines. It is to be regretted that there are people who are now engaged in the nefarious business of putting out and selling all sorts of substitutes, or what would be properly be termed counterfeiters for children's medicines. It is only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do this for themselves, but the child has to rely on the mother's watchfulness. Genuine Castoria always bears the signature of *Chas. L. Fletcher*.

## FRIENDSHIP, HIS ONLY IDEA

But We Have a Suspicion That the Young Man Did Not Accept the Father's Offer.

He came into the old gentleman's office with a bright smile.  
"I'm the young man who's been calling on your daughter, sir, and I just dropped into say I am not in love with her."

No answer.  
"I want to be perfectly square. Our is a friendship, pure and simple—genuine platonic. We respect each other. We enjoy simple and friendly communion. Just a case of comradeship, pure and unalloyed."

No answer.  
"You may think—it would be natural for any man of your vast experience of the world to think—that, even if I feel this way about it, your daughter might unconsciously be falling in love with me, only to make up some day and find her heart broken. Through no fault of my own, you understand. Just one of those unhappy accidents which come to us, sir. Nothing in that. She knows the situation. Purely mental, I assure you."

The old gentleman wheeled around.  
"Weren't you kissing my daughter last night in the back parlor?"

"The young man smiled again.  
"Certainly, sir, certainly. Nothing that I assure you—because the idea of friendship. Ever hear of Damon and Pythias? They kissed each other frequently. Jonathan and David also, I sir, am proud to kiss any friend of mine."

"Um! I suppose you'd put both arms around your friend, hold his white hand in yours and say his head on your shoulder—just for pure friendship?"

"That's it, sir. Your intuitive mind has grasped the idea. With me friendship is everything."

"And what is your idea of love?"  
"Love, sir? Never experienced it. I'm not interested in love. No for friendship, pure and unalloyed."

"I see—just a few friendly, platonic hugs and friendly kisses and—"

"Exactly, sir. You know?"  
The old gentleman smiled.

"I'm glad you called," he said.  
"Nothing like a frank talk to clear up these little matters. Young man, I feel friendly toward you already. No reason, is there, why you and I shouldn't be friends?"

"None, sir. In fact, it's the dearest wish of my heart."

"Good! Then I tell you what. I'm going to send my dear, friendly daughter away tomorrow for a month's vacation. But don't let that scare any difference. I'll take her place. Come around and sit in my lap all the evening, will you?"—Life.

That's Different.  
"When we want to say something that we don't dare say in English, we use French."

"And when the French want to say something they don't dare say in French?"

"Ah, you could make your fortune in Paris if you could only discover that something."

Why They Don't Go.  
"How did it happen you didn't go away during the summer? I thought you were having an extensive outfit prepared for you?"

"That was the trouble. By the time I got the outfit paid for I didn't have any money left."

Getting Even.  
"The cook asked for a week off to get married, so I gave it to her."  
"I don't think I would have done that. You can't spare her very well now."

"I know I can't, but it was the only way I saw to ever get even with her."

Quite Thing.  
"Carrie is a long-headed girl."  
"How so?"  
"Instead of trusting to luck at the roulette she got engaged before coming down, and makes her fiancé come down to see her once a week."

## KIDNEY TROUBLE

Is a deceptive disease—thousands have it and you may not know it. If you want good results you can make no mistake in getting Dr. Williams' Pink Pills for Pale People. At drug stores, sample also bottle by mail. Address Dr. Williams' Pink Pills Co., Brockton, Vt., and enclose ten cents, also mention this paper.

## MOON'S Emerald Oil

THE FAMOUS AND UNEXCELLED ANTISEPTIC AND GERMICIDE For Varicose Veins, Ulcers, Hemorrhoids, Piles, Eczema, Faints, Rheumatism, Abscesses, Sores, etc., only a few drops required at an application. So marvelously powerful is Emerald Oil that Enlarged Glands, Wens and Varicose disappear with its use. Price \$1.00 sent anywhere charges paid on receipt of price tag. Generous sample on receipt of 10c from MOON'S CHEMICAL CO., ROCHESTER, N. Y.

## HAD REAL IDEA OF ECONOMY

Jap Explains How Family Was Enabled to Use One Fan Two or Three Generations.

Among the Japanese, economy is held to be a high virtue. One day disciples of Tokyo were two discussing ways and means of saving.

"I manage to make it fan last about twenty years," said one, "and this is my system: I don't wastefully open the whole fan and use it carelessly. I open only one section at a time. That is good for about a year. Then I open the next, and so on until the fan is eventually used up."

"Twenty years for a good fan!" exclaimed the other. "What sinful extravagance! In my family we use a fan for two or three generations, and this is how we do it: We open the whole fan, but we don't wear it out by waving it. Oh, no! We hold it still, like this, under our nose, and wave our faces!"—Everybody's.

## Assisting Ambition

Men of ambition—with the desire to forge ahead—need revitalizing food to help them to compel success.

The silk hat falls too often into the hands of those who are strangers to the art of scenic investiture.

## Assisting Ambition

Men of ambition—with the desire to forge ahead—need revitalizing food to help them to compel success.

The silk hat falls too often into the hands of those who are strangers to the art of scenic investiture.

"I should say so, yes. Why, he won't even eat cabbage because it is so intimately associated with corned beef."

"The silk hat falls too often into the hands of those who are strangers to the art of scenic investiture."

## BEST WAYS TO COOK BACON

**Meat Is Too Frequently Wasted Because Insufficient Thought Is Bestowed Upon It.**

Bacon is an extravagant article in the list of cooking materials because of its increased price and the fact that often twice as much as is needed is used for getting other foods.

This delectable meat will probably never be low-priced again, yet it will always be a great addition to the menu, so that to know the best ways of using it without waste is a necessity if one is to cook well.

The drippings from bacon are the best for shortening cakes and everyday pastry; therefore, every bit of the fat that renders out in cooking should be strained and saved for such uses. This reduces the first cost of the meat very much, for the shortening bill has soared with the price of pork.

All left-over bacon makes excellent seasoning for meat loaves and may be nicely browned for garnishing by being dipped into egg batter and then into fine crumbs and placed in a hot oven, on a bacon rack, until golden brown.

If you have never broiled bacon on a rack you have a culinary treat in store, for the inferior bacon becomes fine tasting when broiled so and best bacon delectable. Any wire broiler or oven rack may be used; the slices are spread out, with the following ingredients, one another, on it and placed over a dripping pan in a hot oven.

Sometimes bacon is as salty as salt can make it. If you are cooking in hot water after it is cut, after such treatment the salt is not too apparent. The best of sausage can be made at home with the following ingredients: One pound of veal, one pound of fresh pork, one cupful of bacon chopped and one cupful of cracker crumbs. Grind the meat and pork together and add cracker and bacon, seasoning of pepper and sage with little salt, as the bacon supplies this. Grind the mixture again and shape into cakes and fry. Cold meat of any sort may be used in place of the veal.

## GOOD LUNCHEON FOR CHILD

Delectable the Youngster Will Appreciate and That Will Keep Him in Best of Health.

Fairy Apple—Pare and core enough tart cooking apples to fill a baking dish; cover them with sugar, and put a little cold water in the dish, also several slices of lemon and two cloves. Then pour a little melted butter over the apples and bake them until tender. Serve them cold, with a blob of fruit jelly put on the top of each, and whipped cream about them.

Ambrosia—This delicious dessert could be an occasional treat, as it is rather troublesome to make. It requires grating coconut, sliced oranges and bananas, sugar and a wee taste of lemon juice. Fill a dish with layers of the different fruits, putting sugar over each one, and continue in this way until the ingredients are all in. Let the dish "blend" while in a cool place before serving. Fresh coconut is needed, and if the milk of the fruit is sweet this may be added to the dessert.

Brown Sugar Sandwiches—For the children, incessantly craving sweets, brown sugar is an excellent thing to keep in the house. Spread it thickly on buttered white bread and put the slices either so as to make narrow sandwiches.

Quick Ginger-Cake Pudding—Get any sort of small or large ginger or apfines cakes from the grocer and cover them with a custard made of boiling hot milk into which several eggs are beaten up. Pour the milk gradually into the eggs, stirring vigorously all the while, sweeten and pour over the cakes, allowing them to stand until they have "drunk" up a good deal of the custard. Serve warm or cold.

Apple Pudding.  
Pare and core one-half dozen not very tart apples. Butter a granite saucepan and get in apples with sugar, little water. Add one cupful of sugar, two tablespoonfuls of brandy and a dash of nutmeg. Put over a low fire, cover and let simmer without cooking hard till apples are tender. Take up when done, being careful not to break them, and set away to cool, pouring over them the sirup in which they were cooked. When quite cold and ready to serve put in a glass dish, sprinkle them over with fine macaroon crumbs and send to table.

Pressed Flank of Beef.  
Wipe, remove superfluous fat and roll a flank of beef, put in a kettle, cover with boiling water and add one teaspoonful salt, one-half teaspoonful peppercorns, a bit of bay leaf and a hunk of butter. These ingredients cook slowly until meat is in shreds. There should be put little liquor in the kettle when meat is done. Arrange meat in a water pan, pour over liquor, cover and press with a heavy weight. Serve cold, thinly sliced.

Orange Drink.  
Orange juice can be made to serve as a most delicious drink if only a little thought and time be spent upon it. Slice, chilled in tall glasses, with some diced banana, a grapefruit cut and seeded, a bit of pineapple or any reasonable fruit.

To Wash Silk Lace.  
Silk lace should be soaked in milk overnight, then washed in warm soapy water. Rinse and blot out on a clean towel; board until dry. Do not iron it.

## No Trick to Reduce.

If you are too stout, don't take fast reducing medicine; cut down on your diet, get out-of-door exercise, and you will assume normal lines and reduce to normal weight. Avoid sweets, eggs, cream, fat meats and especially potatoes. Live mainly on lettuce, spinach, cabbage, lean meats, young onions, celery, tomatoes, etc. Take your meals at regular intervals. If you cause to give your body fatmaking foods you will cease creating fat cells. It is no trick to reduce if you practice self-discipline.

## Investigating the Heavens.

Incomputable in value as are the discoveries that have been made in terrestrial affairs by means of the spectroscopic, its most marvelous accomplishment has been the story it has told of the composition and movement of our sun, our fellow planets, and many of the great suns of the celestial canopy, star clusters, star multiples, nebulae and even, elusive comets, which come from none known where, and go to none known where.

## Peach Seeds of Value.

At a fruit-canning plant in California a thousand tons of peach seeds were accumulated last season. They were cracked by special machinery, and the meats shipped to Germany, where they were used in the manufacture of prismatic acid and some other products. The teaching was given by the Germans to make the bitter almonds of commerce. The canning company sold the shells as fuel.

## Shall Women Propose?

Of course women should propose. It is women who change their entire lives by matrimony; it is women who take on colossal responsibility by matrimony. The woman should surely be allowed to choose the man for whom she feels herself able to work and give. Men propose; men have had it all in their own hands up to now, and if they have married the wrong woman they have only themselves to blame for it.—Women of the World.

## Pinned Him Down.

Sidney Smith was once dining in company with a French gentleman, who had been before dinner indulging in a number of French-baking inventions, and had ended by avowing himself a materialist. "Very good, good," said Mr. Smith. "Oul, monsieur, excellent," was the reply. "For you, do you believe in a cook?" inquired Mr. Smith.

Mr. and Mrs. R. C. Hallock of Cleveland, Ohio, arrived here Tuesday and will spend the winter with Mrs. Lucy Clough.

The first of the lecture course, the Maud Stevens Concert company, was held here Friday evening and was well patronized.

Mr. and Mrs. Dennis Murphy were taken to Cleveland, Ohio, by the serious illness of the former's daughter, Alice Nagel.

Mr. and Mrs. George C. Roberts of Raton, New Mexico, are visiting relatives here. This is their first visit in 11 years.

Mr. and Mrs. Herman Malm and Mr. and Mrs. Henry Geary attended the funeral of the latter's sister, Mrs. Cecelia McGurree in Chicago Saturday morning.

Dr. Coon and wife motored to Alton Junction during the past week. Mrs. Coon remaining for a visit with relatives there and the doctor's mother and sister accompanying him home.

Patrick Courtney one of the oldest residents of this vicinity died at his home west town Sunday, aged about 90 years. The widow and several children survive. He was the last survivor of four brothers, who settled on the flats about 60 years ago.

Earl Converse of Fremont and Miss Minerva Davis of Wauconda were married in Chicago Thursday, October 7. After the ceremony the young people left for the south on their wedding trip. The bride is the daughter of Mr. and Mrs. W. E. Davis and has many friends here who will wish for her all the good things of life. This is the fourth wedding in the Davis family in the last 17 months.

To Keep Well.  
A knowledge of the law of immunity teaches that when our health is at its best our restraining power is at its best. Hence we may be immune to disease. While it is wise and necessary to avoid, control and destroy disease-producing germs wherever found, it is very necessary to render the body as heavily immune as possible and then keep it in that condition.

Use Rabbit Fur on Hats.  
Rabbit fur is said to be supplanting wool in felt hat making in Australia, where 32 factories are in operation. The fur is considered much superior to the finest merino for this purpose, and millions of rabbit skins are used annually.

Immense fortunes in India are in jeopardy, there is no conservative method of computation of the extent of this form of wealth. The Imperial Gazetteer of India described 60 years ago a snail of pearls, with an unbroken border of diamonds, rubies, sapphires and emeralds, valued at \$5,000,000. There are mines of carapets of pearls and great diamonds which have become world-famous.

Health in India.

## CLING TO OLD IDEAS

## HOUSEHOLDS SLOW TO ABANDON ANTIQUATED METHODS.

But There Are Many New Ways of Cooking That Are Superior to Those That Have Been Long in Use—Here Are a Few.

Most of us believe what we are told. If you tell a child a lie, it will believe it as readily as the truth; very often. If you tell anybody that a tin pan on an asbestos mat is very hot, he will believe you, very probably, and be careful not to touch the pan, although it may be cold. So it is with the lore of cooking—most of us believe it, take it for granted. It has descended to us, it has been told to us by others. And few of us experiment for ourselves to prove its truth.

So it is that we beat eggs with a fork, laboriously, when we wish to have them especially light. We have learned to believe, because we have been told so, that eggs beaten with a fork are lighter than eggs beaten with a Dover egg beater. They are not. That is the decision of a very careful cook, who has experimented with both kinds of eggs. So why waste arm muscle doing a work when an egg beater does the work in half the time and less?

Another thing we have believed for years is that gelatin, if boiled, would not jelly. It will. Boiling does not seem to affect it—again, according to careful experimentation.

When jelly, made of fruit juice and sugar, will not jelly, it sometimes needs less sugar, rather than more—that is to say, there is so much sugar that a thick sirup instead of a jelly results, and so more fruit juice must be added to bring the right result.

Another bubble to prick—it is not necessary to have cold oil and eggs, bowls and spoon for making mayonnaise. What is necessary is uniformity of temperature. If the oil has been standing in the temperature of the room, the eggs and bowl stand there until they are all approximately of the same temperature. If the oil has been taken to the ice, put the bowl, the spoon or beater and the egg there to become equally cold.

## Fruit Salad.

This delicious and ever welcome dish is made by putting in a salad bowl or deep glass dish, apple, orange, banana, pineapple, orange etc. Arrange the fruit in layers in a salad bowl or deep glass dish, sprinkle each layer of fruit with sugar, and pour over a little good sherry or Madeira wine, cover top with vinegared lettuce, according to the quantity of fruit used, also a small quantity of plain sirup. Place the bowl on the ice for about two hours. Just before serving add a small glass of liquor, such as Kirschwasser, Curacao, Benedictine or Chartreuse. This is a most refreshing dish, suitable to all seasons of the year, but more especially for hot summer days.

## Wealth in India.

Immense fortunes in India are in jeopardy, there is no conservative method of computation of the extent of this form of wealth. The Imperial Gazetteer of India described 60 years ago a snail of pearls, with an unbroken border of diamonds, rubies, sapphires and emeralds, valued at \$5,000,000. There are mines of carapets of pearls and great diamonds which have become world-famous.

## Refrigeration.

A Clogged System Needs Attention. Are you illious, dizzy and restless? Dr. King's New Life Pills taken at once clears up constipation and starts the bowels moving naturally and easily. Moreover it acts without griping. Neglect of a clogged system often leads to most serious complications. Poisonous matters and a body poorly functioning need immediate attention. If you wish to wake up tomorrow morning happy in mind and entirely satisfied, start your treatment tonight. 20c a bottle.

## Training Children.

The trouble is that many parents do not appreciate the importance of beginning to train their children in emotional control while the children are very small. They may adore them and pamper them, but they do not train them. So, that often without the parents' suspecting it, the habit of excessive emotionality grows until it becomes an ingrained personal trait.

## Real Definition.

An applicant for a teacher's certificate in Kentucky answered an examination question by defining "Refrigeration" as "kissing the wrong girl." Dictionary or no dictionary, we would have given that girl a first-class certificate.—Houston Post.

## Safety Pin an Old Idea.

Queen Victoria's reputed inventor of the safety pin, has been exploded by the recent discovery on the island of Crete of one supposed to have been made at least 900 years B. C. This gives it the safety first honors.

# Booster Club Campaign

## ANNOUNCEMENT:

The Practical Advertising Company, of Springfield, Illinois, is going to organize a Booster Club in this community.

## COMMUNITY BUILDERS

This company comes with a reputation as a community helper. Through interchange of ideas, each Booster town gains something from other Booster towns. Each member of the Booster Club, besides the material benefits offered, is given a thorough correspondence course in modern business methods. Many young people have risen to positions of trust and responsibility through the direct influence of their Booster Club training.

Besides the business training received, the members of the Booster Club are going to have social amusement. There will be entertainments galore, not only for the Boosters, but for their friends as well.

We are looking forward to a very pleasant time.

WATCH FOR COMPLETE ANNOUNCEMENT NEXT WEEK
