Julius Kirmse of 2334 Moffat street, Chicago, aged father of Henry Kirmse of this village and Gustave Kirmse of Barrington township, died at his home last Thursday morning, November 4, at 9 o'clock, of a general debility caused by old age. Later they lived in Chicago and Mrs. Kirmse was employed at E. Wolff Manufacturing company, the large plumbing establishment. The family moved to Barrington and he continued in his Chicago position while Mrs. Kirmse kept a general store in a building which stood between the restaurant and the Mill buildings. After a few years, they bought a farm near Cook Station, which is the present Balmes farm. They occupied this until thirteen years ago when they moved back to Chicago. ## DR. GIESKE SHOT DURAND CATTLE

Says Cattle and Pigs' Hoofs Were Rotting Off—Man on Farm Auctions Will Soon Be Lifted.

Two young sons of Frank Reed, Russell aged nine and Norman aged twelve, of Ridgefield near Woodstock, were killed by a fast Northwestern train last Saturday during the noon hour when returning from Crystal Lake to their automobile, a Hudson-Edwards. Reed killed his engine on the track after paying no heed to the flagman and a warning bell. His brother, Sidney Reed, jumped from the car just in time to escape the crash. The little boys died immediately and the father was taken to the Woodstock hospital here. He was a retired and pensioned railway man although only about 40 years of age. Mrs. Reed was in a window of their home when the accident. Mr. Reed had three ribs broken but will recover.

### Deliver Lecture.

Rev. George E. Lockhart of Beloit, Wisconsin, former pastor of Barrington Baptist church gave an address before the Wisconsin Baptist State convention held recently in historic Green Bay. The Chicago Standard printed the following regarding it:

"The Chicago Standard was left for the transaction of important business, and the delegates who could remain were well repaid, for they had the privilege of listening to what was perhaps the most effective address of the entire convention by Rev. George E. Lockhart of Beloit on 'Armouring Wisconsin, Baptists to Christian Education.'"

It was a convincing appeal in which he set forth the situation at the University of Madison in making adequate appropriation for the work in which Rev. Lockhart, the student pastor, is so notably successful. Rev. Lockhart's address was so clear and to the point that the convention voted to recommend to the board the consideration of a project to secure a property near the university, worth \$50,000 for a school house upon which action may be had.

### Going to California.

Mr. and Mrs. Edward Wiseman are planning to go for the winter to Los Angeles, California, in about two weeks. If Mr. Wiseman is able to do so, he is feeling very poorly this week.

Their home on South Hawley street will be occupied by H. Bartholomew and family. Mr. Wiseman has sold his frame two-story apartment house, next to his home, to Fred Wendt of Cook Station who will move to town in the spring. The price was \$2,000. The modern cement house built by Mr. Wiseman a few years ago has been sold to Mrs. Ernestina Wabum for \$2,500.

### Old Fellows Meet Next Week.

Two thousand Odd Fellows and Daughters of Rebekah were assembled at Springfield last week for the seventy-eighth annual session of the grand lodge of the order, the grand encampment and the state assembly of the Rebekahs. The grand lodge and grand encampment will hold their sessions in the city of Springfield, while the Rebekahs will meet in the First Christian church.

Mr. and Mrs. Arnold C. Lines and E. D. Proby will go Monday morning to be in attendance. Mrs. Lines as delegate for the Rebekahs and Mr. Proby for the Odd Fellows.

The will of the late DeForest Kelsey of Cook township was entered for probate before Judge Smiley at Woodstock Tuesday. At the time of Mr. Kelsey's death he owned two houses and lots in Cary and a small amount of personal property. The will provides that his daughters, Mrs. W. W. Brown and Mrs. A. H. Abbott of Cary be given all the property. Mr. Kelsey conveyed by deed prior to his death all the real estate he owned in Lake county to his sons George and Frank Kelsey.

She had been poorly for some time and it was thought she could not recover. About 12 years ago Mr. and Mrs. Phelps resided in the Krahn house. Mr. Phelps being employed in the foundry at Chicago Highlands. The funeral will be held tomorrow afternoon at two o'clock at St. John's and Halle Loney went there Wednesday afternoon and Mrs. Lines and Mr. Jones went Thursday morning.

## TRAIN KILLS TWO AT RIDGEFIELD

Two Boys Died Instantly and Father Badly Hurt When Engine Went "Dead" on Crossing.

It is expected that the ban against auction sales on farms will be lifted next week in northern Illinois counties on account of the slaughter of the last lot of hard of cattle Tuesday. The long controversy between the authorities and Mrs. Scott Durand of Crabtree farm, Lake Blue, over her prize Guernsey herd which has foot-and-mouth disease since early August, was ended by a brief and emphatic letter from Governor Danne to Sheriff Griffin of Lake County, ordering immediate slaughter.

No further litigation was allowed and the 57 cattle and 13 pigs were killed, the shots being fired by Dr. Albert Gieske of Barrington. Mrs. Durand was hysterical with grief at the final disappointment in her hopes of saving the cattle valued at \$50,000. By her resistance to their slaughter she has lost her state reimbursement fund and has been at large expense to try to eradicate the disease from her herd.

The Durand affair has injured the cattle industry of the state beyond estimate. Dr. Gieske says that he considered the herd badly infected with no chance of recovery and that the very herds were rotting off the cows and pigs.

**Cartoonist Was Good.**  
Colby, the cartoonist at the high school Tuesday evening, was really splendid in his lightning sketches of beautiful scenery and comic pictures. His running conversation was both amusing and instructive. He studied in France and Germany for four years as a young man and became a cartoonist after success as a legitimate artist. He has worked on several large newspapers as cartoonist including the Chicago Daily News. His rapidly produced sketch of the Mountain of the Holy Cross at Eagle River in Colorado was very realistic.

If succeeding entertainments in the Redpath course at the high school this winter can be judged by this one, they will be worth attending.

**Missionary Program Well Attended.**  
The missionary program at the Salem church last Sunday evening, given by the members of the Young Peoples' Missionary society of the church, was well attended and a success throughout. Miss Almida Plagge, the official president of the society, presided. The songs by the Salem choir, instrumental duet by Edwin Plagge and Ruben Anand, piano solo by Miss Eunice Butler and vocal solos by Miss Elva Chrysler of Chicago were highly appreciated. The readings by Miss Clara McLarin from the Moody Bible Institute of Chicago, were spiritual and inspirational. That the program was helpful and enjoyed by all was evidenced by the good offering received.

### Have Regular Meetings.

Barrington Lodge No. 429, Mystic Riders of the World has had regular meetings for several years, but the members have decided to again be active. A meeting was called two weeks ago at the home of Mr. and Mrs. John H. Lippert and the district manager, Mrs. Abbie G. Abbott, presided. R. M. Lines was appointed deputy for Barrington jurisdiction. He is a bright and energetic worker when he is asked to call and explain to any one the features of an insurance policy in the M. W. W.

The next meeting will be November 16 at the home of Mr. and Mrs. William C. Meyer, 1009 East street, where plans will be perfected for the routing of the Odd Fellows hall for future meetings. All members are requested to be present.

### Held Social Gathering Last Friday.

The Philatelic class of the Salem Sunday school held its social gathering at the home of Mrs. G. F. Stiefelhofen last Friday afternoon. There are fifty members and forty-one were present. They voted to donate \$5 towards the Yubien organ fund, money for which the Salem school expects to raise. Also, they voted to carry provisions to the needy in our town at Thanksgiving.

After business, an interesting program was given and several contests for amusement. A light luncheon of fruit salad, wafers and tea was served; everyone had an enjoyable afternoon.

Worth Knowing.

Every housekeeper knows that in a small household where only one or two servants are kept, several guests over Sunday mean a great deal of work—manual labor for the domestic and head work and responsibility for the hostess. If things are to go smoothly and hospitality is to be perfectly expressed cordially has got to do a deal of thinking and preparing beforehand and this somebody is, naturally, the housekeeper and hostess.

The Next Step.

Be the noblest man that your present faith, poor and weak and imperfect as it is, can make you; be alive up to your present growth, your present faith. So, and so only, do you take the next straight step forward, as you stand strong where you are now, so only can you think the curtain will be drawn back and there will be revealed to you what lies beyond—Philips Brooks.

Bird Importations.

The number of birds imported into the United States annually amounts to about 600,000, and as many as 17,400 have become dwellers in America within one day. The half million feathered strangers represent 1,500 different species, but the greater number of the importations are of canaries, parrots and game birds.

Accounting for Prairies.

The troglodytes of Texas, Mexico and Central America are attributed to primitive Indian agriculturists. Land once cleared and afterwards abandoned were prevented by fire from becoming reforested, until all primitive agriculture ended in the age of grass, prairie fire, wandering buffaloes and nomadic hunters.

Uncle Eben.

"Don't get discouraged, son," said Uncle Eben, "if you find you can't do what you're ter'ry to do, 'tween it puttin' you in train' to do somethin' that you kin."

A Fine Whooping Cough Remedy. Mothers, Dr. Bull's Pink Pills is just the remedy for your children's cold ailments. The fact is this: Pink Pills is a quick enemy of cold conditions. Its qualities loosen the mucus in the throat, soothe the lungs and open up the air passages. The combination of honey, soothing and pleasant, with the loosening plus quality makes this an ideal cough remedy for children. Every passing year brings for it, new friends. Improvement of the National Guard, consisting of 129,000 officers and men, to cost \$10,000,000 annually.

## Ancients Used Gas Warfare

The earliest use of deleterious gases in siege warfare is recorded in the history of the Peloponnesian wars from 431 to 404 B. C. During this struggle between the Athenians and Spartans and their respective allies the cities of Plataea and Delium were besieged.

Wood saturated with pitch and sulphur was set on fire and burned under the walls of these cities in order to generate choking and poisonous fumes which would stupefy the defenders and render the task of the attacking forces less difficult.

Down in the crimson clover, Jones there were two farmers named Jones and Smith, respectively. Jones was old-fashioned and stuck to old-fashioned ways, but Smith, who was more modern, bought a fine new automobile. One day he was proudly exhibiting to some friends when Jones came along.

"Um," remarked Jones, as he thoughtfully sized up the handsome machine. "What's that thing there on the side?"

"That's a spare rim and a tire," answered the proud Smith. "We always carry an extra one in case one of the wheels goes wrong."

Thought Umbrellas Unmilitary. Umbrellas and head seem a most unlikely combination; yet one instance is recorded of British soldiers taking their umbrellas into action, according to the London Chronicle.

December 10, 1813, during the battle of the Nile, the Grenadier guards captured a redoubt outside Bayonne. While they were in possession of the Wellington passed by and noticed that the officers had umbrellas up to protect themselves from the heavy rain.

He sent back his aide-de-camp, Lord Arthur Hill, to tell them that "the duke does not approve of the use of umbrellas in action. The guards officers may, if they please, carry umbrellas even in uniform when on duty at St. James; but in the field it is not only ridiculous, but unmilitary."

TURN OVER TIME

When Nature Hints About the Food. When there's no relish to food and all that one eats doesn't seem to do any good then it is the time to make a turn-over in the diet, for that's Nature's way of dropping a hint that the food isn't the kind required.

"For a number of years I followed railroad work, much of it being office work of a trying nature. Meal times were our busiest, and eating too much and too quickly of food such as is commonly served in hotels and restaurants, together with the sedentary habits were not long in giving me dyspepsia and stomach trouble which I succeeded my weight from 205 to 160 pounds."

"There was little relish in any food and none of it seemed to do me any good. It seemed the more I ate the poorer I got and was always hungry before another meal, no matter how much I had eaten."

"Then I commenced a trial of Grape-Nuts, and was surprised how a small saucer of it would carry me along, strong and with satisfied appetite, until the next meal, with no sensations of hunger, weakness or distress as before."

"I have been following this diet for several months and my improvement has been so great all the others in my family have taken up the use of Grape-Nuts with complete satisfaction and much improvement in health."

"Most people eat hurriedly, have lots of worry, thus hindering digestion and therefore need food that is pre-digested and concentrated in nourishment."

## U.S. NOTE WARNS GREAT BRITAIN

Free Seas Are Demanded of England—Told Not to Violate Law

### CAN'T TRESPASS ON RIGHTS

"American Government Cannot Buffer Further Subordination of Its Interests," Says Message to London

Washington, Nov. 9.—A solemn warning to Great Britain that the United States will not further submit to the curtailment of its neutral rights, which has been the effect of the Allies' blockade of Germany since March 11, is contained in the note to Great Britain made public by the state department.

After declaring that the United States "cannot with complacency suffer further subordination of its rights and interests," the note leaves little in the following paragraph that Great Britain will be held to the enforcement of the letter of international law.

"The government of the United States desires to impress most earnestly upon its majesty's government that it must meet the relations between it and its majesty's government be governed, not by a policy of expediency, but by those established rules of international conduct upon which Great Britain in the past has held the United States to account when the latter nation was a belligerent engaged in a single national existence. It is of the highest importance to neutrals not only of the present day, but of the future, that the principles of international right be maintained unimpaired."

Defending Neutral Rights.

That the United States has taken upon itself the task of defending the rights of all neutral nations against the British program of sealing and holding up merchant vessels at will is indicated in this paragraph:

"This task of championing the integrity of neutral rights, which have received the sanction of the civilized world against the lawless conduct of belligerents arising out of the bitterness of the great conflict which is now warring the countries of Europe, the United States unhesitatingly assumes, and to the accomplishment of that task it will devote its energies, exerting always that impartiality which from the outbreak of the war it has sought to exercise in its relations with the warring nations."

The note covers extensively the subject of British interference with American trade since the beginning of the war and declares the so-called blockade of the British waters, illegal and indefensible. "The note was made public by agreement between the state department and the British foreign office and is the first voluminous appendix giving the text of American naval instructions issued in 1912 and a summary and table showing hundreds of vessels detained by British authorities since the present war began."

Deals With Contraband Question.

The note itself is divided into five parts, dealing with all phases of the contraband question, seizures and detentions, and announces that a separate communication will be sent soon dealing particularly with the property and right of the British government to interfere in the contraband of war certain articles which have been so included."

"The note is dated October 21 and acknowledges the British notice of January 7, February 10, June 22, July 23, two on July 21, August 12 and the note of August 6, all relating to restrictions upon American commerce."

After an argument on law and facts, Secretary Lansing in conclusion says: "It is believed it has been conclusively shown that the methods sought to be employed by Great Britain to obtain and use evidence of enemy destination of cargoes points for neutral ports and to impose a contraband character upon such cargoes are without justification; that the blockade, upon which such methods are partly founded, is ineffective, illegal and indefensible; that the judicial procedure offered as a means of reparation for an international injury is inherently defective for the purpose of settling in many cases jurisdiction is asserted in violation of the law of nations."

"The United States, therefore, cannot submit to the curtailment of its neutral rights by these measures, which are admittedly retaliatory, and therefore illegal, in conception and in nature and intended to take the enemies of the Great Britain for alleged illegality on their part."

## GOV. DUNNE CALLS SPECIAL SESSION

Legislature to Convene on November 22

### CHICAGO FINANCES TIED UP

Lawmakers to Deal With Situation Created by Court Decisions in Which Appropriations Are Declared Invalid

Springfield, Nov. 10.—A special session of the legislature, to deal with the situation created by the supreme court decisions in the cases of the state of Illinois, in which thousands of dollars appropriated by the legislature and the Chicago city council, respectively, are declared invalid, was called by Governor Dunne to convene Monday, November 22.

The subjects included in the call have been agreed upon and will embrace nothing outside of legislative action to correct the situation pointed out in the two suits, and to reappropriate money declared to have been illegally appropriated by the legislature and the Chicago city council. While it has been the general belief that a special session of the legislature would be necessary if the supreme court affirmed the judgments of the lower courts, the Forgas and Sergel cases, the decision to issue the call was not reached by Governor Dunne until Monday morning when his private secretary, William L. Sullivan, returned from a conference in Chicago with state and county officials regarding the details of the forthcoming session, and the situation in the state treasury departments affected by the Forgas decision. It was at first the tentative decision to have the legislature convene at Springfield next Monday, but the plan was abandoned because of the grand larceny meeting of the Old Fellows next week, and it was then decided to issue the call for Monday, November 22. It is the expectation of the governor and other state officers that the legislature will expedite its action on the pending bills, not only to the end that the relief of various employees and departments, hit by the court decisions, may come quickly but that the state may be saved the heavy expense incident to a prolonged session.

Accompanying the call was a statement from Governor Dunne, explaining the necessity of such action. In the Forgas case the court's decision holds that appropriations "trumped" by the governor from the "omnibus" bill must stand because the governor does not have the power to veto a part of a bill. These appropriations, amounting to several hundred thousand dollars, under the court's decision, are to fall into effect, and added to the expense to the tax payers of the Forgas suits costing the state an enormous sum of money.

The decision of the governor to include in the call legislation sought by the city of Chicago, followed a request from the city controller, Eugene J. Skidner, and Chairman Richard of the finance committee of the Chicago council. At the request of the above officials Governor Dunne said he would include in the call a section providing for an amendment to the cities and villages act, allowing municipalities to use the budget ordinance at a later period than provided in the recent law.

In the Sergel case appropriations made by the city council out of moneys in the state revenue, later than three months after the annual budget ordinance went into effect, were declared invalid. These appropriations amounted to \$75,000.

To amend the act so as to be effective before a July 1 next would require a two-thirds majority in each house, the vote necessary for emergency legislation.

The action of the cities and villages which prevents the counties and village trustees from appropriating funds after the budget has been made up and which stipulates that the annual appropriations must be made in the first quarter of the year was designed to prevent fiscal profligacy. It has always been regarded as a wise safeguard against municipal extravagance and reckless spending.

The Chicago officials, in conference with the governor, Attorney General Lucy and Secretary of State Stevenson, said that Chicago, with a population of 2,750,000 a year, should be permitted to spread its appropriation work over six months. It was an annual appropriation of \$100,000,000, which would have to go to a referendum under the charter amendment.

ITALIAN STEAMER ANCONA TORPEDOED BY AUSTRIAN SUBMARINE.

270 SURVIVORS ARE LANDED

Number of Passengers, Some of Them Wounded, Reach Bizerta—Vessel Sailed From Genoa for New York—482 Persons on Board.

Rome, Nov. 11.—The Italian steamship Ancona, which sailed from Genoa for New York, has been sunk in the Mediterranean by a submarine flying the Austrian flag.

The Ancona carried 422 passengers and a crew of 60.

Two hundred and seventy survivors have been landed at Bizerta, on the North African coast. Some of them were severely wounded. About 150 passengers have been lost.

The Ancona was of 8,210 tons. She was a twin screw steamer with two decks and a spar deck and fitted with wireless.

New York, Nov. 11.—The Italian liner Ancona left New York for Genoa on October 17 carrying a large number of Italian reservists. She arrived at Genoa on October 29. Captain Nardo was in command on this voyage. Capt. Antonio Rustici, marine superintendent for the Italian line, said that no word had been received in the New York office regarding the sinking of the Ancona.

"The Ancona left New York with Italian reservists and a cargo of munitions bound for Naples, Italy," he said. "She was scheduled to sail again from Naples for New York on Monday with passengers. We have received no word from Naples. Cable dispatches are not yet received. The ship was bound for Gibraltar, which is three days sailing time from Naples."

William Hartfield, general manager of the Italian line, characterized the sinking of the Ancona as "an unexcusable crime" and "absolute murder." He immediately cabled the Naples office to make every effort for all information regarding the disaster.

Although he had no list of his passengers, Mr. Hartfield said the Ancona had last few voyages to this country and carried three or four hundred passengers, among them a number of American citizens in the first cabin in the steerage. Most of her passengers were Italian. Mr. Hartfield said, and been made up of women and children. He believed she carried a large number of women and children on her previous voyages.

The Ancona, he added, carried a crew of 160 men. At no time, said Mr. Hartfield, did the Ancona carry more than six hundred passengers. The Ancona was against the rules of the company to carry war munitions on the same vessel with passengers.

The Ancona has been in the Italian service for six years and, without her cargo, was valued at more than \$1,000,000.

The Ancona played a prominent part in the rescue of passengers from the burning Fabre liner Sant Anna in mid-Atlantic last September 12. She came to the Sant Anna's aid and took on board six hundred passengers. The Sant Anna carried more than two thousand passengers, but succeeded in checking the fire and proceeded to the Ancona without further assistance from the Ancona.

For several months before Italy's entrance into the war the Ancona was used in carrying home Italian reservists from the country and supplies for the Italian government. On one of her trips from New York to Genoa, she was stopped last year by the Ancona was stopped by the British at Gibraltar and 24 Germans and one Austrian were taken off the ship.
