INTERESTING ARTICLE DESCRIBES CHINA

Written by Mrs. T. L. C. Subr Who, With Husband, Has Been There for a Missionary.

TELLS OF HABITS OF THE PEOPLE

Houses Are Built Mostly of Home Made Brick—Stoves Built Without Chimney—Rice the Big Crop.

Mrs. T. L. C. Subr, wife of Rev. Subr of the United Evangelical church and daughter of Mr. and Mrs. Pringle, schulte, gives below a short account of life in China which she calls "A Glimpse at the Flowery Kingdom (Ten Thousand Miles up the Yangtze River)."

Rev. and Mrs. Subr lived there seven years as missionaries for the United Evangelical church and came to the States in August of a recent month. Their visit among relatives in different states and to lecture at many points about missionary work. Mr. Subr has been speaking for nearly two months through Ohio and Pennsylvania before a different audience each night. He is expected here about December 31, but will leave shortly afterwards for a lecture tour in southern Illinois.

"When we leave beautiful America and land in China we seem to be in another world, although the sun with its most intense rays shines there—the moon is most brilliant and beautiful at times and the stars are bright and numerous as in America and we have the four seasons of the year.

The countryside as we travel up the river is very picturesque, especially in the spring of the year when the hills and mountains have an abundance of wild flowers, among them the red and yellow azalea, and bridal wreath. In places Christmas holly grows in abundance. The valleys are cultivated by rice growers for the most part, although cotton, wheat, potatoes and peanuts are grown, too.

The people are not very large in stature, their skin is yellow, hair black and straight, nose rather large and flat, high cheek bones, thick lips and oblique eyes. The men and women wear gowns and trousers. Their shoes are usually made of sheep and very often made in the home by the women folk. The socks, or stockings, is cut from cotton cloth and fitted to the foot. The men wear caps, but go bareheaded in summer, excepting the laboring class who wear immense straw hats.

The women go bareheaded in summer and when the cold comes they wear a band over the forehead, partly covering the ears and fastening at the back of the neck. Their homes are usually built of mud-brick, or kiln-burnt, clay brick, very often the house is plastered on the outside, few doors and windows adorn the building; the roof is covered with tiles and the water falls well. The chimney is a useless quantity. A stove for cooking is built of brick about three feet high, just as deep and as long, or longer, according to the space or taste of the owner. The fire pot is in the center of the brick pile and iron kettles are built in around the fire pot for holding water while heats while the rice and vegetables are being cooked. Soft coal, or even the dust of soft coal mixed with red clay, is used as fuel in these stoves and the smoke has the freedom of the house.

For cooking rice they use an enormous iron kettle which is cone-shaped at the bottom and has an iron lid; the rice is first washed several times in cold water, placed in the kettle and covered with water. It is permitted to boil until about done when it is turned into a nearby tub in which is a bamboo sieve; the water drains off, the rice is returned to the kettle which has hot water in the bottom or cone-shaped part; a bamboo lid is placed over this water to permit the steam to pass through it, to steam the rice for a half hour or more. When it has been properly cooked each kernel remains intact and becomes fluffy. The rice is kept hot in the kettle while vegetables are prepared in a large iron pan over the fire used for cooking the rice. If they are fortunate enough to have meat, it is prepared with the vegetables, cut up in small pieces. The poor, or common people, eat much of the same kind of food on the first and fifteenth day of each month. They always have tea to drink.

Their mode of speech has a style and expression of its own. It is a picture language and some of the characters are very interesting, for instance, the character for "pig" placed between the sign "roof," forms a character meaning "house." Another character, of itself means to "seduce, or to receive," by

"TIME HONORED CUSTOM" WINS

Debate at Woman's Country Life Association is Decided in Favor of the Affirmative Side.

The debate on the subject, "Is it Good to Give Christmas Presents?" thrashed out before the Women's Country Life association on Friday afternoon in the home hall was decided by the judges, Mrs. Henry Gillette, Mrs. T. L. C. Subr and Mrs. Georgia Stebbins in favor of the affirmative. Mrs. Frank Gleake and Mrs. W. S. Peck were the winning debaters while Mrs. Albert Robinson and Mrs. Henry Comstock lost the negative. The arguments and their manner of presentation held the interest of sixty-three members and about ten visitors. "Sentiment" was the word. Convinced truths made the negative side the stronger, but the long established custom of Christmas giving is hard to dethrone. These ladies are very good public speakers and their ideas are food for thought.

A handwork display established further the acknowledged fact that our community women are industrious. Fancy articles for personal and household use and adornment came from many homes for exhibition and no one can deny their worth as examples of industry, however, in the opinion of the reporter of this meeting, more time spent in the open air, more time spent in reading good books and magazines, would be of more use to homes, children and husbands than so much crocheting, knitting and embroidery. The next meeting on Friday afternoon, December 19, will be an exhibit of Christmas cakes and cookies. Half to be sold, after a big judged, for the benefit of the association, the other half to be consumed with coffee in the meeting. The judges will be Miss L. Berry, Mrs. Hannah Powers and Mrs. Sanford Peck. Also each member will receive a Christmas gift. Five ladies will speak on Christmas customs of five different countries.

Reception

In spite of the inclement weather last Friday evening a large company of members and friends of the Methodist church gathered in the church parlors in honor of Dr. and Mrs. W. J. Libberton, the newly appointed pastor and his wife.

After informal greetings had been extended to Dr. and Mrs. Libberton, addresses were made by Dr. G. L. Lytle, H. H. Hubbard, Rev. J. H. Hornor and Rev. B. R. Schultze. The junior orchestra, led by Miss Jessie Hornor, gave two pleasing numbers. Edward Barnard played a clarinet solo, accompanied by his sister Stella at the piano. Mr. Cameron and Mr. Jones rendered vocal selections which were especially enjoyed by all present, and Miss Irene Keeler closed the program with a most beautiful piano solo. The guests of honor were presented with a handsome album of Christmas themes by Mrs. J. L. Schwenke and Dr. Libberton responded with fitting remarks, he so well knows how to speak.

Refreshments were served by the ladies of the church and everybody seemed to have a good time.

Adding the character for "heart," it means "love."

Thanksgiving

Let us be thankful for the loyal hand
That love held out in welcome to our own,
When love and loyalty love could understand
The need of touches we had never known.
Let us be thankful for the loving eyes
That gave their secret to us as they met,
Yet in return found, with a sweet surprise,
Love's kiss upon their lips, and smiling, slept.
And let us, too, be thankful that the tears
Of sorrow have not all been drained away,
That through them still, for all the coming years,
We may look on the dead face of

County Wins Decision

The appellate court on last Thursday handed down a decision in the case of the County of Lake vs. Carl F. Westfield, former county treasurer, affirming the decision of Judge in favor of the Lake County Circuit court. The lake is ordered to pay back to the county \$7,500 which he had claimed as personal property, it being the interest on county funds placed by Westfield in the various banks in the county.

The decision has been waited anxiously by many counties in the state where treasurers have regarded interest money as their own property. State's Attorney Ralph Daily stated the fight for the people on the contention that the county was entitled to interest on public funds. He is now rejoicing over the outcome of the suit. Mr. Westfield is in Oklahoma traveling for the American Steel & Wire company.

WILL INSPECT STATE-AID ROADS

Cook County Commissioners Will Cover 100 Miles in Trip—Tour Will Arouse Interest in Good Roads.

On Friday next the board of Cook County commissioners will be the guests of the Associated Roads organizations of Chicago and Cook county in the first annual inspection of the state-aid roads laid in Cook county. The trip covers 100 miles, entirely within the limits of Cook county except one short excursion into DuPage county to see the concrete road laid by the DuPage county board on Twelfth street.

At several points along the route the citizens of the towns and townships will meet the county board and express their appreciation of the work done in Cook county under the Ties law. The townships and villages are all ambitious that the highways connecting them with Chicago should be improved. Arrangements have been made in Blue Island, Lyons, Riverdale and at the "E-use that Jack Ball," Milwaukee avenue and Des Plaines river, to voluntarily the county board with fitting ceremonies. The citizens along the way are highly pleased that the county board is making this inspection, and they will do their best to impress upon the commissioners the need of the roads and the various towns and suburbs. Autolists are urged to clip the map and preserve it.

A map of the route is shown on page five. It may be noted that the roads to be covered by this inspection trip offer a good automobile route through the country districts of Cook county and the various towns and suburbs. Autolists are urged to clip the map and preserve it.

Scarifier Idle This Week

The Lake County scarifier was in use in Cuba township last week. This week the operator, Philo Burgess of Waukegan, is away and the road machine is at Hollister's Corners until Friday when it is expected that work will be resumed.

The township is entitled to the use of the scarifier six days without charge but it may be kept by the Cuba road commissioners a longer time so as to go over all the roads.

The edges of the turnpikes are being cut away so as to improve the roads. The highway, called the Lake Zurich road, has been come over from the village limits to the Els township limit, the Waukegan road from the village limits to the Greco farm at Honey Lake; the road from Vickery's farm to the Kirschner farm and south to the Westmore farm.

The Porter school, district 28, will give a basket social Wednesday evening, December 1 at 8 o'clock. Everyone is invited to attend. Proceeds will be used for school furnishings.

RESORT OWNER COM-MITS SUICIDE WITH GUN

Ignatz Mitterbacher of Cuba Township Killed Himself at His Home Last Saturday Evening.

HAD BROODED OVER DEATH OF SON

Retired to His Room About 6 O'clock But Death Was Not Discovered Until 11—Burial Was in Chicago.

Ignatz Mitterbacher, aged 48 years, of Cuba township committed suicide Saturday, November 20, sometime between the hours of six and 11 in the evening. He was the owner of the hotel, bearing his name, on Fox river about seven miles northwest of town near Basswood Island and the Flint Creek school.

For several years he had seemed to be in a brooding, melancholy mood, although bright and happy at times. Since the death of a son five years ago last Thursday, he had mourned constantly and it is thought the memories on that anniversary affected his mind until he preferred to die.

About 6 o'clock Saturday he retired to his room, locking the door. Mrs. Mitterbacher was busy until 10 o'clock and made no great effort to arouse him, thinking he was sleeping. Her room was next to his and when she was ready to retire, she found a hole through the wall made by a bullet. With the aid of men on the place she found a good automobile route through the country districts of Cook county and the various towns and suburbs. Autolists are urged to clip the map and preserve it.

No one had noticed the shot. The building is quite large and his room was a distance from the main living rooms. The resort was a popular one for fiddlers and hunters, particularly from Chicago, and gun shots in the neighborhood are constantly heard—this is no doubt the reason why this fatal shot was unmarked.

Mrs. Mitterbacher left for Chicago Monday morning with the body and burial was in the Bohemian National cemetery there on Wednesday. It is understood that she will not return to the hotel and that the place will be sold.

Mr. Mitterbacher was born May 31, 1867, in Austria of Bohemian parentage. While little definite is known about him, it is said that he came of a wealthy and prominent family and that his education had been very good. His manners were extremely courteous and amiable; he was well read and had a fine knowledge of the best in music which he dearly loved. Rumor has always declared that he belonged to a royal family, but this never was verified by his friends. When he visited in Vienna about two years ago it is said that a grandopera gave him considerable money.

He has been in America 24 years and conducted his hotel about 10 years. He married the pretty girl from Chicago, Mrs. Mitterbacher, a gentle, generous woman, always well liked and ready to help others. Measured served by her were famous. Little is known of their marriage or life previous to residence here. An only child, Fred Mitterbacher, aged about 20 years, died on November 18, 1910, of consumption in Colorado where he had gone seeking health. His body was cremated and the ashes sent to his people here. His death was a profound blow to his parents as he was a handsome, gifted young man, a splendid violinist and an artist of great promise. He was graduated from a Chicago high school.

Dr. J. L. Taylor, Lakeview, coroner, of Libertyville, held an inquest Sunday morning and the verdict was suicide by shooting.

Obituary

Mrs. R. W. Jones and Mrs. L. S. Wiegner of Grove avenue left here Sunday morning for Terre Haute, Illinois, called on account of the illness of their father, Philip Edmunds, aged eighty-five years. They reached there at 9:15 o'clock that morning and he died at 4:30 in the afternoon.

On July 2 a birthday party was given in his honor here at Mrs. Jones' home and his relatives from several states came for the event. He leaves a widow, aged 81 years. There are also two sons, Philip Edmunds of Wyo., Colorado and John Edmunds of Springfield.

DEFECTIVE BABY DIES GETS CLUE TO PLOTS

CHICAGO DOCTOR REFUSED TO OPERATE ON CHILD.

Declared That Infant Was Deformed and Braved Criticism for His Act—Big Problem.

Chicago, Nov. 19.—Baby Bollinger is dead. Deformed, partly paralyzed and subnormal of brain, the human mite, whose life was held in the hand of Dr. H. J. Halseiden, was allowed to slip back peacefully into the shadowy mystery which he came.

His going crawled before the eyes of every living person the burlesque question: Has a physician the right to judge whether a life appearing on earth has, by reason of deformities and physical handicaps, a right or no right to be saved?

Doctor Halseiden says he could have saved the baby by an operation to complete its digestive system. But the partial paralysis, the current malformation, he declared, was so great a bar to happiness or attainment that he did not feel justified in saving the baby from the death which nature ordained.

Chicago, Nov. 22.—A jury of Chicago physicians decided on Friday that society has the right to refuse life to a baby born hopelessly defective. Dr. Harry J. Halseiden was exonerated from blame.

TEN DIE IN CRASH

CARNIVAL ON GEORGIA SPECIAL WRECKED NEAR COLUMBUS AND ACTORS DIED.

SOME ARE BURNED TO DEATH

Proprietor of One of the Shows Pinned Under Burning Debris Pleads in Vain With Trainmen to Kill Him.

Columbus, Ga., Nov. 21.—Ten persons are known to be dead and twelve injured as the result of a collision on the Central of Georgia railroad about eight miles from Columbus on Monday. Passenger train No. 2, from Birmingham to Macon, collided head-on with a special train carrying the Con T. Kennedy Carnival company from Atlanta to Columbus.

The wreck of caught fire immediately after the crash.

The known dead include Fred Kempf, proprietor of one of the shows, and his wife, who were burned to death while onlookers were powerless to rescue them. Mrs. Kempf's body was recovered. Rescuers found Kempf with his body half free. He begged trainmen to kill him rather than let him burn to death. Frantic efforts were made to rescue him, but without avail.

The Kennedy shows had completed a week's engagement in Atlanta and were to open Tuesday in Columbus. The engineers of both trains miraculously escaped death. The passenger train, it is said, had orders to take a siding and await the carnival special, but by error ran on the main line and started for Macon.

BUSINESS IN CANADA IS GOOD

Successful Crops and Big Yields Help the Railway.

The remarkable fields that are reported of the wheat crop of Western Canada for 1915 has put the estimate of an average yield over the three western provinces of upward of 25 bushels per acre. There is no portion of that great crop of 24,000 square miles in which the crop was not good and the yields abundant. An American farmer who was induced to place under cultivation land that he had been holding for five years for speculative purposes and higher prices, says that he made the price of the land out of this year's crop of oats. No doubt, other too who took the advice of the department of the interior to cultivate the uncultivated land, have done as well.

But the story of the great crop that Manitoba, Saskatchewan and Alberta produced this year is best told in the language of the railways in the added cars that it has been necessary to place in commission, the extra trains required to be run, the increased tonnage of the grain steamers.

It is found that railway earnings continue to improve. The C. P. R. earnings for the second week of October showed an increase of \$761,000 over last year, the total being only \$110,000 less the gross earnings of the corresponding week of 1913, when the Western wheat crop made a new record for that date. The increase in C. P. R. earnings for the corresponding week of this year was only \$351,000, or less than half of the increase reported this year. The grain movement in the West within the past two weeks has taxed the resources of the Canadian roads no longer, despite their increased facilities. The C. P. R. is handling 2,500 cars per day, a new record.

The G. T. R. and the C. N. R. are also making new shipment records. The other day the W. Grant Morden, of the Canadian Steamship Company, by the largest freighter of the Canadian fleet on the Upper Lakes, brought down a cargo of 476,316 bushels, a new record for Canadian shipping. Records are being by the board in all directions. The fall, due to Canada's record crop. The largest Canadian wheat movement through the port of New York over known is reported for the period up to October 15th, when since shipment of the new crop began in August, 4,365,791 bushels have been reloaded for England, France, Italy, Spain, etc. is over half as much as was shipped of American wheat from the same port in the same period. And, be remembered, Montreal, not New York, is the main export gateway for Canadian wheat. New York gets the overflow in competition with Montreal—Advert.

WHAT HE WAS LOOKING FOR

Dreary Samuel in Earnest Effort to Secure Employment, but Not of Course, for Himself.

"Well, what do you want?" said the master of the house sternly to Dreary Samuel, the tattered tramp, as he stood outside the door, shivering with the most accomplished art. "I'm looking for work," replied he to the unemployed laborer. "What do you got to scrub or wash or clean or nothing that an honest body could do?"

This earnest appeal for work made the householder think that he had misjudged a real, honest British laborer out of work.

"Ah!" he said, "now you speak like a man. I like to hear of any willing to make an effort. I never thought you wanted work of that kind."

"No more, I do," replied Samuel, shuddering at the bare idea. "It's work for my wife that I'm alooking for," London Answer.

Watched Her Step. The lawyer was cross-examining a witness. "Do you happen to know," he asked, "what time it was when the wife of the defendant stepped into the taxicab in front of the National bank?"

"Yes," replied the witness. "It was seventeen minutes past one."

"Ah, it was seventeen minutes past one, eh? Now will you please tell the jury how you happen to be so positive that it was precisely seven other minutes past one?"

"Certainly," said the witness. "The lady was wearing an ankle watch."

Pleasure in Store. At last! The careworn lady settled comfortably in her chair. The new arrival had come and promised to be a real treasure. Moreover, the girl showed a strange appreciation for the appointments of the well-furnished house.

"So you like to work in—er—merely appointed homes," asked the mistress kindly.

"I do, mum," she replied. "It's a real pleasure to have 'cuthin' but 'tisn't displace to break!"

Supernaturally Inexplicable. Knicker—Does Jones amount to much?

Booby—No more than a horse as a horse show.

The man who goes through life on a bluff eventually walks.
