## MAN WHO WAS SHOT RAPIDLY RECOVERING

John Stock, Hired Man on Allen Farm, Who Was Shot by Mrs. Allen Is Able to Walk Around.

## ARGUMENT OVER PADLOCK CAUSE

Dr. W. A. Shearer Was Called and Stock Was Taken to Elgin Hospital—Mrs. Allen and Son Disappeared.

John Stock of the Allen farm, who was shot Friday afternoon about 2 o'clock by Mrs. James Allen, has been in St. Joseph's hospital, Elgin, all the week. This morning he is able to be dressed and will probably recover quickly.

The shooting occurred on the Allen farm, 3 1/2 miles south-west of this village, when Stock, who is a hired man, attempted to beat the Allen boy, who is about 10 years old, who was quarreling over a padlock which the boy took from the door of a shed in which Stock lived. Mrs. Allen who is said by acquaintances to be a woman of fiery temper, arose and chased Stock to his hut, shouting him as he went to the door. The bullet entered the left side between the eighth and ninth ribs.

Dr. W. A. Shearer, was called and hurried to the Allen farm. Mrs. Allen and son disappeared the next day and her whereabouts is not known, even by Mr. Allen, who is on the farm since this week. He is owner of a point and petty farmer in Chicago and spends most of his time there.

Mrs. Allen is his second wife and has lived in Barrington town only a few years. Mr. Allen owned the property on which the house is now the Hawthorne Wood farm.

## Methodist Missionary News

On Tuesday, December 7, the Women's Foreign Missionary society met with Mrs. Emma S. Smith as hostess. Eighteen members were present to enjoy the interesting program prepared by Mrs. J. E. Nighswander, assisted by Mesdames W. A. Shearer, J. L. Schlemmer, William Skinner, P. Harwood and G. A. Lytle. The International Text, "The Kingdom of God is within you," was the subject of the evening. The program was developed by different leaders each month. A pleasing social role was given by Mrs. J. L. Cof.

The juvenile class of the society is holding its usual encouraging growth, with ten new members since the beginning of the Conference year in October, and with a corresponding increase of magazine and book sales.

The King's Herald met with Miss Constance Collins, on Wednesday, December 8. This children's society is composed of over thirty members whose ages range from eight to fourteen years, are under the supervision of Mrs. Frank Harwood. They study for the year in "Around the World With Jack and Janet," a fitting accompaniment to the text of the Woman's Auxiliary. Mrs. Harwood is always greeted with a company of children keenly alive to the pleasures and advantages of the study of this delightful little book, a chapter of which is presented at each meeting.

The Little Light Bearers' society of twenty members, consisting of boys and small children is under the care of Mrs. William Skinner.

Additions in membership to the children's societies are steadily encouraging as they are an index to the missionary interest of the mothers.

Details Coming In Fast  
The Barrington Public Library has been the recipient of some fine gifts this week.

Miss Lizzie Spunner has donated a splendid dictionary of the latest edition complete. This is to be dedicated as memorial to Lane Spunner, daughter of Mr. and Mrs. George W. Spunner. William Grace has donated a set of Encyclopaedia Britannica and Mrs. George W. Spunner has donated twenty-five volumes of choice juvenile literature.

The library committee of the Woman's club, has purchased about one hundred and fifty books, reference, juvenile and fiction—among the fiction are the best up-to-date novels by modern authors. It is hoped to have these books catalogued and carried by the first of next week.

The new reading rooms are open to the public now, every afternoon and evening—Wednesday excepted—from 1 until 5 p.m. Open all day Saturday.

## Another Dance

Mayflower Camp No. 252, R. N. A. will give a dance at the Village hall, Barrington, on Friday evening, December 17. Music for the occasion will be furnished by Whittier's Orchestra of Chicago. Dance tickets 50c; Ladies 25c; Spectators 10c. Most cordial invitation is extended to all.

## DISTRICT FOUR WINS IN APPEAL

Judge Edwards in Circuit Court Holds That White School District Must Pay Tuition of Edith Rieke.

At the October term of the Lake County circuit court, just closed, the case of Barrington Board of Education vs. School Directors of District No. 90 of Lake County (White District) for one year's tuition of Edith Rieke in the high school, was tried and judgment rendered in favor of the plaintiff for the full amount claimed, with court costs added. This is the case tried by Justice L. B. Lines last July, and appealed to the circuit court by the Board of Education. Edward H. Caste represented the Board of Education. It will be recalled by the readers of the Review that Justice Lines dismissed the case on motion of Attorney Lunley of Woodstock, representing the defendant, on the ground that Miss Rieke, not having received an VIII grade diploma from the County Superintendent of Schools, was not a "graduate" of the VIII grade, within the meaning of the statute. Judge Edwards, on the trial, stated that, in his opinion, there was no merit in this defense.

Several weeks having elapsed since this judgment was rendered, and the directors of the defendant district having failed to pay it, an execution was issued, directing the township treasurer to pay the amount of the judgment of \$21.30, and interest and costs amounting to \$21.30 more, from his hands to the credit of the defendant district. Deputy Sheriff Green of Wauconda was here yesterday and made a demand for payment from F. J. Walchman, township treasurer. Mr. Walchman has declined to pay judgment on the ground that he expects to get from T. A. Simpson, Lake County superintendent of schools.

The directors of this district, by taking a position directly contrary to the advice of the State Superintendent of Public Instruction, have compelled the district, not only to pay the court costs, but also a substantial attorney's fee, neither of which would have been necessary had the directors complied with the law.

## WAUCONDA.

J. A. Brand made McHenry a visit Monday.  
Dr. Golding and family were Sunday visitors here.  
Mrs. Coon is entertaining her patients at present.  
Mrs. Harry Humphrey is home again and is very much better.  
We learn that John Daley will move to Elgin in the near future.  
Mr. and Mrs. R. C. Hallock spent Monday and Tuesday in Chicago.  
Deinlein brothers are putting in apparatus for steam-heating their mill.  
Henry Malmgren entertained the Scheunemann family from Waukegan Sunday.  
Miss Emily Haves and Mrs. W. Cook and son, Ira, were Monday visitors in Chicago.  
Fred Merchant has moved from the Davis farm to make way for the new tenant, Wayne Bacon.  
The community house is a favorite place with the young folks now, basket ball being much in vogue.  
Mrs. Frank Pearson visited Libertyville relatives the first of the week; and plans are made to go to Florida for the winter.  
Deputy Sheriff Homer Cook took a party of 12 citizens to the county seat Tuesday morning to supply jurors in the circuit court now in session.  
The big drainage ditch is being pushed to finish and the flow of water proves that there is plenty of fall to make the project a practical success.  
Ray Lynch who lived with the Stocking family last year, died in Chicago Sunday. The young man was a favorite with those who met him while here and many regret his early death which was due to scarlet fever.

## SCHOOL NOTES.

Room III has a new pencil sharpener.  
Gloria Williams has returned to Room V.  
Lillian Meyer has returned to Room III.  
Room V will make relief maps of North America.  
Warren Meiser and Miriam Plagge are absent from Room VI on account of illness.  
The pupils of Room II are making Christmas posters and putting up decorations.  
The teachers' institute was held as announced; the Beginner's band and orchestra played.  
Room III is planning to have a Christmas tree and each pupil is to earn the costs with which to buy a present.

The regular monthly meeting of the Teachers' association will be held in Fullerton Hall, Art Institute, Chicago, on Saturday, December 11, 1915. A stenographic lecture on "Safety First" will be given by Coroner Peter M. Hoffman.

The rank of the grades in attendance is as follows:

Friday evening, December 10, at 8 p.m., the Senior Class Glee club will give its concert. This Glee club has been organized for the last few years. As this is the first concert and as the members have sung at many public gatherings, they all earnestly hope that the public will patronize them. The program consists of vocal and instrumental selections. The feature will be the one act farce, "The Bowery Night School." Everybody is cordially invited and a pleasant evening is assured. The reserved seat chart is at Cameron's pharmacy; admission 25c.

## Watcomans Win Here Prizes

The McHenry County poultry association held its annual poultry show at Woodstock last week. F. L. Waterman and Son won the following prizes on Buff Wyandottes: first cock, first and third hens; second, third and fifth cockerels; first, second, third and fifth pullets and first pen the \$25.00 silver cup donated by Woodstock Business Men's association for best display of Wyandottes, all varieties competing; the silver cup offered by the Boosters club for best Wyandotte female; they carried all these and color prizes offered by the American Buff Wyandotte club.

## BIRTHS.

Mr. and Mrs. Fred Schwemm, Jr., of Janesville, Wisconsin, announced the birth of a 10-pound son, Saturday, December 4. Mrs. Schwemm was formerly Miss Ella Naber of this village.

A daughter was born yesterday to Mr. and Mrs. Arthur Wagner, who live in Hager's subdivision.

## TO SEND OUT DEMONSTRATION CAR

University of Illinois Will Equip Pullman Car With All Sorts and Kinds of Materials for the Home.

Women of the state will have the opportunity during the coming year to learn by actual inspection the best kind of equipment that may be placed in their homes.

The Household Science department of the University of Illinois has just completed the equipment of a demonstration car that it will send out to clubs and organizations on the fulfillment of certain conditions.

The department will endeavor by means of this car to emphasize the unity of the farm home. Fine fields of alfalfa and wheat, great herds of cattle and swine, are no longer the whole thing, making up a farm home.

The house, where the family dwells, with its power equipment and its water supply is an integral part of the whole and must be so considered.

The car is a regular Pullman without the seats or berths and is being equipped with all sorts and kinds of materials for the home. It will be possible for householders who visit this car to learn the best methods of running power washing machines, various methods of heating the home, possible arrangements and all kinds of kitchen utensils, color schemes in bedrooms, living rooms and dining rooms will be illustrated as well as the kind of furniture for the home. These are only a few of the many things that the car will include.

Two demonstrators will accompany the car and the equipment will be used in actual demonstration. A movable school or lecture work can be given in addition, if desired, and if a suitable hall is provided.

The department is prepared to receive applications for demonstration service. Among the subjects in regard to which the department is prepared to offer demonstrations are the following: Home Care of the Sick; The Efficient Kitchen; Power Machinery and Labor Saving Devices; Prevention of Disease Through Personal Hygiene, Home Sanitation and Civic Sanitation; Preservation of Food Canning, Jolly Making, etc.; Drapery and Design in Dress; and other subjects equally important.

## The All Brothers Quartet

The All Brothers Quartet is composed of four brothers, Albert B. Joseph, A. Clyde J. and Glen A. Caskey. Not only are they fine teachers, but they have played and sung together about as long as they can remember. They have shown a remarkable ability in their role work, and their instruction is most unusual.

They form an instrumental quartet with the first and second cornet, the saxophone and the trombone. All four play the clarinet. Their program includes solos on the violin and piano.

The regular monthly meeting of the Teachers' association will be held in Fullerton Hall, Art Institute, Chicago, on Saturday, December 11, 1915. A stenographic lecture on "Safety First" will be given by Coroner Peter M. Hoffman.

The rank of the grades in attendance is as follows:

cornet, with the chimes, accompaniment, violin and saxophone and, with the chimes accompaniment, and cornet and saxophone and, with the chimes accompaniment; also the male quartet with chimes accompaniment.

The quartet and chimes accompaniment sounds like a choir of twelve voices with the pipe organ. The plan is not used in any part of their program.

They will appear at the Barrington High School, Monday evening, December 13.

## Elected Officers.

The following officers were installed at the monthly meeting of the St. Paul's Young People's society Tuesday evening: president, Rev. Tietke; vice president, Mabel Schneider; secretary, Mabel Reber; treasurer, G. Miller; and four trustees, Laura Tietke. The following society is planning a "Hard Time Social" to be given Thursday, January 6, each member being allowed to invite one guest, providing they bring their "money bags" filled with as many pennies as their age and for a penny a year, also that they come clad in their "glorious gowns." Those failing to do so will be fined by the judges.

A resolution was endorsed appointing John C. Plagge as the agent of the village to sign for all certificates from rates made by the equity collector when said sales are made of lots and tracts of land in the village for delinquent taxes or special assessments.

Edward Rieke submitted bond and application for license to run pool and billiard tables. The bond was approved and license ordered issued.

The fire and water committees were instructed to purchase 200 feet of new fire hose.

There being no further business the board adjourned.

## Commissioners' Meeting.

The second annual meeting of the American Association of State Highway officials was held at the Hotel La Salle, Chicago, this week. This association is composed of the highway officials of every state in the union which maintains a regular highway department and practically all these states were represented at the meeting by their respective commissioners, engineers and other important officials.

Yesterday afternoon members of the Board of Cook County commissioners and members of the Associated Roads Organizations of Chicago and Cook county escorted the visiting officials on an inspection trip of the newly laid road on Milwaukee avenue, the longest stretch of concrete road in Illinois. A portion of this road was completed last year and has withstood in excellent manner the heavy traffic to which Milwaukee avenue is subjected. The remaining portion was finished this year and formally dedicated in October. Present plans call for an extension of the pavement in 1916 south to the city limits and north to the county line.

Even Wisdom Has Its Price. "Tell me," said the youth who had come many miles to seek an interview with the Shelbyville Sage, "how I may acquire real wisdom."

"By coming across with \$2 for a copy of my book," replied the sage, "you will acquire real wisdom. Not necessarily as a guarantee of good faith, but as a tribute to my business integrity. I am not running this sage business for the benefit of my health. See?"

of Western Canada's Rapid Progress. The heavy crops in Western Canada have caused new records to be made in the handling of grain by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities have been strained as never before, and previous records have thus been broken in all directions.

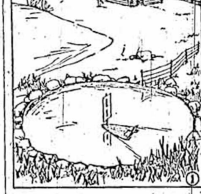

## HANDICRAFT FOR BOYS AND GIRLS

By A. NEELY HALL and DOROTHY PERKINS  
(Copyright, by A. Neely Hall)

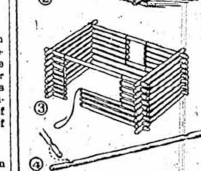

### A TOY VILLA.

The suggestion in Fig. 1 for a villa house is a little one to be elaborated upon by adding cottages, summer houses, paths and roadways, if you wish. First find a dishpan, washbowl, or other receptacle to hold water for the lake. Set this in a hole several feet away from a corner of the yard. Then between the lake and the corner, pile up earth to form hills.

The log house is built of straight sticks cut from branches. Figure 2 shows it completed, and Fig. 3 shows how the walls are built. Notch the stick logs an inch from each end, on two sides (Fig. 4), and place the sticks so the notched ends will come over one another (Fig. 5). Where there is a window or doorway, use shorter sticks, and bind together the ends next to the openings with string (Fig. 6). The stick logs between the doorway and window (Fig. 2) are tied at both ends with string.

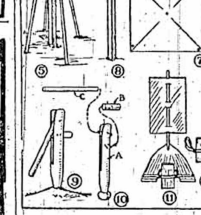

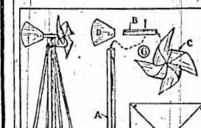

There must be a windmill, and Fig. 5 shows one that is easily built. Make a paper pinwheel (C, Fig. 6), by cutting a six-inch square of paper from corner to corner (Fig. 7), then cutting along the creases from the corners to within half an inch of the center, and then turning over one-half of each

corner and fastening with a pin through the corners and center. Drive a stick into the ground (A, Fig. 8), pivot a short stick on its top (B, Fig. 9), and to one end of this short stick drive the center pin of the pinwheel, and to the other end tack a cardboard tail (D). Four sticks driven into the ground several inches from the base of stick A, with their tops tied near the top of A, will complete the windmill.

Figure 9 shows a hand pump, and Fig. 10 shows how it is made of a clothespin (A), with a short peg (B) fastened in its slot for a spout, and a

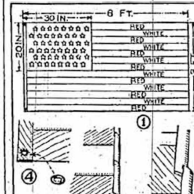

short stick (C) pivoted with a small nail above the spout, for a handle. Make a "paddle-wheel" boat for the lake (Fig. 11). A piece of thin wood, pointed at one end, with a one-inch square notch cut in the other end, forms the hull; the mast is a short stick; the sail is a piece of paper; and the paddle is a small piece of wood held in the notched end of the hull by means of a rubber band (Fig. 12).

### A HOME-MADE AMERICAN FLAG.

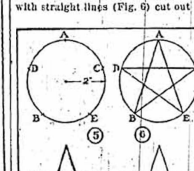

Flag-making is within the ability of any girl handy with the needle. A medium-sized flag requires but little more work than a small one, and for this reason I have shown in Fig. 1 a diagram for a flag six feet in length. It will be easy to alter these dimensions if you want a flag of different length.

Red, white and blue bunting for the stripes and field can be purchased at any dry goods store.

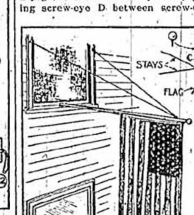

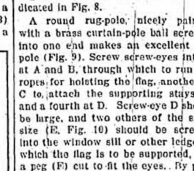

After cutting the stripes three inches wide, by the lines shown in Fig. 1, sew them together, turning in their edges slightly, as shown in Figs. 2 and 3, and sewing with a double row of stitching. The top and bottom red stripes should be cut from the selvage of the cloth, so their outer edge will not have to be finished off. Join the blue field to the stripes in the same way you joined the stripes.

With the field and stripes assembled, make a binding of canvas for the staff edge, doubling this over the ends of the stripes and field, turning in the edges and sewing with a double row of stitching (Fig. 4). Then buy a couple of large iron washers at the hardware store, for grommets (Fig. 6), and sew these in the doubled binding edge, but at one corner, tie the ropes to for fastening the flag to a pole.

Cutting and sewing on the stars neatly requires care and patience. For the forty-eight stars needed you must cut twice as many, because they must be fastened upon both sides of the field. To make a pattern for the five-pointed stars first describe a circle four inches in diameter upon a piece of cardboard, and divide the circumference into five equal parts (Fig. 5); then connect the five division points with straight lines (Fig. 6) cut out the

piece (Fig. 7), and carefully mark out the 56 stars upon muslin. Locate the centers for the stars by ruling lines horizontally and vertically across the field, so the positions will be the same as shown in Fig. 1. Then, in sewing the stars in place, stitch down the edges and around the centers, as indicated in Fig. 8.

A round rug-pole, nicely painted with a brass curtain-pole ball screwed into one end makes an excellent flag pole (Fig. 9). Screw screweyes into it at A and B, through which to run the ropes for hoisting the flag, another at C, to attach the supporting stays, and a fourth at D. Screweyes D should be large, and two others of the same size (E, Fig. 10) should be screwed into the window sill or other ledge on which the flag is to be supported, and a peg (F) cut to fit the eyes. By placing screw-eye D between screw-eyes

**What is URIC ACID?**  
THE CAUSE OF BACKACHE, RHEUMATISM, LUMBAGO  
Ever since the discovery of uric acid in the blood by Scheele, in 1776, and the fact that it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its overabundance in the system it causes backache, pains here and there, rheumatism, neuralgia, and all the ailments of a uric acid nature. It was Dr. Pierce who discovered a new agent called "Anuric," which will throw out and completely eradicate the uric acid from the system. "Anuric" is 37 times more potent than uric acid, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. Pierce of the "Invaluable" Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," or send 10 cents for a trial package of "Anuric" Tablets.

**What is URIC ACID?**  
THE CAUSE OF BACKACHE, RHEUMATISM, LUMBAGO  
Ever since the discovery of uric acid in the blood by Scheele, in 1776, and the fact that it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. **DEFECTIVES AT HOME**  
While the country in general is con-  
sidering "what to do with our defec-  
tives," it might be well for each com-  
munity to look into the matter of the  
defectives at home.  
Every community has its own defec-  
tives. They dwell in all walks of  
life. If they are not active in one  
thing they are in another, and a correct  
and passive spirit on the part of the  
public only encourages them in their  
own offensive ways.  
In our country towns and small cities  
perhaps the greatest and most destruc-  
tive offender is the "character  
assassin."

With such people, no woman or girl,  
regardless of her purity, is safe. When  
these character assassins get together,  
they pick the women to pieces, bit by  
bit, analyze their "good points," as  
they would those of a horse, and leave  
in the imaginations of a warped brain,  
degraded and besmirched with lies.  
Nice-tenths of the stories we hear of  
various women spring from just such  
sources—stories without a grain of  
foundation, conceived in a mind of evil  
and spread by the tongues of infamy.

Let us look to the defectives at  
home. They may be few in number,  
but they are a menace wherever they  
exist and should be corralled with a hand  
of iron.

**DOPED FICTION**  
What a boy reads is as important as  
anything else about him. You try to  
protect him from depraved associations  
of flesh and blood, but pretty often you  
make little enough effort to protect  
him from depraved associations in pri-  
nt.

You send him to school in the belief  
that the stuff he absorbs from printed  
pages forms his mind; but out of school  
you may let him absorb a stuff from  
printed pages that is not fit to be in a  
dog's mind.

Time was when you could tell a  
wrong book by a boy's nose. It was  
bound in yellow paper and sold for a  
dime. Nowadays many wrong books  
for boys are most respectably bound in  
cloth. And they are perfectly moral  
in the narrowest sense of that abused  
word.

They describe how a fourteen-year-  
old boy, with a discarded set of harness  
and an old hoop skirt, made a living  
machine and sailed round the earth;  
with a leaky wash boiler and two  
dollars in cash built a submarine that  
destroyed the enemy's fleet; how a lad  
in knee breeches circumvented a king  
of desperate criminals and so became  
president of a railroad system.

These tales of preposterous juvenile  
achievement are depraved because they  
are monstrous lies. They do not stimu-  
late a boy's imagination; they drag it.  
They do not set this imagination use-  
fully at work, but send it off in a wild  
opium dream.

They do not brace and enlarge a boy's  
mind; they lead it into a vicious, spir-  
itizing habit of dope-taking. They are  
a sort of psychological whiskey drink-  
ing that makes the victim unresponsive  
to wholesome, natural tones and be-  
comes a dabby craving for the artificial  
kick.

The crime and shame of this thing is  
that the boy is not in the least to  
blame. In ninety-nine cases out of a  
hundred he would read a good book  
instead of a bad one if only the good book  
instead of the bad one were put into  
his hands. See what your boy—or your  
girl—is reading. If it is a bad book  
that is your fault. It is your business  
to get him a good one in place of it.

## DRESSING FOR SALADS

**EXPERT DESCRIBES THREE OF  
THE BEST YET INVENTED.**

What is Known as French Dressing  
is Perhaps the Most Popular—  
Economy in Preparing Quan-  
tity at a Time.

Tomatoes, lettuce and cucumbers,  
apples and celery, asparagus, string  
beans and radishes—all the range of  
fruits and vegetables—combine in  
salads in such endless variety that  
the only law of combination lies in  
individual taste. Dressings, too, vary,  
but in them rule must be more nearly  
followed. These three recipes for  
salad dressing are given by Miss Cora  
E. Blum, instructor in home econ-  
omics, University of Wisconsin exten-  
sion division.

**French Dressing**—One tablespoonful  
vinegar, one-quarter teaspoonful  
cayenne, three tablespoonfuls olive  
oil, one-half teaspoonful pepper,  
one-quarter teaspoonful salt. Add salt  
pepper and onion juice to vinegar.  
Then add the olive oil, beating until  
thick and well blended. Use a cold  
dry and cold ingredients. The in-  
gredients may be put into a wide-  
mouthed bottle, corked and shaken  
until an emulsion is formed. The  
dressing may be mixed and set in the  
icebox until chilled; the oil and vine-  
gar will separate on standing and re-  
quire further beating. Following the  
correct proportions French dressing  
may be made in large amounts, kept  
in a bottle in the icebox and shaken  
before using.

**Sour Cream Dressing**—One-half pint  
sour cream, two tablespoonfuls lemon  
juice, one tablespoonful sugar, one  
teaspoonful salt, one-quarter teaspoonful  
pepper, one teaspoonful mustard.  
Beat the cream until it is light and  
thick; add the other ingredients. Sweet  
cream may be substituted.  
**Cream Salad Dressing**—Ten egg  
yolks, one-half cupful butter, one tea-  
spoonful salt, one tablespoonful must-  
ard, one-quarter teaspoonful pepper,  
one teaspoonful sugar, juice of two  
lemons or one-quarter cupful vinegar.  
Beat the butter, cool it, and when  
cream is thick. Add the beaten yolks  
mixed with seasonings. Cook over  
water until thick, stirring constantly.  
Remove from fire, add lemon juice  
and mix with whipped cream as it is  
used.

The housewife should plan to pre-  
pare a quantity of dressing at a time,  
keeping it in the icebox, and add  
sweet or sour cream as it is used.  
Preparing some foods in quantity is  
economy of time, fuel and energy.

**Salmon, Cucumber Sauce.**

One can salmon, one-half table-  
spoonful salt, one-half tablespoonful  
sugar, one-half tablespoonful flour,  
one teaspoonful mustard, few grains  
cayenne, yolks of two eggs, one and  
one-half tablespoonfuls melted butter,  
three-fourths cupful milk, one-fourth  
cupful vinegar, three-fourths table-  
spoonful granulated sugar, two ta-  
blespoonfuls cold water. Remove salmon  
from tin, rinse thoroughly with  
hot water and separate in flakes. Mix  
dry ingredients; add egg yolks, butter,  
milk and vinegar. Cook over boiling  
water, stirring constantly until mixture  
thickens. Add yolks soaked in  
cold water, strain and add to salmon  
stand until set. Serve in individual  
bowl with following sauce: Beat  
one-half cupful heavy cream until stiff,  
add pinch salt, pinch pepper and two  
tablespoonfuls vinegar; then add one  
cupful, heated and chopped.

**Dark Chicks for Thanksgiving.**

One cupful molasses, one-half cupful  
sugar, one-half cupful butter, one  
cupful milk; three cupfuls flour, two  
eggs, one-half pound raisins, one-quarter  
pound citron. Teaspoonful each  
cinnamon, nutmeg, allspice, one-quarter  
teaspoonful cloves, three-quarter  
teaspoonful soda. Bake in a fruit  
cake tin (large deep tin) two hours  
with a slow fire.

**Spanish Buns.**

One and one-fourth pounds of flour,  
one pound of sugar, half pound of but-  
ter, four eggs, a teaspoonful of cream  
of tartar, warm sufficiently to melt  
the butter; a tablespoonful of rose-  
water, two of wine, a grated nutmeg.  
Make into buns and bake.

**Sugar Cookies.**

To make sugar cookies take three-  
fourths of a cupful of fat, one cupful  
sugar, one egg, one-fourth cupful milk,  
two teaspoonfuls baking powder, two  
cupfuls flour, one teaspoonful flavor-  
ing or spice. Roll thin, sprinkle with  
sugar, cut out and bake.

**Spanish Omelet.**

Put two chopped onions in two table-  
spoonfuls of butter. When light brown  
add two chopped green peppers. Next  
add one quart of tomatoes. Season to  
taste, and allow until it reaches a pasty  
consistency. This is sufficient to fold  
into a six-egg omelet.

**Pumpkin Fritters.**

One pint of pumpkin, boiled and sifted,  
one pint of milk, two eggs, one-half  
teaspoonful salt, pinch of ginger,  
one teaspoonful molasses, flour to  
make a batter stiff enough to drop on  
griddle as for buckwheat.

**To Cut Cheese.**

To cut picadillo or other soft  
cheese in small slices use the follow-  
ing: Use a stout thread instead of a knife,  
and there will be no crumbling or  
breaking of the pieces.

### COUPLE GUARDED BY TROOPS

Bride's Parents and Sheriff Are Sur-  
rounded During Wedding in  
Alabama.

Montgomery, Ala.—Surrounded by  
members of Company F, Second reg-  
iment, Alabama National Guard, Miss  
Till Mae Thornton of Prattville, Ala.,  
was married in that city to James  
Jeannings of Tuscaloosa.

The girl's parents objected to the  
match and secured the co-operation of  
the Autauga county sheriff in the ef-  
forts to prevent it. The comrades of  
the bridegroom, however, surrounded  
the parents and the sheriff in one  
part of town, while a justice married  
the young couple in the armory.

The militiamen were returning from  
an encampment at Montgomery. The  
parents will make no further protests.

### BIG BROWN BEAR IS BAGGED

Nevada Stockmen While Out Hunting  
for Cattle Tree and Shoot 300-  
Pound Brum.

Nevada City.—A 300-pound brown  
bear was killed by Albert Beck and  
Henry Bever while hunting their  
stock in the vicinity of Moates flat.  
The footprints of the bear had been  
seen for weeks. The dogs got the  
scent and soon had the animal treed.  
Beck took one shot and brought the  
bear to earth.

There have been several bears seen  
in the northern part of Nevada coun-  
try, and they have been a menace to  
the stockmen.

### SNAKE IS REAL PICKPOCKET

Steals Farmers' Watch from Vest—  
Man Has Evidence to Prove  
His Story.

Sunbury, Pa.—Overheated while cut-  
ting wood on his farm at Kline's Grove,  
Charles R. Johnson hung his vest on  
a nail. When he put on his vest his  
watch was missing.

Later Johnson found a big black  
snake and killed it. A suspicious  
jump produced from his stomach.  
Johnson cut the snake open and his  
watch rolled out, undamaged. The  
farmer has nailed the snake, six feet  
four inches in length, to his barn as  
an affidavit to scoffing friends.

### DOLLS TO GET U. S. HEADS

Plant Established in Philadelphia for  
the Manufacture of Porcelain  
Doll Heads.

Washington.—The European war  
has brought a new industry to the  
United States—the manufacture of  
porcelain doll heads. Hitherto, Ger-  
many and other foreign countries  
have furnished the heads for Ameri-  
can dolls. These importations, how-  
ever, have been practically cut off  
since the war began.

The plant, according to information  
furnished by the department of com-  
merce, has been established in Phila-  
delphia.

### Light Under Water.

Photographers have discovered the  
depth to which the sun's rays pene-  
trate water. Five hundred and thirty  
feet below the surface darkness was  
much the same as that on earth on a  
clear but moonless night.

### War Upon Pain

Pain is a visitor to every home and  
usually it comes quite unexpectedly.  
But you are prepared for every emer-  
gency if you keep a small bottle of  
 Sloan's Liniment handy. It is the  
greatest pain killer ever discovered.  
Simply laid on the skin—no rubbing  
required—it drives the pain away. It  
is really wonderful.

Mervin H. Solter, Berkeley, Cal.  
writes:

"Last Saturday, after tramping  
around the Panama Exposition with  
wet feet, I came home with my neck so  
stiff that I couldn't turn. I applied  
Sloan's Liniment freely and went to  
bed. To my surprise, next morning  
the stiffness and aches disappeared,  
four hours after the second application.  
I was as good as new." March, 1915.

**BOYED AND VON PAPPEN DECLARED PERSONA NON GRATA.**

Secretary Lansing Asks That German Officers Be Recalled—Admitted Conspiracy in U. S.

Washington, Dec. 6.—The state department announced formally on Friday that it had asked for the recall of Captain Boy-Ed and Captain von Pappen, naval and military attaches, respectively, of the German embassy here, because of the "objectionable activities in connection with military and naval matters."

Secretary Lansing informed Count von Bernstorff, the German ambassador, that Captain Boy-Ed, naval attaché to the German embassy, had rendered himself persona non grata to the United States government as the result of his connection with the conspirators of the Hamburg-American line, who were found guilty in New York.

The state department was believed to be of the opinion that as Captain Boy-Ed had admitted his connection with the financing of the operations which the New York jury gave a verdict as being illegal there was nothing else to do but inform the German government of its views.

Secretary Lansing issued this statement: "On account of what this government considers improper activities in military and naval matters, this government has requested the immediate recall of Captain Boy-Ed, German naval attaché, and Captain von Pappen, German military attaché, as they are no longer acceptable to this government."

## WILSON WILL WED ON DEC. 18

Ceremony to Be Quiet; Only King to Be Present; Honeymoon Plans Kept Secret.

Washington, Dec. 7.—The wedding of President Wilson and Mrs. Norman Galt has been set for December 18, it was announced on Saturday at the White House.

The White House statement follows: "It was announced at the White House that the marriage of Mrs. Galt and the president will take place on Saturday, the eighteenth of December. As previously stated, the ceremony will be performed at Mrs. Galt's home, 1305 Twentieth street, Northwest. The only guests will be Mrs. Galt's mother, her brothers and sisters, the president's brother and sisters, his household staff, and members of his immediate household."

Regarding the honeymoon no announcement was made.

Ammunition Factory Destroyed by Plotters at Halle, Prussia; Saxony—Several Arrested Made.

London, Dec. 7.—Destruction of a large ammunition factory at Halle, Saxony, by an explosion, which caused the loss of several hundred lives, is reported in a message from Kolding, Denmark, to Copenhagen, forwarded by Reuters correspondent.

It is said a similar disaster was narrowly averted at Regden, Silesia. The ammunition factory there, it is reported, was saved by the discovery that it had been undermined.

According to this account, which has been confirmed, arrests have been made at Regden. It is asserted that the suspected workmen are suspected in both instances.

AMERICAN OIL STEAMER COMMUNIPAW TORPEDOED NEAR TOBRUK, TRIPOLI.

## ANOTHER BOAT IS SHELLED

American on Board the Petrolite Wounded During Attack by Diver Flying the Austrian Flag—United States Awaits More Facts.

Rome, Dec. 9.—The American oil steamer *Communipaw* has been sunk by a submarine in the Mediterranean near Tobruk, Tripoli.

No information has been received concerning the crew or the nationality of the submarine.

The *Communipaw* was recently held by the Italian government at Genoa, but was allowed to sail for her destination December 2, owing to representations made to the government by the American embassy at Rome.

The Standard Oil company of New Jersey owned the *Communipaw*, which sailed from New York October 27 for Egypt.

Washington, Dec. 9.—Differences between the United States and the two central empires of Europe were intensified by the following incidents:

Cruiser *Des Moines* reported an Austrian submarine had fired on an American ship, *Petrolite*, in the Mediterranean, wounding one man aboard.

Secretary Lansing of the state department replied to Germany's request for America's reasons asking the recall of Captain Boy-Ed and von Pappen. The reply said merely each attaché was persona non grata because of his naval and military activities.

The dispatch from the *Des Moines* came from Cana, Crete, and reported that the following wireless message was sent to the state department: "American steamship *Petrolite*, Alexandria to New York, attacked by a submarine Sunday morning at 6:20, longitude 28.7 north, latitude 36.3 west. One man not seriously injured."

The commander of the cruiser said he had obtained from the commander of the *Petrolite* the additional information that the submarine which attacked the American steamer was the Austrian flag and "looked like a big cruiser." The man who was wounded was struck by a fragment of an explosive shell fired from the submarine.

The attack took place about 350 miles west of Alexandria and off the western coast of the island of Crete.

The navy department transmitted the report to the state department, where it was said nothing could be done until further facts were supplied.

It was inferred from the dispatch that the *Petrolite* had been fired on during a successful attempt to escape. "If our captain there had a demand to submit to search there probably will be no attempt to make a diplomatic incident of the case."

Secretary Lansing said he had not instructed the commander of the *Des Moines* to make any further investigation. It is assumed that no more will be heard from the *Petrolite* until she arrives at Gibraltar.

It can be shown that the *Petrolite* was trying to escape and that as required the attack on American ships was justified. The issue with Austria will grow rapidly in acuteness if no warning was given.

## ST. LOUIS WINS CONVENTION

Democratic National Committee Votes in Favor of Missouri City—Chicago Second.

Washington, Dec. 9.—Chicago lost the Democratic national convention to St. Louis on Tuesday because Senator Reed of Missouri needed help in his senatorial candidacy and because the Democratic national committee did not think Chicago should have both conventions. The deciding vote was St. Louis, 35, Chicago, 15 and Dallas, 9.

It is a foregone conclusion Chicago will be given the Republican convention when the G. O. P. committee meets in Washington next week. The Democratic convention was presented as the only Chicago St. Louis had, because the word had been passed around that the Republican convention would go to Chicago even if the Democrats also selected that city.

Senator Lewis, Governor Dunne and Roger Sullivan addressed the committee in behalf of Chicago, but, as one of the Chicago delegation expressed it afterwards, the "cards were stacked against them."

On the first ballot St. Louis got 25 votes, Chicago with 13. Lacking a majority, a second ballot was necessary. On the second ballot Chicago gained two votes and passed Dallas. But St. Louis gained three and had a majority.

## Large Club for Boys.

The boy in the city must have many side tracks if he desires to lead an upright and useful life. He is surrounded by distractions which may lead him away into the range of the incompetent, idle or even vicious. He is an "inquisitive, knowledge-thirsting creature, full of the great possibilities of youth. His latent powers are precious; yet they are weak and need a carefully akin almost to that of nature.

Hence the establishment of the large boys' club in Roxbury, handsomely housed and well equipped. It is a place many boys will be given the opportunity to keep on the main line leading to a useful life.

A boy's enthusiasm is more often aroused when he thinks he is playing than when he is working at school. The boys' club can catch him when he is enthusiastic and can turn that enthusiasm toward many accomplishments. We wish the club every success.

## HARD TO DROP But Many Drop It.

A young Calif. wife talks about coffee:

"It was hard, wife talks about coffee and Java and give Postum a trial, but my nerves were so shattered that I was a nervous wreck and of course that means all kinds of ails."

"I did not want to acknowledge coffee caused the trouble for it was very fond of it. At that time I was unable to live with it, and I noticed that after he had been with us a week he would not drink his coffee any more. I asked him the reason. He replied: 'I have not had a headache since I left off drinking coffee, some months ago, till last week, when I began again after the usual time. I don't see how anyone can live on coffee, anyway, after drinking Postum!'"

"I said nothing, but at once ordered a package of Postum. That was five months ago, and of course I drank no coffee since, except on two occasions when we had company, and the result each time was that my husband could not sleep, but lay awake all night, and talked half the night. We were convinced that coffee caused his suffering, so he returned to Postum, convinced that coffee was the cause. Instead of a friend, and he is troubled no more by insomnia."

"I have gained 8 pounds in weight, see my nervous has ceased to trouble. It seems so easy now to quit coffee that caused our aches and ails and take up Postum." Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms: Postum Cereal—the original form—can be well boiled. 16c and 50c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and with cream and sugar, makes a delicious beverage. Instantly, 50c and 10c tins.

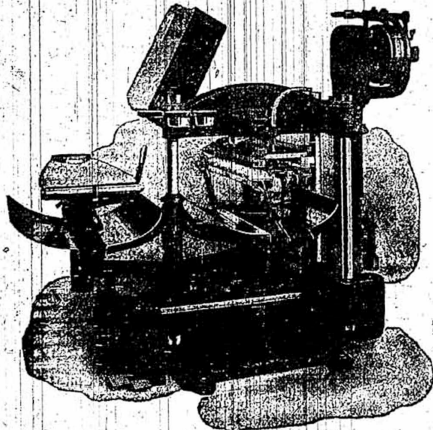

Both kinds are equally delicious and cost about the same per cup.

## HAVE YOUR SHIRTS IRONED "JUST RIGHT"

**COME TO OUR PLANT ANY DAY and  
SEE THIS MACHINE IN OPERATION**

We aim to use in our plant only the most modern "up-to-date" machinery. With this in view we have installed one of the celebrated Keystone Bosom Presses—the very last word in shirt ironing machinery. This press irons simply by bringing down under pressure a steam heated ironing surface on to the shirt which is spread out on a soft padded board—consequently there is no friction. Absence of friction means increased length of life for your shirt. By using steam heat there is no possibility of scorching the shirts.

## BRIEF MENTION OF NEWS ABOUT TOWN

Happenings of the Week Told in Short Paragraphs—What's Doing in Our Hustling Village.

The following pupils at the Pilot Creek school were neither absent nor tardy during the month of November: Ella Kubfahl, Eddie Kubfahl, Eddie and Otto Schumacher. The per cent of attendance for the month was 81. HAROLD F. SPENCER, Teacher.

The following pupils were perfect in attendance at the Lakeshore school, district five, for the month of November: Leslie Bauman, Norma Doolan, Raymond Jurs, Dolevan Jurs, Gladys Landwer, Alma Landwer, Clayton Landwer, Homer Schaefer, Walter Meyer, Esther Wendt, Arthur Wendt. The enrollment is 10 pupils.

The young people's subscription dance in the village hall last Friday evening had been arranged by Edward Volker. An Italian orchestra of harp and violin played and the hall was gay with green and red crepe paper streamers and flags. The large electrolights were draped with paper shades in green and red which softened the light prettily. A luncheon was served by the young ladies. Chicago and Crystal Lake guests were present and there were about sixty dancers.

Quite a number of flags were flying here on Illinois Day, December 3. The G. A. R. flag floating over the depot park is a pretty sight and shows the passing public that we are alive in this village in patriotic feeling. Illinois was admitted to the Union on December 3, 1818. The hundredth anniversary will be celebrated in this year by all kinds of festivities. For two years now the date, December 3, has been especially marked in the state to get the birthday of the state fixed in the minds of the people, so that all will take an interest in the coming centennial.
