

BARRINGTON REVIEW

VOLUME 31, NUMBER 51

BARRINGTON, ILLINOIS, THURSDAY, DECEMBER 23, 1915

\$1.50 PER YEAR IN ADVANCE

DOMONSTRATION CAR TO COME IN JANUARY

Is Expected to Arrive Here About January 4 and Will Remain For Two Weeks—All Invited to Visit It.

BARRINGTON IS FIRST TO GET CAR

Expense of Trip Will be About \$100 Which Will be Paid by the Two Country Life Associations.

You are invited by the Men's Country Life Association and the Women's Country Life Association to inspect the State demonstration car which will arrive in Barrington about Friday, January 4, to remain two weeks.

It is hoped that the public will make the trip of the demonstration car, which is a "Barrington" car, by its request, one of the first to visit the car. The Householder Science School, which is the first of its kind in the state, is a little larger than a regular Pullman car; the best methods of housekeeping, however, will be shown. Two teachers, a man and a woman, will talk on many subjects relating to home life in the car and probably in the churches or public halls.

The expense of having the car will be about \$100 for the railroad fare. The Women's organization will pay \$50 and the Men's the larger sum. There is no charge to the public for all the fine instruction and the State does not charge for the loss of the car. Miss Katherine Oles, who is in charge of the exhibition at the university when in Chicago last week and reports that it is very interesting.

The car will be on a convenient railroad siding near the business district, either on the spur alongside the Lumber Company and the Barrington Review building, or on the Lakeside and Hagar spur in their lumber yard.

The officers of the two Country Life organizations met at the school Monday evening to discuss business connected with this project. H. J. Lageschulte is president of the Men's Country Life; Prof. E. S. Smith, vice president; A. L. Robertson, secretary and treasurer. Mrs. Sam Oles is president of the Women's Country Life; Mrs. Richard Strubach, vice president; Mrs. O. A. Abbott, secretary. All will be active in making the two weeks of the tour a very interesting and a great community success. Prof. E. S. Smith and Mrs. M. T. Lacey were appointed as an advertising committee.

Men's Country Life Meeting
The regular annual meeting of the men's Country Life association will take place in January this year instead of February. Last year it was abandoned absolutely on account of the cattle disease epidemic.

Friday and Saturday, January 14 and 15, will be a two days' celebration and these dates have been chosen so that it will occur while the State demonstration car is in town.

Lecturers from out of town will offer information on farm affairs and dinner will be served both days by the Women's Country Life association, probably in the village hall.

All farmers and business men are invited. If you don't belong to this organization, you should join. It is one of the best plans ever introduced here to give us a community pride.

A poultry show will be one of the features and is under the management of George Hager, Dan Gilly and Edward Langner. Its place of exhibition is not yet determined but no doubt the school basement will be used. The program regarding entries will be published later.

G. A. R. Annual Election
Barrington Post No. 207, G. A. R., held its annual election of officers last Friday afternoon at W. R. C. hall. The results was as follows:

Commander.....P. A. Lageschulte
Sustaining Vice-Commander.....Henry Nordmeyer
Junior Vice-Commander.....Samuel Clarke
Sergeant.....Stanford Peck
Chaplain.....Robert Porrett
Adjutant.....Henry Rutter
Quartermaster.....Robert Reynolds
Officer of the Day.....A. S. Anderson
Patrol Officer.....Robert Porrett
Officer of the Guard.....Maud Undersander
Assistant Postmaster.....Henry Rutter
To attend the next meeting of the Department Encampment.

The installation of officers will occur January 22 and will be private.

GAVE LECTURE ON RURAL SCHOOLS

Country Life Director E. M. Phillips Told of the Work Being Done for Districts of Cook County.

Instead of the usual sermon at the Baptist church Sunday evening, a lecture was given by Eugene Phillips, a country life director of Cook county. Rev. G. H. Lockhart had urged Mr. Phillips to address a Sunday evening congregation in the church to explain the work the directors are doing for the schools and how the church and public schools are closely related in their efforts to help young people.

Mr. Phillips says that he knows great numbers of people who do not understand the aim of these new efforts. He pointed out the fact that Cook county and how its county superintendents of schools have always been unable to accomplish much personal supervision of the district schools, with only two assistants; he told of the desire of E. J. Tobin, who has been elected county superintendent, to give more attention to each rural school, so that the county board of Commissioners, the appointment of five assistant superintendents, called "county life directors," by the county's market out into five districts and in his district each director is to travel constantly to know the people intimately and to direct the education of the children, also the school, along the idea that the school is their common meeting ground for study and social life. Proper buildings, competent teachers, a practical course of study, good amusements, are some of the plans developing. A successful feature in real operation now are the garden clubs for boys and girls, which not only help the children to earn and value money but increase their love of agricultural interests.

Days of long ago in rural America were recalled when the country schools and churches were the great assembly points of the countryside before the people began drifting to towns and cities. Again shall the benefits of country life become apparent, and it is hoped by the efforts of these directors to keep the young in the country.

Southwest of Barrington is a stone school, built in 1851, which is an awful example of the neglect of the district schools, while the farms have advanced to modern machinery, telephones, automobiles, electric lights, traction engines, washing machines, sewing machines, rural delivery, etc., etc., while the little schools have been neglected and forgotten, and taught by a few old men or town girls, not prepared to love, nor understand, nor endure the country.

The good ideas of Mr. Tobin, Mr. Phillips and the others, are attracting attention in many states, for they are pioneer workers in this new education for country children.

Mr. Phillips is a graduate of Illinois university and he has taken postgraduate work at Chicago and Wisconsin universities; he had ten years teaching experience in high schools and has specialized in chemistry and physics.

Work of the Grim Reaper
Mrs. Emeline Patterson, wife of James Patterson and mother of Mr. Robert Work, died of severe bronchitis Monday night, December 20, about 1 o'clock at the Work home, a mile west of Barrington.

A funeral service was conducted Wednesday at the home by Rev. O. F. Matfield of Evanston and Dr. W. J. Libbertson of Barrington. Burial was in Greco, Iowa.

Mrs. Patterson was born in Vermont, August 4, 1847 and in 1862 went to northern Iowa with her parents; her father was one of the pioneer settlers of that state. Twenty-five years ago she moved to Chicago with her husband and two children, Mrs. Work and daughter who lives in Philadelphia. Mr. and Mrs. Patterson moved to Barrington about six years ago and lived on Rough street for a time, moving later to the Work residence. She was a member of the Barrington Methodist church.

W. W. W. Basket Social
The W. W. W. Workers of the World will give a basket social, followed by dancing, in Odd Fellows hall on New Year's Eve, December 31.

Everybody is invited and a free time is promised. Come and laugh the old year out with your friends. Twenty-five cents will be charged those who bring baskets and no admission charged at the door.

Ladies are asked to furnish the baskets of lunch. A prize of a fine pair of gloves will be given to the lady whose basket brings for the highest price.

This social is more for a jolly good time than to make money. Violon and piano music.

CHRISTMAS CAROL

FREDERICK R. MERES

O'er Bethlehem's plain there shone a star
That guided wise men from afar,
To see the child in manger laid,
Immanuel Jesus is his name,
The Prince of Peace has come to dwell
Hosanna! Shout Immanuel.

The long expected, promised Lord
Is born today, by kings adored.
While to the world God doth proclaim
He comes, and Counselor is his name,
The mighty God on earth to dwell,
Rejoice! Rejoice! Immanuel.

He comes to man by lowly birth,
To spread salvation through the earth.
From everlasting, he's the same,
Our God and Wonderful his name.
King David's seed fit man to dwell,
Rejoice! Rejoice! Immanuel.

Peace on earth, good will to man,
Sing of free salvation's plan,
With angels join in the refrain,
Jesus, God with us, is his name.
Hallelujah, peace on earth,
Rejoice! Rejoice! the Savior's birth.

Rejoice and loud hosannas sing,
Hosanna to the new-born King,
Angels hosts to men proclaim
Our Father's love, our Savior's name.
Hallelujah! Peace on earth,
Rejoice! Rejoice! the Savior's birth.

SCHOOL NOTES.

The teachers will all spend their vacation at their homes.

There is a great deal of sickness this week amongst the school children.

Room 1, 2 and 3 pupils have been making Christmas presents for their parents.

The high school students had a Christmas party at the school last evening.

School closed this afternoon for the Christmas vacation and will open again January 3.

All the rooms are having work or programs about Christmas this afternoon. The three lower grades have Christmas trees, too.

The children have been bringing things to school to be sent to the [Hall House, Chicago. Fruit, foodstuffs, clothing and toys have been packed and sent today. There were three boxes.

Mrs. Reuben Plazge, teacher of Room V, has scarcely been able to speak aloud for several days on account of a bronchial trouble. The children could a great deal of quiet for trying to understand her sign language instruction.

Teachers who live away from Barrington will spend Christmas in different places: Miss Edith Brown in Chicago; Miss Melissa Deutscher in Greco, Iowa; Miss Ruth Gordon in Oak Park; Miss Mabel Gardner in Evanston; Miss Wilfred Lawrence in Barrington and Miss Jessie Sprinkled at Sheridan.

The Senior Boys' Glee club gave a night for the library with part of the money which they took in at the concert. The bowl is of French glass and hangs from three chains. The boys

are also going to put two smaller lights into the office. These lights have long been needed and the handsome fixtures add greatly to the attractive appearance of the room.

The rank of the grades in attendance is as follows:

Rank	Room	Per Cent
1	High School	94.68
2	1	94.68
3	2	93.10
4	3	91.21
5	6	90.71
6	6	90.20
7	2	89.18
8	7	89.06

Postoffice a Busy Place.

Postmaster G. W. Spinner and his staff of assistants have been very busy for two weeks handling the regular postal service and the parcel post. There is an increase of about 25 per cent over that of last year. It has been necessary to refuse to accept a few packages addressed to Germany. The United States postal authorities were obliged to issue this order, because delivery could not be promised on account of the blockade against Germany established by the Allies.

Strange articles have been mailed from Barrington. A 25 pound dressed pig was duly stamped and mailed to Chicago and on Tuesday a feather bed, compactly folded, started city wards by parcel post. Can any postoffice beat that?

Come to The Christmas Ball

A Christmas ball will be given at Cuba Country Club, Cuba Station, on Saturday evening, December 25. A Christmas tree and celebration on Friday evening. Music will be furnished by Peter's Orchestra of Crystal Lake on Saturday evening. Dance tickets 15c; supper, 25c. A hearty welcome is extended to all.

WOMEN ENJOYED CHRISTMAS PARTY

Country Life Association Ladies Enjoyed Their Program and Luncheon Last Friday Afternoon.

The Christmas party of the Women's Country Life association in the village hall on Friday afternoon was a great pleasure to the ladies. Good fellowship reigned amongst them. The long delay in starting the program nearly ruined the plans of the afternoon; it was on account of the pumping machinery on the first floor of the building which was very annoying. Repeated requests were made by different ladies, by the town marshal and one of the aldermen, that the pumping be stopped for one hour, so that the meeting might proceed and allow the farm women to enjoy the program and get home in good season. The man at the station insisted he had to keep pumping for several reasons, more or less understood. The use of the hall is given this association without charge, because it is a community society and the privilege is appreciated, but the desecrating noise was not.

A long table of delectable cakes and cookies were awarded ribbon prizes by the judges—Meadabe Herman Schumm and Hannah Powers and Miss Ida Berry. The display was a tempting one of many varieties. Madames B. H. Sody, Butler, P. Plazge and M. A. Bennett, received the entries. Blue ribbons were taken by Mrs. H. H. Sprague and Miss Ida Landwehr, and the Misses Clara Elfrink and Ida Landwehr; two white ribbons went to Madames Barth and J. G. Callow. The sale of half of the cakes assisted the association financially and the consumption of the other half assisted the ladies individually.

Christmas time in Sweden, France, Germany and China was told of by Mrs. Branner, Miss Ols, Mrs. Welch, and Mrs. Solr. The first and last mentioned ladies have each lived in the country of which she spoke, while Mrs. Welch learned of German ways from her mother and husband who lived there; Miss Ols had read thoroughly of French customs. A ladies' quartette, the Misses Plazge, Mrs. V. Hawley and Mrs. G. Wallander sang some songs. Mysteriously wrapped Christmas gifts valued at ten cents each were presented to all present—many being pretty and useful articles.

Will Have Shading Pond.
At the suggestion of the REVIEW, a skating pond is to be provided for public use, immediately.

Robert Hornuth is the man who has donated the use of a tract of land for the benefit of the young people and children, particularly, and he deserves much praise for his generosity. "May he live long and prosper."

"Community Food" will be located on West Main street, between the residence of Alderman George Hager and the J. J. & E. tracks. The property is owned by Mrs. Fred Kamper who gave her consent and is under lease to Mr. Hornuth. It is an ideal spot for a skating pond, quite level and not too near to homes to be annoying. The pond will be about 500 feet square.

The village board has promised to provide a drainage water and it is hoped that the Public Service company will put in lights. People interested met at the school Tuesday evening to discuss the new amusement. About \$10 will be needed to make an embankment at one point. Dr. George Lytle, Irving Bager, Linton Carlschmid and Edwin Plazge will solicit small change donations around town. Any money received over the expense sum will be given to Mr. Hornuth. So on of the high school boys may put up a stick with a snow fire in it, for a "warm spot" on the grounds.

George Spinner inspected his property, the ball park, last week to see if he could give the use of it for a pond. It was not found level enough but Mr. Spinner had the desire to help and is very thankful for his offer.

Skating will not be permitted after 10 o'clock at night.

Good Roads Association Meets.
At the meeting last Saturday at Graylake the Lake County Good Roads association resolved to ask the legislature to pass a law providing that money collected from state automobile license could be used for maintaining roads over ball, instead of for building new ones. A number of directors from the different townships was selected. E. W. Riley to represent Cuba.

No Review Next Week.
Following the usual custom of this office there will be no paper published on Friday, December 25. The office of the job printing department will be open for business as usual.

CHRISTMAS AT THE BARRINGTON CHURCHES

Special Music and Sermons Will be Enjoyed on Christmas Day and Sunday.

THREE CHURCHES TO HAVE TREES

Santa Claus Will Visit Children at the Baptist, Methodist and Zion Churches—Special Programs.

Christmas services and festivities in the Barrington churches are being planned this week by pastors and Sunday school teachers. The various denominations and their programs are considered separately.

BAPTIST.

On Christmas Eve a cantata named "The Parents of Bethlehem" will be presented, in which about thirty-five young people from fourteen to eighteen years of age, and a few adults will act. There will be vocal and instrumental solos, duets and choruses.

At 10 o'clock Christmas morning a service will be held in the church. Sunday morning will be devoted to Sunday school work and election of Sunday school officers instead of the regular service.

On Sunday evening five young ladies will present a program of readings and songs of a Christmas nature.

ST. PAUL'S.

The Christmas tree will be lighted at 7:30 on Christmas Eve at the church for the Sunday school children. Christmas morning there will be a festival at 10:30.

On Sunday morning Sunday school will be at 9:30 and another festival service occurs at 10:30 with Holy Communion.

ZION.

A lighted tree laden with candies and fruits will delight the children of the Zion church on Christmas Eve at 7:30. Readings and songs will be performed by the little ones. There will be no service on Christmas but Sunday will be communion day and the quarterly meeting. The presiding officer, Rev. Schab of Chicago, will have charge of the service, preaching a sermon in German. In the evening an English sermon will be given a regular service.

ST. ANNE'S.

Low Mass will be celebrated Christmas morning at 10:30 and several of the young men and women of the parish will sing. Rev. Father E. J. McCormick will read two masses at Crystal Lake that morning at 8:00 and 8:30 o'clock. The service on Sunday morning will be at 8:30.

BAPTIST.

The Sunday school will have a tree on Christmas Eve, a Santa Claus and a great variety of songs and readings for people of all ages. There will be a snowball drive. Hugh Matilyn is instructing the choir.

On Sunday morning the subject of the sermon will be "The Birth of Love," a Christmas address; in the evening "The Wonderful Christmas." Choir.

METHODIST.

A cantata, "The Gift of Gifts," participated in by thirty children, takes place Christmas Eve at the church, followed by the lighting of the Christmas tree and distribution of candy.

There will be no service on Christmas Day but on Sunday morning there will be a Christmas sermon and in the evening a special Christmas music.

This year several of the Sunday school classes are preparing baskets of food to give worthy people, instead of giving the usual gifts to teachers.

CHRISTIAN SCIENCE.

The usual service will be held Sunday morning by the Christian Scientists.

Women's Club Busy.

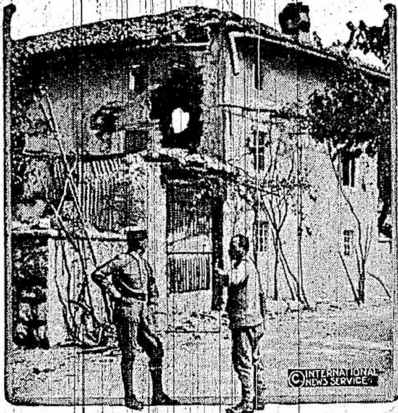

On Wednesday evening, January 5, Mrs. G. W. Spinner will be hostess for the Women's club. Judge Mary Bartine of Chicago will speak on "The Delinquent Girl." Mrs. George Webster, Arthur and D. F. Webster of Des Plaines will be the musicians on the program.

The Philanthropic committee has been busy collecting and sending to the Esther Faulkenstein Settlement House in Chicago several barrels and boxes of clothing and two boxes of food.

The department of Parent Welfare of the club is trying to arouse interest among the school children for the preservation of our birds and to that end are offering blue ribbons for the best male bird houses. They will have several speakers on "Birds" appear before the school after January 1. The same idea will be carried on in regard to wild flowers in the spring.

I have a supply of blanks on which to make application for automobile licenses for 1916. MILES T. LAMBY, Publisher.

SMASHED BY ITALIAN GUN FIRE

Scene in Dobordo, a suburb of Goritz, the Austrian stronghold which has been long besieged by the great guns of the Italian army.

IN DAYS OF GOLD

Immerse Output Follows Discovery of Metal in California.

For Eleven Years, From 1880 to 1891, the Yield Was Prodigious, Amounting In 1892 to Over \$55,000,000.

Washington.—The historically important discovery of gold in California was made in January, 1848, at John Sutter's mill on South Fork of American river, near Colusa, a point only ten or fifteen miles southwest of the town of Auburn, says a statement by the geological survey.

"From 1850 to 1883 the greatest yield was derived from the gravel and the largest annual output for this period was more than \$55,000,000. There was some recession in 1854, due to protracted recession, but a production of about \$50,000,000 a year, chiefly from placer mines, was maintained up to 1883.

"At first the gold was won chiefly from the gravels along the present streams. Those who first got possession of the rich bars on American, Yuba, Feather and Stanislaus rivers and some of the smaller streams in the heart of the gold region made at times from \$1,000 to \$5,000 a day. In 1848 \$500 to \$750 a day was not unusual luck; but on the whole the income of the great majority of miners was far less than that of men who seriously devoted themselves to trade or even to common labor.

"The gold pan, the rocker, the 'tom,' the sluice and the hydraulic plant, or 'monitor,' named in the order of increasing efficiency, were the tools successively used by the miners. Into the rocker and the 'tom' the miner shoveled gravel or dirt, rocking the machine as he poured in water and catching the gold, often with the aid of quicksilver, on riffles set across the bottom of his box. Sometimes a stream was diverted into a flume to lay bare the gravel in its bed so that the miner could get at it.

"In sluicing, the gravel was shoveled into a similar but much longer box through which a stream of water was allowed to run.

"The hydraulic plant was employed to wash into long riffles slides of immense quantities of gravel, especially from the higher (Tertiary) deposits.

PRETTY PERUVIAN GIRL

Miss Teresa Granda y Perot is an interesting addition to the diplomatic circle in the list of celebrities in Washington society this winter. Miss Granda is spending the winter at the "Covian" legation, with her uncle and the minister from Peru and Miss.

much of which was too lean to work out by hand. Water was brought for many miles in ditches and flumes from the high Sierra and conducted under great head to a nozzle, from which it was projected with tremendous force against the gravel. These figures include only cattle, calves, sheep, goats and swine.

Tuberculosis was the chief cause of the condemnations. More than 23,541 carcasses of cattle and 67,400 carcasses of swine were ordered inspected on account of this disease, and in addition, parts of 45,000 cattle and 40,000 swine. Hog cholera was responsible for the next largest loss, nearly 102,000 swine being condemned entirely on this account.

The annual appropriation for the federal meat inspection service is now about \$3,750,000, so that the cost to the people would be between 5 and 8 cents per animal carcass. In addition, however, great quantities of the meat and products are re-inspected. In this item there was a very considerable increase during the last fiscal year, the re-inspection resulting in the condemnation of a total of nearly 13,000,000 pounds of products of one kind or another. Furthermore, 240,000,000 pounds of imported meat or meat products were inspected, and more than 2,000,000 pounds condemned or refused entry.

In the course of its work, the bureau of animal industry, which is in charge of the meat inspection service, has discovered a new method of destroying trichinae in pork, which is an additional safeguard to human health. Refrigeration at a temperature of 5 degrees, F., or lower, for a period of 30 days, will destroy these parasites which occasionally give rise in human beings to the serious disease known as trichinosis. Hitherto the only known safeguard against this disease has been thorough cooking of all pork and pork products, and those persons who neglect this precaution have always been more or less exposed to the danger. Unless pork is known to have been subjected to refrigeration as above indicated, it should be thoroughly cooked. The microscopic examination of pork for the detection of trichinae has been abandoned as the usual methods have proved inefficient.

In this connection it is interesting to note that more swine were slaughtered under federal inspection than ever before. A total of 36,247,493 were inspected at the time of slaughter, and approximately 35,000,000 passed for food.

Chillicothe, Mo.—Livingstone county has the smallest possible school in the world, as has just one pupil. But, despite the small enrollment, it keeps grinding steadily away, confining its activities principally to the text books and "showing" football and other forms of athletics.

The school in question is in district No. 2, in Medicine township and Miss Mary Phillips is the teacher. The list of matriculants has not been published. When the term began five weeks ago, it was anticipated that a number of children would enroll, but only this one boy came, so the teacher started in with the course.

MORE JOBS THAN CHEMISTS

Scarcity of Engineers Shown at Columbia University Since Outbreak of War.

New York.—Since the outbreak of the war and the resulting increase in chemical projects in this country the demand for chemical engineers has grown so rapidly that the companies are finding it difficult to fill the many places that are now open.

Indication of this was given at Columbia university when Dean Frothingham, in his address to the graduates of the engineering school reported that he had received a call from a mining company for several chemical engineers familiar with the iron and steel industry, but that he has been unable to find any of the recent graduates who were not already well placed.

BIG HAUL FOR "CRIPPLE"

This Beggar Kept Record of Receipts—Gives Police Hard Battle.

Allentown, Pa.—William Newbeck, a perfectly healthy man, who has been known as a cripple, has been a successful business man in Allentown that he went on a spree and he was locked up, giving the cops a hard time before they landed him in a cell.

MAKING MEAT SAFE

Sixty Per Cent Killed Under Federal Inspection.

Hundred Million Meat Animals Slaughtered Each Year in United States.—Tuberculosis Is Chief Cause of Condemnation.

Washington.—More than 58,000,000 meat animals were slaughtered in establishments under federal inspection during the fiscal year ending June 30, 1915. Since approximately 1913, 58 to 60 per cent of this animals killed in the country are slaughtered in establishments where federal inspection is maintained, it appears that about 100,000,000 meat animals are now being killed each year in the United States.

Of the animals subjected to federal inspection, 29,958 were condemned as unfit for human use, and 544,585 were condemned in part. Thus a little more than 1 1/2 per cent of all the animals inspected were condemned either in whole or in part. These figures include only cattle, calves, sheep, goats and swine.

Tuberculosis was the chief cause of the condemnations. More than 23,541 carcasses of cattle and 67,400 carcasses of swine were ordered inspected on account of this disease, and in addition, parts of 45,000 cattle and 40,000 swine. Hog cholera was responsible for the next largest loss, nearly 102,000 swine being condemned entirely on this account.

The annual appropriation for the federal meat inspection service is now about \$3,750,000, so that the cost to the people would be between 5 and 8 cents per animal carcass. In addition, however, great quantities of the meat and products are re-inspected. In this item there was a very considerable increase during the last fiscal year, the re-inspection resulting in the condemnation of a total of nearly 13,000,000 pounds of products of one kind or another. Furthermore, 240,000,000 pounds of imported meat or meat products were inspected, and more than 2,000,000 pounds condemned or refused entry.

In the course of its work, the bureau of animal industry, which is in charge of the meat inspection service, has discovered a new method of destroying trichinae in pork, which is an additional safeguard to human health. Refrigeration at a temperature of 5 degrees, F., or lower, for a period of 30 days, will destroy these parasites which occasionally give rise in human beings to the serious disease known as trichinosis. Hitherto the only known safeguard against this disease has been thorough cooking of all pork and pork products, and those persons who neglect this precaution have always been more or less exposed to the danger. Unless pork is known to have been subjected to refrigeration as above indicated, it should be thoroughly cooked. The microscopic examination of pork for the detection of trichinae has been abandoned as the usual methods have proved inefficient.

In this connection it is interesting to note that more swine were slaughtered under federal inspection than ever before. A total of 36,247,493 were inspected at the time of slaughter, and approximately 35,000,000 passed for food.

Chillicothe, Mo.—Livingstone county has the smallest possible school in the world, as has just one pupil. But, despite the small enrollment, it keeps grinding steadily away, confining its activities principally to the text books and "showing" football and other forms of athletics.

IS LONELIEST OF PUPILS

Missouri Youth Has School and Teacher All to Himself—Sports Are Echoed.

Chillicothe, Mo.—Livingstone county has the smallest possible school in the world, as has just one pupil. But, despite the small enrollment, it keeps grinding steadily away, confining its activities principally to the text books and "showing" football and other forms of athletics.

The school in question is in district No. 2, in Medicine township and Miss Mary Phillips is the teacher. The list of matriculants has not been published. EXPERT IN COOKERY

Mrs. Jesse Hardy MacKay of the Congressional Union for Women Suffrage, has been responsible for the thousands of articles explaining "the cause," sent out by the organization in the past two or three years. But what is not only known as a specialist in publicity. In suffrage circles she is famed as a cook. She explains: "I am my own cook, not only because I enjoy it, but because I believe in it as the nation, conservation in the home is the corner stone of preparedness."

It's a Hummer. Pine Grove, Ark.—Katherine Lucy Bost of being the possessor of the only brick house in town is the subject of a story. A few days ago a baby brought in a brick snake 30 inches long.

OLD COUNTRY NEWS

BRIEF SUMMARY OF HAPPENINGS FROM LAND OF THE KAISER.

NOTES FROM GERMAN EMPIRE

Items About People and Affairs From Across the Sea That Will Prove of Great Interest to Many of Our Readers.

Imperial Councillor von Bethmann-Hollweg, in his historic speech before the Reichstag a few days ago, uttered the following statement: "As long as in the countries of our enemies guilt and ignorance of statements are maintained, it would be folly for Germany to make peace proposals, which would not shorten but lengthen the duration of the war. If our enemies make peace proposals compatible with Germany's dignity and safety, then we shall always be ready to discuss them." At the close of the speech the nationalist parties made a joint declaration approving the chancellor's utterances and indicating the view that in the conditions of peace made after the war there must be guarantees for Germany's safety and "even if this implies annexation of territory."

The next day the socialist members of the Reichstag decided in party caucus that the reply of Chancellor von Bethmann-Hollweg to peace queries was entirely satisfactory. They voted that therefore there was no reason for hostility toward the government, "whose enemies have been continually stating that it favored annexation."

This resolution it is understood, passed the caucus by a large majority, a few radicals, including Doctor Liebknecht dissenting. The German press voiced practically unanimous approval of Chancellor von Bethmann-Hollweg's statements on peace. "The same endorsement came from business men, professional men and men of all classes in Berlin. They agreed that the chancellor made an admirable statement of Germany's position, and he showed conclusively that responsibility for continuance of the war must rest with Germany's enemies. The Kreiszeitung and Boersche Zeitung commented: "The chancellor said what all good Germans thought." The Lokal Anzeiger declared that the mood must now relax, that Germany might not so long, but for her own protection, and added: "The chancellor expressed clearly the desires of Germany, peace, now as before the war." He notifies the world that Germany is willing for peace—the sooner the better it brings what we absolutely want."

One of the results of the Turkish alliance with Germany is that a beginning has been made by the Turks in the education of the features of the German educational system. Dispatches from Constantinople tell of the erection there of continuation of the German model, with a curriculum which includes, among other studies, bookkeeping, arithmetic, geography, commercial science, and the like. The Constantinople Association of Manufacturers and Dealers has published a notice calling attention to the new schools and urging the masters of various trades to see that their apprentices attend regularly. The school has made Germany an obligatory school for the Turks. The "Weltliche" study. The newspaper Tanin, in an article concerning the continuation of schools, pays high praise to the German system. It points out that the Germans, so far from slackening their educational work during the war, not only maintain it fully, but have also maintained schools in enemy countries, using military men as instructors.

A sensation has been caused by the arrest of a number of young Swiss post office employees from the French-speaking cantons. These officials are accused of stealing and destroying many money orders, packages and letters addressed to German and Austrian soldiers, relief societies and private citizens of the central empire.

The federal council has authorized the imperial government to issue food cards similar to the bread cards to regulate the consumption of these articles. The ordinance making this provision, which has been effective January 1, also contains regulations under which it will be possible to reserve the cheaper butter and fats for the poor.

The sale of imported pork, which the government has authorized at higher prices than the maximum for inland pork, is finding ready disposal at 60 cents a pound. Butcher shops handling the imported meat are crowded with customers.

Vigorous and unrestrained discussion of the problem of food regulation continues in the budget committee of the Reichstag. Reports of the debate appearing in the newspapers indicate that one aspect of the discussion consisted in the attempt to lay the blame of various alleged failings on the shoulders of producers, dealers or consumers, or representatives of the various countries. But the minister of the Interior, Clemens Delbrueck, and the Prussian minister of agriculture, Baron von Schorlemer, have come under fire.

Three Hundred Million Bushel Crop in 1915

Farmer pay for their land with one year's crop and properly was never so great.

Regarding Western Canada as a grain producer, a prominent business man says: "Canada's position today is sounder than ever. There is more wheat, more oats, more grain for feed, 20% more cattle than last year and more hogs. The war market in Europe needs our surplus. As for the wheat crop, it is marvellous and a monumental strength for business confidence to build upon, exceeding the most optimistic predictions."

Wheat averaged in 1915 over 25 bushels per acre
Oats averaged in 1915 over 45 bushels per acre
Barley averaged in 1915 over 40 bushels per acre

Prices are high, markets convenient, excellent land, low in price either improved or otherwise, ranging from \$12 to \$30 per acre. Free homestead lands are plentiful and not far from railway lines and convenient to good schools and churches. The Canadian Government Agents.

There is no war tax on land, and there are no conscriptions. For complete information as to best locations for settlement, reduced railroad fares and descriptive illustrated pamphlet, address Superintendant Immigration, Ottawa, or C. A. Bragdon, Room 412, 112 W. Adams St., Chicago, Ill., M. F. McEachern, 1780 Avenue A, Port, Mich. Canadian Government Agents

SEVEN METHODS OF SAVING

Some Good Uses for Utilization of

Leftovers Which Will Interest

the Housekeeper.

1. Save badly cut pieces of bread

and slices left over from the table for

a bread pudding or a Brown Betty.

Save every scrap and crust to crumb

up for soufflés or to use for bread-

ing, croquettes, etc.

2. Remove the shew from the legs

of a fowl when it is drawn and feed

the meat of the leg will be as good as that

of the whole joint.

3. Cold rice should always be saved;

it can be added to a soup, mashed into

croquettes, mixed with eggs and fried

like hash or used in a scallop dish.

4. Leftover vegetables, when the

amount is too small to be served

again, may be mixed with gravy for

a ragout of meat separately or togeth-

er for a salad. Cauliflower, potatoes

and cabbage are good broiled in small

pieces covered with grated cheese and

baked in a hot oven.

5. Small portions of leftover cereals

may be added to the pancake batter

and will greatly improve the cakes.

Or they may be rolled into balls and

fried, or added to the soup stock.

6. The tough ends of steak may be

chopped very fine, seasoned well with

pepper, salt, butter and a little onion

juice and formed into balls or cakes

for sautés or broiled for luncheon.

Scraps of white meat may be chopped

up, mixed with onion, tomato and

garlic and served with parsley and hard-

boiled eggs. The carcasses of fowl and

the bones of roasts should be used to

make a nourishing soup. Beef fat

and dripping and the fat from moul-

try should be clarified and kept for

frying. Wings and legs of fowls that

are left over are good grilled for

luncheon.

7. Sour milk may be used for corn

bread, griddle cakes, ginger bread and

biscuits. It may be made into cream

cheese or turned into a refreshing

drink by adding it to water and

stirring well. It may be used for

about five minutes with an egg beater.

CANDIES TO FOLLOW FEAST

Confections That Are Sure to Please

If Care Is Taken in Cooking

and Mixing.

(By MARY ELLEN FERTMAN.)

First there are some hints that it will

be well to observe. If you hope for good

fortune in candy-making: Granulated

sugar is preferable, and always use

unless some other kind is specified.

Candy should not be stirred while

boiling. Cream of tartar should not be

added until the sugar begins to boil

and butter should be put in when the

candy is nearly done. Flavors are

most delicate when not boiled with

the candy, but added when it is taken

from the fire, or when it is being

pulled.

Butter, Taffy.—Boil three cups of

brown sugar, one cup of molasses, one

cup of vinegar and one-fourth cup of

vinegar and hot water. When the

candy will crisp in cold water add two

teaspoons of butter, cook three

minutes, flavor with a teaspoonful of

vanilla and cool in buttered pans.

Hickory Nut Candy.—Boil two cups

of sugar, one cup of water, one cup

of molasses and one-half cup of

water without stirring until the syrup

will "spin a thread" when poured from

the spoon. Flavor with extract of

hickory nut, set off into cold water.

You can make chocolate caramels by

dipping the cream into melted

chocolate. Wintergreen, lemon, or

orange and other flavors may be used

for these candies are all easily made

and you will find it a pleasant pastime

to prepare at home the candies for the

Thanksgiving feast.

Potatoes in Half-Shell.

To each baked potato take one

tablespoonful milk of cream and one

half (tablespoonful) butter. Salt to

taste. Cut potatoes in two, length-

wise, and remove inner portion. Add

butter, salt, and the shell. Bake until

done. The shell is the shell. Bake until

done. The shell is the shell. Bake until

TOP DRESSING PAYS

IN GREATER YIELDS

Professor Bell Points Out Re-

sults Obtained Through Efforts

to Increase Quantity

Per Acre With Wheat.

Profit in Spring Treatment

Tiny Wheat Plants Require Liberal

Supply of Readily Available Plant-

food for Vigorous Growth—Assists

in Withstanding Insects and Plant

Diseases.

(By Prof. Henry G. Bell, Agronomist

Soil Improvement Committee of the

National Fertilizer Association.)

What is a high-priced crop and

why bushel counts. After your wheat

is planted you can't increase your

acreage. And anyway it's more profit-

able to increase your per acre yield 15

to 50 per cent than to make a propo-

sition to increase in your acreage. Add-

ing six to ten bushels per acre to your

yield this season will make the crop

a more profitable one. Wheat is a

crop on which the expenditure of a

little more money than usual will pay

itself.

Every season hundreds of wheat

fields are planted on poor seed beds.

Extreme late plantings, poor seed and

the ravages of insects are responsible

for many light yields. Thousands of

acres do not receive a sufficient

amount of plant food to produce even

an average yield. Many fields come

through the winter weak and thin.

Others will look strong and vigorous.

No matter how good the prospect, you

want a better one; you want more

bushels per acre than you ever raised

on your farm. Immediate action on

your part, as outlined in this article,

will help make more bushels per acre

and put more money in your pocket.

Roll the wheat as soon as it will

bear a team this spring. Follow this

rolling immediately with a light har-

rowing. If you have a heavy harrow

justable tooth, throw the tooth back

at an angle of 45 degrees and harrow

the field, going back and forth, parallel

with the wheat rows. This harrow-

ing will break up the crust and make a

surface mulch. This surface mulch

will prevent much evaporation and

save thousands of barrels of water.

Plant Food Makes Crops.

The tiny wheat plant must have

special nourishment. It must have a lib-

eral supply of readily available plant-

food of the right kind to maintain it in

vigorous growth. This vigorous growth,

which is the direct result of the addi-

tion of available plant food, frequently

enables the crop to withstand the rav-

ages of both insects and plant diseases

which so often cut down wheat yields.

Big crops demand enormous quantities

of plant food. The biggest help you

can give your wheat crop is to apply a

top dressing of 100 to 200 pounds per

acre of fertilizer, analyzing 3 to 4 per

cent ammonia, 8 to 12 per cent avail-

able phosphoric acid, and 2 to 3 per

cent potash.

YIELD AND VALUE OF LAND

Table Shows Relation and Size of

Crop Necessary to Pay Interest.

How many bushels of corn must you

raise on your land in order to pay six

per cent on the money you have in-

vested? To show the relationship be-

tween land values and necessary crop

yields of corn, Prof. Henry G. Bell, formerly

professor of agronomy and manager of

farm, University of Illinois, who is now

Agronomist for the Soil Improve-

ment Committee of the National Fer-

tilizer Association, has prepared a

table showing how many bushels of

corn must be raised per acre in order

to pay interest on the land.

Taking 15 per cent as the average

production cost of an acre of corn, and

figuring the yield at the nominal price

of 50 cents per bushel, Professor Bell's

table shows that 30 bushels per acre

are necessary in order to make the

land pay for itself at interest on 50 per

cent land. (A yield of 40 bushels per

acre is necessary on 60 per cent land,

and 50 bushels on 75 per cent land.)

Without Which—Nothing Doing.

A rich soil is the first essential to

good farming. Too often we forget that

and try to skip along hoping to make

crops grow without any plant food to

do it for. If plants are to grow they

must feed, just as animals feed. If we

could only see the plants' mouths in

the rows among the soil particles we

would better understand the crying

need of soil fertility and we would be

more prompt always to have it sup-

plied. Now is the time to plan for

making the soil of every field a rich

Not how cheap, but how good

ITEMS OF INTEREST TO LOCAL PEOPLE

Happenings of the Week-Told in Short Paragraphs—What's Doing in and Near Our Hurdling Village.

The Portis club girls are planning to watch night party for December 31.

W. C. Meyer of Elmhurst street will serve for two weeks, commencing Monday, on jury at the Municipal court of Cook county in Chicago.

Foster Welge went on duty as the village watchman Tuesday night after month's leave of absence, during which time Fred Jahnholtz guarded the town.

Edward Rokenock came Tuesday to live at the home of his brother, William Rokenock, Elia and Franklin streets. He will enter the Barrington school.

The late Mrs. Sophia Moon of Dundee, who was buried recently at Barrington Center, willed \$2,000 to the permanent fund for retired Methodist ministers.

The annual meeting of the Norge Ski club of Chicago will occur at the north end of Cary on January 23. Jumpers are out there frequently getting in practice work.

A group of young men have bought a victrola and will use it to play dances at a series of private dances to be given in the village hall on Saturday evenings.

Mrs. A. W. Meyer fell on the icy steps of her rear porch Saturday noon and was considerably shocked by the fall, although no breaks nor severe bruises resulted.

Evangelist C. R. Howdeshell, pastor of the First Baptist church, will preach for Rev. George H. Lockhart next Sunday at 10:30. Hear him! A cordial welcome to all.

A congregation which crowded the church were interested in the sermon preached Sunday evening at St. Paul's Evangelical by a Chicago pastor, and Rev. L. Kurz of Palatine.

On Tuesday afternoon, January 3, the election of officers of the Baptist church society will be held at 4 o'clock at the home of Mrs. P. T. Seaverns. A full attendance is desired.

Miss Martha Wendt of Cuba township slipped on ice on the steps of the farmhouse Friday and hurt her left hand. The thumb is bruised quite badly and is painful. Fred Wendt is sick in bed.

Blacklayers, behind their work on the Leonard building today and the carpenters have the roof boards on ready for the asbestos shingles. The photo glass will be set next week and building enclosed before January 1.

Mrs. Herman Garblach, while leaving the Tasko home on Saturday evening, slipped on the porch steps which were ice-coated and fell, cutting a gash near the right temple. It was necessary to have the opening sewed up by a physician.

A partial trial of the mechanic's lien suit of Herman Garblach vs. Mr. Mrs. D. M. Stewart of Cuba township was held in Chicago Tuesday before Master-in-Chancery Paul MacQuinn of Libertyville. Quite a number of witnesses from here testified.

L. L. Crosswhite, proof reader on the Chicago Daily News, is again at the home of Mrs. Nellie Robertson for a rest from business. He had been here a month and then worked only two weeks when he had a relapse and is obliged to stop active work for the present.

Barrington friends of Herbert Blaney, the handsome newspaperman who directed the planting in the depot park, received announcements last Saturday of his having opened an office in Bloomington for the practice of landscape architecture and city planning. He is not associated now with the State university.

Relatives to the number of thirty-eight surprised Frank J. Gleason with a party Friday evening at his home in honor of his fifteenth birthday. The celebration was suggested by his father, Henry Gleason, and all present were children, sons and daughters-in-law and grandchildren of Mr. and Mrs. Henry Gleason. A gift of money was given to the host. Dr. and Mrs. Elmer Gleason of Wheeling came for the party.

The Royal neighbors cleaned enough money on their public dance in the village hall Friday evening to make up for the deficit at their last dance and also to make a donation to the lodge's treasury. A very large crowd, too large for the small hall, danced until a late hour. The music committee regret that the orchestra of harp and violin, Whitney's of Chicago, were not so pleasing. Good music has always been provided for this society's dances and the one failure will have to be excused. The young people had a great deal of fun, nevertheless.

The Annual Meeting of the Elia Insurance Company

The annual meeting of the Elia Insurance company will be held in the Turner hall, Lake Zurich, on Tuesday, January 4, 1916, at 1 o'clock. Reports of the treasurer and secretary will be received. Three directors will be elected for the term of three years and one director for the term of two years.

F. J. Beckmann, Secretary.

PERSONAL ITEMS.

Paul Purcell has been in bed two days with a gripe.

Mr. and Mrs. Sanford Pook have been ill several days with heavy colds. Herman Wiseman of Palatine visited his aunt, Mrs. Hannah Wiseman, Sunday.

Rev. Father E. J. McCormick will dine with Crystal Lake friends on Christmas day.

Henry Ton Eyck White of Grove avenue has been sick in bed for several days this week.

Dr. J. Howard Furby will go Friday to Chicago to spend Christmas and Sunday with his parents.

Mark T. Babcock of Grove avenue was ill in bed last week with gripe but is improved in health this week.

Mr. and Mrs. August Miller of Convent street, who have been in Texas for two months, are expected home Friday.

Ebenezer Wilmer of Station street has been in bed a week with a stomach and liver affliction and is quite ill.

Mr. and Mrs. Maurice Schmidt of Chicago came today to visit Mr. Schmidt's parents, Mr. and Mrs. Frank Wooding.

Country Life Director Eugene Phillips and Mrs. Phillips leave Friday to spend Christmas and the holidays in Freeport.

Mrs. Walter N. Sears will entertain her mother, Mrs. Hamilton, from Sioux Falls, South Dakota, Christmas and the holidays.

Miss Katherine Otis will be the guest of her sister, Mrs. Wilbur Crawford of Waco, Texas, for Christmas and the holiday season.

Edwin Olcott, Jr., went to work again Monday in Chicago after an attack of pneumonia which kept him ill for a week.

Mrs. E. W. Olcott has been confined to her bed with a severe cold for about 10 days. Miss Olga Johnson of Cary has been caring for her.

Mrs. Elizabeth Kirby of Austin was in town Tuesday, particularly to see her new granddaughter, Miss Elizabeth Kirby of Lake street.

Mrs. Sarah Seem of South Hawley street, has been sick since Sunday with a gripe. Her son, George, son of Geneva Lake, came Wednesday evening to live here this winter.

Ralph Winagar was home Sunday from Woodstock where he is working at the Oliver factory with three other Barrington boys, George Hakeeb, Albert Solant and Herbert Banks.

Dr. and Mrs. John Williams left Wednesday for their children's home in Southland, Iowa, to visit relatives. Mrs. Williams will remain there several weeks and the Doctor will be gone about a week.

Mrs. George Johnson, who lived on the O'Neill farm in Cuba township, left yesterday with her children for Triumph, Minnesota, where Mr. Johnson went last Thursday. They will run Mrs. Nicholas Johnson's farm.

Ben Landwer returned Monday night from the Augustana hospital, Chicago, where he went Friday for a slight operation on his throat. His little daughter, Ruth, was also operated in the same way but returned home Sunday night.

Mrs. Emma Topf of Lima street, who has lived here with her daughter, Miss Frances Topf, for four years, leaves Friday for Fredonia, New York to remain indefinitely. Miss Topf will accompany her and return to Barrington about January 1.

Mrs. John Strueter of Saven's Point, Wisconsin, visited with her sister, Mrs. John Westral of Chicago street, last week. She was accompanied by a cousin, Mrs. Charles Hahnel of the same place, and the three ladies left here Saturday for Clinton to visit relatives.

Christmas Party This Afternoon

There is a Christmas party being held this afternoon by the Tilden club at the home of Mrs. Henry Ton Eyck White on Grove avenue. Mrs. White has decorated her home with Christmas regalia and a Christmas tree is filled with gifts, each member bringing one to put on the tree and receiving one therefrom. These presents are to be auctioned off with beans for money and the auction will be lively. Short Christmas stories told by members are in order and a dainty luncheon served at beautifully arranged tables. There are quite a number of guests today at the club.

Well Versed On "Subject" Colds Need Attention

Internal throat and chest troubles produce inflammation, irritation, swelling or soreness and unless checked at once, are likely to lead to serious trouble. Caught in time Dr. Bell's Pine-Tar-Honey loosens the phlegm and destroys the germs which have settled in the throat or nose. It is soothing and healing. Pine is antiseptic, honey is soothing—both together possess excellent medicinal qualities for fighting cold germs.

Dr. Bell's Pine-Tar-Honey. 25c. All Drugists.

Colonial

"When David Griffith completed 'The Birth of a Nation' he probably did not realize that he had on his hands a spectacle that would limit his scope of presentation. He saw only the dream of the master photographer come true. Up to that moment, the offering of it to the public had not bothered him. But after he had shown his brain baby to the National Board of Censorship and it had not been found worthy in any respect and after he had presented it in private at the White House, he began to study, out how best to show it to the public. 'The Birth of a Nation' was not an ordinary picture that could be shown advantage in any sort of house. It required music—a symphony orchestra, Griffith decided. It required great efforts and a big stage was necessary. It was a two-dollar spectacle and Griffith, the artist, decided that the people must have two dollars worth—even those who sat in other parts of house where the prices ranged down to a quarter, the spectators must realize that they are seeing the greatest film spectacle ever produced. That is why Griffith worked so hard on the presentation as well as the production. That is why it is possible to get the full value of the spectacle only when it is presented in such houses as the Liberty theatre in New York, the Tremont in Boston, the Olympic in St. Louis and the Colonial, the most beautiful theatre in America, in Chicago. While the 'Birth of a Nation' has been sent out on the road it has been found impossible to show it to advantage in the smaller theatres. That is why the spectacle is still crowding the Colonial theatre, Chicago after a run of more than six months.

Help Your Liver—It Pays

When your liver gets torpid and your stomach acts queer, take Dr. King's New Life Pills and you will find yourself feeling better. They purify the blood, give you freedom from constipation, biliousness, dizziness and indigestion. You feel fine—just like you want to feel. Clear the complexion too. 25c. at drugists.

THE BIG STORE, A. W. MEYER
BARRINGTON, ILLINOIS

Santa's Secret

"I've got out of bed, just a minute. To tell you—I'll whisper it to you—The stockings I've hung by the fire Are for me—not mamma, you know. For mine are so awfully little. Santa Claus, don't you see? And I don't get so many shoes either. They won't hold enough for me."

So I want you to remember And fill these as full as you can. Cause I haven't been very naughty, And you've been such a nice, kind man. I'd like a live doll, if you please, etc. That can talk and call me "mamma." Not one that is full of old sawdust, but all our other dolls are.

Short But Useful.

The Christmas tree does not live long, but its short life is a useful and beautiful one.

News of the Week Cut Down for Busy Readers

European War News

Fighting between detachments of Greek and Bulgarian troops is reported in a dispatch to Paris from Brindisi, Italy, to the Havas agency. Several Greek officers and soldiers were killed or wounded.

The British troops at the Suvla and Anzaco districts of Gallipoli peninsula have been withdrawn. The following official statement regarding this step was issued at London: "All the troops at Suvla and Anzaco, together with their guns and stores, have been successfully transferred, with insignificant casualties, to another sphere of operations."

"It is estimated in allied staff circles at Saloniki, that to date the Bulgarians have lost 120,000 men," an Athens dispatch to the London Evening Standard.

German railway officials have arrived at Constantinople to inspect the military railway being built from Damascus, supposedly for the Turkish German invasion of Egypt, says a Geneva dispatch.

It has been officially announced in Berlin that the small German cruiser Bremen and a torpedo boat accompanying her have been sunk by a submarine in the eastern Baltic sea. A considerable portion of the crews of both vessels were saved.

French aeroplanes dropped forty bombs on the railway station and adjacent buildings at Salonki, south of the German fortress of Metz. Considerable damage was done to property.

Italy has been defeated with a loss of 75,000 men killed and wounded in the fourth great battle at the Isonzo for the capture of Gorizia, according to an official Austro-Hungarian statement forwarded by Berlin.

Germany has threatened to expel the entire allies from Saloniki, according to the London Times Athens correspondent. Premier Skoufodis retorted that in no case would Greece allow Bulgarian troops to set foot on Greek soil.

Dr. Marquillos, leader of the Romanian conservative party, was reported in a dispatch by King Ferdinand at Bucharest and presented his party with a petition urging that Romania go to war on the side of Greece.

Domestic

In a qualified report the state-wide vice commission made public the results of its inquiry at Baltimore, Md. Investigators found institutions to which the mother of an illegitimate child may consign her offspring. Eighty to ninety per cent die and are buried in heaps in small plots of ground, one such plot approximately fifty feet square having been the tomb of 5,000 babies since 1885.

Two bandits were killed, another was probably mortally wounded and a detective suffered serious wounds in a gun fight between two detectives and the bandits at St. Paul, Minn.

The bodies of Jesse Seligman, treasurer of the Gloverville Lumber company, and Mrs. Seligman were found in their bedroom at Gloverville, N. Y. It is believed Seligman killed his wife and then himself.

The gasoline steamer Mahomet blew up and sank two miles off Cape Ann, Mass. Four of the crew were landed at Rockport, Mass., and ten are missing.

The Panama canal, which has been closed since September 15 last by the worst slide in its history, was opened again for the passage of vessels following less than twenty feet this week.

Five schoolboys and a man were killed and another boy was seriously injured in a collision of a Great Northern passenger train with a logging train carrying school children over a crossing during a fog at Berthold, N. D.

In an effort to bring about a reconciliation of the interstate commerce commission's ruling permitting railroads to increase their interstate passenger rates, a meeting of the utilities commissions of eight states affected has been called at Omaha.

Edward A. Brera of Chicago, commander for the Illinois naval reserve, bought for \$45,000 what was left of the ill-fated steamer Eastland, on which more than 800 persons were drowned on July 24, when it turned over at its pier.

Dr. E. W. Ritter, inventor of liquid fire, who was arrested for passing worthless checks and was believed to be implicated in various schemes in foreign countries in this country, was given an indefinite sentence in the Ohio penitentiary.

The Tama building, the largest office building in Burlington, Ia., was destroyed by fire. The loss is heavy.

Seven persons were killed and ten injured when a street car went through the Division street bridge over the Spokane river at Spokane, Wash.

A tornado that swept through Lauderdale and Kemper counties, Mississippi, destroyed the town of Cullum, killed at least 15 persons and injured 50.

L. Ert Black was agreed on by Senators Kern and Shively at Washington for United States district attorney at Indianapolis to succeed Frank A. Delley, resigned.

Charles Moore, cashier of the savings bank at Farmington, Ia., has disappeared. Moore left behind his wife and seven children. Search is being made for him by the police.

Foreign

Henry Ford received information at Constantinople that he would be prohibited from holding meetings in Copenhagen, it was learned. He will go there within a week, however, to see the delegates to accompany his peace party at the Hague.

A Central News correspondent at Athens says the German and Austrian consuls have left Saloniki for Monastir with their staffs and archives.

In making a flight instructor Jorvan of the aviation school at Outeiro City, Guatemala, fell with his machine and was injured, probably mortally. He is an American.

It was officially announced at London by the private secretary to Earl Kitchener, British secretary of war, that the report of the engagement of Earl Kitchener to the dowager countess of Minto was untrue.

Personal

Former President William Howard Taft arrived in Los Angeles, Cal., and was taken to the home of George W. Burton, where he was put to bed immediately. Later his condition improved.

Major General von Stockhausen of the German army has been killed in action, according to a dispatch to London from Amsterdam to the Central News agency.

Sporting

Ad Wolfson, former lightweight boxing champion, was suspended for six months by the New York athletic commission for violating a contract with the Harmon Sporting club of New York.

Peace in baseball has been established. The final decision was reached in the conference held in New York between the Federal league committee and the national commission.

Announcement was made at New York that the next Vanderbilt Cup race will be run at the Sheepshead Bay speedway on May 13 next. It is understood that the race will be 500 miles or slightly over that distance.

Mexican Revolt

The city of Juarez, Villa's only source of revenue and supplies, is now a Carranzista possession. The Villa garrison evacuated upon instruction from the Villa council of war at Chihuahua. Carranza's agreement papers were signed at El Paso where the Villa faction concludes peace terms with the de facto government.

Gen. Francisco Villa has resigned his place as leader of the Mexican revolution and has left Chihuahua City to find refuge in the United States. It is understood that Mrs. Villa will not tie down at El Paso, Tex. If Villa is permitted to enter the country. There will be no more fighting.

Washington

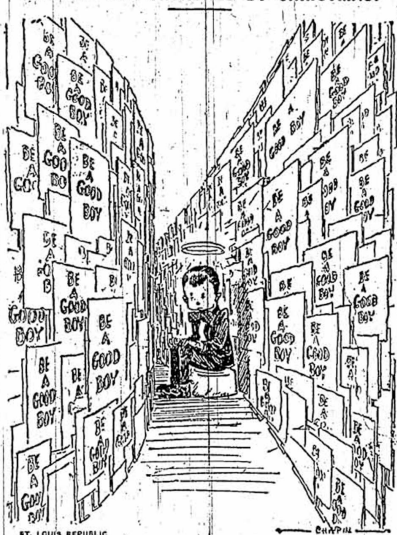

Information obtained by the federal authorities at Washington from witnesses appearing before the grand jury which is investigating the alleged plot of Paul Koenig of the Hamburg-American line, to blow up the Welland canal, has widely extended the scope of the inquiry.

Woodrow Wilson, president of the United States, and his wife, Edith, and widow of Norman Galt of Washington, were married at the home of Mrs. Galt in Washington. Rev. Herbert Scott Smith an Episcopalian, was the officiating clergyman. The wedding ceremony was witnessed only by the closest relatives of the president and of his bride. Wilson's son-in-law, who was his best man, is Dr. Spitzer, Va.

American horse and mule breeders are waiting for the profits by huge sales of animals to the warring nations of Europe. Government estimates from Washington show that between January 1 and November 1 horses valued at \$33,512,184 and mules worth \$20,570,764 were shipped abroad.

Ad Wolgast is suspended. New York, Dec. 32.—Ad Wolgast, former lightweight boxing champion, was suspended for six months by the New York athletic commission for violating a contract with the Harmon Sporting club of this city.

OUT OF THE TRENCHES BY CHRISTMAS!

WAR TAX BILL PASSES CHICAGO STRIKE ENDED

MEASURE ADOPTED BY SENATE BY VOTE OF 45 TO 25.

Flight Made on Provision by Senator Smoot and Other Republicans Leaders.

Washington, Dec. 20.—The administration's first revenue bill, extending the emergency war tax for one year, was passed by the senate on Friday by a vote of 45 to 25. The measure was signed by the president.

Mr. Smoot of Utah, a Republican member of the senate finance committee, moved to limit the time extension of the war tax to June 30, 1916. This amendment was rejected 25 to 40, by a party vote, except that five Republicans—Mr. Clapp of Minnesota, Mr. Curtis of Kansas, Mr. Harding of Ohio, Mr. Jones of Washington and Mr. Kenyon of Iowa refused to seem to support even that extension and voted against it.

Mr. Underwood's maiden speech was a great personal triumph. He has not been assigned to the finance committee, which has particular jurisdiction over all fiscal matters, but his experience in the house has made him the recognized Democratic authority on finance.

Mr. Underwood by three quiet questions induced Senator Prentiss to admit that the Republicans did not want protection to exclude foreign competition; that foreign imports under the Democratic tariff had not therefore injured the industries of the country and that the country with the Underwood act still in force was now highly prosperous.

NEW POSTMASTERS NAMED

Senate Gets President's Nominations for Many Towns in the Middle West.

Washington, Dec. 18.—The president on Thursday sent the following nominations of postmasters to the senate: Michigan—John O. Meira, Escanaba; Illinois—May N. Pearl, Centralia; Texas—J. H. Hoggins, Waco; O. H. Johnson, Bowie; James H. Spiker, Rushell; John F. Bushmeyer, Colchester; George H. Hart, Nauvoo; H. Bruce Schreyer, New Windsor; Robert Sherrard, Oak Park; Louis W. Richter, Melrose Park.

Indiana—John C. Ring, Frankfort; Edward S. Edgar, Winchester; William H. Johnston, Crawfordsville; Joseph T. Stahl, Kendallville; William T. Newton, Rosedale; Ralph W. Hill, Oxford; Charles V. McE. Batesville; Frank W. Boren, Owensville.

CHEYENNE THEATER BURNS

Fire for Time-Threatens Destruction of Hotel and Bank Building—Two Persons Injured.

Cheyenne, Wyo., Dec. 20.—Fire, which started in the business district, destroyed the opera house and for a time threatened the First National bank building and the Platte hotel. Two persons were injured by falling brick and flying glass.

Katler to Visit Brussels. Rome, Dec. 22.—It is semi-officially confirmed that Emperor William planned to be at Brussels Monday, which dispenses of the report that the emperor was to meet the Sultan at Adrianople in the afternoon.

Ad Wolgast is suspended. New York, Dec. 32.—Ad Wolgast, former lightweight boxing champion, was suspended for six months by the New York athletic commission for violating a contract with the Harmon Sporting club of this city.

TROUBLE ON BELT LINE SETTLED BY ARBITRATION.

Men Return to Work When U. S. Mediation Agent Brings About an Understanding.

Chicago, Dec. 18.—The strike on the Belt Line Railway company, which practically paralyzed transshipment of freight for the last few days, was ended early Friday morning.

After an interchange of negotiations between officials of the road and the strikers' committee, which lasted into the early morning hours, G. W. W. Hanger, assistant United States commissioner of mediation and conciliation, who acted as arbitrator, announced that an agreement had been reached and the men would proceed to work immediately.

The following statement was made by G. C. Austin, counsel for the Belt Line railroad, and contains the terms of settlement: "The original demands of the employees that hourly service of trains each day be established between Seventy-fifth and Halsted streets and the Clearing yards. The officials of the road have always been willing and ready to establish a limited service morning and evening for the reasonable time as was necessary for the men to adapt themselves to the change of the terminal from Eighty-third street and Vincennes road to Clearing."

"Through the services of United States Commissioner of Mediation and Conciliation, G. W. W. Hanger, an agreement has been made and the employees whereby they have accepted to the wishes of the railroad company, abandoning their demands for hourly service during each twenty-four hours and accepted the service train for the limited train service proffered by the company."

FIFTEEN DIE IN TORNAO

Many Killed and Injured at Cullum, Miss.—Twister Causes Heavy Damage to Property.

Meridian, Miss., Dec. 20.—A tornado that swept through Lauderdale and Kemper counties on Friday destroyed the town of Cullum, killed at least 15 persons and injured 50. In Meridian, three persons were killed and many injured. Five houses were blown down at Duff, 12 miles north, but no persons were injured.

Several buildings and a section of the Bailey forest at Bailey were destroyed, as were also numerous buildings at Gilen.

MOUNT ETNA AGAIN IS ACTIVE

Red-Hot Lava, Melting Snow on Mountain Gull, Produce Wonderful Effect at Night.

Catania, Sicily, Dec. 20.—Mount Etna is considerably active and is emitting red-hot lava, which, streaming along the sides of the mountain and melting the snow, produces a wonderful effect, especially at night, when the cinders and smoke form an umbrella-shaped cloud above the volcano.

Big Building Burns

Barrington, Ill., Dec. 22.—The Tama building, the largest office building in the city, was destroyed by fire on Monday. The loss is heavy. Several persons were rescued from the building by firemen.

Mrs. Farwell a Prisoner. Barrington, Dec. 22.—Mrs. Walter Farwell, Chicago, who was in Monastir during newspaper work, and Doctor Forbes of the Red Cross, have been taken into custody by Bulgarian officers.

KILL TWO AMERICANS

VILLIAGAS IN JUAREZ, MEX.; ATTACK STREET CAR FROM EL PASO.

MOB AND ROB PASSENGERS

Coach Escapes Back Across Border—Troops Finally Restore Order—Furnace Increases Guard on Line—Villa Fails to Appear in the United States.

El Paso, Tex., Dec. 23.—Two Americans and eight Mexicans were killed as a result of severe rioting at Juarez on Tuesday. One American was killed in El Paso by bullets of Mexican soldiers, which came from the Juarez side of the river. He was George A. Dipert, a brakeman, and was shot while on a freight train.

The rioting at Juarez began about noon. A street car which entered the town at the international bridge was stoned by a mob and the passengers, including a number of Americans, were robbed.

The mob and passengers fought off the Mexicans and the car escaped back to El Paso. A crowd of Mexicans gathered at the bridge, seeking passage to American soil. Several Juarez forces were closed. Some were robbed. Quiet was restored when General Bando, one of those who signed the agreement with the U. S. government to turn over the Villa organization, fled to the American side and the Carranza consul phoned that he would send over 100,000 pesos to pay the soldiers.

Shortly after General Bando had returned order shooting was heard again in Juarez and reports reached here that intoxicated soldiers on horseback were rioting in the streets. General Ochoa cleared the streets of drunken soldiers and placed trusty officers in charge of rifles and ammunition. Ochoa promised to sign the agreement to turn over the garrison to Carranza. According to last advice, Villa left Juarez City with 400 followers. Officials here expressed the belief that he was on route to the coast to cross into the United States.

ASQUITH ASKS MILLION MEN

Premier Says Government Aims to Get Every Man of Military Age Into Service.

London, Dec. 23.—Premier Asquith in the house of commons on Tuesday asked for 1,000,000 more men for the British army. This would bring the total number of British in the field up to 2,250,000. The demand was in the form of a motion for the passage of the government's bill calling 1,000,000 men to the colors immediately.

In making the motion the premier declared that the government aims to get every man of military age, who is physically qualified to serve in the field. "The wastage of men is enormous," declared Premier Asquith. At present, he said, are approximately 2,250,000 men in training and on the volunteer lists waiting to be called into service.

RUSS TAKE BULGAR PORT?

Czare's Fleet Reported to Have Landed Troops at Varna After First Raid Town in Ruins.

London, Dec. 23.—The Daily Chronicle reports the capture of Varna, Bulgaria's chief Black sea port, by the Russians. It says the bombardment silenced the Bulgarian guns and laid the town in ruins, the garrison suffering heavily.

The Russians then, according to the report, landed infantry and artillery without loss and in sufficient force to hold the town against Bulgarian attack.

HOUSE ON PEACE ERRAND?

President's Personal Friend Expected to Sound Sentiment on Peace Overtures.

Washington, Dec. 23.—The report was current here on Tuesday that Col. E. M. House of New York city, the president's close friend and adviser, is going to Europe again to sound the sentiment on peace overtures. The report was denied at the White House by Secretary Tumulty, but despite this some credence was placed in it.

SARAH BERNHART IS DYING

Statement of Serious Illness of Noted Actress in a Vet. Confirmed.

Paris, Dec. 23.—Sarah Bernhart is reported to be dying. The information received here on Tuesday to this effect has not been confirmed.

To Fence Off Holland.

Amsterdam, Dec. 23.—The newspaper Maasbode says that owing to the increasing number of war prisoners accepted over the German-Dutch frontier, the Germans intend to close the whole frontier with barbed wire.

Beer Chilled Do Wet, Fried. Cape Town, South Africa, Dec. 23.—General de Wet and 115 others last year were released, after they had signed a pledge not to take part in any anti-government agitation.

DO YOU NEED A KIDNEY REMEDY?

Dr. Kilmer's Swamp-Root is not recommended for everything, but if you have kidney, liver or bladder trouble, it will be found just the remedy you need. Swamp-Root makes friends of those who cause its mild and immediate effect to be even realized in most cases. It is a powerful healing agent, a physician's prescription which has proved its great curative value in thousands of the most distressing cases according to reliable testimony.

All druggists sell 50c and \$1.00 sizes. You may have a sample bottle of Swamp-Root, also pamphlet explaining its merits, by addressing Dr. Kilmer & Co., Binghamton, N. Y., and enclosing ten cents for postage this paper—Adv.

Lovers' Conversation.

With a lot left to the reader's imagination:
She—(Sighs).
He—(Sighs).
She—Do you love me?
He—Course I do.

HAVE YOUR SHIRTS IRONED "JUST RIGHT"

**COME TO OUR PLANT ANY DAY and
SEE THIS MACHINE IN OPERATION**

We aim to use in our plant only the most modern, "up-to-date" machinery. With this in view we have installed one of the celebrated Keystone Bojom Presses—the very last word in shirt ironing machinery. This press irons simply by bringing down under pressure a steam heated ironing surface on to the shirt which is spread out on a soft padded board—consequently there is no friction. Absence of friction means increased length of life for your shirt. By using steam heat there is no possibility of scorching the shirts.

IS TIRELESS GAME

**Hunting of Submarines Like
Playing Hide-and-Seek.**

Most of the Romance and Action of Sea Warfare is Now With the Submarines and the Destroyers.

By FREDERICK PALMER,
International News Service.

London.—Strangest looking of all the ships with the grand fleet is the Atlantic liner which has been transformed into a mother-ship for the submarines. There are platforms in place of the promenades where passengers used to lounge, bombs in place of deck chairs, and the dining salons have been fitted up as workshops. Everything that a seaplane needs in the way of repairs can be supplied.

A cruise that once had taken passengers' trunks out of the hold lifted a seaplane off a platform and deposited it on the water, where it bounced on the waves before the motor was started and it skimmed across the surface for a hundred yards or more, rose, circled around the fleet two or three times and then disappeared out at sea.

Most of the romance and the action of sea warfare while the British grand fleet waits for the German fleet to come out are with the seaplanes and the destroyers. The dreadnaughts remain in harbor, except for occasional cruises into the North sea, but the planes and the destroyers are always on the move. They work together in hunting "Priz" as British destroyers and men universally refer to submarines.

A submarine is visible to an aviator when it is cruising below the surface. It never travels deeper than thirty or forty feet and leaves a characteristic ripple and air bubbles and streaks of oil. When a plane has located a submarine it signals the hunters where to go. But before they arrive a signal may have hidden the track. A submarine may be known to be in a certain region and be lost and even then lost and seen again. Submarine hunting is a tireless game of hide-and-seek. Naval ingenuity has invented no end of methods of location and of destruction. Expenditure has proved some to be effective, and some useless. Strictest kept of naval secrets these.

Very thin is the skin of a submarine and very fragile and complicated its machinery. It does not take much of a shock to put it out of order or to charge cargo of explosives to dent the skin beyond repair.

"The difficulty is to know when you get them," an officer explained; "for it is in the nature of the submarine to sink, whether vitally injured or not. It may have gone to the bottom to stay in fifty fathoms of water, or it may have submerged under a choppy sea and made safe its escape. We have been hunting them for a year now, and no doubt we are getting the better of them. We have not only learned how to keep them off from our great ships, but how to destroy them."

If oil and bubbles come up for a long time in one place or if they come up with a rush, that is considered fairly good evidence of success. There is no escape for the crew. They cannot make the submarine rise or get out of it. It becomes a steel casket, in a watery grave. No nautical mind is required to realize that by casting about on the bottom with a grapple you will learn if an object with the bulk and size of a submarine is there, and the "death" of submarines is established in this way.

"The admiralty will not accept any guesswork about it," said an officer. "We may have put an explosive right into one or rammed it in a way that must have broken its back, but that is not proof enough. The record goes down on the chart as 'supposed destroyed.'"

With Admiral Crawford, the correspondent went to see the submarine defense of a harbor. Cruisers and destroyers and auxiliaries are going and coming, but the narrow openings through which they passed were closed instantly they were by.

At one naval base the correspondent saw a number of destroyers lying moored to a quay as close together as silt in a harbor. They had just come in from a tour at sea.

"Here today and gone tomorrow," said an officer. "What a time they had last winter! What a time they had last winter! You know how cold the North sea is—no, you cannot imagine you have been hit in the back by a heat dancing the tango in the teeth of that bitter wind, with the spray whipping up to the top of the smokestacks in the dead of night they would come into this pitch-dark harbor. How they found their way is past me. It's a trick of those young fellows who command."

If a destroyer gets on the track of a submarine it has thirty knots against the submarine's six or eight. There is no difficulty in keeping up her wireless brings swarms of assistance.

Every ship on the blockade from Iceland to the British channel is also a part of the system of submarine hunting. They show no lights; there are no lights along the coast at night.

"It gives one an idea of England's maritime resources," said an officer, "when you consider that we have 2,500 trawlers and other auxiliary ships on service."

The trawlers plod over plotted sea squares with the regularity of moving machine guns. A harvest on the coast was taken before the war, and are submarine still.

WAUCONDA.

James Galner was a Chicago visitor early in the week.

Mr. and Mrs. E. J. Meyer were Monday evening callers at R. C. Kraw's.

Mr. and Mrs. R. C. Hallock were in Chicago Monday, as was, also, Mrs. George W. Stroker.

Mrs. Harry Alverson is home from a season at the hospital, and is glad to be with her family again.

Mr. and Mrs. Crabtree, Mrs. Broad and Mrs. Peck and Clyde Peck were Libertyville visitors Thursday.

E. R. Neville and D. White of Grays Lake were here last week. Mr. Neville visiting his mother, Mrs. Neville.

Miss Francis Kent is reported among those who are not quite so well, people like to be during the holiday time.

A Christmas gift gathering at the Baptist church Tuesday to receive gifts for the La. Methodist Orphanage.

The basketball game at O'Connell Monday between Palau Wauconda resulted in a victory for the home team, the score being 10-8.

Mr. and Mrs. Louis Kollege again after a western trip, the Panama-Pacific exposition, also the California Avenue show. They report a very pleasant trip.

It is reported that Miss Mary Glynn, formerly of Wauconda, is in a very precarious state of health and that there is not much encouragement for the future. She has many friends here, as well as in Minneapolis, where she has lived more than ten years, who sympathize with her and her niece who are in charge of her home.

The entertainment advertised for Monday evening failed to materialize owing to the fact that the trunks belonging to the troupe did not arrive in Palau to connect with the last train out of the Wauconda line. This, "The Original Strippers' Quartet," is the best number of the series and will be here on Thursday evening next, the thirteenth of December, when, it is hoped, a full house may greet them.
