LOWDEN AND PARTY HERE LAST SATURDAY

Colonel Did Not Speak Account of
Voice: Other Candidates Made
Ten Minutes' Speech

The republican state candidate special train was greeted here Saturday by a good crowd of enthusiastic supporters, including many from near-by places. The train consisted of sleeping cars, dining car and a flat car, the latter being fitted up for the

FRANK O. LOWDEN.

speakers' stand. A real live baby elephant and all sorts of decorations of a national design adorned the flat car.

Arriving on schedule time the special was transferred from the E. & A. E. railway to the C. & N. W. railway and placed in front of the station. M. T. Lacey introduced to the people Louis L. Emmerson, candidate for secretary of state, who in turn made known the following speakers: John G. Oglesby, candidate for lieutenant governor; Andrew Russell, candidate for state auditor; and Medill McCormick, candidate for congressman at large.

There were speeches for nearly ten minutes. They told of the extravagances of the democratic state administration and took the present government to task for his many broken promises made in his campaign four years ago. Added applause greeted each speaker and Col. Frank O. Lowden was given a vigorous cheer when he appeared and greeted the people. Col. Lowden did not speak, owing to a severe cold and to the fact that his voice needed a rest, as he has been busily engaged for the past three weeks. He has many friends in Barrington and the same is true of his traveling companions. The party went from here to Crystal Lake. It is pretty generally conceded that Col. Lowden and his associates on the republican state ticket will be elected in November.

In the recent hot, primary fight Lowden, as candidate for governor, had the honor to receive one of the biggest majorities ever given a candidate in so hotly contested a battle. Western Lake county went nearly solid for Lowden. Thus he is our candidate in more than one way and as such is deserving of support.

Another Mild Winter Predicted

Christian Spach of Milwaukee and D. A. Grover of Kansas City, two well known weather forecasters, predict that we will have a short winter—the weather being milder than that of last year. Mr. Grover says this country will experience only about six weeks of real winter weather, which will be between the middle of December and January 24, 1917. From September 24 to October 5 and the last ten days of October there will be more rain and cold weather than usual. November will be an ideal October month. From January 24 to April 24 will be very much like the same period last year. The first snow of consequence, according to Mr. Spach will fall on December 13.

Democratic Mass Meeting

A democratic mass meeting will be held in Barrington Tuesday of next week. Congressman Buchanan of this district and other Chicago speakers, assisted by three local campaigners, will address the meeting. The time and place of the meeting will be announced later. Everybody invited.

Central Illinois experienced an unusual snow storm last Friday for this time of the year. In places the snow had drifted two feet deep.

WOMAN'S CLUB TENDER RECEPTION

To Teachers, Parents and School Board
—Charles W. Farr Was the
Speaker of the Evening

One of the interesting events of the school year occurred Thursday night when the Parents-Teachers' committee of the Woman's club tendered a reception to the teachers of the public school. To the chairman of the program committee of the club, Mrs. John Schwann, and to Mrs. W. N. Shaps, chairman of the Parents-Teachers' committee, great credit is due.

The high school assembly room and the class room adjoining had been tastefully decorated with autumn leaves, and when did autumn leaves ever appear more beautiful than now? As parents and teachers assembled young ladies from the eighth grade planned upon each a badge bearing that person's name, blue on the parents, red on the board of education and white on the teachers. Red, white and blue—the color combination that has stood for years to represent the best in the world in way of progress, that has been the hope of the people of every country. The closely knit union of school board, teacher and parent will mean and does mean all that is best for the schools (boys and girls of today—the nation tomorrow) and the community.

The music was furnished by Miss Jessie Horn on the violin and the Girls' Glee club of the eighth grade. This was the initial appearance of the girls. The audience was pleased with their work and hope to hear them many times in the future.

John D. Shoop, superintendent of Chicago schools, was to have been the speaker for the evening, but was unable to be present, and Charles W. Farr delivered the address.

The subject, "Newer Phases of Education," was of interest to all. It was in full sympathy with the tendency of the times, and not for one minute did the speaker lose sight of the fact that the aim of the school is the making of good citizens.

Some excerpts are: "The true meaning of practical education" makes learning a man's job; teaches to think in terms of action; gives strength through doing something worth while; makes hands citizens, physically, spiritually, morally, intellectually, economically; trains the head to think, plan, reason; heart to be kind, true, sympathetic; hands to be useful, helpful, skillful; health to resist disease; enjoy life; make efficient.

Some notices: "I will love my work"; "This day I will love my record"; "Do a little good every day at some cost to yourself."

As usual with Mr. Farr he closed by quoting from some poem, this time "The Value of a Smile." After the lecture an hour or more was spent visiting over the punch bowl or in its vicinity, for the very thoughtful chairman had seen to it that refreshments necessary for promoting good cheer and sociability had been provided. All went to their homes feeling that the evening had been well spent and wishing that they might have more of them.

Taken to Asylum at Elgin

John Gostoll, who was taken to Waukegan last week, so he tried to kill his sanity, is now in the asylum at Elgin, having been taken there by the sheriff. A jury headed by Supervisor Kirschner found Gostoll was mentally unbalanced and the court directed that he be sent away for treatment.

He held the delusion that the Lord had called upon him to offer up his own child as a sacrifice and he had made plans to carry out the order as he thought from the Almighty. His wife, who carried the little one in her arms, told the jury that her husband had told her that God had sent him a command that on October 19 he should offer up their little child as a living sacrifice and proof of his allegiance to the Almighty. Mrs. Gostoll accordingly reported the case to Supervisor Kirschner and he reported it to the sheriff, who took steps to detain Gostoll, and he was placed on trial.

The evidence showed that the unfortunate man had made all plans to sacrifice his little child, and had not been taken to place him under restraint in all probability the baby would have been murdered.

Do Not Burn the Leaves

Don't burn the leaves. Just rake them up to a pile on the garden or flower beds and throw a little dirt on to keep them from blowing away. Next spring they will be rotted enough to mix with the ground and they make the finest kind of fertilizer. Or they may be used to cover tender plants and shrubs from the winter's frost and may be dug in next spring. They are nature's own blanket as well as fertilizer. Every dead leaf that is buried is a distinct loss.

Reasons Why Hughes Should Be Elected

BECAUSE he stands for Protection, Prosperity, Preparedness and Patriotism.

BECAUSE he will not permit partisanship to triumph over Patriotism. BECAUSE his speech of acceptance expresses his desire to co-operate with labor for its advantage, not to exploit it for his own.

BECAUSE he will command the respect of Europe and Asia and win the friendship of Latin-America.

BECAUSE he will never by proclamation deny the right of Americans to pursue their business in other lands under the protection of the American flag.

BECAUSE he will not repudiate the American flag in any land.

BECAUSE he will not put action into words, but words into action.

BECAUSE, as Theodore Roosevelt well says, he has high sentiments of justice and dignity, is upright and straightforward, is an incomparable master of judicial matters, and always translates his words into deeds.

BECAUSE he is a strong, sure, courageous man, with a clear-cut program before him and with the courage, intelligence and determination to carry it out and bring to our country self-respecting peace and world-wide respect.

BECAUSE as Governor of New York he has already proved that he dared to do the right thing, and is prepared to further do and dare when called into a wider field.

BECAUSE he is not a dreamer and not a quitter.

BECAUSE he is a firm friend of preparedness for the United States and not for preparedness through political expediency.

BECAUSE he will not burden us with war taxes in time of peace.

BECAUSE we need a tariff not founded upon free trade, nor for "revenue only" but to protect American labor and American industry from the deadly competition of the foreigner.

BECAUSE he is a established American. His policy will be "America first, America efficient."

BECAUSE he can be depended upon to keep platform pledges.

BECAUSE he will protect this country against being flooded with the cheap manufactures of Europe after the war.

BECAUSE he is the chosen head of a party which has long fathered all great constructive legislation which experience has proved to be wise and which has invariably been opposed by the Democratic party.

BECAUSE a business man is going to be especially needed in the next few years. In consequence of the European war a tremendous readjustment of the world's business is ahead. The United States must be economically prepared. It must not, as now, be left defenseless.

It must not have a President with an untrained business mind, ever changing. Mr. Hughes made a remarkable record as a business Governor of New York. He has extraordinary ability to see all sides of a question. Not from him, as from Wilson, will be heard any declaration that he will hang business men "high as Haman" if they do not agree with him.

BECAUSE he is a man of forward vision, of practicability and firmness, not a mere rhetorician and theorist.

BECAUSE he stands for the protection of American lives and property abroad as well as at home.

BECAUSE through him the whole nation will be in the Government. It will not be ruled by one section, nor by one man.

BECAUSE he is for an effective, not an unsound and sham system of rural credits to help the farmer and for a wise conservation of natural resources.

BECAUSE he is for a Federal workmen's compensation law suitable for the employes of the Government, and for those employes engaged in interstate commerce and subject to the hazard of injury.

BECAUSE he favors investigating before legislating.

SENATOR OLSON SUCCEUMS FRIDAY

Was a Prominent Man in Republican Politics and Mayor of Woodstock at Time of His Death

Senator Albert J. Olson of Woodstock, one of the leaders of the state senate and conspicuous in Republican state and local politics for many years, died Friday at Augustana hospital, Chicago. He was 51 years old.

He was born in Elgin in 1865. Moving to Chicago when a young man, he became active in politics and was elected to the Chicago city council in 1898, serving two terms from the old Twenty-third ward, the territory now comprising the Twenty-second ward on the north side. He moved to Woodstock in 1900 and entered extensively into the dairyling industry. As head of the wholesale milk firm of A. J. Olson & Company he occupied an important post in the dairyling business. He was serving his second term as mayor of Woodstock.

He served as a member of the Illinois house of representatives in the Thirty-ninth and fortieth general assemblies. He was elected to the state senate from the Lake-McHenry-Bellevue district in 1908 and was re-elected in 1912. He had been renominated in the recent primaries, his death leaving a vacancy on the Republican ticket. In the senate he was a forceful member and recognized as one of the Republican leaders. In the last session he was chairman of the committee on life stock and dairyling. He is survived by his widow.

The funeral was held at Woodstock Monday morning at 10 o'clock. Interment was in Roselawn, Chicago.

Voters who failed to have their names placed on the registration books last Tuesday will have another chance on next Tuesday, October 31. The judges will be in session from 9 a. m. to 4 p. m. at Village hall for the Town of Barrington voters and at Leonard's garage for the Town of Cuba. Failure to enroll on the books at that time will necessitate the awaiting to each voter not registered on election day, November 7. DO NOT FORGET THIS.

Women of Illinois may vote for presidential electors on November 7.

SWIFT NAMED FOR STATE SENATOR

Senatorial Committee of Eighth District Chose Lake County Man as the Republican Nominee

Rodney B. Swift of Libertyville, Lake county, was on Tuesday elected as the man whose name shall be placed on the republican ballot at the November election in place of the late Senator Olson, as the republican nominee for the state senate from this, the Eighth, senatorial district.

During the recent primary Mr. Swift was opposed to Senator Olson, whose death last week in the Augustana hospital, Chicago, shocked the people of the entire district. Mr. Swift was given the place on the ticket because of the virile campaign he made

R. B. SWIFT

in the primaries and because of the large vote he polled at that time. Lake county has been a unit for Swift as the successor to Olson. Swift made his primary campaign on the issue of "anti-extravagance in the senate and as representative of the farmers' interests."

Mr. Swift in person thanked the committeemen for their selection and assured them he would endeavor to administer the office in a manner satisfactory to everyone and with credit to the district.

New Club Organized

A new organization called the Barrington Club was launched this week and opened its club rooms Tuesday in the Lagrange building on Cook street. The acting president is P. A. Hawley, secretary Edward Volker, treasurer George A. Jencks. Thirty-five names have been entered as charter members.

The new club rooms will be fully equipped with furniture and in good running order by November 1. It will be managed and operated similar to the one at Dundee. Every member is given a key to the rooms and is entitled to open and go at any time he desires. The initiation and dues for the first month are \$3.00; after which the cost will be lower.

A committee composed of George Hager, Henry Dundas and George Hoch was selected to purchase furniture and Edward Volker and Out Fletcher have been named as the committee on refreshments.

Miss Fern Hutchinson Weds

Walter Meyer of Cary and Miss Fern Hutchinson of Waukegan were married at the home of the groom's parents in Crystal Lake last Thursday.

Miss Hutchinson will be remembered by many people in Barrington as a most trustworthy young lady. She left here about ten years ago and accepted the position as chief operator for the Waukegan telephone exchange, and a few years later took the position as assistant cashier of the Waukegan bank. She now goes to a school of her own at Cary, where she will take up her future residence.

Mr. Meyer is a druggist and is well known in these parts, being considered a most thorough business man.

R. N. C. Class Adoption

A class adoption was in order Tuesday evening at the Royal Neighbors meeting, the first initiation ceremonies since the Neighbors started a membership contest recently. Seven were taken into the lodge and fifty-five members were present. A lunch was served and the hall made attractive for the occasion with autumn leaves and berries, also American flags.

In January when the contest closes the lodge will bring the winning side. The county line divides the members into two divisions in the race for new members, the Lake county side has the most members but the Cook county workers are just as important. Eleven months ago the order of fifty-seven on its roll of names, today there are 109 registered.

To Trade Interned Captives. London, Oct. 23.—Baron Newton, under-secretary for foreign affairs, announced in the house of lords that the British and German governments had agreed to exchange all interned prisoners on the day of forty-five.

Sportsman Robbed of \$100,000. New York, Oct. 23.—A robbery by "chicoforo thieves" a jewelry valued at \$100,000 from the Rosin, L. L. home of Frank Gray Griswold, sportsman and race-horse owner, was reported to the police here on Tuesday.

WIFE TOO ILL TO WORK

IN BED MOST OF TIME

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana.—"My health was so poor and my constitution so run down that I could not work. I was thin, pale, weighed but 109 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and first of all I weighed 133 pounds. I do all the housework and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try it and be rectified."

"Mrs. Wm. Green, 322 S. Addison Street, Indianapolis, Indiana. There is hardly a neighborhood in this country where some woman has not found health by using this good old-fashioned root and herb remedy."

If there is anything about which you would like special advice, write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

The Wretchedness of Constipation

Can quickly be overcome by CARTER'S LITTLE LIVER PILLS.

"Purely vegetable—get sure and gently on the liver. Cure Bilelessness, Headache, Dizziness, Indigestion. They do their duty. SMALL PILLS, SMALL DOSE, SMALL PRICE. Genuine must bear Signature." *Wm. Wood*

They Minimize the Measles. In Japan the nursery is still protected from the horrors of measles and other infections by means of an inscription over the nursery door saying with exquisite urbanity "this child is not at home."

In the Wallace Collection, London, a most fascinating exhibition is on view, illustrative of "Japanese charms, talismans, votive offerings and objects of medical interest," among which these nursery notices occupy an important place. Alas, these notices are the charms embodied in toys.

A yellow tiger with a wagging head is now said to be a toy, but anciently it was a form of exorcism against pity and numbness of the limbs.

Raw Recruits.

Reiz Beach believes that the endurance of our militia on the Mexican border was strained too far.

"A prize fighter takes six weeks to get in shape," he said, recently. "What of the fellows who yesterday were at the desks, who have done less than one hundred hours of drill in the last year. England gave her men a year of hard work before sending them to the Flanders front. Do you think she would send them into the Sahara or Arabian desert with less?"

Real Estate Notes.

Knecker—Isn't your land rather wet? Suburban—It is swamped by its own effluence.

Sunny Dispositions

and good digestion go hand in hand, and one of the biggest aids to good digestion is a regular dish of

Grape-Nuts

This wonderfully delicious wheat and barley food is so processed that it yields its nourishing goodness to the system in about one hour—a record for ease of digestion.

Take it all round. Grape-Nuts contribute beautifully to sturdiness of body and a radiant, happy personality.

Every table should have its daily ration of Grape-Nuts.

OLD OCTOBER

Old October's port nigh gone,
And the frost is coming on.
Little heavier every day,
Like our hearts is that way!
Leaves is changing overhead,
Back from green to gray and red,
Brown and yellow, with their stems
Looming on the oak and elm.
And the balance of the trees
Gutlin' balder every breeze—
Like the heads we're scratching on,
Old October's port nigh gone.

I love old October so,
I can't bear to see her go;
Seems to me like I'm losing
Old home relative, or chum,
Pears like some of 'sittin' by
Some old friend that steb by sigh
Was a paasin' but o' sight;
Hickernuts a filler bears
Kittlin' down is more like tears
Drappin' on the leaves below.
I love old October so.

—James Whitcomb Riley

'PUNISHMENT NOT REFORMATION

Edward E. Dudding of Huntington, West Virginia, himself an ex-convict, claims to have secured employment for three thousand ex-convicts. He also claims that of that number less than one hundred have "fallen down" on their jobs.

Mr. Dudding has gotten hold of the right wire in twentieth century reform.

Strange that otherwise kind hearted and humane people will persist in "punishing" the criminal even after he has paid the uttermost farthing of his penalty.

Why cannot we all see, that the logical end of law is not to punish but to reform the evil doer? Pause a moment and consider that word "punish." Doesn't it smack too much of vengeance? And whoever heard of vengeance reforming a transgressor? Perhaps when the vengeance has so completely broken the poor wretch that he has lost the power of resentment we may consider him reformed, but God save us from such reformation.

As men of enlightenment and mercy we should look on the law machinery of the land merely as the means by which we may reform or re-make the human character which untoward circumstances have warped and twisted out of its original symmetry. The very idea of punishment is repugnant to the ideal of the merciful man, and should have no place in our scheme of life.

We insist that the idea of punishment as applied to the evil doer is unworthy of the enlightened citizenship of this great country.

Reform the evil doer, re-make the warped and twisted character, restrain, if necessary, the insurably vicious, but punish—never!

THE NEIGHBORHOOD MEDDLER

Most neighborhoods have her. She is the most noticeable feature of the landscape. She is always on the job. She masters not that the job is self-assured, she never sleeps on it. [She is frequently the widow of some man whom the community held in high esteem. In a moment of fatal weakness he was annexed her to his life, and very soon that life became worthless to him and he was glad to lay it down. Since worrying him into the grave

her annihilation seems to be to send him plenty of company for fear he may become lonesome, deprived as he is of her presence.

Nothing is begun, carried on or completed without her meddling interference. She knows the full family history of every man, woman and child for miles around, and it is an ill-timed breath of scandal is needed to forever wither and destroy a promising career she has furnished it with glue.

Having long since parted with any youthful charms, she may have once possessed, the possession of attractiveness in the young people seems to fill her withered heart with gall. The boys of the community are all trifling and vicious, the girls weak and silly. Their mothers and fathers are no better, and really one cannot imagine what the world is coming to.

No affair of community or private life is too big or too little for her meddling tongue to dip into. She says yes, but we tolerate her. She says no, but we bear it. At times she almost drives us crazy, but we endure it. And there is no remedy, no recourse.

Yes, there is one. Dr. Foster suggested it, and was frowned out of court. But, honestly, when contemplating the tyrannical rule of this neighborhood meddler we sometimes wonder if the world was not too severe on the doctor.

AT THE CHICAGO THEATRES

STUDENKES.

The first under-the-ocean drama is the movie drama of Chicago. This is the first exhibition anywhere in the world of dramatic scenes enacted on the bottom of the ocean and recorded by the camera man.

The Universal spent nearly two years producing this picture and a company of actors was taken to the bottom of the sea in specially built submarines and taught the use of the latest diving invention, which enabled them to tap out on the ocean bed and take part in a drama as if they were on the stage.

The scenes faithfully reproducing the adventures in Jules Verne's famous book, "20,000 Leagues Under the Sea." You look through Captain Nemo's magic window and see a battle with man-eating sharks and other deep sea monsters.

So great is the demand for seats that regular Saturday morning matinees are being given to accommodate the "kiddies."

Unique Method of Dundee Pastor

Rev. H. W. Stiller, over ten years pastor of the First Congregational church at Dundee, read his resignation Sunday, announcing that he intends to retire for the present from the active ministry and go on a farm in Wisconsin so that he may see for himself how the whole church situation looks from the viewpoint of a laboring man.

He is very emphatic with his assurance that his decision was in no wise due to any wronging or material change in his religious faith. His love for the Bible has never been greater, his sense of God never more real, his vision of Jesus as Savior of the world never clearer than now. For the methods of his work and religious leaders commonly considered the most successful he had, however, come to feel a strong aversion. He is firmly convinced of the opportunities of the layman for Christian service and influence and he desires to see for himself how the whole church situation would look from the viewpoint of the laboring man.

Chicken and Rice.

Onion with chicken and rice is as unusual a combination and unusually good as food. This is a recipe from an Italian friend, but it should be immediately Americanized by adoption: "No sure six people have two moderate-sized onions to a person. Use one cupful of rice washed thoroughly, a cupful of chicken meat, dried peas, a cupful of rice stock and a cupful of water. Use for this an earthen baking dish, somewhat flat. Put the onions in first, then the rice and chopped chicken, pouring the stock water over last. Salt and pepper and dot liberally with butter. Place in a moderate oven and cover. Cook for at least an hour, then uncover the baking dish and add a cupful of rice cream. Increase the heat of the oven and cook about twenty minutes longer. This combination should also be served in the dish in which it is cooked."

Chicken Rolls.

Melt three tablespoonsful of butter, blend in three tablespoonsful of flour, add gradually one and one-half cupfuls of chicken stock; season to taste with pepper, salt and nutmeg and mix until smooth and thick, and add one and one-half cupfuls of chopped chicken. Remove the soft crumbs from crisp rolls, fill with the prepared chicken pieces in the oven until hot and serve.

To Wash and Clean Tin.

Wash the tin well in hot, soapy water and also add some soda and dry well white cloth wet. Clean the inside of the tin pan or saucepan with lemon juice, if necessary. Clean the outside with warm water to a paste with a little water. Let the paste dry thoroughly, then polish first with a soft duster and then with a leather.

Cranberry Turnovers.

Make a rich pie crust, roll out thin, cut in squares or rounds, put about ten cranberries, two tablespoonsful sugar and a small piece of butter on each, then turn half over and press edges together, or gather all at top and press together. These are delicious juicy.

To Deodorize Pans.

After cooking onions, cabbage or fish, try this plan: Wash and dry the pan, then place a piece of thick brown paper on the stove, set fire to it and turn the saucepan over the blaze. After a few minutes remove it and the odor will not be noticed.

Apple Pudding.

One pint flour, one teaspoonful cream of tartar, one-half teaspoonful sugar, two tablespoonsful sugar, one egg, two tablespoonsful butter, milk enough to roll, about one-half cupful. Roll and spread with chopped apple.

If the Oven Was Too Hot.

When loaves are baked in too hot an oven and the outside crust gets too brown, do not attempt to cut it off, but as soon as the bread is cold rub it over with a coarse tin grater and remove all the dark-brown crust.

Thick White Sauce.

Two tablespoonsful butter, three tablespoonsful flour, one cupful milk, one-half teaspoonful salt, few grains of pepper.

In other words, who his record entitled him to the support of the voters. For twenty six years he has been a successful business man in the publishing business, becoming a Progressive leader and then the fusion candidate for city treasurer on the Republican ticket.

He is just such a man as is needed to put an end to the spoils system and waste in the management of the Sanitary District. He is pledged to the spoils system and to a budget for each year's work. He promises to develop all the facilities of the district to their utmost and to reduce costs and taxes.

Both Mr. Sergel and his wife have for years been prominent public spirited citizens identified with necessary public improvements. He has made the kind of record in public office that an experienced business man should make.

The Barrington Woman's club will
hold its regular meeting in the club
rooms on Wednesday, November 1.
Mrs. W. E. Young of Chicago will
speak of "Social Life in the High
School," and it is greatly desired that
every club member be present. Special
music will be furnished for the
afternoon.

Hitting on Hughes and Wilson is
dangerous both to Democrats and Re-
publicans. In one of the New Eng-
land states such a bet was made a
few days ago. The officers heard of it
and they arrested the Republican on
charge of robbery and sent the Demo-
crat to an insane asylum. Be care-
ful.

The Altair class of the Baptist
church will enjoy a pleasant evening
tomorrow night at the home of Mrs.
G. W. Spunner, who with Miss Win-
fred Lawrence will be hostesses to the
members of the class, their husbands
and friends at a Halloween party. All
who attend are asked to come dressed
as ghosts.

The horseholders of Barrington have
posted a new price list which becomes
effective November 1. These prices
not only govern the different local shops
but are in accordance with those of all
surrounding cities and villages as well.
The prices vary, too, the cost of some
work being advanced, while in many
instances it remains the same.

Barrington's first snow this season
was that of Friday, but owing to the
rains accompanying it the fall was very
light. However, our cold air now
large flakes in the air which soon melt-
ed upon reaching the earth. One man
said the snow was just one week late,
as had it happened on Friday, the
thirteenth, something unusual could
have been expected to happen.

Accident Proves Fatal
Mrs. Bertha Lewandowski died Sat-
urday in St. Mary's hospital, Chicago,
of a heart attack. Mrs. Lewandowski,
it will be remembered, figured in the
automobile accident which occurred
near Barrington Sunday, October 15,
when the car which she was driving
turned turtle on the road leading to
the White schoolhouse.

The unfortunate woman with four
other passengers attempted to allow
another car to pass them, mis-
judged the distance and the machine
turned over. She was the only mem-
ber of the party to receive injuries.
The family reside at 3520 Edison Park
avenue, Chicago, Mr. Lewandowski
being a cement contractor. His wife
was 31 years of age.

Workmen have finished installing lightning rods on what will be, when it is completed, the largest and finest barn in northern Illinois. It is being built by L. S. Overton on his farm at Bolon Mills, and will cost about \$8,000 when completed. The structure is 38 feet wide and 150 feet long, and 50 bays of cement and steel and over half tons of steel rods were used in its construction. Electric lights, running

water and every possible modern improvement combine to make this barn as perfect as such a structure could be.

Five hunters were arrested last Sunday on the A. W. Todd farm northeast of Harvard, the five being the first to come under the ban of the Farmers' Protective association recently formed as a means of putting a check on lawless hunters who invade farms, cut wire fences, leave gates open and otherwise terrorize many farmers in the community about Harvard.

A big barn fire, with unknown origin, occurred Thursday morning on the place owned by Mrs. Frank O. Anderson at the Five Corners in Coral township near Marango. The large barn, its new \$1,200 addition and the surrounding outbuildings were destroyed as well as 700 bushels of oats, many tons of hay, machinery, etc. Mrs. Anderson carried \$2,000 insurance. The loss will amount to about \$3,000.

Mr. and Mrs. Frank Lambert of Lake Forest, parents of Marion Lambert, are going to California to spend the winter. Upon their return in the spring they will adopt a little girl two or three years old. Mr. Lambert said, "We know the adopted child will not take the place of Marion, yet she may help bring back some of the happiness that prevailed in our home in years gone by, and we will try to forget the grief and sorrow of last February."

The KITCHEN CABINET

There is no duty we so much undertake as being happy. By being happy we sow anonymous benefits upon the world, which remain unknown even to ourselves.—R. L. Stevenson.

FISH DISHES.

As fish dishes of various kinds are always in season a few different ways of serving them may be helpful.

Fish Balls—Remove the skin and bones from a three-pound fish and shred the fish very fine, add three-fourths of a cupful of water and a good sized onion, chopped fine, and a cupful and a half of bread crumbs, a fourth of a cupful of sugar, one and a half teaspoonsful of salt, a fourth of a teaspoonful of pepper, three egg whites and two tablespoonsful of melted butter. Mold the mixture after blending well into balls. Put the skin and bones of the fish into a saucepan, add a second onion, sliced, and a tablespoonful of butter, drop in the fish balls and cover with boiling water and simmer for one and a quarter hours. Remove the balls and strain off the liquor on to three egg yolks slightly beaten, stir until thick but do not boil. Pour over the fish balls and serve either hot or cold.

Black Bass Baked—Take a bass weighing three pounds. Split the fish and remove the bones. Place a thick brown paper in a dripping pan, lay the fish on it skin side down, and dust with salt and pepper, and dot with bits of butter, using two tablespoonsful. Bake in a hot oven eight minutes to the pound. When done slip a spatula under the fish and slide it on to a platter, the skin will adhere to the paper.

Finnan Haddie—Cover two pounds of finnan haddie with boiling water and simmer for ten minutes; make a sauce of a tablespoonful each of butter and flour, salt and pepper to taste, three-fourths of a cupful of milk and a tablespoonful of chopped chives. Skin the fish and bake it, butter a baking dish, put in a layer of the fish, then one of sauce, and one hard cooked egg chopped. Continue until all is used and three more hard cooked eggs. Cover with buttered crumbs and brown in the oven.

Panache Stewed in Eggs—and fried in hot fat, and sprinkled with a slight squeeze of lemon, makes a fine relish with broiled fish.

Nellie Maxwell

DO NOT FORGET THIS.

Women of Illinois may vote for presidential electors on November 7.

Don't forget that Duane and the Democratic state administration has cost Illinois taxpayers \$1,000 an hour more than any Republican administration in the history of the state—\$1,000 an hour more every hour and every day of the Duane rule.

Making Dull Hours Busy

EVERYONE likes to know where goods of special quality, in which they are interested, can be obtained.

By calling the attention of his customers by telephone, to special values in merchandise, the progressive merchant transforms dull hours into busy hours.

When business is light, he gives his clerks a selected list of customers with instructions to call them by telephone and tell them of the attractive things in his stock.

By following up this practice systematically a lot of profitable business is obtained.

There are no dull hours in the business establishment which develops telephone salesmanship to its highest possibilities.
