

It's Poor Economy to Endure a Bad Back

These days of rising prices we need every ounce of strength we can get all day long every day. The man or woman with weak kidneys are half disabled. The kidneys, lame, stiff back, headache, dizzy spells and a dull, tired, listless and weary disposition are daily sources of distress. You can't afford to let a bad back get you down. It may be gravel, gout or Bright's disease to take you. Get a box of Doan's Kidney Pills today. They have helped thousands. They do help you.

Personal Reports of Real Cases

AN ILLINOIS CASE. — "Dear Doctor, I am a woman in Canton, Ill., 45 years of age. I used to be a strong, healthy woman, but now I am over my 40s. Many days at a time I am unable to get out of bed. I have a bad back, aching kidneys, lame, stiff back, headache, dizzy spells and a dull, tired, listless and weary disposition are daily sources of distress. You can't afford to let a bad back get you down. It may be gravel, gout or Bright's disease to take you. Get a box of Doan's Kidney Pills today. They have helped thousands. They do help you."

Great Comer. — "My wife was sitting on that last bench she got." — "No wonder; she's always got a bee in it."

Allial Slacker. — "What's the matter, son, are you a bachelorette?"

"A pacific, my son, is a bachelorette who's afraid to get married."

The man with a pull doesn't have to knock.

His Spots. — "What's the matter, son, are you a bachelorette?"

"Yes, I've got a pimple."

Just Missed It. — "Did you get your degree?"

"Yes, I've just returned a virginal nunsmarker."

Excessive politeness is seldom speaking terms with truth.

Both Ends (Producer and Consumer) Against The Middle (The Packer)

The consumer wants to pay a low price for meat.

The farmer wants to get a high price for cattle.

The packer stands between these conflicting demands, and finds it impossible to completely satisfy both.

The packer has no control over the prices of live stock or meat, and the most that can be expected of him is that he keep the difference between the two as low as possible. He does this successfully by converting animals into meat and distributing the meat in a minimum of expense. At a profit too small to be noticeable in the farmer's returns for live stock or in the meat bill of the consumer.

Swift & Company's 1917 transactions in Cattle were as follows:

| | Average Per Head |
|----------------------------------------------------------------------|------------------|
| Stock Meat to Retailer for | \$65.97 |
| Stock Meat to Cattle | 5.62 |
| Total Receipts | \$3,606 |
| Paid to Cattle Raiser | \$445 |
| Paid to Cattle | 8.61 |
| Packing House, Freight on Meat, and Cost of operating Branch offices | 1.10 |
| Remaining in Packer's hands as Returns on investment | 7.32 |
| | \$ 1.29 |

The net profit was \$1.29 per head, or about one-fourth of a cent per pound of beef.

By what other method can the difference between cattle prices and beef prices be made smaller, and how can the conflicting demands of producer and consumer be better satisfied?

Not So Men

John, a boy somethin' socal' and straight, was born in the Charles Science Monitor. John stood high in his examination, but a girl took the main prize. John's father was indignant.

"John, I am surprised to find you have allowed yourself to be beaten by a girl," said John's father.

"Yes, father, said John, indignant.

"John, but I can tell you

something—girls are not very nice after all."

Cold Hearted EZRA
