You can Lose Your Life in an AUTO FIRE

Did you ever experience an auto fire?

If you have you know how fast fire engulfs an oil

soaked, gasoline driven machine.

Many a life has been sacrificed in auto fire disasters.

A Pyrene extinguisher on your car protects you and the

powerful liquid makes short work of gasoline fires.

Pyrene costs you little, since it saves 15 percent on auto

Profits and Prices

Profits may be considered from two angles:

1st—Their effect on prices;
2nd—As a return to investors.

When profits are small as compared with sales, they have little effect on prices.

Swift & Company's profits are only a fraction of a cent per pound on all products sold, and if eliminated entirely would have practically no effect on prices.

Swift & Company paid 10 per cent dividends to over 20,000 stockholders out of its 1917 profits. It also had to build extensions and improvements out of profits; to finance large stocks of goods made necessary by unprecedented requirements of the United States and Allied Governments; and to provide protection against the day of declining markets.

*Is it fair to call this
profiteering?*
