THE UNIVERSAL CAR

There's the same economy in using the Ford truck that there is in using the Ford car—only the larger carrying power of the truck commands it particularly to farmers and other business men. The famous Model T motor assures reliable power, and lots of it; the manganese bronze worn drive-shafts certainly last longer; and the three-point suspension gives flexibility and vanadium steel strength.

You Should See These Hogs

"Your herd" seems to be better every time I see it—remarked a visitor from Indiana a short time ago.

The Porkmaker: Herd is improving all the time because we are constantly selecting stock to make it better. What success we have had during the past year, we believe, has been due to the high quality of stock we have had to offer.

Most of our sales are made to people who actually see the stock we have for sale. And when you see it, you will find it quite likely to be buying something good. We do not have any culs whatsoever in the herd. Wherever there is a pig that isn't up to standard it is promptly sold for pork.

We have on hand right now some exceptionally fine gilts and sows that are bred for spring farrow. These are offered at prices that are not high, and we are willing to make a special offer to anyone in this immediate vicinity.

It pays to raise pure bred hogs. We can prove this to you by giving you our figures. We will help you make a success by helping you dispose of the pigs you raise at good prices.

Call at the farm/party time. Our herd is located half way between Barrington and Lake Zurich, on what is known as the Webley farm.
