TO ENFORCE FRY LAWS

The legislature of Illinois has gone to record in favor of enforcing dry laws in that part of Illinois which has already become prohibition territory.

The drys call it the "solid time belt" while the wets speak of it as the "dry and rocky road."

The law is not on radical as its opponents would lead you to believe. It can not affect the innocent. The best thing that can be done is to keep the private residence of homes free from the sale of liquor.

Provided, however, no warrant is issued to search for a private dwelling occupied by such unless such warrant is signed by the judge of the county in which the place of public resort or intoxicating liquor is sold for sale in violation of the law.

This law will become effective July 1st, provided it is signed by the governor. It does not affect those cities that are now wet. Its purpose is to make dry territory "drier" and it is conceded by its opponents that it will do that very thing.

We are sorry to hear, but it is true, that some rural communities of two or three people have had important business and industry in the place of the law-abiding people of that neighborhood. There have been hard to apprehend with the law. They have been so accustomed to the law-enforcement measures with away with their nefarious business. Law-abiding people have been forced to the law. It is the law-breaker that they would like the law-enforcement.

WHEN THEY WENT MAD.

What happens once more in this story about the destruction of Louisiana is told by the former burgomaster of the city, Horace Nierman, is the pleasure it gives of the people and the people of the former city when it was overgrown through its ruin in 1914. Louisiana was once the richest of the states. Its great, its heavy burden by men who had been driven from their homes. Officers and soldiers run wild and drank their money to foolish intoxication in stolen goods. What they seemed to lack was the need of restraint and discipline to an army which had been organized by the United States to conquer all Europe, and was already well on the way to the completion of the task, says St. Louis Republic. The old citizen, who they were superior, had come to their minds with the idea that they imagined themselves to be the conquering host, but their favorite pleasure had said they should be kept those in high command must have been infected with this insanity or they would not have committed the disorderly drunken ravages and looting that made Louisiana a ruin. There had been a German victory march that madness was still on, no force would have been made that left the Bulgians and French a status such above slavery.

"Nationalism is a great idea, if it is correctly understood," but it is dangerous and destructive weapon when it is misinterpreted and used by the eyes of a tyrant. "The world would not be so given as it is if the Creator had not given man the right to only be over nature, but even to force kinds of grass. As all the beautiful colors of the space combine to form light, so the nationalities of the world together form a light. Each nationality is beautiful in itself, but still more wonderful when considered. The variety of the colors of the different nationalities is a reason and a plea, not for antagonism but for friendly union, their qualities mutually supplementing one another."

Although a large part of the American choice imports come from China, Mexico is the country of origin.

Mrs. C. O. Gaylord Marsh from Progress, Maine. When reported, she contains a large amount of vitriol, it is not to be successfully dried in heat, coming in climate, their hard conditions. It is admitted that Canada free of duty, or nearly so, and have prospered by market by exporting the wheat. When shipped to the United States prepared choice wheat a duty on weight.

Making a stove-heat, a chlorine gas is a pretty common the only difficulty of which is the fact that the gas is very toxic. Changes from one man to another are now so often made that some enthusiastic "work" must reserve certain shortcomings for complimentary purposes, with the understanding that each desire to be taken to alteration without notice.

Seize Draft Evaders

The platoon men of the detachment gathered in three young men of Spring Grove who, it is said, have been evading federal officers for nearly two years.

They are William, Michael and Benjamin Miller, sons of Mr. and Mrs. John Miller, who reside on a farm about two and a half miles south of Spring Grove.

MAKING MISTAKES With Your Money

It is common experience that a man who prospers in his own business is so absorbed in it that he learns little about safely investing (his own means). Often he falls a victim to promoters of speculative or worthless enterprises, or buys securities that are unsafe and poor failures.

Our Real Estate First Mortgage 6 per cent Gold Bonds are issued in most convenient denominations of \$100, \$500 and \$1000, and the interest is paid promptly on the date of maturity. Our customers have never suffered any loss of money nor any delay in the payment of principal or interest on Chicago Real Estate Mortgage Bonds bought of us.
