BARRINGTON REVIEW

Attention to 1, BARRINGTON, ILL.

THURSDAY, JULY 24, 1942

THE NORTHWEST HIGHWAY

The most important question that has dominated the attention of Barrington people during the last decade is the present one of hard roads.

The securing of the Barrington-Chicago highway is an absolutely simple proposition. All that Barrington needs is to get the right of way to the township line, and perhaps the Palatine line a little from the Iowa south.

The county board will submit the question of a bond issue to the voters this fall, and will include the Barrington-Chicago road if it is designated as such. The bond issue will be for the Northwest Highway Improvement Association of that.

The bond issue will pass by a big margin. Enthusiasm for hard roads is running high throughout the county. People are realizing that money of transportation and communication must be kept abreast the times; that improved means of transportation is a necessary condition of progress, always. It has been so throughout the ages. Transportation and communication facilities have preceded progress in other fields.

The Northwest highway will reach through to Palatine. Will it reach Barrington? That is for the people of this village to decide. The residents of four village boards and many influential business men are ready to put their shoulders to the wheel; have done so, in fact. With their need now is your endorsement. Get behind these talk good roads. Boost for hard roads. And in particular boost for the Northwest highway.

"WARE" THE BOOZE BECIDES

Those who are inclined to experiment with substitutes for brewery and distillery products against the coming of prohibition can avoid being stung by "wine beer" or "beer beer" if they will keep in mind that the product advertised under these odd product advertisements is only a wild yeast of little value, say the specialists of the Federal Bureau of Chemistry.

Extraneous claims are made for the product, and a fancy price out of all proportion to its original cost and actual value is asked, say the yeast specialists.

In some advertisements which have reached the bureau the sellers assert that the substitutes when mixed with water and molasses or sugar will produce vinegar, beer or wine. Other promoters go so far as to say that the fermented mixture is beneficial in the treatment of childhood and kidney troubles—claims which have no foundation in fact.

The primitive process for making "beer" was to expose to the air a mixture of bran and molasses until it became impregnated with yeast and bacteria. The fermenter so produced was employed locally in making a sort of vinegar or certain alcoholic beverages by adding it to a mixture of water and either brown sugar or molasses, which was then allowed to ferment.

In the opinion of the bureau specialists a product made by catching yeast and bacteria indiscriminately from the air may contain harmful as well as desirable organisms, and the specialists state that great care should be exercised in both the preparation and the use of such a product.

Every farmer who uses some sort of spray in his dairy stable must keep away the flies, because it pays to increase milk production; but few are so thoughtful as to give the horse the attention. Give your horse a hair spray each morning before going to work. It will keep the wings away and add to their comfort, which should be more than enough, with the fact that they will work harder and more efficiently.

Henrietta Conrad, Dramatic Soprano

Well-Known Singer to Appear in Recital with Assistant Artists on Third Night of Coming Recital Chautauque.

Photo by Apola, New York.

HENRIETTA CONRAD.

An innovation of the big Five Day recital Chautauque circuit this year will be the appearance, in recital, of Henrietta Conrad, dramatic soprano. An artist of this character has had a place on the Seven Day circuits for several seasons, and this feature has been such an outstanding success that when an opportunity presented itself to secure Miss Conrad for the Five Day circuit the management had no hesitations in accepting her.

Miss Conrad has scored successes in New York, Philadelphia and other American musical centers. Her coming to your community will be a distinct event. She made her New York debut in October, 1937, and received enthusiastic comments from the music critics and metropolitan newspapers as the New York Tribune and the Herald.

Miss Conrad has an agile and beautiful voice. She possesses clarity of diction and her quick sympathy of tonight is admirable. Her program is destined to please both those who delight in classical music and those who just like singing.

Herold! Fans will appear with Miss Conrad as pianist and accompanist. Mr. Yates is a genuine artist and has been accorded splendid recognition in the latest cities of America.

Miss Christine Paunier, a vocalist of unusual attainment, will also appear with Miss Conrad.

The Misses Turner and De Lent in Song Recital at Chautauque

Miss Adeline De Lent. Miss Laura Turner.

It is a song recital featured by a number of esteemed artists, Misses Laura Turner and Adeline De Lent will appear with accompanist on the last afternoon of the Rebirth Chautauque.

The songs rendered by the two young ladies are of a light and happy character. Sunshine radiates through the entire program and smiles and laughter are never far away.

The "Finger Lost" from "Milkmaid Butterflies" in costume. "Eyes," "Broken in costume," "Chorus of Spring," "Sister," "Milkmaid," "Birds on the Wing." Nothing is just a few of the Turner-De Lent selections.

A BANK ACCOUNT COMMANDS RESPECT

IT GIVES YOU a better standing in the community, especially among business men, to be known as "Having Money in the Bank."

IT STRENGTHENS YOUR CREDIT. Besides it is much more convenient to pay by check.

FROM any standpoint the opening of a Bank Account is highly desirable and advantageous.

WE SOLICIT YOUR ACCOUNT FOR THIS BANK.

St. Ann's Catholic

Mass will be celebrated next Sunday morning at 8 o'clock.

A. J. McCormick, Pastor.

The practicability of shipping eggs by parcel post has been demonstrated by the fact that more parcels of eggs than by any other mode have been shipped through the mails. In order to test various methods of packing and handling eggs the Office of Markets and Rural Extension has shipped more than 700 dozen eggs through the mails from various points, under various conditions, and in different types of containers, without serious loss, either to the expense of shipment or the condition of the eggs on reaching the consumer's kitchen.

LOCAL
HAPPENINGS

William Stone, recently returned from overseas service, commenced work Monday in the lather shop of C. E. Smith.

E. A. Judd of Woodstock, assistant district manager for the Chicago Telephone company, paid a visit to the local office of the company Tuesday.

Miss Julia Robinson will operate at the local public market. She has been receiving instruction in her duties for the past week or two.

The Dorcas society of the Baptist church will give a dime social next Tuesday afternoon, July 29, at the home Mrs. Sadie Ford. The affair will commence at 8 o'clock, and everyone is invited.

Earl Powers, son of E. A. Powers of this village, who is employed by the National National Bank, Chicago, and has been making his home in that city, has purchased a residence at Edison Park, and will move there to live.

The Saturday morning entrance of the First State Bank has increased to such an extent that it has been found necessary to operate three counters at that opening, this plan being employed for the first time in the history of the bank.

The painting of the Baptist church has been completed and the building now presents a neat and attractive appearance. The improvement, says Rev. Mr. Stewart, pastor, says, is the best of its kind to follow in the near future.

Miss Jessie Howard, daughter of H. E. Howard of Cuba Township, gave a week-end party at her home on a unit at Lake Geneva to visit her young people on this village were invited. The party left her home on Friday, remaining over Sunday.

Because so many members of the Barrington Sunday school have been decided by the committee which has been charged the arranging of the picnic to be given by the school, the "Blues," to postpone the supper until September, when vacation is over.

Jack Dagan of Irving Park, a former resident of this village, arrived in San Francisco from Russia, where he had been serving with the American army, the fore part of the month, according to news received by local friends. Dagan, formerly Miss Anna Dagan of this village, went there to meet him. They are spending a month in the west and expect to be home about August 1st.

The Rev. J. H. in receipt of a card from Edward Wolff, Barrington young man who is with a military post with 72nd Army headquarters in Germany, telling of a big party they had in New York City and along the banks of the Rhine, in celebration of the armistice.

"We nearly showed them," said Ed. Wolff, "but they were so drunk they were not to be taken seriously. It was some sport to celebrate here, especially on the Rhine."

EMPLOYERS ENTITLED TO CITATION

War Department Issues Citation to Those Who Give Back Pay

War Dept. Double many of the business men of Barrington, and, in fact, all through the country, was unaware of the fact that, in case they have signed their willingness to re-employ anybody who formerly worked with them and left to serve in the army or navy during the great war, they are subject to a fine which is laid upon the war and navy departments.

All over the United States the war department is securing the hearty cooperation of welfare societies, commercial clubs, employer's associations, and is getting a good job for the discharged men of the army and navy, and practically all employers, firms, corporations, a multitude have expressed their willingness to re-employ their old men, but they just do not seem to want to war. In fact, they have 10 and 20 per cent of our honorably discharged soldiers and sailors have had the offer of their pre-war jobs that it has been empty talk. The law of today is not to become the bone of contention.

In return for this splendid service the firm and employers that are not re-employing the soldiers are receiving these hand-sawed citations from any manufacturer, merchant or professional man in connection with any discharging, interesting official document may be sent to the War Department, and the same to Arthur Wood, assistant to the War Department, at Washington, D. C., stating in plain English that he will re-employ his old service men.

The citation is signed by the secretary of war, the secretary of the navy department. Sec. Woods of the war department. It is a handsome certificate and embossed with the name of the

ASSIST IN ENFORCING GEAR LAW

New Law Provides That Sheriffs and Deputies Also Must Arrest

The new gear and fish laws of Illinois in effect July 1, 1919, supersede the previous laws. In addition to officers and employees of the Illinois game and fish commission, it is to enforce the law, section 10 provides that it shall be the duty of all sheriffs, deputy sheriffs, constables and other police officers to arrest any person who is in violation of any provisions in this act. (For such arrested a person may be fined.)

What you can hunt or fish during the month of July.

If you are not a resident of Illinois you cannot fish in any waters of Illinois unless you have a non-resident fishing license. You may not use fire, trout or throw line if not baited with live bait. Live bait shall mean fish or frogs.

You may catch any size fish with line and line and keep them. You may hunt squirrels from July 1 to July 1, in waters in the lake limit, but you must not sell them.

When hunting squirrels you must not cut down or use any tree or destroy any of the land or water. You may have your license before you go hunting. You may not hunt a squirrel unless you are under the age of 10 years.

You may not hunt a squirrel unless you are under the age of 10 years or mother or guardian of such person; to residents of the state of Illinois and non-residents of the state of Illinois who are citizens of the United States.

How's Your War Risk Allowance? One of the things that the government has been doing during the war is to provide for the protection of the citizen in the event of his being called to his duties in the war. This is done by the War Risk Insurance Act. But due to the rough work of the fighting forces, the insurance in these matters of war was not so satisfactory.

It is to handle them and the want of knowledge of the average soldier and his family in the war risk insurance. There were many misunderstandings and incorrect or incomplete plans which left the allotment and insurance matters of some men unsatisfied at the time of discharge. If there are any soldiers or their families who are in this locality who have not yet had their allotment and insurance adjusted to their entire satisfaction, I will be glad to help them. It was part of my business for 18 months to insure the soldiers and their families in the War Risk Insurance Act.

For more correspondence for a battalion and if you need any more information I can probably tell you what is wrong and if you have to correct or correct it so that you can secure proper and complete War Risk Insurance department. If you want to talk to me about it, please write me or ask for two rings on No. 1.
