

# MOTOR FIGHTING MACHINE SOME DAY

Council Decides On Chemical Engine, Ford Mounted

LEVY \$8,900 FOR FISCAL YEAR

Pay Monthly, Bids and Transport Buses - Black Hawk Division

New fire fighting apparatus for the village was determined upon at the meeting of the village board last Monday evening.

The equipment selected and virtually decided upon was a French chemical apparatus, consisting of a chemical tank and hose, with hose reel mounted upon a Ford truck chassis, and carrying liquid also. It is, in fact, a complete fire-fighting machine on one truck.

The new apparatus will not be installed at once, however, as the money is not available to pay for it. Trustee Strohman will have to place the money on hand, saying that the money will be coming in and there will be no funds available for the purchase of the machine. The village board will pay for it that was the monthly payment, and will be taken.

By His Excellency, passed

The annual tax levy, approved, embracing a total sum of \$8,900,000 in total of the year.

Other business transacted was purely routine, including the reading and adoption of the minutes of the last meeting and the acceptance of the minutes of the monthly meeting.

D. C. Caldwell, village clerk, was unable to be present. He is a member of the local reserve militia and is on duty with the company in Chicago. F. L. Waterman was elected in place of Caldwell.

The matter of the installation of water meters was reported by the committee, and the village board, chairman of a special committee of assessing, defined the matter. The board said that the committee had reported on the feasibility of assessing, defined the matter. The board said that the committee had reported on the feasibility of assessing, defined the matter.

Wants Soft Drink Stand

The clerk read a letter from William B. Feltner, in which Mr. Feltner made application for a soft drink stand here, stating that he would be content with the stand at such locations as permitted.

The following bids were allowed and ordered paid:

Will Reike, office, \$12.00  
Public Service Co., street, \$12.00  
J. H. Pohlman, corner, \$12.00  
John Schwenk, labor, \$12.00  
Barrington, repair, printing and publishing, \$12.00  
H. L. Lawrence, labor, \$12.00  
G. F. Meyer, repair, \$12.00  
W. B. Feltner, repair, \$12.00  
J. H. Pohlman, corner, \$12.00  
John Schwenk, labor, \$12.00  
Barrington, repair, printing and publishing, \$12.00  
H. L. Lawrence, labor, \$12.00  
G. F. Meyer, repair, \$12.00  
W. B. Feltner, repair, \$12.00

POSTOFFICE IN NEW LOCATION

Opened Doors Monday in New Location

The Barrington postoffice opened its doors Monday morning in its new building on Cook street in the First National building. The new postoffice is roomy and convenient, and its location is winning much favorable comment. The building was purchased by the State Department of Public Works, the following list of points are noted:

During the year 1918 a total of 10,318 persons died in Illinois, of which 14,400 were residents of the city of Chicago. Based on the official statistics of Illinois population for 1918—the population of July 1, 1918, was 2,817,555. The population of the state as a whole was 163 per cent of the population of 1910. In 1918 the increase in population was 12.7 per cent. The increase in population was 12.7 per cent. The increase in population was 12.7 per cent.

Wanda Mac Donnell

Weeks Head Recorder R. L. Peck of the Illinois, Wisconsin and Lake Michigan railroad turned over to the railroad commission a letter from the road property, which was purchased by the railroad commission. The letter was from the hands of this committee the train records for the year 1918. The records are in good shape in additional facilities for the railroad. The records are in good shape in additional facilities for the railroad.

## BLACKHAWK DIVISION ASSOCIATION

Organization Formed to Preserve Friendships Formed During War and Help Blackhaws

It will be of interest to former members of the Blackhawk division, of Barrington, to know that a society has been organized for the purpose of maintaining the friendships formed in the division which has been formed in Chicago, with headquarters at 118 North LaSalle street.

A large club room will be opened in the home of all members of the 86th division. A complete roster of all men of the 86th will be at the disposal of members. The association will give benefits to members in case of sickness or need. The promotion of goodwill and friendships formed in the division will be encouraged. The association will endeavor to adjust claims against the war department, and will endeavor to secure employment for all members of the 86th.

Entertainments and social gatherings will be given, including meals and their friends to get together and talk over the old times.

A fund of \$10,000 was left in the athletic fund when the division left the city. The fund is being used as a propaganda fund. The fund is being used as a propaganda fund. The fund is being used as a propaganda fund.

It is expected that business men in the division in Wisconsin and Minnesota will be glad to have the division in the leadership of the Chicago society.

The society is expected to be a very prominent Chicago business men, many of whom served with the division of the division, which was formed at the division of the division.

## SHEARER SELLS HOME AND PRACTICE

Dr. W. A. Alton Burt Dr. Shearer - Allowed Practice Today - Was Army Surgeon

Dr. William A. Shearer, one of the leading physicians of the village of Barrington, has sold his home and practice to Dr. W. E. Allen of Chicago, who came to the village Tuesday morning.

In 1917 he came to the village to take over the practice of the late Dr. A. J. Kingley. He has enjoyed an extensive practice and has made many friends since his arrival in Barrington, both as a professional and social way who are well known in the village.

Dr. Shearer states that he has not as much time to devote to his practice as he would like to do. He will remain in Barrington for a month or two, but for the present will accept his successor until the latter comes to the village.

Dr. Shearer will maintain his office at his residence, following the custom of the reserve militia officers, but his office hours will remain unchanged.

Dr. Shearer was born in Chicago and came to Barrington from Chicago within the next two years.

# BEDESTADRAFT

Primitive Ferry Boat Made Use of by Traveler.

With Earthen Pots as Pivots, and Towed by Swimmers, This Simple Contrivance Gave American Safe Passage Across Florida River.

In a country where rivers are subject to sudden and heavy floods, bridges are in many cases so insecure that ferries are almost always a necessity. One of these is the Cay in India, and the method of crossing across rivers is that they have been from the earliest times. An American consular officer tells how he was taken across an Indian river at the time of a flood. The contrivance was simple, and has been used in the Orient as long as history has any record.

A cord having been fastened to a large, elongated gourd, and a smaller gourd being also tied to it, the native crew ascended, and by pulling on the larger gourd pulled himself across the river.

Women, too, avail themselves of this primitive contrivance, under the escort of a native attendant, who, simply mounted behind her, takes her across. The women, however, are taken across in a different manner. The attendant, who is a male of course, takes the gourd in his hand, and the woman, who is taken across in a very comfortable manner.

These methods of crossing rivers, however, are hardly in accordance with the ideas of civilization. The American thought one day as he stood on the river bank, that if a wide and rapid stream which separated him from his halting place. He did not realize the idea of building the usually current on a house of logs, but as the river was so wide, and the current so strong, he decided to build on the bank what he called a house of logs.

While he was in this dilemma, a native hunter came, and he saw that the river was so wide, and the current so strong, he decided to build on the bank what he called a house of logs. The native hunter brought out four "house of logs" and he saw that the river was so wide, and the current so strong, he decided to build on the bank what he called a house of logs.

He saw that the river was so wide, and the current so strong, he decided to build on the bank what he called a house of logs. The native hunter brought out four "house of logs" and he saw that the river was so wide, and the current so strong, he decided to build on the bank what he called a house of logs.

# MOTORS TO HAUL FARM PRODUCTS

Successful Solution of Short-Haul Problem Confronting Transportation Expert.

Popular Method of Moving Rural Freight Now Hauled by Farmer Who Owns Truck and Handles His Own Marketing as Well as That of Neighbor.

Prepared by the United States Department of Agriculture.

Method is Popular.

Kept radiator well filled.

Nothing is Better Than Kerosene and Glycerin Mixed For Cleaning the Windshield.

It frequently comes in handy to know that a little bottle of kerosene and glycerin mixed in equal parts will clear the glass of the windshield of raindrops and give clear vision ahead.

Same with tobacco—especially Kentucky Burley.

Buy yourself a package of Lucky Strike cigarettes. Notice the toasted flavor. Great! Nothing like it. The real Burley cigarette.

Perhaps He Had Regretted. A funny one happened the other day in the office of a justice of the peace. A young couple were very much surprised by several friends. An acquaintance of the bride and groom came to the place where the justice said:

"Don't anyone present know of any reason why this couple should not be come man and wife?"

And then everyone, shrugging the groom spoke up, "I do."

As he said afterwards, "about the same time as the bride."

SAVED TWO FAMOUS PICTURES

Old Masters Taken by British Officer From the Colosseum, Italy, to the Vatican.

The king of the Belgians will shortly have returned to his two famous pictures which he had taken from the Colosseum, Italy, to the Vatican.

For SUMMER COLDS Nothing gives quicker relief than Vicksen-Balm.

It is harmless, and also relieves Nervous Headache quickly, and any other ailment.

For CLEANING WALL STEMS Simple Way is to Inject Little Kerosene—Oil Softens and Washes Off Grime.

A simple way of cleaning wall stems which are under suspicion of harboring carbon deposits is to inject a little kerosene in the stem.

When the cooling system is kept in motion by the thermosyphon action, it is not important that the radiator be kept reasonably full in order that there be a wide margin of safety.

TO GET CLEAR RAIN VISION Nothing is Better Than Kerosene and Glycerin Mixed For Cleaning the Windshield.

It frequently comes in handy to know that a little bottle of kerosene and glycerin mixed in equal parts will clear the glass of the windshield of raindrops and give clear vision ahead.

Same with tobacco—especially Kentucky Burley.

BARRINGTON REVIEW

Telephone No. 1, BARRINGTON, ILL.

THURSDAY, AUGUST 7, 1919

## THIEF SUGGESTIONS

Timely suggestions for thefts are in

cluded in a pamphlet issued by the

War Savings organization and embody

some of the most practical hints we

have ever seen—in fact one estimate

Barrington housewife who read them

over said they were "just splendid."

Too many people have the mistaken

idea that saving means scrimping and

saving, while, in fact, it means

not an avoidance of wastes and a

certain definite saving. It means above

all else the knowledge of how to spend

money wisely. It means the ability to

control the expenditures to fit the income.

The man or woman who learns to

make money has learned only half. It

is the knowing how to spend it wisely,

save it wisely and know it judiciously

this counts.

Intelligent adjustment of the in-

come to the needs of the family—

the man of the house, the housewife,

and, for operating expenses, etc.,

spell the difference between judicious

spending that gets results and hap-

hazardous buying that has no to speak,

"nothing to show for it."

Too many housewives overlook the

importance of the budget which plans

ahead for at least six months, if not a

year. It is the key to the home and

it practically means that when they apply

the principle in buying clothes for the

family, they are being absolutely

"satisfactory results. Whether for the

man of the house, the housewife, and

the child, a wardrobe planned for

months ahead, with each garment

bought for a definite purpose and

bought to fit in with the clothes al-

ready on hand, is bound to be more

satisfactory than the most haphazard

"hit-or-miss" buying of clothing.

Description of the metric system

even though it be only a small

amount is exceedingly important.

Determine how much you can save,

lay that aside as soon as the pay en-

velope is opened, and live on what is

left. Living alone in a bachelor

fashion, with the intention of saving

what you are able to lay aside after

payroll is paid, may mean ruin. No

definite plans for careful spending, al-

lowing at least a small amount each

week for the savings bank, are pro-

ductive of results that can hardly be

believed until the plan is adopted.

"LOOK IT UP"

Thinking men and women should

consider the striking advantages

brought out for adoption of the units

of the metric system of weights and

measures.

They show a striking anomaly: That

the metric system was invented by a

Briton, James Watt, in 1789, and yet

all civilized nations have adopted it

exclusively, excepting the United

States and Great Britain.

That the so-called "British system"

of weights and measures is of German

origin—a relic of the old German

trade league—and yet Germany

renounced it in 1870 and adopted the

metric system, invented by a Briton,

People of Britannia and America

may ask themselves whether they are

not carrying conservatism too far.

The metric system is an unfric-

tionless.

By principle—the principle of deci-

mal computation—has been used in

the monetary system of the United

States since 1796. If the United States

## New Illinois Laws
