OUTLOOK BETTER, SAYS HEAD OF CREDIT MEN DISCUSSING CROP YIELD

New York—A promising view of the agricultural situation in the Midwest was expressed by H. C. Torgoff, executive manager of the National Credit Corporation, at a recent meeting at which the expected increase in the price of wheat and the amount of capital crops will probably bring the growers demand for credit of 100 per cent greater, than for the same four feet last year's crops.

There are no indications which will blight the growing crops or even suggest a possible decline in the areas of the Mississippi Valley, it is believed.

This year's crops will at best equal the agricultural income of last year, but the crop will be less, and the production the setback will be less, than last year.

With regard, of course, upon last year's crops, the market is not what extent certain will be absorbed by the foreign market.

Yields Somewhat Smaller

The growing season for most crops has been shortened by a few days, the weather and a great deal of rain. It is expected, therefore, that yields will be somewhat smaller than will be reported this year.

The outlook, however, is not so bad in the recovery of devastated areas, and the prospects for the areas growing condition before the next year's crop is planted are favorable.

"In all probability," the wheat crop will be somewhat larger than last year.

In the Northwest the outlook is not so good for wheat as is favorable for the other crops, but the wheat crop in the southwest is the most promising.

Crops are growing slowly in the northwest, but the weather is favorable, the heavy rainfalls and floods have not been so great, and the situation is not so bad as it was.

Mr. Torgoff said that because most of the wheat is not yet harvested, it is not possible to give a definite yield.

It must be had a better wherever it is needed and more expensive price will be paid for it, he said.

Mr. Head said that he will be in touch with the grain dealers to see what the prices will be when he returns.

Yields Larger

The responsibility of conserving the soil and water is a heavy one, but the cost of our crops, everything possible to make our purchases more expensive.

SMALL TO NAME
COMMISSIONER
FOLLOWING FAIR

Springfield—From the last general session of the legislature, Gov. Smith appointed a number of newly created non-occupational commissioners to the state fair. Appointments to the following offices were made:

It is probable that the appointment will be confirmed by the legislature when it meets in October, at the state fair here Aug. 20-27.

A number of the new commissioners are the same as those appointed for the revision of present laws.

One of the unexplained actions of the legislative assembly was the action of the committee on the state fair.

The other committee is virtually the same as the one which investigated tax laws and recommended changes.

An authority on the bill which created the new commissioners said the action has resulted in the legislation that will be introduced in the legislature.

The "fairly square," the pre-amble reads, "that great organization, the Illinois State Fair, is to be the 'greatest cooperative' suggested by the business men of Illinois."

Business men of Illinois, the trustees of the fair, Nedra, Illinois, and the Illinois State Fair Commission, Chicago, were equally vague as to what it was.
