

"Africa Speaks" Week's Headliner on Catlow Bill

Real Africa is a hundred times more thrilling, colorful and glamorous than it has ever been depicted on the stage and screen. This will be demonstrated when the Girls' Athletic Association of the local high school present "Africa Speaks" as a benefit show on Thursday and Friday nights of this week at The Catlow theatre.

"Africa Speaks" is the revelation of a train taken across the dark continent by Paul L. Hoefler, representing the Colorado-African Expedition, and offers a riotous blending of gorgeous scenery, picturesque savages, tribal dances and thrilling escapades with wild beasts. These actual scenes of the jungle surpass in vivid beauty anything that has ever been shown.

Among the outstanding scenes of the picture are the devastating effect of a vast army of locusts, all descended. The works of plant life, intimate glimpses of the orgies of the Bushmen, a race of tiny people whose dancing and singing would put to shame the savagery of the Negroes; a magnificent view of Ripon Falls, the source of the Victoria Nile; thrilling pictures of the fierce Maasai tribesmen in their to-and-fro conflict with forest lions and an intimate view of the spectacular Emir of Dikwa, a savage ruler, who is as colorful in his attire and mode of living as any of the tribes of the dark heart of Africa. All the wonders of the African wilds are revealed by the motion picture camera in their stark beauty. Life on the dark continent is shown in all its savagery, the blizars and the wild jungle beasts. It's all there—fact that is stranger than fiction and many times more entrancing than fiction. The photography is excellent and the entertainment value of the film is enhanced greatly by the sound effects. It has been rightly termed the strangest picture ever filmed.

A notable cast of comedians has been gathered in "The Bad Man," the feature for Saturday night's program at The Catlow theatre.

The cast includes the roles in the picture that do not call for comedy. Walter Huston plays the lead—the part of the gay and humorous bandit, Panza.

O. P. Heggie is a tremendous fun-maker as the crabby old uncle in the wheel chair.

Macaulay, "Peanuts," Bryan, "Gum

"Big Boy," Williams, Arthur Stone, and Johnny Arthur are among those in the cast.

"The Leather Pushers" and other short scenes will be added to the Saturday's program.

Clara Bow, all dressed up in a colorful new wardrobe right from Paris, plays her first straight fare role for the first time in "The Wedding Night." The Catlow theatre features for this Sunday and Monday nights, Ralph Forbes, Charlie Ruggles, and the rest of the cast in the dash to push the laughter to the limit. It's the Red-Head's debut in the field of non-dramatic picture playing.

"The Wedding Night" sizzles with Clara Bow and the dash is on top with many mad moments as entitling as the title. It's farce at top speed. In it, Clara has the kind of role she was born to play.

Sidney and Marlene, two of Hollywood's most popular comedians, will be seen in a new comedy, and an act, new, red and community sing complete the bill.

Far behind the lines of both opposing forces, men and women fought valiantly for their countries' honor and for the ultimate information regarding the operations of the war.

"Three Faces East," a mystery melodrama starring Erle von Stroheim and the famous Vitaphone will come to The Catlow on Tuesday and Wednesday, December 23 and 24, reveals for the first time on the talking screen the inner workings of the great spy system of two countries engaged in the World war.

Their bravery is dramatically depicted in this production which is added to the successful stage play of the same name.

Others in the cast are Anthony Bushell, William Courtney, Charles Walker and William Holden.

Friday night's scale of prices will prevail both days.

"River's End," the vitaphone production which comes to The Catlow

theatre Christmas night and the Friday following, is stark melodrama and daring romance. In spectacle and story it captures the imagination and carries a part that fits his superb vitality and physique, carries the story forward from thrill to thrill in a mighty panorama of adventure and love.

The all-star supporting cast includes Evelyn Knapp, J. Farrell McDaniel, David Torrence, Junior Coghill, Tom Santoluci, Zena Pitts and others.

"The Clock Shop" revue, a subject in keeping with the holidays, and "Our Gang" comedy, "Pups is Pups," are on the same bill.

Birds Climax of Nature's Handiwork Miss Lines Avers

By MISS JENNIE LINES
(From a paper read at the latest meeting of the Barrington Bird Club.)

Ever and ever so long ago, when the Great Spirit created our beautiful world he looked upon His work and it was "good." But something seemed lacking. "What is wrong with the world?" he inquired. "I have made the flowers for my people to look at and smell, the waterfalls and cool brooks to hear, the delicious fruits and clear spring water to taste—ah, but have not made music for my children to hear." And forthwith he fashioned a little feathered creature, the dearest and sweetest of Nature, to chant the morning hymn and the benediction of the day.

Thus the birds were brought into being as the children of Nature's handiwork. The flowers, the trees, the sun, the songsters of the dark days, reassured for the sad, added joy for the happy, a welcome to the weary, a solace to the savage, a gladness for the gay, relief for the hopeless.

And then the Great Spirit placed them in their little frames in the trees in the woods, in the fields, in the leafy country lanes, in the meadows fair, in the peaceful villages and hamlets, the king's gardens, the peasant's fields, the cedars of Lebanon, the cypress of the cypress—wherever the woodpecker chose to make his nest, cast her egg there.

In the Divine workshop were the birds designed for esthetic purposes only. The songsters were given to the birds that have their marriage customs which, if not so complex, is quite as essential as that in the human world. The crows, from whom all songsters originate, are birds of prey, and there exists a sociological system which, if not so complex, is quite as essential as that in the human world.

ELA HIGH SCHOOL

El Boys Win at Danville

The team of the judgin team from the agricultural class of Ela high school made a very good showing in the annual sectional judging contest for pupils of vocational agriculture held at Danville, Illinois, Dec. 12, and included the high schools of eight counties in the northeastern Illinois.

The team judging team, comprised of Harold Gossweiler and John Lehman, ranked third. Our poultry team, Ira Ernst and Glenwood Eickman, took the fourth prize ribbon and the grain judging team, Ira Ernst, Harold Hause, Maxine and Merrill Hause, were placed seventh. Harold Gossweiler and Ira Ernst each won individual awards. Harold Hause placed second in the grain and Ira Ernst placed third in the judging of poultry. Each competed against 65 boys to gain these honors.

Next spring we have our dairy and meat contest here in this county and in January we will have the state contest to be held. We hope to wife these also, so keep agin' boys.

Foods Class Serves Breakfast

The foods class, culminating the work of the breakfast and by serving a breakfast to the members of the faculty last Thursday, Pauline Fisher and Vivian Maloney officiated as host and hostess while Pearl Rohman and Del Hippolito served as the waiters. The other members of the class took their places as guests. A three-course breakfast was served as follows:

Fickers was in charge of properties.

As stated in the program of the show, "The Jewels extend their hearty thanks to the many individuals and people of Barrington for their valuable cooperation in the preparations for and staging of The Jewel Minstrels."

The motive behind the effort which produced the Jewel Minstrel entertainment was the spreading of Christmas cheer to the needy of this community.

The show will net \$1,000 for the Relief Committee.

Today it was announced that the gross receipts were between \$850 and \$900. As soon as all of those held

final accounting to the public of the funds received, it is stated by those in charge.

Next year there should be another Jewel Minstrel's announcement and programs should bear the caption:

"The Second Annual Presentation of the Jewel Minstrels." The community will welcome it as an annual event.

THREE LINE CIRCLE

ELECTS OFFICERS

The Three Line Society of Autumn Leaf Rebekah Lodge No. 625 held its annual election of officers Friday afternoon, Dec. 12, with the following result:

President—Elmera Foster.

Vice President—Carrie Witt.

Secretary—John A. Boyer.

Treasurer—May A. Boyer.

Mrs. Carrie Kendall, 118 S. Hough street, was the hostess of the Lodge's Christmas party. Progressive banquets were the diversion. Appropriate gifts were distributed and a bullet luncheon was served. Mrs. A. L. Scher was the chairman of the Circle members at the January meeting.

Articles to the Odd Fellows' Old Folks' home at Mattoon, Ill., to brighten the holidays, were eight bright handknit scarfs and 64 bits for hospital use.

BRIDE TO BE

GUEST AT SHOWER

Mr. LeRoy Pepper of 322 Chestnut street was hostess at a midmorning shower given at his home Friday evening by Miss Grace Pepper of Lake Zurich as the guest of honor. The out of town guests came from Chicago, Elgin, Glenview, Winona Lake, and Elkhorn. The young woman is playing tennis, after which light refreshments were served. Miss Pepper will become the bride of Edward W. Williams, Jr., of Elgin, on Dec. 22. The young man is a graduate of the University of Illinois and has made many friends here.

Barrington Woman's Club

The names of the women who will work in the cafeteria next week, Dec. 22 and 23, follow:

Donaldson, Dec. 22—Mesdames Sodt, Lawrence.

Tuesday, Dec. 23—Mesdames Gunthorpe, Hammond, and Smith.

The book "Crucible" by Bernard Jaffe, was reviewed at the Study Club by Mrs. Marvin E. Miner. This book, a series of little biographies of important men, won the 1929 Francis Bacon Award for the "Humanizing of Knowledge." Mr. Jaffe's manuscript was selected from several hundred of the best entries submitted to the competition.

The book is very readable—the story of chemistry being presented in such a romantic way that even the uninterested face it with interest.

Not only does Mr. Jaffe write of the lives of the fifteen important chemists, but he also weaves into his story the contemporary important events.

Part of the book is however, too technical to be understood by the average reader, such as certain formulas discussed by great chemists, but as Mrs. Miner, a chemist, said, "It is a great book."

Only little one knows of chem-

MUST CONSIDER HEN IN T. B. ERADICATION

Springfield.—The farm hen must be considered in any plan for complete eradication of tuberculosis from live stock. Dr. D. W. L. Weller, veterinarian in the state department of agriculture, observes. From a study of trial tests performed, tuberculosis in swine is traced directly to avian tuberculosis. In the poultry flock, the removal of fowls infected with tuberculosis, the veterinary authority urges segregation. Chickens ranging in pens are considered a particular menace as a potential source of avian tuberculosis in domestic animals.

THE ARMY'S NEW CHIEF

Few officers have had such a distinguished military career as has General Douglas MacArthur, who has just become chief of staff of the United States Army at the age of 50, the youngest ever to hold this highest rank.

Since he was graduated from West Point at the head of his class in 1903, he has held many important commands, and reached the rank of major general a few days before he was 45. As a first lieutenant he was military aide to President Roosevelt.

During the World war he served as chief of staff, brigade commander and finally as commanding general of the famous Rainbow Division, with which he took part in the St. Mihiel, Meuse-Argonne, and Sedan offensives, as well as other major operations, being wounded in action twice.

After the war he served successively as superintendent of the Military Academy at West Point, commander of the Philippines division, Fourth corps area, Third corps area and the Department of the Philippines, and has been president of the American Olympic Commission.

For his war services he received many American and foreign decorations, including the distinguished service medal.

The new chief of staff is the son of the late Lieutenant-General Arthur MacArthur, who also had a notable Army career, having been a brevet colonel in the Civil war before he was 20 years old, later serving in the Spanish-American war and during the Philippine Insurrection.

SOME MOVIE WINNERS

News of winners is always interesting, and many movie-talkie fans will be curious to know the result of a recent ballot by 600 creative artists of the screen for the outstanding performances and services rendered during the past year. Here they are:

Best performance by an actor, George Arliss in "Disraeli."

Best performance by an actress, Norma Shearer in "Divorce."

Best achievement by a director, Lewis Milestone in "All Quiet on the Western Front."

Best production of the year from all standpoints, Carl Laemmle for "All Quiet on the Western Front."

Best writing for the screen, Frances Marion for "The Big House."

Best art direction, Herman Gosse for work on "King of Jazz."

Best sound recording Metro-Goldwyn-Mayer sound department for work on "The Big House."

Best cinematography, Willard Vander-Veen and Joseph Rucker in connection with the picture "With Byrd at the South Pole."

Whether our readers agree with these selections or not, they may find it interesting to compare the judgment of the experts with their own.

MINERS' LIVES WASTED

Mine explosions, such as the recent one which caused the death of about 80 miners at Millfield, Ohio, could be almost entirely prevented by the adoption of newly discovered safety measures, according to government experts.

Many mine disasters are caused by the explosion of coal dust suspended in the air under ground. It has been found that by the introduction of other dust composed of inert materials, which mixes with the coal dust, the latter is rendered non-explosive. This method, known as rock dusting, is recommended by mining engineers but has not come into general use.

A recent report states that of 600 Ohio mines only about five are thoroughly protected by this new method, although such protection would cost only about one cent for each ton of coal mined. In other states the situation is doubtless much the same.

That operators should permit hundreds of miners' lives to be wasted every year through failure to provide this protection is horrible to think about. Surely such negligence should not be allowed to continue.

The TOWN DOCTOR

(The Doctor of Towns)

SAYS

A SUGGESTION FOR UNEMPLOYMENT

I have never seen a town that could not raise money for some sort of shindig, the supposed purpose of which was to bring trade to the community. To raise the money it appears that it is necessary to have much hush-hush, the element of chance, or a show with fireworks, such, perhaps, makes it easier to raise the money, but it is the very element that often is the cause of failure to gain the desired end—permanent increase of business.

I HAVE seen towns that WOULD not get going so sound, workable plans for consistently increasing community business, even when it was imperative to do so, just because it required working together, plus plain common sense, and "thinking" without "bollering."

But perhaps this condition that we have brought on ourselves has changed or will change that. This "depression" has forced us into situations composed of business men, or at least men in business, actually to think and work as a body instead of individually queuing, procrastinating, and passing the buck as regards community affairs, then it is almost worth the price.

There is no end of things to think about and DO, and there is at least one done. We have had an election. At election time there is always profit for the greater part of us, and creators of the various forms of printed literature advertising. Some day offer seekers are going to be required to take down, after election, the signs, stickers and placards they have put up before election; but that day has not yet arrived, and therein lies something to do that will serve the community well, nothing of giving work to deserving unemployed.

Paper, cloth, woodens, metal and other election signs are hideous enough before election day, but after that day they are worse. Turn, faded, out-of-date signs of any kind stuck, hung and plastered around a town are bad for every kind of business. They give a community a junky, tattered up, ill-kept and unkempt appearance that repels, when all have the same business and common sense demands that a community must keep inviting and attractive to hold the trade it already has, and win new customers.

PARADE

WNU Service

"None of that, now, or up you go! You clear out, you an' you!" A孟sonous with the duty of a孟sonous such night.

The woman's voice faded, whispering, "Three o' em are all alone." "As if that were a孟son of mourning."

Then Brian heard another sound—too faint to be heard, but beating against his ear, like the echo of a lost summer. He turned his face and saw her standing where she had been, her hands joined behind her, so that he could have touched her if he had known. "Linda," he said, and put out her hand to him like a lost child, as he had done.

Then took the few steps to the pavement side by side, as if they belonged to one another and had come there together in a孟son of quietness in the middle of the world.

It was a dark street of closed shop windows and little businesses where women did not belong. A wide-open doorway flooded with yellow light. A fruit stand to the world, offered public shelter. They walked on a little way, wordlessly.

Then all at once there was a door opening. "Coffee John," a孟soned arm drew them without contact, into the warm fragrance of a narrow place where one must walk single file or be crushed in the steamy vapors of huge coffee urns and fresh griddle.

"There'll be a little corner back beyond the counter," Coffee John, digging over his shoulder with a massive curled thumb.

They went as he told them.

Coffee John had been there so many years that he was remembered when he came. His shop was large enough to turn a孟son and a door to the world and deep enough to shelter his family. From his narrow counter he had fed the great ones of the city and offered the cup of charity to the most crippled of the poor. He had not moved from this place so that he had grown wide and heavy and his face was livid with the malice of his sustenance. But he had seen the world go by him in all its faces, even the false ones, and what was hidden behind the paper machine. His broad back, turned upon Brian and Linda, showed them into a narrow crevice of their own, and stranded them upon a shallow wooden bench, wedged behind a little table spread with paper, slipping o'clock, and paper, slipping o'clock.

They sat there, and she was there and that was enough.

"Why didn't you tell me, Linda."

"What do you know of love if you can't think it may be for such little reasons?" she said.

She dropped in her corner, fragile and bending from the outburst of the storm. Her face was a small white trifling, despite the thickness of her fur. Somehow he got hold of her hands and held them, warming her hands and her hands through her hands to her heart.

"I could not let you be hurt through me, Linda."

She had to go, in spite of his arms. She struggled to be free,

knowing that freedom meant the end of all things for her.

"You could not leave me—you never will, my sweet, my sweet! There's nothing else for you. There is no other life than ours. Listen, Linda, we will find our own. It will be small and fine and sweet, and it will belong to just us two. There will be no landlords and there will be no neighbors. Those little houses in the snow—that night—don't you remember?"

A reporter finished his coffee in the lighted front shop and slammed down the cup.

"Not much news in a孟sonup," he complained. "No news after all the boys got it. A孟son of the world faded, whispering, "Three o' em are all alone."

"As if that were a孟son of mourning."

Then Brian heard another sound—too faint to be heard, but beating against his ear, like the echo of a lost summer. He turned his face and saw her standing where she had been, her hands joined behind her, so that he could have touched her if he had known.

"I was lookin'! He was a man, man, though—O'Hearn!"

"Would have been. He'd have made the grade or been down at the bottom for keeps. Woods out of it, boy!"

"Tas like wood. Hard."

The door slammed. The reporter's face buried sourly in his turned-up collar, he moved past a window, near the entrance, and sardonically at the broad man in his narrow groove and vanished.

The door slammed. The reporter's face buried sourly in his turned-up collar, he moved past a window, near the entrance, and sardonically at the broad man in his narrow groove and vanished.

Coffee John finished his coffee in the lighted front shop and slammed down the cup.

"I was lookin'! He was a man, man, though—O'Hearn!"

"Would have been. He'd have made the grade or been down at the bottom for keeps. Woods out of it, boy!"

Bronchos Drop First Game in Tough Battle

The B. H. S. Bronchos dropped their first conference game of the season last Friday night by a score of 26-22, but what a battle it was! Barrington started slowly in the first half, and Antioch was leading 12 to 7 when the two teams squared for the rest of the game.

In the second half they kicked the dust off their feet. Aided chiefly by three baskets, which Bennet dropped in one after another, the Bronchos overhauled and passed. A Barrington lead of one point wasn't enough for Antioch, which often had the ball and the game ended soon after the Indians had scored one of their favorites, Grabenhorst, Jr., and Reese kept the Broncos in the running with two nice field goals each. Spiral and Turk were the leading performers for the Indians.

The Barrington Ponies ran up against lots easier competition and managed to keep their lead intact. They scored 10 points for the break and piled up a nice lead. The final score was 17 to 5. Capulli took high scoring honors with six points, but the whole team deserves credit.

On Saturday night Barrington took on the Wauconda team on the Wauconda floor. They have the entire team back which put Antioch out of the district race. Last year when they are going hot. Last Friday they beat Libertyville by one point when Bawley sank one from the mid-court of the floor in the ninth.

On Saturday night Barrington took on the Grandin team in the mid-district. Grandin has lost it is not responding to treatment as it should and now Bennet has a nice charley-horse to add to Coach Clark's worries. It is going to be a long year for the Bronchos to win but they have shown plenty of fight in all their games so far and that may carry them through.

Local Cagers Split Double Bill With Lake Zurich Teams

The Blackhawk cagers split a double header with Lake Zurich Tuesday night. The light weightings 18 to 16 and the heavies losing 19 to 21.

The heavyweight game was close and hard fought, though. Lake Zurich's favor and at no time were the teams separated by more than three points. Barrington's defense was very rapid, though, and the ball was well handled. In the ninth, Lake Zurich's fast forward, dribbled in for several pot shots which decided the game. Buckley and Cline led the local scorers with two field goals each.

Views of Our News
By Chicagoan

Chicago, Dec. 16.—Hello, Barrington folks! You didn't know I was here, I've been looking over viewing you and you were reflected in the columns of last week's Review. You'd be surprised what a faithful mirror of your community I found this good paper to be.

If the editor permits, I'll write each week, telling you what most interested me in the issue of the Review for the past week. I am an old one, who's been well acquainted, I think, with most of the papers in the country. However, when I'm too far off the track I'll let you know. You can always drop me a line in care of this paper. Now I find my new place in reading the weekly newspapers coming to my desk. Such papers as the Barrington Review are ever so much clearer to the lives of their readers than are the metropolitan sheets. In future letters, I'll say very little about myself, but will confine my remarks to the impersonal as I read the Review from time to time.

Like all mirrors of life, the Review must at times reflect the tragedy of its community, and last week it had the double task of chronicling the death of its editor, publicist Miles T. Lamey. I knew Mr. Lamey only by reputation, but though I had never met him I am able to appreciate the very rare qualities of a good man, which were so tenderly expressed in the black-bordered blank editorial column last week.

As one of the older inhabitants of the planet, I have enjoyed the right to extend the hand of welcome to Lee Anne Flock and Marie Mae Cuthow, these two sweet young ladies who recently took up their abodes in the homes of the newspapered parents. Some years hence they will read the accounts of their weddings in the Barrington Review, and then what about the day when they will open their eyes? What wars will have been fought; what will have been won and who will have died? who will be in Congress then, and will the talk still be about the depression? What about it; what will be the most popular means of transportation in that day? Oh, I could lose myself in such speculation.

Now here's a tip for the executive. If you don't want the whole world to know about your business, don't advertise it in the Review. How do you suppose the world would know if your son's pointer was affected with the warden? Well, I read it in the Review, and if that dog could read, he'd be home in a hurry, you may depend upon that.

Buckley getting his two in the last quarter, Indians had the lead last Friday night by a score of 26-22, but what a battle it was! Barrington started for Lake Zurich with five field and four free throws.

The lightweight game started out just the way you would expect. The Hawks held a 16 to 5 lead at half time. In the second half Lake Zurich, reinforced with several first team players, out-played and outscored the Indians, first in the fast, being 18 to 16. Gieseke, Pavlik, and Altenburg lead the lights to victory with two field goals each.

Blackhawks Break Even With Jewels in Charity Games

The Barrington Blackhawks broke even in their charity games at the high school gym last night. The Indians lost the first game to the fast and clever Jewel Tea quintet by a score of 32 to 15. Boyd, the Jewel's star center, dumped in seven baskets, but the Indians had a good offense. Buckley led the Blackhawks scoring with two field goals.

The fine defensive work of Downs and Guberman prevented the Indians from getting many short shots at the basket.

The lightweights won their second game in a row by winning the Jewel seconds a 12 to 8 setback. Both teams displayed some excellent defensive work.
