Replace old rubber now

THERE'S no doubt about it—old tires and hot weather just don't go together. The first real hot spell will prove this fact. The roadsides will be lined with cars that tried to squeeze the last nickel's worth of mileage out of thin, weak tires. You can buy Goodyear All-Weathers—better now in All-Weathers—better now in quality than ever before—the world's best-known and best-liked tires—at prices which have news-

The Sign
of Paint
Satisfaction

For 32 years Patek Brothers, Inc., Milwaukee, have been Making Paints for All Purposes

And their products have been used practically as fast as made. This demand for their paints denotes the high quality given and reflects the satisfaction assured when used.

Whenever you paint and whatever you paint, be sure Patek Brothers label is on the can of paint, varnish or enamel that you buy and you will always be sure of satisfaction.

The chemical analysis of every Patek Brothers product is shown on the label—further assurance that you are buying the best when you specify "Patek Brothers".

The ECONOMY STRAIGHT EIGHT

\$585 AND UP, F. O. B. PONTIAC

. . brings qualities that are NEW to the low price field

Pontiac has brought entirely new standards of performance and economy to the low price field. Here's a car—a big Straight Eight— that does not even resemble the \$585 car of yesterday!

yesterday! Pontiac is big, and it rides and drives as only a big, well-balanced car can. The wheelbase is 115 inches, the curb weight (4-door Sedan) is 326 pounds. New bodies by Fisher are roomier, more luxurious; seats are wider and deeper and more comfortable. New Fisher No Draft Ventilation, individually controlled, makes summer driving cool and pleasant.

Pontiac's modern Straight Eight incorporates the latest development in engine mounting—the five-point rubber cushioning that removes every trace of vibration! 77 horse-power; 78 real miles an hour. Yet Pontiac's modern Straight Eight engine is so efficient that it costs no more to operate than many smaller cars.

Come in for a demonstration. Then you'll agree that Pontiac is the outstanding car in the low price field.
