WHAT PRICE RECOVERY?

Almost everyone has been pulling for the national re-covery act and the coordinating efforts of the administration to pull us out of fine depression. "Well, no matter what it coats it will be werth it if it works" has been the general attitude in regard to the cost of the gigantic program. All of which prompting the question, "How much is it going to

According to Gould Lincoln, a writer for the Washington According to Gould Lincoln, a writer for the Washington. Star and a mai Slose to activities in Washington, the recovery program of the present administration is likely to run over 11 billiog dollars. In round figures he places the approximate totalsum at \$11.574,000,000 although on four billions of this argumt, he adds, the government guarantees only the interest. The total, according to Mr. Lincoln, may be subdivided as follows:

only the interest. The total, according to Mr. Lincoln, may be subdivided as fallows:

"Total capital structure or lending power of the Reconstruction Finance or operation, \$4.074.471,000.

"Appropriation for the NRA and Public Works administration, \$3.000,00,000.

"Bonds to begused by the Home Owners Loan corporation, on which the government guarantees interest at four per cent, \$2.000,00,000.

"Farm Loan ionds, issued by the federal government on which the government guarantees interest at four per cent, \$2.000,00,000.

"Appropriation made for subscription to the construction of the construction o

\$2,000,000,000.

"Appropriation made for subscription to the Federal Deposit Insurance corporation, \$150,000,000.

"Bonds of the Tennessee valley authorization, \$50,000.

000."

The writer nells that while the government only guarantees the interest on the bonds of the Home Owners Loan corporation and the Federal Farm loan bonds, it is not believed that the government would permit these bonds to become valueless. The tremendous financing of these various relief acts comes government we obtain the product of the produ budget. The government theoretically expects to get most, if not all, of this money back.

HIGH PRICES AND PROSPERITY

HGIE PRICES AND PROSPERITY

Yes sir, prices for merchandise are sure to be higher. If
you don't believe it, ask your merchant who is now receiving
invoices for his full goods. The advances in some lines of
merchandise are almost unbelievable. Some lines will cost
the merchant double what he paid a year ago. This advance
must be passed on to the consumer. Fact is, much merchandise has been prefuted in late years at a loss. Millions of
dollars in losses in operation have been reported from the
leading industries. Low prices for labor and materials have
been universal. But in the national recovery program there
is no place for siarvation wages and starvation prices for
raw materials. The wage earner and the producer must be
placed on a living basis and when this is done, up will go the
price to the consumer. But let us remember that prosperity
does not thrive of low prices.

When producers make a profit, when wage earners can
support themselves in a respectable way and even afford a
few luxuries, thed things will hum. There seems to be some
virtue in the assumption that the world was kidded into the
fate depression, row fast passing. Perhaps the kidding will
work both ways. We are looking forward and upward today.
Let's keep our eges lifted to the horizon of hope and keep
working. America has never had such a chance, as right now,
to pull itself out. 3- News, Terra Bella, California.

FAITH IN AMERICA

It is doubtful if any country on the face of the earth can equal Spartan courage displayed by the American people during the last it prevents of the depression, which deprived the majority of as of all the luxuries, and millions of even the bare necessities of a normal existence. It reduced men and women form comparative affluence to stark pauperism, seared the soul of American humanity as has never been done before.

before.

Yet in the face of this appalling blight our people have never lost hope. Their faith in America and American institutions has not wavered. Their trust in the ultimate recovery of the country was sublime, and that trust is bearing fruit today. It is counting edual to that of the Spartans of old, and in no section of the country has that courage been more clearly demonstrated than in the small towns and countryside. Now the un shines brighter and our smiles are becoming broader every day.—Chronicle, Toledo, Iowa.

MOTORISTS HIT HARD

Taxes amounting to over \$3.4 a second, \$2.047 a minute, \$122.900 an hour or \$2.947,992 a day, are paid by the motorists of the United States, according to figures based on findings of the Natismal Automobile Chamber of Commerce. The tremendous burdin imposed upon the users of motor vehicles constitutes 10.74 per cent of all the taxes collected by the Gospital state and local governments. It is shown that while Scheper constitutes and some paid of all time—\$1,076,022,000.
