Officers of New Rifle Club Will Be Elected at Meeting Friday Night

A local rifle club composed of all men sufficiently interested in marksmanship will be organized at a meeting in the Legion club room Friday night.

Officers will be elected, a gun range selected and rules governing the club adopted. It is probable that the range will be in a gravel pit on the Milo Kelsey farm northwest of Barrington as this is the only suitable place offered to the organizers of the club.

E. R. Sellock and C. E. Fuller of the Des Plaines rifle club spoke at the meeting held here last Saturday night. Mr. Fuller is chairman of membership of the Ninth district association of rifle clubs.

C. E. Paxton, temporary chairman, presided at the meeting.

Village Will Get \$21,000 on Bank Directors' Bond

A settlement for \$21,000 of the village claim against directors of the First State bank was reached by the village trustees and Attorney Howard Brintlinger representing the directors at a special meeting Tuesday.

According to the plan, the directors will pay \$5000 in cash and will pay the remainder off in installments over the next year period. The balance is secured by good collateral.

The agreement relieves the directors from their obligation to the village bond which secured the village deposit in the bank. A sum of \$2000 was paid down by Fred Hobson to "bind the bargain."

The village and Cuba school township held a joint deposit account in the bank totaling about \$45,000. An audit to separate the joint account revealed that the village had a claim of \$28,000; so Roland Melton, secretary, will amount to 75 per cent of the total.

According to prediction (not yet verified) the bank will pay a 20 per cent dividend this spring or early in the summer. This will release another \$15000 of the village deposit, or a total of \$24,000, leaving \$14,000 or 5 per cent of the amount still unliquidated.

Lions to Present Play for Benefit of Scout Troops

Local Characters to Be Married in "Henry's Wedding" at Catlow

"Henry's Wedding," a comedy farce, will be presented by the Barrington Lions club at the Catlow theatre on Wednesday and Thursday nights, April 11 and 12, for the purpose of raising funds for the scout cabin.

This is promised as one of the biggest events of the season and has the distinction of including the only public wedding of the year. At the big event will be held the wedding of John Cadwallader playing the part of Uncle Henry; Jack Immedi Miller playing the part of Sammie Green; also Dr. W. A. Fanning as Jack and Margaret Weichel as the bride and groom. Deway Nightingale as Susan Christopher and R. W. Dawson as Lawyer Brown.

"Henry's Wedding" is a story of a bachelor bridegroom of 45 getting married for the first time to a widow of 49, who has been married to a man who has died. This itself brings enough comedy and funny situations to keep the crowd in an uproar from start to finish. But what makes the situation more hilarious is the fact that Jack, Uncle Henry's nephew, planned to get married on the day of the show, and collect on the next day, his 25th birthday. \$100,000 from his grandfather's estate. However, the sudden announcement on the part of Uncle Henry of his marriage will cut Jack out of the \$100,000 and give Jack to the bride, Mrs. Weichel. Mrs. Weichel, however, has already attempted to stop the wedding with the help of his boy friends Ted and Harris, played by "Doc" Davis and Harold Wright. Persuasion fails and they turn to force, attempting to kidnap Jack, Henry and from here the comedy situation begins. O. Flaherty, the hard-boiled detective, played by Orville Wente and Miss his assistants played by Joe Weller are called in to help solve the mystery, and they add a lot of amusement and comedy to the show and keep the audience in an uproar.

Eliza, the Negro cook, played by Mrs. Sumner Mead, and her husband, Haster, played by Douglas Weed afford more comedy.

Big Steel Laying Project Planned by North Western

210 Men Will Get Work—70 of Them to Be Drawn From Barrington

A major private work project which will give employment to 210 men of Barrington, Fox River Grove, Cary and Crystal Lake has been approved by the Chicago and North Western railroad and may get underway next June, according to information given village trustees Monday night by P. G. Campbell, superintendent of the Wisconsin division.

According to the tentative plan 70 men in Barrington will be given employment and 140 will be drawn from the other communities. These will get a full month's work. About 50 of the 70 men will be kept on for the second month and a smaller number for the third month.

The project is laying of new steel rails from Barrington to Cary.

Mr. Campbell requested that the trustees prepare a list of men who are capable of doing the work. Needs for men will be first and married men will be given preference over single. The list of names will be prepared by the village and a smaller number will be shown. Before summer, the village clerk will compile a list of men eligible for the job.

Dr. Charles Gilkey Addresses 175 at District Meeting

Barrington Woman's Club is Hostess at Guest Day Program

"We need new mind sets that are constructive in world peace," Dr. Charles W. Gilkey, dean of the University of Chicago, told 175 members and guests of the Barrington Woman's club, assembled at the Methodist church Wednesday afternoon for the recent guest day program.

"For three centuries the world has found successive generations to fight at the top of the hat. That mind set is most serious and dangerous. We need new attitudes. Germany is teaching dynamite to her children. Whenever you run into prejudice, you find it set, sown and cultivated, breeds war."

"Our courage and faith is well-nigh broken. Our duty is to see that the day does come when we are willing to throw away our prejudice and strive for world peace."

"As each month passes, war seems more inevitable, and speaking of peace become more difficult. The threat of another war hangs over the world as Mt. Vesuvius threatens the inhabitants of the city at its feet. An eruption might occur and destroy them to live here until they were annihilated. Our civilization will be doomed if our war threat becomes a reality. The sky is growing darker and darker. History will judge us by what we did or did not do to prevent war. A working combination of economic, religious, and political influences will be needed to prevent it."

Education Needed

"There are certain contributions which education must make to the world. One of these is a truer understanding of the world."

Jewell officials explained the plan and the trustees agreed to the project and authorized connection of the fountain to the village mains.
