Woman's Club Party Held at Catlow Theatre

The Barrington Woman's Club annual Christmas party was held at the Catlow theatre Wednesday afternoon with a lighted Christmas tree, Christmas music and readings as features of the program. The real spirit of the occasion, however, was revealed by dozens of gaily wrapped packages piled under the Christmas tree, toys brought by members for children of the Little Wanderers' day nursery, Chicago.

Mrs. R. R. Hammond told the Christmas story, Mrs. Lester Higgins read from a chapter in Ben Hur, Chester Catlow played Christmas music on the theatre organ, Ray Gieske and Miss Olive Johnson sang. Reports of state and district conventions were made by Mrs. Elden Gieske and Mrs. Ralph Keeling. A travelogue moving picture completed the program.

Leave Cars on Park Avenue

The north side of Park avenue has been opened for parking, and persons who leave their automobiles in town while they go to Chicago via the railroads have been invited to use this new parking space. It is more convenient than Main and Cook streets and the west end of Park avenue, chief E. W. Bunde pointed out. Cars should be parked at a 45 degree angle the same as on the south side of the street. There is room for 50 cars on the new pavement.

Official Suggests Remedial Teacher and School Nurse

Continued from page 1
 an indication of their fine professional spirit.

"Your board is to be commended for the excellent work which has been done recently upon your building. I suggest that before long you investigate the matter of treating the floors of your building with a good seal. There are several good seals now upon the market. The seal should last for several years but will have to be waxed occasionally.

"It is unfortunate that you were obliged to go away with the position of remedial teacher in the elementary grades. I think you should replace this teacher as soon as your essential condition will permit to care of the pupils who do not make normal progress with the regular instruction.

"Also it seems to me a school system of your size needs the services of a trained nurse, for at least part-time. A nurse may be expected to make periodical physical inspection of all pupils, watch for signs of any contagious disease, call at the home of children who are out of school on account of illness, do the follow-up work in seeking to have physical defects taken care of, give health talks in the school rooms and in general promote the physical well-being of all pupils.

"You are to be congratulated for your recent purchase of maps. You have one of the best collections of maps I have found in Illinois. I trust each year you will make a liberal appropriation in your budget to keep reading material, reference books, maps, etc., up-to-date.

"With best wishes for your school system.
 Sincerely yours,
 Signed Floyd T. Gooder,
 Assistant State Superintendent"

The holiday season brings all these—but it brings more. It brings thought of distant friends, and the feeling of good will towards all mankind. To our friends and neighbors we wish all the joys and comforts that are contained in those magic words
