Postmaster Job Here Sought by 17 Local Persons

Complete List of Applicants Is Received From Washington

The recent scramble for Barrington's second-class postmaster vacancy resulted in 17 local persons submitting applications with the civil service commission at Washington.

Twenty-two application blanks were known to have been taken out for the Barrington postmaster-ship before the final day for sending applications, February 23. Twenty-one of them were in sight of H. Robertson, chairman of the local board of civil service examiners. The other one was obtained through the Arlington Heights post office. It is possible that other blanks may have been taken out from other civil service representatives or directly from Washington.

Rescancellation of the postmaster-appointment may be received any day now, Mr. Robertson expected as the expiration date of the term of the incumbent, the present postmaster, was last Monday, Feb. 25. Mr. Langendorf will continue to hold the position until formal announcement of the new postmaster is received from Washington.

A full list of the competitors who made applications to enter the examination for the Barrington postmaster-ship, according to notes from Washington, follows:

Lee LaPointe, Vernon A. Richter, John A. Schwartz, Hans A. Lammey, Miss Mathie Schaefer, Louis E. Thacher, Cornelius F. Snyder, Arthur H. Lageschulte, Rudolph F. Kocher, Jr., Stephen H. Chappick, Leonard J. Park, William J. Scott, James Egan, Andrew Millard Sowers, Charles William Dahir, William Skinner and Russell J. Engelman.

Local Youth Fails to Recover After Blood Transfusion

Earl Nicolai, 13-year-old Barrington school boy, died at the Sherman hospital, Elgin Sunday night at 11 o'clock following a short and serious illness known as a combination of meningitis and encephalitis. He called sick after a blood transfusion given by Dr. H. L. Eagle last week but a gradual decline in strength followed.

Physical exercises will be held Thursday at the home of the boy's parents, Mr. and Mrs. Edwin H. Nicolai, 429 W. Main street, at 7:30 p. m. and at the Methodist Episcopal church at 2 p. m. Rev. H. L. Eagle will officiate, and burial will be at Evergreen cemetery.

Earl Nicolai was born at Barrington and was attending the eighth grade of the local school at the time of his death. He was a member of his scout troop 21. He is a son to his parents, a year brother and three sisters survive.

Utrach Alumni Meeting

Mr. Wirt Lawrence attended the 15th annual winter dinner of the alumni of the University of Chicago at the Union League club Thursday evening. President Hendrix and Professor Grace Abbott were most chiel of the children's bureau in Washington, D. C. were the speakers.

Garden Club Appoints Committee to Arrange Exhibits at Chicago Show

The Garden Club of Barrington is working plans for its exhibit in the annual flower and garden show to be held at Navy pier, Chicago, during the week beginning April 4. A local committee to arrange a dinner table with the exhibitors has been appointed. It consists of Mrs. A. Christian Kohlman, chairman, Mrs. Robert P. Howard, Mrs. Sheldon Clark, Mrs. Frank Whiting, Mrs. Porter Smith and Mrs. Gordon Cameron. Two minor exhibits will also be displayed. A terrace table will be arranged by Mrs. Samuel Nowy and Mrs. Richmond Knapp. A terrarium will be entered by Mrs. Alfred E. Bartles.

The chief activity of the local club during the winter is its study class that meets the first Monday of each month. The next

Relative of Barrington Persons Found Dead From Heart Failure Sunday

Charles Boeck, 55-year-old farmer living alone on Elm road south of Dundee road about three miles west of Palatine, a relative of several local persons, was found dead in bed Sunday night by Constable Charles Fols of Palatine township. Mr. Fols was called when neighbors, seeing smoke from the man's chimney and not finding him about the home, suspected something was wrong.

The body was taken to the Danielson funeral home in Palatine where a coroner's physician examined it and reported that death was the result of a heart failure. Mr. Boeck had lived alone for 20 years. Smoke was seen coming from his chimney Saturday morning according to a neighbor.

Mr. Boeck was a brother of Mrs. J. C. Mueller of Cuba township. Mrs. O. C. Hoeberle, 644 Grove avenue, and Mrs. Martin Jurs, 121 N. Hazel avenue, were his nieces.

Five Candidates for Commissioner of Roads in Cuba

Cuba election, April 2, will be the most interesting town election in the Barrington district, as usual. Due to the competition for the offices of road commissioner and justice of the peace.

In Barrington and Elm township there can be little competition unless old fashioned "writing-in" campaigns get started on election day.

Tuesday was the last day for filing nomination papers for township offices. In Cuba the following persons are candidates for road commissioner: J. J. Claude, Fred Koop, Fred Otto, Ed Pepper and William O. Schumacher. For justice of the peace to fill a vacancy, James Bailey, E. Gross and Robert Aikin are candidates for nomination papers. Only one election of the peace will be elected at this time, although another vacancy would occur if J. J. Claude should be elected commissioner. Mr. Claude is now the only justice in Cuba township.

In Elm township Lloyd Pepper and Louis Greig are candidates for road commissioner. There is no candidate for the office of school trustee, so the next man to fill the office will probably be elected by having his name written in on the ballots election day.

In Barrington township Henry A. Schaefer is again candidate for school trustee and is without opposition. There is no candidate for justice of the peace to fill the vacancy which has existed since the death of the late Paul J. Jura. If a justice is elected it will be through the write-in process. Arthur Catlow is the only justice of the peace in Barrington township, although A. D. Church, police commissioner, fills an office similar to that of justice.

Quarantine Lifted

The scarlet fever quarantine has been taken from the home of Mr. and Mrs. A. F. Schaub, 329 E. Liberty street.

Present Sewer Bill in Face of Injunction

The village completed its present combined sanitary and storm water sewer in the latter part of 1927, and a permit was issued by the state Illinois to use this sewer. Before the construction of the present combined sanitary and storm water sewer, the village had no sewer system. The question involved was the right of the village to use Flynn creek in which to empty a sewage effluent into Flynn creek without first condemning Flynn creek rights. The decision was adverse to the village. The village now faces the alternative of condemning Flynn creek rights in the creek for a proper effluent by a circuitous route to Northwest highway or arriving at the Northwest highway and condemning Flynn creek rights from that point to the Fox river. It is considered the

Maloney Requested to Seek Approval of PWA Sewer Loan

Attorney Hopes to Leave for Washington Sunday for Consultation

Village Attorney David B. Maloney will go to Washington Monday or Tuesday to consult federal public works administration officials in an effort to obtain approval of Barrington's proposed sewer loan if an appointment can be obtained before the end of the week.

The decision instructing the attorney to go to Washington was reached by the village board at its regular session Monday night (three hours' time had been consumed in discussion of the sewer problem). A resolution requesting the trip was drawn up at the meeting and passed by the board unanimously.

The request that Mr. Maloney go to Washington in the interest of the village was a development of a discussion that followed the statement of a detailed report on the sewer question, a response to questions that were brought forth in the recent report of the civil advisory committee.

Mr. Maloney emphasized that there is now great danger of having the loan disregarded, that there is little chance to convince PWA representatives by correspondence and that personal consultation at Washington is the only hope of securing approval of the PWA loan. The board was in sympathy with the attorney's viewpoint and acted accordingly by instructing him to go to Washington.

The report read by Mr. Maloney covered the best and most economical method of financing the sewer improvement. A program submitted by the attorney to the board last Wednesday, dealing with the necessity of the sewer improvement and the procedure for obtaining such improvement by the issuance of sewer revenue bonds, follows:

Wednesday, Feb. 29, 1935
President and Board of Trustees of the Village of Barrington, Illinois
Gentlemen:

Your board recently requested me to report in writing, upon the various phases of the sewer improvement problem. The questions referred to in the recent report of the civil advisory committee to the board are as follows:

It seems to me that the important questions to be considered in connection with the sewer improvement are: first, the necessity of constructing a sewer improvement; secondly, the question of financing the sewer improvement; and thirdly, the best and cheapest method of financing the improvement. In addition, we should have the engineering questions, as to the type and kind of improvement and the adequacy of the improvement.

Why a New Sewer Improvement
The most important consideration in connection with the sewer improvement is the necessity of reconstructing its sewer system. I think it is generally accepted in the village, since the decision of the supreme court of Illinois, that some sewer construction in the village is imperative. If we will go into the history of this question, however, we will observe that the decision of the supreme court only recognized an existing condition which the village had recognized even prior to the decision of the circuit court of Lake county.

Present Sewer Bill in Face of Injunction
The village completed its present combined sanitary and storm water sewer in the latter part of 1927, and a permit was issued by the state Illinois to use this sewer. Before the construction of the present combined sanitary and storm water sewer, the village had no sewer system. The question involved was the right of the village to use Flynn creek in which to empty a sewage effluent into Flynn creek without first condemning Flynn creek rights. The decision was adverse to the village. The village now faces the alternative of condemning Flynn creek rights in the creek for a proper effluent by a circuitous route to Northwest highway or arriving at the Northwest highway and condemning Flynn creek rights from that point to the Fox river. It is considered the

Informs Board of Local Labor Angle to PWA Sewer Job

Engineer Encourages Quick Action to Obtain Sewer Loan

Stating that approximately 95 per cent of the labor used in the construction of Barrington's sewer improvement is financed by the proposed PWA sewer loan of local men, Arthur W. Consoer, representing the concern of Consoer, Older and Quinlan, village engineers, stressed the importance of not delaying in the necessary steps still to be taken in obtaining the loan. He made this plea in a report and discussion at a village board meeting Monday night.

Mr. Consoer discussed many of the technical angles of the issue, explaining them differently than they had been presented to the board previously. His discussion on the same night that Attorney David B. Maloney submitted a report and clarified numerous details of the problem were principal influences in the board's decision to request Mr. Maloney to go to Washington to secure PWA approval for the loan.

Respects Non-union Labor
"Only about five per cent of the labor will probably be brought in on the job," Mr. Consoer said. "I am satisfied to believe that most of the labor will be local men, especially since the sewer project is non-union. If it were unionized, Barrington labor would be hard to get, but since previous water and sewer jobs in Barrington have been non-union I am satisfied that this one will be the same. However, the board must be firm in not taking a union contractor. The PWA engineers estimate that the cost of sewerage for common labor, 80c for skilled labor, and \$1.20 for skilled labor. Union rates would of course be higher."

Mr. Consoer strongly encouraged immediate action in the village's attempt to obtain the loan. He said that the money for similar projects was being doled out rapidly, and although large sums are available at the present time for re-employment because of numerous projects which have been defeated by referendums and other causes, there is not much time left for action.

When questioned as to the adequacy of an engineer's estimate, Mr. Consoer informed the board that three reliable contractors had studied the preliminary plans and had indicated their willingness to take on the job. One of the contractors referred to had recently completed a PWA job in Peoria. When the question of "extras" was raised, the engineer said that an allowance had been made for all such possibilities. Approximately \$8000 has been allowed for damaged curbs, sidewalks and pavements.

The engineer asserted that he himself had been opposed at first to PWA financing of public improvement, but he is now completely satisfied that all early difficulties have been remedied. His experience with similar situations has convinced him of the value of PWA financing.

Breaks Ankles
Mrs. J. A. Calkins, 314 E. Liberty street, slipped and fell on the ice near her home Saturday and broke her left ankle.

Earl Hatje Files for President of Board of Trustees

Only Candidate for Mayor in Field Now; Others May File

Earl Hatje, a trustee since May, 1931, has filed nomination papers for election to the office of president of the board, and to-date is the only candidate entered for the office. Mr. Hatje filed in advance and will not be a member of any cooperative group or party of candidates, he stated earlier.

Elden Glecke, now serving as president, has taken out nomination papers but has not announced whether he will be a candidate for president or for trustee. John Cadwallader, who served as president for several terms prior to May, 1933, and who was elected trustee last April, may be a candidate for president. He has taken out nomination papers but has not decided whether to be a candidate for president or for trustee.

Those who have filed for office include:

For president—Earl Hatje.
For trustee—John A. Calkins, John H. D. Blanks, H. D. A. Grebe, Vernon H. Schroeder, John F. Daeschler.
For clerk—Arthur C. Burandt.
For library trustees—Mrs. W. N. Sears and Howard Brittinger.

In addition to the above, the following have taken out nomination papers: Ed. Langendorf for clerk, Rudolph Kocher, Sr., for village trustee, John Cadwallader and Elden Glecke for either trustee or president of the board.

All of the candidates listed above now hold village office except Mr. Grebe, Mr. Kocher and Mr. Langendorf. Mr. Grebe is proprietor of the village hardware store and in length of service is one of the three oldest merchants in Barrington. Mr. Kocher is a plumbing contractor. He served on the board from 1929 to 1931. Mr. Langendorf is postmaster, but will retire from government service when a successor is named some time in March.

Will Confer With County Officials on Joint Account

A resolution requesting their attorney W. L. Danwell, to confer with Charles E. Mason, state attorney of Lake county, and C. P. Pettit, superintendent of Lake county schools, for a recommendation for adjustment of the joint account of the village of Barrington and school township 42 in the closing of the fiscal year, was adopted by the board of trustees at a meeting at Keely school Thursday night.

Mr. Danwell plans to meet with the Lake county officials before the end of the week. The joint recommendation that is being sought from Mr. Mason and Mr. Pettit will be submitted in a report to the school officials at an early meeting. It is thought possible that the township will then be ready to confer with village officials in an attempt to make final settlement of the accounts.

The meeting Thursday night was well attended by representatives of nearly all of the school districts concerned in the settlements as well as by a number of taxpayers. F. W. Homuth presided over the meeting which was attended by Harold K. Kuntz and Vernon Hoban, other members of the board, as well as by William Gottschalk, treasurer.

Most of the 11 districts in the village have been settled. Part of the area is in McHenry county, and a small section is in Cook county.

Small Fire is Quickly Extinguished Saturday Noon by Local Firemen

A small blaze in the roof of J. C. Cadwallader's residence at 108 W. Main street was promptly extinguished Saturday noon by the local fire department. The call was placed at 11:45 in the morning.

The fire was in the region of the chimney and is thought to have been caused by sparks falling on the roof or by an over-heated chimney.

John Koenig Receives Recognition for High Grades at University

John Koenig, a nephew of Rev. Herman Koenig, 333 E. Main street and a sophomore in the University of Illinois college of liberal arts and sciences, was one of 89 students to make the 5.0 average, the highest obtainable grade, for the first semester's work. It was announced by Dean M. T. McClure.

John is a graduate of the Barrington high school. He came here from India, where his father is a missionary, to complete his education.

The freshman class topped the list with 27 honor students, and was followed by the Juniors with 23. The seniors ranked third with 21, and the sophomores trailed all the others with 17.

Of the 89 students of the group were men and 42 women. From the records of last year 46 men and 440 women secured perfect grades. Of last year's group 22 were sophomores; 20, freshmen; 16 seniors; 14, transfer students; 12, Juniors, and four, irregular or unclassified students.

2 Commissioners Will Be Elected by Park District

Two commissioners for the Barrington Park district will be elected by the regular election to be held on Tuesday, April 23, according to announcement by E. J. Langendorf, secretary of the board.

The two commissioners whose terms expire this spring are Arnold H. Sass and Martin H. Schreiber. Although he has not stated his intentions relative to the election, it is believed Mr. Sass will be a candidate for re-election. Mr. Schreiber, who has been a commissioner since the district was organized, will not be a candidate.

Next Monday, March 4, will be the first for filing nomination papers. Tuesday, March 20, will be the final day for filing. Monday, April 1, will be the final day on which candidates may withdraw from the race. The present commissioners are Mr. Sass, president; Mr. Schreiber, Alush H. Calkins, Mrs. R. R. Hammond, and F. L. Waterman. Mr. Langendorf is secretary and H. J. Jurs, treasurer.

Short Time License for Sale of Liquor Granted C. Lipofsky

A license to sell liquor in the basement of the Barrington Recreation building, Station street, was restored to C. Lipofsky by the village board Monday night.

The license was the form of a compromise offering following a debate in the council chambers between Mr. Lipofsky and J. D. Robertson, representing objectors to the proposal to sell liquor at that location. It will expire May 1 at the time that all present licenses expire.

A chief objection to the basement as a place in which to conduct a tavern is its lack of visibility from the sidewalk in front of the building—a point required by the state liquor act, reported to The Review last week was found to be of little importance.

Review to Be Printed Earlier; Thursday Delivery

The Review will go to press Thursday morning, hereafter, for afternoon mail delivery on the same day.

Last week this plan was used because of the fact that no mail delivery was scheduled for Friday, Washington's birthday; and if the old press time had been observed, the newspaper would not have reached the majority of readers until Saturday morning.

Since last Thursday several readers and advertisers have requested that we make the Thursday delivery plan permanent. Our city delivery and out of town subscribers will appreciate receiving The Review 20 hours earlier, and all users of display and classified advertising will benefit from the change.

The Review staff will appreciate having the correspondents and other news contributors and the advertisers cooperate by getting their copy to The Review earlier. Classified advertising should be received Monday, Tuesday and Wednesday morning.

Emil Wetten, Barrington Farm-Estate Owner, Nominated for Chicago Mayor

Barrington. He is known personally by hundreds of men and women in the village and surrounding community and is still claimed by this community as one of its own citizens. Local persons take pride in the fact that their neighbor has received the honor of nomination by a majority of 22,671 votes over his two opponents Mortimer B. Flynn and Mrs. Grace Orr.

The Democratic nomination went to Mrs. Mary Edwards J. Kelly, Mrs. W. J. Kelly's daughter. Mr. Wetten is owner of the Wetten farms a mile north of

Holdup Men Loot Deep Rock Office; Escape With \$81

A trio of young amateur bandits held up the attendant and looted the office of the Deep Rock Oil corporation, 100 W. Main street, Saturday at 8 p. m. The men made a small ransom with \$81 in currency and a small check. Martin Jurs, Jr., the only attendant in charge at the time of the hold-up was forced to turn over the money when two of the men drew their guns.

The three men were short, had dark complexions and gave an impression of being inexperienced, he said. The third remained in the car waiting to drive away. As soon as the men were satisfied with their loot they scurried to the car and all three drove east on Main street through the village apparently headed toward Chicago.

The two men who help up Mr. Jurs were nervous and lacked the gruffness and confidence of professional bandits. The attendant in manner in which they pointed their guns disturbed Mr. Jurs. One, who appeared to be the leader and who was masked as he entered, started a demand to his companion to cover up his face. The bandit responded by pulling a handkerchief up over his face.

The office was thoroughly searched, its contents being left in a state of disorder. The men frequently asserted that they were looking for a larger sum of money which they thought was in the office. They vainly demanded that Mr. Jurs turn over about \$200, which they said they were certain he had.

Finally, before leaving, they disconnected the telephone by breaking the wires. They searched the office for a place in which to lock Mr. Jurs. Upon their inquiry for such a place the attendant assured them that they would find none.

Without the use of the telephone Mr. Jurs was unable to notify police before the bandits had escaped.

Attendant Is Covered With Two Guns by Nervous Bandits

The three men were short, had dark complexions and gave an impression of being inexperienced, he said. The third remained in the car waiting to drive away.
