

BARRINGTON REVIEW ESTABLISHED 1885

LESLIE W. MCCLURE, Editor and Publisher

WALTER R. WINTERHOUGH, Business Director and Foreman

ILLINOIS PRESS ASSOCIATION

Published every Thursday afternoon at Barrington, Illinois, and entered as second-class matter at the Barrington post office under Act of March 3, 1879.

All communications should be addressed to the BARRINGTON REVIEW, 110 W. Main Street, Barrington, Illinois. Cards of thanks, resolutions of condolence, obituary, poetry, memorials, and all notices of entertainments or society and church sales and parties given for pecuniary benefit will be charged for.

TELEPHONE, BARRINGTON NO. 1

THINKING FOR THEMSELVES

The present session of congress thus far has been one of the most unusual in history. To begin with, the democrats had a record-breaking majority in each house. It was predicted that the republicans would not be able to interfere in anything the administration wanted, and they could not. But these forecasts did not take cognizance of the fact that in addition to the republicans there were democrats at the capitol who had begun to think for themselves in the third year of the new deal. Legislation of the type which two years ago was rushed through congress has been subjected to a searching analysis by thoughtful democrats, and much of it found basically wrong.

Republicans have been almost silent. But some of those men recognized as the ablest democratic senators have been so. So, going right down the coast there are Senators Tydings of Maryland, Glass and Byrd of Virginia, Bailey of North Carolina, and George of Georgia attacking bureaucratic trends in their own party. Then Senators Clark of Missouri, Murphy of Iowa, Walsh of Massachusetts, and others taking pot shots at new deal legislation.

WE LIVE LONGER

The average life of mankind in the time of Queen Elizabeth was twenty years. Today the average is fifty-eight years for man and sixty-one for woman, who is biologically more important. Recent discoveries in medicine are leading to astonishing results, and give a prospect that the life of man will soon reach the Biblical promise of three score and ten.—Drs. W. J. and C. H. Mayo.

OBJECTIVE: CONTENTMENT

Intelligence is what you get from home. Common sense you must develop yourself. Learning is what you obtain in school. Knowledge is what the world hands you. Judgment comes only with the years. Experience is a better medicine administered by life itself, and must be taken with a bit of conscience. Wisdom is a phantom often chased but seldom overtaken. Success or failure are a matter of opinion. Reputation is the golden scale. Contentment the final objective.

Guest Room Privileges

TRILLIA DICK

"Dear Mother, if you get tired of telling me to tidy my room, as I do of—Mary Lou Brown stopped abruptly, realizing that her remarks were more derogatory upon impudence. Mrs. Brown gazed steadfastly at her fourteen-year old daughter for a moment then answered with a comparison. Mrs. Brown cared for your room, as a girl your age should, I wouldn't have to say anything."

"Oh, I know," Mary Lou petulantly hurred a pair of shoes into her closet, and switched the bed clothes off onto the floor. "If I had a pretty room like the guest room, I'd keep it tidy."

"The must learn to care for it properly," she murmured. "But how? I mustn't make her sullen and rebellious. If I could get her to take pride in tidy room—she'll be fixing on one more over the worst time problem."

Properly she went in Mary Lou's room again. "You think the guest room is so pretty," she said, "how would you like to stay in there a while?" "Really? May I, Mother? O, I'd love it. It's such a pretty room."

"Of course, it would be on condition that you kept it looking as

WHAT'S GOING ON IN WASHINGTON

(Courtesy The United States News)

Threats of new taxation disregarded, a soldier bonus bill is reported out of committee for favorable action by the senate. Measure reported out is not the Patman bill passed by the house calling for immediate payment in greenbacks, but a "compromise" bill sponsored by Senator Pat Harrison (Dem.) of Mississippi.

It would move forward the date on which face value of adjusted service certificates might be obtained; permit immediate payment in greenbacks, but a "compromise" bill sponsored by Senator Pat Harrison (Dem.) of Mississippi.

Additional cost to the taxpayer, as estimated by veterans' administrator Hines—one billion dollars.

Notice from secretary of the treasury Morgenthau: "A new tax plan to meet the cost is ready; it calls for raising the money by taxes on inheritances."

A buyers' panic in silver swept over the world as Uncle Sam pushed up the price paid for the newly-minted domestic metal. Private traders follow up the advance and pass it.

Market price on April 27—51 cents an ounce, up from a low of 45 cents in 1925.

The reason: Congress ordered the president to acquire silver to one-third the value of the national gold stock or until silver was worth \$1.29 an ounce, statutory value when minted into coin. Yet to be purchased is more than a billion ounces.

One result: China, chief silver money country, enters a deflationary crisis; protests America's policy and advises its citizens to show their patriotism by refusing to buy American goods.

To clothe the Agricultural Adjustment Administration with nearly adequate powers for the establishment of an "emergency" fund, amendments to the AAA act are reported favorably out of the house.

Powers added or "clarified," as proposed in the amendments: 1. The right to license retailers, and to examine their books. 2. The right to pay benefits for increasing production as well as for restricting it.

Refused in the committee report are AAA demands for: 1. Power to license retailers of farm products, so as to prevent milk dealers and chain stores from wrecking control programs. 2. The right to impose production quotas on individual farmers when two-thirds of the growers of any crop vote for such action.

Crisis the Liberty League, assailing the entire program: "It means regimentation of agriculture, one-man control over the 40,000,000-acre processing industries."

Replics AAA Administrator Dallas: "The voice of property rights in disregard of human rights."

To build high, and strong the national flag of defense, a half-billion-dollar appropriation bill for increasing the navy and the naval air force is approved by the house.

Number of warships to be built—24. Navy airplanes would be increased to 1466. Navy personnel to 93,313.

Enlarged in the program are still higher expenditures in the years immediately following.

Cause of heavy expenditures, as reported by chairman of subcommittee reporting the measure: "The nation's fleet of battleships only 21 vessels since the Washington Treaty of 1922."

Alleged objective of the program: "A Navy that will be the mistress of the seven seas."

Least congress forget the other side of bus and truck regulation, already approved by the senate, spokesmen for motor transportation for farmers hasten to present their case. Predicted effect of gutting "all methods of transportation on an equality": 1. Higher rates for those who now use the more flexible service of trucks and buses as charges are equalized with those in effect for the higher-cost rail carrier. 2. Loss to the public of the transportation facilities accruing from its vast expenditures for highways.

Results are results of a study showing less than 3 per cent of the nation's haulage going by truck in 1932. Truck competition is increasing production as well as for restricting it.

Will Rogers Is Starred in Film Coming Wednesday

"West Point of the Air" Brings Wallace Beery Sunday

The new Janet Gaynor-Warner picture "On My Spring" closes tonight at the Gaiety theatre to make way for the Friday-Saturday showing of Rudy Vallee's "Sweet Music."

In this film, Rudy is but one of eight stars, and credit for the high entertainment value of "Sweet Music" must be shared with Ned Sparks, Helen Morgan, Eric Armstrong, Allen Jenkins, Alice White, Joe Castellan and Al Shean, who combine to elevate this number to the "heights of gaiety."

"West Point of the Air," the Sunday-Monday feature, tells the gripping story of "Mike" Mike, Little Mike and Skip.

Ripe Mike, played by Wallace Beery, is a sergeant on the flying unit. Little Mike is his motherless son, who a fond father is grooming for West Point and future flying honors. Skip is the captain's daughter.

West Point gives Little Mike the swelled head, and a three-time divorcee turns aside the nice true love. All this adds a nice problem to be worked out against the thrilling exploits of a young crew of airplane flyers.

Robert Young plays the role of Little Mike; Laurens O'Sullivan as Skip; and Lewis Stone, that of the captain.

"Donkey Baseball" will be a novelty reel for the program, to which will be added a new "Pop-eye" cartoon, late news and comedy mingling.

"The baron's" the baron's offering next Tuesday, the result of Mr. and Mrs. Martin Johnson's aerial exploration over the unmetrable portions of Africa. They created it from the labor of two years, during which time they traveled some 40,000 miles by air above jungle and plain.

"If then quintuples up yonder were born in this country, two of 'em would have to be plowed under!"

That is a sample of the homely philosophy to be found in "Life Begins at Party," the new feature picture scheduled to show at the Gaiety next week Wednesday, Thursday and Friday.

In the story "Hogwarts" portrays a small-town banker, who corners a crooked banker and sends a broken romance through his inheritance of a large fortune and down to earth humor.

Robbie Hudson, Dick Cromwell and Slim Sammons are featured players in this popular and pleasurable film.
