**There's lots of room in the FORD V-8**  
EVERY ONE who steps into the Ford V-8 for the first time is surprised at its roominess. There's exceptional seat room, leg room and head room in all body types — the whole car gives you a feeling of substantial size.  
The Ford gives you extra body room because of the compact design of the V-8 engine — an exclusive Ford feature at a low price. This V-8 engine takes up less space in the hood and permits more of the car's length to be used for passenger comfort. Many a car selling at a higher price does not give you as much interior room as the Ford V-8.  
Rear seats are wide and restful... three people can ride comfortably in the front seat of the Fordor Sedan, Fordor Touring Sedan, Convertible Sedan and Phaeton, and in the Coupe and Roadster. The seat of the Ford V-8 Roadster is 52 inches wide. A ride in the Ford V-8 will show that it combines unusual body room with fine-car performance, safety and comfort.
