

Barrington Bears Scalp Highwood Indians by 12 to 9 Score Sunday

Locals to Travel Sunday to Meet Algonquin Owns

Deluge of Hits and Runs in First Inning Decides Contest Here

The Barrington Bears emerged victors of a nine inning battle with the Highwood Indians by a score of 12 to 9 Sunday at the local diamond.

Charles Altenburg and Al Heitman shared pitching honors for the Bears. Charley pitched the first six innings with an excellent count of ten strikeouts and only one walk. Heitman pitched the next four and two men allowed to walk.

The heaviest hitting was done by the Bears in the first inning. Willie Altenburg, Emmie Altenburg, Charlie Kenney, and Charley Altenburg each connecting with a single.

Runs were scored in the first by Willie Altenburg, Emmie Altenburg, George Condit, Berg, and Kenney. William Altenburg, Emmie Altenburg and Kenney hit singles in the second, runs being scored by Williams and W. Altenburg. Willie Altenburg came back to the field with a single, no run being scored.

Doubles were made by Berg in the fourth and Reuse in the fifth. Kenney hit a single in the fifth and also hit a single in the sixth. Willie and Charley Altenburg each connected with singles in the seventh. Charley scoring a run on a balk by Barnard, the Indian pitcher.

George and Berg wound up the sixth for the Bears, each hitting a double. George scoring in the eighth inning. George received a sacrifice throw, though, to be a double. He was replaced by Charley at base by "Red" Helms. Charley did the pitching for the Bears, striking out four men and allowing two walks.

Monty did the heaviest slugger among them connecting with a single in the fifth and a triple in the sixth. Charley and Nordini each hit doubles in the fourth and sixth innings respectively. "Train" collected a single in the first and Larry drove one out in the fourth. Singles were made in the sixth by Emmie, Trucano, and Barnard. A single was hit by Barnard in the seventh and he repeated in the eighth. The last was a no-run, sacrifice for the Indians.

The heaviest scoring was done by the Indians in the sixth inning. The Bears travel to Algonquin to meet the Algonquin Owns on the opponents field this Sunday.

Jewel Softball Is Delayed by Warm Weather This Week

No Jewel softball games were played last week due to the hot weather. However, the Jewel All Stars played the Crystal Lake All Stars and came out on the short end of a 14 to 12 score Wednesday evening at Crystal Lake. The All Stars cross bats with the Crystal Lakers at Crystal-Lake Wednesday.

The Crystal Lake girls team defeated the Jewel girls team by an open score of 33 to 10.

Monday evening the Jewel tennis team was victorious over the Avondale Park tennis team defeating them 4 matches to 3 on, the Jewel courts this week.

Democratic King

Nicholas I, who ruled Montenegro from 1830 to 1918, was one of the most democratic kings of modern times. In Cetinje, the capital, where his subjects called him "Boss" and he called them by their first names, he also acted as judge, poet, physician, theater director and even postmaster, personally selling his stamps—often with a free drink on the side—in a room of his palace.—Columbia Weekly.

"Over-Date" Colors
When a die, made in one year, is used in a later year, by observing one figure over another, the piece struck therefrom is called an "over-date". For instance, the same die from which the cents of 1870 were struck was used in 1871, by striking a 1 on the 0, and portions of the latter figure are plainly visible.

Treatment of Iris By Master Gardener

After the bearded iris are through blooming, remove the fading flowers, and examine the beds to see whether or not the clumps should be divided and transplanted. As a rule, bearded iris should be divided about every three years. Plants growing in light, sandy soil will need to be divided more frequently than those growing in heavier soils.

This can be done any time after July 1—the earlier the better, as an early transplantation enables the plants to become well rooted before fall, and to set flower buds during September and October.

Iris planted during this period will usually flower the following spring, but if dividing is delayed until fall, you may not obtain any blooms next season.

Do not divide too closely, for while each single shoot will make a good plant, it will not be so likely to bloom the first season if the division is too small. Allow the plants to separate naturally and then you are not apt to divide too closely.

If possible, make plantings in a new location. The soil should be prepared to a depth of at least 10 inches, but the planting should be very shallow. Deep planting means poor flowers and many times prevents bloom altogether. Plant at such a depth that when the soil has settled, the rhizome will be partly above ground. The rhizomes, of course, should be placed horizontally. The foliage should be reduced to a height of 4 or 5 inches, to reduce evaporation until the plants have become well established.

Do not use manure in iris beds, for this increases their susceptibility to disease. Like all plants,

Home Economics to Have Fall Exhibit

Home projects being completed by 55 girls of freshmen, sophomore, junior and senior classes this summer as part of their home economics work will be exhibited the opening week of high school, according to Miss Mary Huey, economics instructor, who is supervising the girls' activities.

Home projects deal with problems of the home and are primarily compatible to the home economics courses available at school. Academic credit is given for projects of this type completed during summer vacations. Some of the

More Barrington people are learning how they can invest savings profitably and safely. You can invest a lump sum or save a little at a time. When you invest savings here you enjoy these four features:

1. Liberal return.
2. Safety insured up to \$5,000 by agency of U. S. Government.
3. Security and stability of first mortgages on homes.
4. U. S. Government supervision.

"DRIVE 5000 MILES A MONTH WITHOUT BEING TIRED AT NIGHT"

SAYS J. F. S. OF CLINTON, ILL.

and Pontiac's extra comfort cost him just a few dollars more than the lowest-priced cars!

When a car has plenty of leg room; deep-cushioned seats that cradle you like an armchair; the extra length and weight you must have for steadiness; and a Knee-Action ride, you can't do better for comfort and luxury. And that's an exact description of Pontiac—America's lowest-priced car.

*One of 11,000 Pontiac owners who recently have written voluntary letters of praise about their cars. No paid testimonials!

A Steady, Cooling Breeze Throughout Your Entire House WITH AN ATIC COOLING SYSTEM

HERE'S HOW IT WORKS

The average night time temperature is several degrees below the daytime temperature. By dispelling stale, hot air that has been stored in the attic throughout the day, and by drawing in cool night air at the lower floors, a constant breeze cools its way through your house.

Here's Nature's own way to keep cool. Air in motion! Cool breezes throughout your house! With an Atic Cooling System you scientifically provide your home with a wealth of cool, circulating air. Hot air is driven off. Cool night air replaces it. A constant motion is started and continues like a steady breeze to give you relief from heat.

Investigate this opportunity to cool your house this summer. Special terms are offered. Visit your nearest Public Service office for complete details.

SPECIAL PRICE

During July and August Delivered and Installed

\$109.50

NOTE: This price offered only where attic window is available. Does not include cooling medium in attic wall or floor, if needed.
