John Novak, 56, Killed When Train Hits Truck Friday

Operator of Plumbing Concern Struck at Fox River Grove Crossing

John Novak, 56-year-old operator of a plumbing concern in Fox River Grove, was killed yesterday when his truck was struck by a Chicago and North Western limited train at the depot crossing in Fox River Grove Friday afternoon.

Novak's legs were severed from his body as the train was hurled into the truck for several hundred feet. He died within a few minutes.

The motorist is believed to have been watching a southbound train and failed to notice the limited train drawn down from the opposite direction.

When the crash occurred, Novak was hurled from his seat. His legs became entwined in a chain in the truck and in the same manner, the chain became caught on the tender of the locomotive.

The train was traveling at a high rate of speed and the truck was pushed down the track to near the crossing. Novak's body dropped free of the wreckage about 100 feet from the crossing.

Members of the train crew and passengers rushed to the aid of the victim. A post mortem examination revealed that Novak had been fatally injured the day before a physician could be called.

Novak was survived by his widow, Frances; three sons, John R., Joseph and Harry, and one daughter, Ann Novak. There are three grandchildren.

Funeral services were held for Novak in Chicago Monday with a large number of friends and relatives at Fox River Grove attending the services.

Arlington Heights Citizens to Decide Fate of WPA Pool

Unless a majority of the voters of the Arlington park district vote in favor of constructing its proposed swimming pool and field house at election Saturday, July 14, the park district will not respond to the work progress administration for funds to finance the project.

Planning to place the citizens' vote at election, the Wheatridge service sold at Chatsworth for the support of the Lutheran sanitarium at Wheatridge, Colo.

"Mutiny on the Bounty" Returns to Catlow Friday

Outstanding Pictures Billed at Local Theatre This Week

"Mutiny on the Bounty" as a piece of historical fact, then a novel, and later a motion picture achievement, has caught and held the astonishment of the world. It is audacious adventure and romance set in the exotic South Seas.

No doubt it is the film which has captured the full reality of the story with the superb portrayals of Charles Laughton, Clark Gable, and Franchot Tone.

The screening Friday night is a return showing; and it is a picture that we deserve a return, a picture of a different kind. If not more when viewed the second time.

"Mutiny" will be screened twice, and because of the length of the film, the feature will begin promptly at 7:00 and 9:15 p.m.

"Road Gang," which plays Saturday, is a picture of a different kind, with humor, terror and inhumanity shown as practiced by crooked politicians and callous guards upon helpless prisoners.

The story is derived by a glowing tale in which a girl makes a heroic fight to liberate her lover, who has been "framed" by a grafting political boss.

A color cartoon, Ruth Etting comedy, Pathé news and the 9:00 p.m. movie will offer variety for this bill.

Robert Taylor and Loretta Young are happily teamed in "Private Number," which comes to the Catlow Saturday evening.

There is a millionaire's son, he mistakes Lorita, a maid, in the house, for a guest; they marry secretly.

That's the opening of the story. What happens after Taylor's return to college, and all his world tries to turn the lovers apart—that is left for the screen to tell.

In addition to the feature there will be bright and interesting short subjects and a session of community singing.

Richard Dix in "Special Investments" is a very special bargain offering for Wednesday's program.

It is the story of a man whose unethical legal practices backfires, causing him to join forces with the law in order to track down the gangster who killed his brother.

Suspense, Betty Boop cartoon and a comedy are listed among the short subjects for this bill.

In "Fury," scheduled for Wednesday, Thursday and Friday, there is a suspenseful story of circumstantial evidence leading to an innocent man's arrest as a kidnap suspect. Wild rumors spread among the townspeople. They storm the prison. Not succeeding in their attempt to break through the cell block, they burn to the ground.

But the victim of this "fury" lives. This role is played by Spencer Tracy. Sylvester plays the girl through whose influence he is finally redeemed.

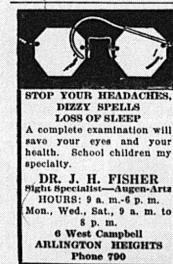

Tonight, Bette Davis and George Brent will be seen for the last time in "The Golden Arrow."

BARRINGTON REVIEW

EVERY DOLLAR MUST BE PAID

The four sessions of the seventy-third and seventy-fourth congress, have appropriated in excess of \$39,000,000,000, including appropriations through the reconstruction finance corporation, according to Representative Chester C. Bolton of Ohio.

"Do you realize that if one dollar had been laid away every minute of every day and every night from the beginning of the year 1 to January 1, 1936, there would have been on the latter date \$2,787,840?

"In other words, just a little less than 3 billion dollars in 1,936 years at the rate of a dollar a minute. As a comparison, note that the present administration is spending at the rate of \$10,000 per minute. Roger Babson, noted economist, has made the following comment: If every dollar spent were being matched by a dollar in tax revenues, I would not be alarmed. If this were so, the voters would soon take care of the spending problem.

"The American people are showing signs of awakening to the situation, because they realize that this spending on the part of the New Deal means that every penny must be raised by taxation, whether by direct or indirect measures.

"It is a well-known fact that the tax measure just passed is only another attempt to give the impression that this is the end of higher taxation.

"On the contrary, present taxes levied are inadequate, and the next session will demonstrate the need for larger income by taxation, simply because the country cannot continue to live on borrowed money and at the same time maintain national credit; or, for that matter, the people will demand at the coming election a reduction in expenditures to bring the cost of the federal government within revenues."

THE FARMER'S ADVENTURE

Every spring the farmers risk a bold and daring adventure. They put their seed into the ground, they devote unceasing labor and much money to cultivating it. Will they get any return?

In less enterprising countries, such people will plant only what they can utilize themselves. The American farmer is a business man who wants to take greater chances. So he sows and pours out his money into the soil, and hopes for a just reward.

This act of faith has produced such abundant gains that the country is worried today, not because not enough is produced to feed our people, but because too much is grown. The farmer's bed is not one of roses. If he grows too little, his product is too small to support his family, while if he grows too much, the product is almost given away.

What the American farmer needs is the stopping of the importation of millions of dollars worth of agricultural products from other countries as now is being done. When from ten to twenty millions of people starve to death in a single year as has been the case in two or three countries, it would not appear that there could be any such thing as over-production. It would seem to a country editor that there is something wrong with a civilization that is not able to figure out proper and equitable distribution of food stuffs.—Lowell, Mich., Ledger.

WHAT'S GOING ON

(Courtesy The United States News)

On goes the battle against unemployment. Additionally burdened by drought relief, WPA now is carrying more persons on its rolls than it can handle with its \$300,000,000.00 in relief funds.

So President Roosevelt, he announced last week, has conferred with WPA officials on a proposal to remove many unemployed by relief rolls by spending WPA's \$300,000,000.00 on worthwhile municipal projects.

WPA has submitted a \$50,000,000 public works program to the President. Mr. Roosevelt said it would be a good idea to know how many workers each project would be likely to take care of.

Meanwhile the trend is upward in employment by private industry, particularly by plants of steel and railroad workers, William Green and John L. Lewis continue their strenuous tug-of-war over organized labor.

Green, as A. F. of L. president, is trying to get workers to hold labor in his craft union federation. Lewis is trying to haul it into the great push his committee for industrial organization is making for unionization of the mass production industries.

In a radio address Mr. Lewis said the CIO keynote accepting "the challenge of the omnipresent overlords of steel to fight for the day of industrial and democratic democracy."

Speaking on the scene and anniversary of the homestead strike, Lieut. Gov. Thomas Kennedy promised support for strikers from Pennsylvania and the homesteaders struggle gets to the strike stage.

President Green hasn't any threats and threats to oust the Lewis unions from the A. F. of L.

Steel industry leaders appeal to public opinion and urge their workers to stand fast in company property.

On a number of strike fronts minor disorders and some violence are reported.
