## Check Tires Before Starting Fall Tour

With country byways practically deserted after the summer concestion, and with cool fall weather common of the finest touring opportunities of the year. To enjoy the season's possibilities to the full, motorists should carefully inapect their care after the wear and tear of heavy summer driving. J. S. Gleske, Goodward sealer at 110 Å. Cook afters, "Naturally the mechanical featuresirof the car should be carefully behaved, for ne scenary can be enjoyed when the motor is 'acting up.' Next the condition of the tires should be carefully considered, for tite trouble is often far motories are the condition of the stress when the motor to the condition of the stress which was not considered the condition of the stress when the motor is 'acting and the condition of the stress which was not considered to the condition of the stress when the condition of the stress when the condition of the stress was not considered the condition of the stress was not considered to the stress when the condition of the stress was not considered to the stress when the stress was not considered to the stress when the stress was not considered to the stress was not considered to the stress was not considered to the stress when the stress was not considered to the s

serious daman he said. "Even though a tire apparent has miles of additional service let has miles of additional service let

Even though a tire apparent has miles of additional service let use ft. If the all-important treatment has been worn smooth." Moleske pointed out.

"A smooth tire, with no cent traction to grip the road, cann be depended upon. It is almost a smooth of the control of the contr
