The shields were being constructed by the building trades classes of the high school and are festooned with the colors of the rival schools.

Double Liability on Bank Stock to Stop July 1, 1937

First National Joins Others in Terminating Old Regulation

The double liability on capital stock in the First National Bank of Barrington will terminate July 1, 1937, as the result of a decision by the board of directors at a recent meeting and advertised in the Review this week. This is in conformity with the revised national banking laws pertaining to all national banks to withdraw the double liability of their stockholders. State banking laws of most of the states have been altered to permit this change, and the result of these revisions, national and state, are that the majority of large and small banks are taking advantage of it. The double liability provision for banks has been in effect 80 years. It was supposed to protect the interests of depositors, but failing the various banking crises of little value in stabilizing institutions. Under this old law, stockholders in closed banks could be assessed as much as 100 per cent to help pay off depositors' claims. The original purpose of the law was to bolster confidence in currency issued by banks.

The meeting was arranged through the organizations of the Barrington and Cuba towns which are headed by Mr. Brinstlinger and John J. Trestit. Mr. Trestit introduced Lake county speakers.

"Teach Your Child to Face Realities" Says J. P. Currie

Tells P.T.A. Psychologists Solutions of Various Problems

"Encourage and translate a child's dream into action," J. P. Currie told 125 members and guests of the Parent-Teacher association at a meeting in the school auditorium Tuesday evening. Mr. Currie, who has made an intensive study of psychology and is now chief of the personnel division of Jewel Tea Co., advised parents to help a child face reality, train him to act through reason rather than by impulse. He suggested that each child be permitted to plan his activities, recognize difficulties and try to remedy them. In some cases, compensation such as being able to excel in another field, solves the problem, he added. The speaker listed concentration, self-discipline and an active attitude toward difficulties as three essentials. "The habit of concentration is advisable," he said in conclusion. The musical program included songs sung by Ilo Shepard and delightful piano solos by Bern Berger.

Mrs. Ward Olmsted, chairman of the homecoming committee, reported that there are 72 active members in the organization to date. Miss Miller's room won the prize for largest attendance.

Following the program, refreshments were served from a table attractively decorated in harvest style. Judge J. M. Braude, present judge of the boys' court in Chicago will address the next P.T.A. meeting Monday evening, Nov. 16 at 8:15 p. m. The public has been invited to attend.

Friday; Special Show
on Halloween

"The Great Ziegfeld" will close its 4-day run with two screenings Friday—a matinee beginning at 2:45 p. m., and the evening show beginning at 8:15 p. m.

This musical extravaganza, three hours in length, perpetuates the life of the world's greatest showman, the late Florenz Ziegfeld.

In a succession of backgrounds of breathtaking beauty and splendor the drama and romance of Ziegfeld's life unfolds.

In the principal roles William Powell will be seen as Ziegfeld; Myrna Loy as Billie Burke; Luise Rainer as Anna Held; and Fannie Brice, Frank Morgan and Nat Penington in lesser parts.

The appearance of Charlie Ruggles and Mary Boland Saturday night in "Wives Never Know" promises a laughware that will amuse throughout the entire evening.

Adolphe Menjou and Vivienne Robinson add to the quota of good fun in this yarn of the diffident husband who is advised to inject a little spice into his quietly, and happily married state. His tiny

excursion into philandering brings about complications of seismic proportions, out of which arise a series of hilarious situations that must be seen to be appreciated.

The 9 p. m. gift event, comedy, news and screen act are added items of interest for this bill. Saturday, being Halloween, the

Catlow is offering its annual mid-night thriller following the regularly scheduled shows of the early evening.

This year, Boris Karloff in "The Walking Dead" will give Halloween revellers the spine-tingling thrill of horror looked for on this occasion.

Short subjects have been especially selected to add to the spirit of the night.

The late show will begin at 11:15 p. m.

The runner-up for the nation's most popular blonde, Gene Raymond, and the petite Ann Southern have an intriguing musical romance in "Walking on Air," the Sunday-Monday offering.

The story draws sophisticated humor and good-natured horse-play out of an adventurous young college boy's solution of the unemployment problem.

He hires himself out to Miss Southern, a willful Beverly Hills heiress, to help her overcome her father's objections to a fortune hunter with whom she fancies herself in love. Gene begins by loving his employment and ends by falling in love with his employer.

A color cartoon, hand act, news and comedy are addition subjects for this bill.

A double feature program is scheduled for next Tuesday and Wednesday. Both films are unusually worthwhile offerings and because of the contrast in stories and settings, will form entertainment of wide variety.

The first feature shown will be Gene Grey's new western, "King of the Royal Mounted," starring Robert Kent and Rosalind Keith. It is filled with rapid-paced action so dear to followers of adventure yarns.

The second feature is the widely heralded screen offering, "Girl's Dormitory."

It has for its theme events happening to young girls in an exclusive boarding school.

Ruth Chatterton, Herbert Mar-

shall and Simone Simon are starred.

Hold Rites for Farm Hand Gored by Bull

Funeral services for Golett Hugi, 61-year-old farmhand who was gored to death by a bull on the E. W. Wolff estate, Ridgebrook farm, late Thursday morning, were held at the chapel, 203 S. Cook street, Friday afternoon with Rev. E. A. Eagle officiating. The body was shipped to Gleason, Wis. Friday evening for burial Saturday afternoon.

At an inquest conducted by Dr. John L. Taylor, Lake county coroner, at the farm Thursday morning, witnesses testified that Hugi entered a feeding pen where the

bull was loose and was knocked to the ground by the animal. His wife, Anna, heard his cries and rushed to the pen and saw the animal pawing him about. Mr. Wolff drove the animal away from Hugi by discharging a pistol in the air. Hugi was dead when taken from the pen.

Mr. and Mrs. Hugi came to Barrington from Wisconsin and had planned to return there by the end of the month.

He is survived by his widow, Anna, and three sons, Walter and Roy of Barrington, and Lawrence of Gleason, Wis.

Deductions from Pay To Start January 1st

And Cost of Living Must Go Up Shortly Afterwards!

Beginning January 1, 1937, your employer will be compelled to deduct a certain amount from your wages every pay day. This is in compliance with the terms of the Social Security Act signed by President Roosevelt, August 14, 1935. The deductions begin with 1 per cent and increase until they reach 3 per cent. This comes out of your pay check and that of every other salaried man and wage earner. It is not a voluntary plan. Your employer must make the deduction. The regulations are published by the Social Security Board at Washington, D. C.

To the amount taken from your wages, your employer is required to pay, in addition, either an equal or double amount. The combined taxes may total 9 per cent of the whole payroll. The company you work for cannot operate at a loss; consequently this extra amount will be deducted also from the payrolls or will be added to the cost of the product your company makes or sells.

With all employers forced to do the same thing, the inevitable result will be lower salaries and increased cost of living.

Deductions from payrolls and cost of living will go up starting January 1, 1937.

This money collected from you and your fellow workers will go into a fund administered by politicians and from which the government may borrow by merely issuing bonds. As an old age pension fund it has no protection from political government administrations, now or in the future.

You and your fellow workers have one hope—defeat of this act by election of Governor Landon who is pledged against it.

The safest plan is to vote for Landon, Brooks, Glenn, and their party workers all the way down the line.

The figures are as follows:

September 1936, \$2,425,641, compared with September 1935, \$1,557,877, and August 1936, \$2,015,115. The months of January to September inclusive in 1936 amounting to \$19,666,187 may be compared with \$10,619,409 in 1935; \$5,888,923 in 1934; \$2,025,426 in 1933; \$4,060,247 in 1932 and \$20,822,212 in 1931. We are back, very evidently, to the 1931 volume of suburban building.

The September total of nearly \$2,500,000 mounts up to such an impressive figure chiefly through the inclusion of 161 new homes, the permits for which total \$1,122,447, and also \$238,950 worth of repairs, alterations and additions to homes. Thus homes alone were responsible for a grand total of \$1,650,400 of construction, in September.

The beautiful Swiss mountain Pilatus was so named because Pontius Pilate is said to have drowned himself in the lake a few hundred feet below its summit.

Young Ballet Performer

Noelle de Mosa of the Jooss Ballet in "Impressions of a Big City." She is the youngest member of the company which makes its big benefit appearance at the Chicago Civic Opera House Sunday afternoon, November 8. Other performances will be given on the evenings of November 3rd and November 8th.

Jooss Ballet Gives Benefit Matinee for Sanatorium Nov. 8

The Jooss European ballet returns to the United States this season by popular request and will give a benefit performance for The Chicago Daily News Fresh-Aid Sanatorium Sunday afternoon, November 8, in the Civic Opera House of Chicago. Since their appearance in Chicago last season they have been constantly on tour in Europe, except for their usual vacation period.

The company made its debut at the Chicago Opera House last February, winning the praise of both the critics and patrons of the theatre. Previously the bal-

let of 24 artists had won acclaim in New York, London, Paris, and other principal cities.

Kurt Jooss created and directs the ballet. He still is in his thirties and members of the company are younger with the eighteen year old Dutch girl, Noelle de Mosa, the baby of them all.

To critics of the dance, the Jooss company is known as a unique and dramatic organization.

Recognition first was won when the ballet was awarded first prize at the International Congress of the Dance held in Paris during the summer of 1932. "Practically overnight we found ourselves famous with offers of engagements showered upon us," Jooss said.

Besides the benefit performance on Sunday afternoon, November 8, the Jooss Ballet also may be seen Tuesday evening, November 3, and Sunday evening, November 8, for their only other appearances in Chicago this season.—Adv.

The picture in Cook county reversed. The democrats have the control, but the republicans are trying to seize.

The state versus an upheaval planned by the democrats. The latter have one man in office now the county clerk—and are trying to increase their holdings.

The picture in Cook county is serious. The democrats have the control which the republicans are trying to seize.

Lake county voters will accept a proposal; that is, establishment of a county television station financed by a tax of 1 1/2 mills. Cook county voters outside of Chicago will have no proposals before them.

Chicago voters will decide an important to all suburban well as city residents. It is a matter of eastern time or central time for the city.

Regardless of which is accepted, the suburbs will for convenience accept the same schedule.

BARRINGTON REVIEW

ESTABLISHED 1885
LESLIE W. MCCLURE, Editor and Publisher

Published every Thursday morning at Barrington, Illinois, and entered as second-class matter at the Barrington post office under Act of March 8, 1879.

WHERE IS THE SALES TAX DEFICIT?

That the common schools are receiving 27.4 per cent of the "sales tax" is denied by Robert C. Moore, secretary of the Illinois State Teachers association, in an editorial appearing in the Illinois teacher, going this week to 43,000 teachers in the state. He points out that only 17.53 per cent of the "sales tax" has gone to the state fund in the past twelve months and obtains his figures from the reports of the state treasurer, who, until August, combined the returns of the general occupational tax with those from the sale of utility products.

Moore finds that, according to the treasurers reports, from September, 1935, to August, 1936, this combined sales tax amounted to \$74,453,482.10, and for the same time only \$13,057,000, or 17.53 per cent of such collections were appropriated to the state school fund.

The editorial continues—"We see in many public places a chart, authorized by the state department of finance, consisting of a circle representing the proceeds of the 'sales tax,' with sectors to show the percentages used for various purposes. The sector for school is 27.4 per cent of the circle. We would like to know how the director of finance obtains the 27.4 per cent."

The answer to Mr. Moore's question should not be hard to find. The total of 27.40 per cent of sales tax receipts to the schools represents the percentage of all sales tax receipts left after the cost of administering the sales tax is deducted. In other words only \$17.53 out of each \$27.40 allotted for schools goes to schools. The other \$9.87 goes to administration of the \$17.53. As Dick Lyons puts it, "to the payrollers."

The public chart or circle referred to divides the sales tax receipts as follows:

Unemployment relief	33.33 pct.
Schools	27.40 pct.
Public welfare	11.59 pct.
Central state purposes	11.81 pct.
Bonds	9.61 pct.
Permanent improvements	6.26 pct.

Strangely enough the items in the chart from the director of finance total 100 per cent. The director does not allow one single per cent or one single dollar for administration; yet there are many employees collecting and distributing the sales tax, enforcing it, keeping the records, etc. If he had allowed 10 or 12 per cent for administration, or even 15 per cent, the picture would be an attractive one. Some cost of administration is necessary and certainly justifiable.

There can be only one reason for not separating the cost of administration and entering it on the chart as a distinct item. It must be too high to reflect credit on Governor Horner's administration. It does not take a lot of imagination to realize that a retailer's sales tax necessarily must be a

The home loving Romans had a word for it

"AMORTIZE"—from the old Latin—means "to kill by easy stages."

Today, you can amortize a mortgage, and "kill off" the debt in easy payments. This means you can own your own home and pay for it conveniently, by the month, just as you pay rent. An AMORTIZED mortgage is one which is gradually paid off—in other words, "killed by easy stages."

It's the new way, the sensible way to real home ownership. You pay off, each month, a part of the principal, along with interest, charges, taxes, and insurance. You pay over a period of 10, 15, or 20 years—so that the installments come within your means. At the end of that time the mortgage has been completely amortized. THE DEBT IS DEAD. Your home is actually yours—free and clear.

Let us show you, with figures based on your own income, how you can build a home with a single amortized insured mortgage. Or how you can pay, monthly, out of income, for home repairs and improvements. Come in and talk it over.

tremendously expensive piece of legislation to administer. It is the most costly and burdensome tax born by the people of Illinois and hits the poor man harder, in proportion to his ability to pay, than any other tax. Henry Horner took full responsibility for conceiving, introducing and forcing into law the retailers tax bill. He claimed "credit" for it. Let the voting consumers decide whether it's a credit or a liability for his administration.

The Birthday Child of the Week

Two birthday children appear in this column this week, one whose birthday was celebrated Wednesday and the other whose birthday occurred a few weeks ago.

IRENE JEAN REUTER was born October 28, 1933. She is the youngest child of Mr. and Mrs. George Reuter, 503 Grove avenue.

RUTH MARIE BLANKE, daughter of Mr. and Mrs. John Blanke, 533 Summit street, could not be induced to leave her streamlined automobile when The Review cameraman arrived. And why should she? A toy automobile, a dog, or a doll is a natural part of a child's picture.

With all available pictures of October and late September birthday children having been published, The Review will start on the November boys and girls next week. A sweet group of youngsters will be reflected in this column during the coming month—watch for the next pictures.

Engineers Report on Outfall Sewer

A. C. Burandt, village clerk, received a written report on the stability of the construction of the outfall sewer line being built from the treatment plant to Flint creek at the Northwest highway which was compiled by the village engineers, Consoer, Older and Quinlan, this week.

The engineers reported on steps taken in the construction and answered criticisms directed against the type cribbing used on post sections of the right of way. They reported that in the several sections that were soft ground a gravel fill was used. The amount of fill was ten feet wide and from one and one-half to two and one-half feet deep.

They reported that a heavy pile of concrete and planking for the nature of the ground was not needed, and was also too expensive.

Facts That Count

CHARLES E. MASON

Republican Candidate

For State's Attorney

OF LAKE COUNTY

He has a reputation for fair dealing, honesty and integrity, backed by a record of LOYALTY TO HIS PARTY and to the people of Lake County who elected him—that is proof of character won by long years of struggle against great odds.

He has received the endorsement of practically every lawyer practicing at the Lake County Bar.

Mr. Mason is experienced in criminal law.

"When Charles E. Mason entered the office of State's Attorney, nearly four years ago, he was equipped by experience to handle the affairs of that office, and today, with four years of criminal law procedure as State's Attorney added to his store of knowledge, Mr. Mason now stands out as one of the most able prosecutors in the State"—Waukegan Times, October 23, 1936.

He has made Lake County unsafe for the criminal element from Cook County.

"When Charles E. Mason entered into the campaign for election to the office of State's Attorney, more than five years ago, he made a pledge to rid the county of organized crime. It will be remembered that during the several years preceding this campaign, gangsters ran rife in Lake County, gunmen staged a massacre in a Lake County tavern, bullet riddled bodies were dumped on lawns and in the highways. It was a gunman's holiday. Mr. Mason made a solemn pledge to the people of Lake County to rid it of these shameful conditions, and he did."—Waukegan Times, October 23, 1936.

During Mr. Mason's term 53 have been sent to the Illinois State Penitentiary, 100 to the Illinois State Farm and 756 to the County Jail; the problems of 1616 children have been presented by the State's Attorney's office to the Juvenile Court of this County.

**226 FIRST OFFENDERS HAVE BEEN
PLACED ON PROBATION IN THE
CIRCUIT AND COUNTY COURTS.

It has been Mr. Mason's belief that the punishment should fit the criminal and not the crime; and that if there is an opportunity to save a young man from a criminal career, he should be given that opportunity through the probation method.

son's regulars will be from last year's reserves and lights. Schelling, end; Trenner, guard; Vlink, tackle; and DeHog, center, are lettermen back, each having two years' experience and averaging 165 pounds. Libertyville has a fine list of reserves to back them up. Krall is the team's ace passer. Sitt, Grethell, and Whitney are rated fair as punters. Several weeks ago Libertyville was defeated by Lake Forest 7 to 6 and after the Bronks' fine game at Lake Forest the chances for the team to win looks rather hopeful.

Friday's Game

Friday's game at Lake Forest was a fairly even battle from start to finish ending up in a scoreless tie. Barrington succeeded in smothering the Gold Coast's aerial attack and the opponents sturdy line held the Bronchos running attack well in check. The first half of the game was mostly Lake Forest's. Secombe, and Michelson attempted several passes, but the cold weather made it impossible to get full control over the pigskin. Grabenkort made several nice passes working the ball well into Lake Forest territory. Barrington lost the ball on downs failing to advance closer. Grabenkort attempted a field goal from the 15 yard strip, but the opponents smashed through to break it up.

Many infringements suits. Between 1925, when a patent on the Roberts Torpedo, a device for shooting oil wells, was granted, and 1930, when its legality was upheld by the United States Supreme Court, notes a writer in Collier's Weekly, infringements were so widespread that they resulted in the filing of 16,000 suits and counter-suits. And Roberts won every one that was brought to a decision.

National Preaching Mission

In the second of a series of four articles by the ministers of the cooperating churches of Barrington I wish to add a bit more of information and, if I can, of inspiration to the fine article of last week by Rev. Koenig.

Throughout the United States denominational groups, smaller groups and individual churches have been planning and preparing under the leadership of the ministry and the laity their respective Preaching Mission programs. In these centers where these gatherings have already been held folks have gathered by the thousands to be greatly encouraged and inspired as they listened to great messages by the humble spiritual Missioners. The deep earnestness of these men could not be doubted as they prompted their audiences to feel that this is a serious business and not a passing fancy.

The one supreme purpose of the National Preaching Mission is to present Jesus Christ and His gospel as the only hope for humanity. The fundamentals of the Christian Faith have been and will continue to be dealt with as these messages center about Jesus Christ. The minds and hearts of these representatives of God are burdened. Their burden is not for the success of the Preaching Mission, but because of their great desire to see men repent and return to God as they once more make a complete surrender of life to Him.

Few times in the history of this nation has our civilization faced destruction from irreligion as it is now.

Hard Game in View
A great game is assured alumni and fans when the Libertyville Wildcats and Barrington Broncos meet at Northside park Saturday. The kick-off is scheduled at 2:30. The Broncos go into the game with the memory of the last-second 12 to 7 defeat of last year still stinging, and every member of the squad has vowed that Libertyville shall pay for that setback. Libertyville brings a line av-

eraging 175 pounds, the heaviest being Bernard Schar, a 250-pound tackle. Behind this line is a fast shifty backfield which has been improving all season and which at any time is liable to break loose. In Co-captains Sits and Strand, they have a pair of classy pass receivers. With Tom Flood doing the tossing they may give Barrington plenty of trouble. The Broncos have one of the best defensive records in the conference. The line starting with five inexperienced men, has developed nicely. In five games three touchdowns have been scored against the Broncos. Mountain at left tackle has been outstanding, with Olmsted, Kampert, and Captain Kincaid running him a close race. Following is the season's record of the two teams:

Libertyville 6, Deerfield-9 7	Libertyville 6, Lake Forest 7	Libertyville 6, Grant 6	Libertyville 6, Warren 6	Barrington 6, Niles Center 0	Barrington 6, Warren 6	Barrington 6, Grant 6	Barrington 6, Arlington 6	Barrington 6, Lake Forest 0

New Automobiles Go on Display in Show Rooms Here

Most 1937 Models on Hand.

A Few Will Come Next Week

Local automobile dealers have announced, this week and earlier, the new 1937 models of their respective makes, with most of the new cars already on the display floor and others to be presented to the public within a week or two.

Brewer Motor Sales has announced the new 1937 Plymouth cars with a list of new features to command the interest of the motoring public. Standard Motor Co. also has placed the 1937 Plymouths on the floor. In appearance, these cars are progressions of the 1936 machines with roomier bodies, more streamlined lines and many new features.

The Standard Motor Co. will have new new Chrysler cars with in a week or ten days. Brewer Motors have one of the new De Sotos on hand, a strikingly modern appearing car with a decided change of lines and many new features.

Barrington Motor Sales has one of the 1937 Lincoln Zepphus on the floor, a low slung machine of advanced stream lines. It has been improved in design, appearance and comfort, and has added a coupe to its line, a model that is expected to be a heavy seller.

The Lincoln Zepphus advertisement the "flowing ride, comfort." The 1937 Ford will be announced within a short time.

Schauble Brothers and Collins offer variety with the Silver Streak Pontiac of 1937, and the 1937 Buick in four outstanding models. All of the Buicks have larger, more powerful motors and roomier bodies. The body lines are advanced and striking.

Following on the heels of two highly successful models, Pontiac enters the 1937 automobile year with two lines of cars (deluxe six and deluxe eight) that are longer in wheelbase, roomier, lower, even more pleasing in appearance, improved in comfortable riding qualities, with larger and more powerful engines, faster acceleration and higher top speed.

The Buick Chevrolet in the company's quarter-century of automobile manufacture will make their bow here and throughout the country on November 2, Fred Schauble, of the Schauble Chevrolet Sales, announced this week upon his return from Chicago where 150 dealers from this section obtained official news of the product from R. W. Hill, manager of the Chicago zone, and members of his staff.

The new models adhere closely to time-tested Chevrolet engineering principles, he reported, but combine greater power, economy, safety and durability with striking new beauty and grace.
