VOLUME 51, NUMBER 53

Elmer C. Schmidt, 22, Elgin, Dies
of Gunshot Wounds at
Hospital Monday

Elmer C. Schmidt, 22-year-old son of Mr. and Mrs. Charles Schmidt, 210 Marguerite street, Elgin, died a short time after he had walked into the path of fire while hunting on the George Jackson farm, five miles west of Barrington, Monday afternoon.

He received chest and abdominal wounds which caused his death shortly afterwards as he was being carried into the Sherman hospital. Paul Smith, 21 years old, 123 Woodland place, Elgin, fired the shot which took his companion's life. The two boys, accompanied by Miss Gladys Alexander, 730 Duane street, Elgin, had been on a hunting and hiking trip and were about to return to Elgin when the accident occurred.

Having been unsuccessful in fighting any game, they were preparing to return to their car when Smith said he decided to shoot the shot which killed his companion in his single-barrel 12-gauge shotgun.

At an inquest conducted in Elgin Tuesday morning, Schmidt is reported to have said "Go ahead and shoot."

Smith raised the gun up in the air and when it went off his companion started to fall. It is believed the gun went off before it was raised.

His companion placed Schmidt in their car and rushed to the Elgin hospital but he died when they arrived there. The cause of the accident was determined by the coroner's jury.

Smith was greatly shaken up by the tragedy and Elmer's dead youth's father to console him were almost fatal. The boys had been close companions for several years. They attended school together and played together on the same athletic teams.

Pictures of Lake Being Formed on O. S. Caesar Property

A development of interest is now being created by man and nature on the O. S. Caesar property near route 43 west of Otis lake in Barrington town. A lake started by the building of a retaining wall on the eastern border has been in the process of forming for the last four weeks and the recent rains are causing the level to rise rapidly.

The work was done this fall by Calkins Brothers, excavating and grading contractors. When the lake is full, it will cover 67 acres and reach a depth of 18 to 20 feet.

Landscaping will be done later, Mr. Caesar reported. The lake is to be stocked with fish. The development was started by Mr. Caesar with no detailed object in mind, he stated, except to provide additional natural beauty to that section of the Barrington area. The natural ground contour was used to form the lake.

The lake lies on the southeast section of his land which was formerly Spencer Otis property and is owned by Mr. Caesar's son-in-law, Arthur MacIntosh, Jr., who purchased the P. Hawley farm this year. He plans a subdivision of small country estates and is erecting his own residence on the property now.

The picture at the left shows a section of the lake bed already filled with water. At the right is a view of the back side of the retaining wall as seen from the highway.

Iowa Teacher Joins Barrington Faculty

Miss Margaret Everett, who had been teaching school at Guttenberg, Iowa, has joined the faculty at Barrington high school and will be in charge of the home economics department following the Christmas recess.

Her appointment follows the resignation of Miss Mary Huey who had to give up her position for the remainder of the year because of ill health.

Plan Lake County Industrial Show for February 4-7

Lake county industry will be on parade for four days starting Thursday, Feb. 4, in the spacious gymnasium of Waukegan township high school. It will be Lake county's first industrial exposition and is expected to draw between 35,000 and 50,000 visitors.

J. L. Hunter, president of the Waukegan Chamber of Commerce, is general chairman. Working with him are such prominent Lake county industrialists, business and professional men as James F. Stiles, Jr., Albert Hall, John E. Reardon, J. H. Jordan, C. P. Rosenberg, F. Ward Just, Mancel Talcott, mayor of Waukegan, J. A. Decelle, E. F. Radke, L. J. Wilmet, circuit clerk.

The committee for district 3 which covers Cuba, Elia, Vernon and West Deerpole townships include Arthur Froelich of Lake Zurich, Harold Kelsey, T. E. "Doc" Davis, Rudolph Berg, all of Barrington, Charles H. Herschberger, Marshall Schroeder of Half Day, and Harold Vant of Deerfield.

To Select Queen
Plans have gone forward for the selection of some Lake county young lady who will serve as "queen" of this mighty industrial show. It has been generally accepted that the cooperation and active participation of women in the "setup" of any outstanding public event is essential to both its financial and artistic success.

World's fairs and expositions of any note have always had some personable young lady to grace their "grand opening" and be symbolic of the spirit of the event. Lake county and its great exposition will be no exception to this rule. As a matter of fact, the county has been laid out in eight districts and district committees have been selected to nominate several young ladies in each of their respective districts.

Any young lady 17 years of age or older who resides in Lake county and is of good character is eligible to enter this contest. Any one caring to suggest a nominee should immediately contact one of the district committees or send the name and address in to the Industrial Products Exposition, 127 Washington street, Waukegan.

Offers Reward for Arrest of Person Taking Spruce Tree

It is a matter of opinion what title would be appropriate for the person who removed a six-foot white spruce tree that was growing at the entrance of the Oak Knolls farm, owned by J. R. Cardwell, several days before Christmas.

Mr. Miller, who was discovered several years old, was discovered by Arne Miller, farm superintendent. He has posted a \$50 reward for information leading to the arrest and conviction of the guilty person or persons.

Mr. Miller, who is desirous of apprehending the thief, recounted the time, labels and effort spent in planting and growing a white spruce. "It is hard to understand why it was done when trees can be bought so cheaply without disturbing any private landscaping," he said.

Tests at Treatment Plant Are Delayed

Handling of raw sewage has not been started yet tests in the new treatment plant, a C. D. Burdett, village clerk, reported Wednesday. It was expected that sewage could be taken into the plant for tests of the new apparatus and machinery this week, but some delay has been encountered in having Allied Bridge and Construction company, contractors in the new trunk lines.

When the contractors take care of the work the sewage can flow into the plant. The work to be done consists of connecting the new lines into the plant.

First National to Pay \$2 Dividend to Depositors Jan. 12

A dividend of two dollars per share, payable January 12, 1937, to stockholders of record at the close of business, January 7, 1937, was declared by the board of directors of the First National Bank of Barrington at a meeting held December 30, 1936.

The payment of two dollars per share is on the basis of eight percent on the bank's capital, in addition to which the board authorized the transfer of \$5000 from its undivided profits to surplus.

By this action the bank has increased its ability to loan large amounts to its borrowers.

"The payment of a dividend at this time is welcome news," said J. M. Friedlander, president. "This is the highest dividend ever paid to the stockholders by the local bank at any one time, the last dividend being on the basis of six percent in 1935."

"This is considered an excellent record in light of the fact that the bank went through the depression, the most trying time in the history of this country, during which no stockholder or depositor of the bank was in danger of loss."

The First National bank maintains a high degree of liquidity in its deposits during the trying times of the last several years. It has been helpful in financing a number of new homes and refinancing many existing mortgages on property in this territory and surrounding towns.

The bank has specialized in loans to farmers, financing cattle purchases, and mortgages on farm land. Loans for local requirements, business and personal have increased during 1936.

100 Attend Alumni Dinner for Class of 1907 Tuesday

Five members of the class of 1907 attended the dinner held in their honor by the Barrington high school alumni association at the Methodist church Tuesday evening.

One hundred association members were present to honor the class which will celebrate its 30th anniversary of graduation from the local high school next spring.

From the class of 1907 who attended were: Mr. and Mrs. V. D. Hawley, Mrs. Alta Bennett, Mr. Elmer Dieckman and Miss Jennie Lines.

Robert Berghorn was chairman of the dinner and acted as toastmaster. He introduced Earl Hatje, president of the village board, who addressed the class of 1907 and read from a book of rules and regulations issued in 1906 for the pupils of the new school building then erected.

Mr. Hatje read a number of items that were humorous and which contrasted former ideas of education with those of today. Mr. Hatje was in turn followed by V. D. Hawley, member of the 1907 class and who is now supervisor of Barrington town. He drew briefly on the class history.

His short biography related incidents, both humorous and historical. He expressed the members' appreciation for the honor bestowed on them and told about the Alumni association getting its first start at a dinner given by the alumni of 1907 for the graduates of 1908.

Vocal solos by Willard Gieske and Miss Blanche Frey, both recent graduates of Barrington high school, followed.

Mr. Berghorn then introduced Earl DeLong, professor of political science at Northwestern university. Professor DeLong opened his short talk with a reminiscence of his school life. He then drew briefly on the political aspect of the county, state and nation in regards to both major parties.

Professor DeLong outlined a number of changes he hoped would be made effective in governmental systems for their betterment. The program was concluded with his address.

The dinner was prepared by Chester J. Catlow who left Friday on a four-months' vacation to be spent on St. Lucia island, St. John, B. W. I. He will go from Barrington to New York where he will sail Saturday. Mr. Catlow has spent the last several winters on the island of St. Lucia.

The machine and records were taken by Dr. W. A. Fanning and Wilbur Chapel of the scout executive committee to the cabin at the Russell street playgrounds, where they can be used by boy and girl scouts and camp fire girls who have organization headquarters there.

The cabin is gradually being equipped into a first class home for scout organizations. The photograph is an important addition to the equipment.

Jack Benny, George Burns and Gracie Allen, Martha Raye and Bob Burns, Benny Goodman and his orchestra are the stars which will carry the annual Paramount "Broadcast" show to new heights of fun and hot-act.

For Friday, New Year's Day, the management of the Catlow has been prevailed upon to hold over "The Big Broadcast of 1937" for the many patrons who find it inconvenient to attend the Midnight matinee showing.

In addition to short subjects the Saturday 9 p. m. gift event will be held.

Sunday and Monday brings another great picture, "The Devil Is

a Sissy." Freddie Bartholomew, Jackie Cooper and Mickey Rooney are starred, with Ian Hunter and Katherine Alexander playing the mature roles.

The story of three youngsters, caught in the web of a gangster, whose exploits keep them in difficulties until they see error in their ways. The feature takes its name from the pronouncement of the judge who reviews their case.

Color cartoon, band set and late news will complete the Sunday-Monday program.

"And Sudden Death" and "And So They Were Married" will make up the double feature bill for barain night, next Tuesday.

Randolph Scott and Francis Drake appear in the first film—a retelling of reckless driving and the inevitable results; Melvin Douglas and Mary Astor are starred in the second number, which is a bright and zesty comedy set in a snow-bound lodge.

"Old Huteh," scheduled to play next Wednesday, Thursday and Friday, is just such another adventure as everyone loves. And Wallace Beery creates a character of the town loafer that has its wifeful as well as its mirth-provoking side.

The story centers about a small town no-er-do-well, who stumbles upon a hidden cache of \$100,000. The money being in \$1000 bills, "Old Huteh" is at his wits' end to find a way to spend it.

Local Firm Sells 9 Truck Fleet to Air Line Company

A fleet of nine 1 1/2 ton Chevrolet trucks was sold by Schaumburg Chevrolet Sales last week to the United Air Lines in a deal which is one of the largest motor vehicle sales ever transacted in Barrington.

These trucks, sent out for distribution Saturday, went to the company's headquarters at the following places: Chicago, Baltimore, City, Omaha, Cheyenne, Cleveland and Newark. The machines were assembled at the Chevrolet plant on North Cook street Wednesday ready for distribution Saturday. They were identical 1937 machines, and probably will be used to haul materials to and from the landing fields. Fred Schauble, manager of the local garage reported. Schaumburg Chevrolet Sales, organized in 1935, has built up a very creditable business in sales and service of the leading selling unit of General Motors corporation. The company has moved a large number of passenger cars as well as trucks.

WE LEARN FROM DICTATORS

The world is learning from the dictators. It is discovering that by their very nature dictatorship must be a disturbing force. Quite apart from the good or evil they work in their own countries, the international system in too sensitive, too closely integrated, to stand the shattering shocks of dictatorial methods. Dictators are too powerful, their tread is too heavy, their voices are too thunderous, their manners are too masterful, for this tremulous and aging planet to inhabit. The earth has no room for giants any more.

We are learning that even the virtues of dictators are too much for us. The internal order they enforce, for instance, only magnifies their capacity to provoke external disorder. Their decisiveness turns their every act into an ultimatum. Whatever they do, they do with an effect of violence. Whenever they move, they move suddenly and swiftly, in the manner of a supreme command springing surprises in war. The diplomacy they practice is not high-toned, not shirt-sleeved, not even the iron hand in the velvet glove. It is the diplomacy of the mailed fist, of naked force.

The dictators in short, teach us to chalk up one more advantage for democratic government. In the horse-and-buggy age they might have functioned without upsetting the universe. In the radio era they crowd up on one another. They fill the air with noise and threat and turmoil. The world has become too small for rules with limitless and unquestioned powers. If only to curb and slow down the drive of nations to the speed limit where international traffic is impossible, we need the creaking brakes of democracy.—The New York Times.

WHAT'S GOING ON IN WASHINGTON

(Courtesy The United States News)

All doubt is removed from the reality of the president's power to place an embargo on export of arms to belligerents when he is authorized by congress to do so at his own discretion.

The supreme court removes the doubt, handing down a 7-1 opinion which draws a line of demarcation between the executive's power in foreign relations and his power in domestic affairs.

Several corporations and individuals had been charged conspiring to ship 15 machine guns to Bolivia after the president, on May 23, 1934, had placed an embargo on such shipment in accordance with a congressional resolution permitting him to do so if he found that it would tend to promote peace.

Defense of those indicted had called in question the propriety of the delegation of power to the president, alleging that it amounted to a grant of legislative power. The court rules that, in foreign affairs, the power of the federal government is supreme and that the president may, in this field, be given much wider authority than in domestic affairs.

The states, says the court, at no time possessed powers to act in foreign affairs and so could delegate none to the federal government, which received its sovereignty from England. Congress is de-

clared well within its rights in entrusting to the president the discretionary power given.

Fortified thus in advance is the program for safeguarding neutrality which the president declares he will submit to the new congress—a continuance and extension of a policy which would have export of war implements and supplies to belligerent nations.

The armament race gets under way in dead earnest as December 31 brings the end of the Arms Limitation treaty between the United States, Great Britain and Japan.

Thus dissolves whatever was accomplished toward disarmament by the Washington conference of 1921-1922 and the later conference of London in 1930.

As the pact prescribing maximum tonnage and a 5-5-3 ratio in capital ships between these three powers goes into the discard, Great Britain serves notice on the United States and Japan that five cruisers which had been slated for scrapping will be retained and converted from their former use into anti-aircraft ships.

Japan had given notice of abandoning limitations two years ago in a move which wrecked all hopes of reviving the treaty.

Now with all checks off, the French government declares that it will scrap no ships but will keep

all its shipbuilding facilities occupied in producing the most modern fleet possible by 1942.

America's program: To begin shortly the construction of two new battle cruisers of the largest size, leaving still unsettled the question whether to expand the navy to a point that would make possible defense of the Philippines, now ostensibly on the way to independence.

Wilhelm Flentge, well-known retired farmer of Hanover township, died at his home following an illness of three weeks, Friday evening. He was born in Barrington township on April 12, 1865 and married Miss Minnie Heine, June 30, 1892. For the last 40 years he had been engaged in farming in Hanover township.

Surviving him are his widow, Mrs. Minnie Flentge; three daughters, Mrs. Amanda Hecht of Bartlett, Mrs. Lydia Thies and Mrs. Laura Holland, both of Elgin; two sons, Albert Flentge of Elgin and Arthur Flentge of Roselle; two brothers, Carl Flentge of Barrington township and Henry Flentge of Elgin, and 14 grandchildren. Library News

"A Child's Story of the Animal World," E. G. Huser.

Here, at last, is a zoology book written especially for children at the inquisitive age. Better than a trip to the zoo or the aquarium, it tells the story of the animal kingdom so that the child reads on and on, as any adventure tale, making friends with spiders and porpoises, lions and tigers and whales, until, when the last page is reached, he has a new understanding of the field of zoology.

"The Sea for Sam," W. M. Read and W. S. Bronson.

A book on that fascinating subject, the sea and all the forms of sea life here described in a most interesting and authoritative manner. Written on a subject about which so little is known, this book should find an especially welcome spot in the acquaintance of all boys and girls, for whom the book is intended. From the early life of the earth and moon, to the origin of the Atlantic Ocean; from waves and tides to plants of the sea; from the sea's minutest animals to leopards; this book contains all the information boys and girls would like to know about the sea.
