

January Building Indicates Activity for Suburban Area

Suburban building makes a fine "top-down" for 1937 with a January increase over last year of \$1 per cent. The figure being \$1,747,447 for January, 1937, as against \$1,737,441 for January, 1936.

It is the most interesting fact about the big increase is that it cannot be accounted for by an increase in the number of new houses. The bulk over unusual size. The bulk over unusual size. The bulk over unusual size.
