### Slaying of Agents and Gangster Case Revived in Courts

A warrant charging John Paul Chase with the murder of Herman E. Hollis, federal agent killed in a gun battle between Chase and "Babyface" Floyd Nelson and Hollis and Agent Samuel P. Cowley in Barrington on November 27, 1934, was issued in district court in Chicago Tuesday by Judge Philip L. Sullivan. Both agents and Nelson died of bullet wounds received in the fray.

The warrant was issued against Chase, who had been captured and convicted to Alcatraz prison in 1935 for the slaying of Cowley, when federal attorneys remembered that he was eligible for parole in 15 years. If Chase is granted parole in 1950, he can be immediately tried on the second murder charge. The warrant was sent to be filed at the prison.

### Kelsey, Washo, Report in Hearing on County's Costs in Strike Outset

The board of supervisors of Lake county on Wednesday voted an appropriation of \$13,000 for the sheriff's office to pay for deputy tires, gas and other items of expense incurred when the officers ousted the sit-down strikers from the Pansteel corporation of North Chicago. Some objection to paying the sheriff's expense was offered by board members.

"I believe the sheriff should be compensated for executing court order with regard to human life and for protecting property and should be paid," H. D. Kelsey said.

Harry Washo, supervisor from Elia, raised an objection on the claim that the Pansteel company is not highly enough assessed and does not pay its proper share of taxes to the county and consequently should defray the expense incurred in its behalf.

approved under the last grant are to be started for extra work on the sewers and treatment plant, amounting to \$100,000, a highly desired project.

"In addition to this federal government grant the village has an agreement with the Barrington Hills Country club people whereby the village will receive a donation of \$10,000 to help defray the cost of the outfall sewer. Of this amount \$6000 has been received and the balance will be forthcoming soon.

"We are indebted to Ralph Bennett, PWA engineer, who rendered valuable and ample assistance in our project.

### Paving

"The village was successful in having approved and completed a project to widen Main street between Cook and 8th street from the state gas tax fund.

"This work was under construction when it became my pleasure to announce to the village board that the Cook county highway department approved a plan to widen Main street from Northwest to North Chicago.

"The project is to be started this month at a cost of \$50,000, all done with no village expense and no added indebtedness.

**WPA Projects**  
"Three WPA projects are now under consideration with engineers drafting the work schedules. They include leveling and seeding parkways, repaving sidewalks and building a new water reservoir to replace the present oldest one. The method of financing, which will be a minimum to the village, is being developed by the finance committee.

**Lighting Contracts**  
"By placing the downtown ornamental street lighting system on a meter basis last May, the village was able to save about \$172.21 in the first year of operation. The cost of lighting was formerly paid on a flat basis for each light, but the meter plan has grouped them for a considerable reduction in operating cost and

at the same time increasing lighting. Formerly the 59 lights costed 160 candle power bulbs and now they have 250, 400 and 600 candle power bulbs.

"A similar plan to meter Jewel Park ornamental lights is being developed following conference with Public Service company and village officials.

### Bond Suits

"During the year the Volting bond suit was brought to a conclusion with the master in chancery holding the forgeries as void and no liability on the village. Approximately \$8000 was involved.

"The Knuckack suit on over-issued bonds was also closed with some bonds declared void and others given a percentage of collections, with no liability on the village.

"No decision has been returned on the Castle bondholders committee suit as yet and the litigation pending with the school trustees, directors and treasurer is in court at present.

### Indebtedness

"The general indebtedness of the village has been reduced and our statement at the close of the fiscal year will show no warrants outstanding. This is a large item and reflects a better financial condition than at any time in the last seven years.

"In conclusion, permit me to again express my appreciation for the cooperation given me by members of the board, and the wholehearted support and conscientious interest shown in their work by

Village Clerk A. C. Burandt and Village Treasurer A. L. Wiedenbeck, whose work has constantly been increasing in detail.

"The work of the police department and also of the water department has been at all times satisfactory. I also desire to express my appreciation for the interest shown in affairs of the village by the attorney for the village who has given liberally of his time and effort to work for a successful conclusion of the many problems submitted him, and also for work done by the engineers in connection with the sewer problem.

"In a final analysis, I am happy in the thought that the major obstacles in the village's development have been or are about to be brought to a satisfactory conclusion. The remaining problems should be completed within the next year.

Respectfully submitted,
