

VOLUME 50, NUMBER 14

Radio Situation in U.S. and Europe Described to Club

Mrs. J. M. Boddie Addresses Group at Methodist Church Wednesday

The future of radio is a challenge rather than a promise," Mrs. John M. Boddie told members and guests of the Barrington Women's club at a meeting held at the Methodist church Wednesday afternoon.

"Mechanically, radio will make great strides and will be improved considerably. Socially, it will present a problem. One man talks to the whole world, and the whole world listens to him."

Mrs. Boddie described radio conditions in other countries in addition to tracing its development in the United States. The British give their people programs which are a little better than what the public wants and claim they've raised the public taste in the past few years, she stated. British programs are made out in advance and supplementary material advertising worthwhile programs is mailed out to English citizens.

Previous to the war, China was rapidly being unified by the radio, the language of north China being used exclusively so that one language might be used in the country eventually.

In Russia, whole groups in factories and fields are being educated via radio. The Russians adore music; 66 languages and dialects are being spoken over Russian broadcasting stations.

Propaganda fills German radio programs now. It is expressed in 15 languages. Italian broadcasts are presented in 8 or 9 languages and are also filled with propaganda. One, in Arabic, has disturbed the British sufficiently for the latter to attempt to smother Italian influence by broadcasting a daily program in Arabic also.

The best single agency for peace and goodwill is the \$9,000 amateur radio operators scattered all over the globe, she spoke.

Local Entries in Flower Show Are Awarded Ribbons

Exhibits Get First, Second, and Fourth Places at Navy Pier

The Garden Club of Barrington received a blue ribbon and the Countryside Garden Class received a red ribbon and yellow ribbon for second and third places for their exhibits at the 12th annual flower show being conducted at Navy Pier in Chicago this week. The show will close Sunday.

Mrs. Frank Hoek received the blue ribbon first award on her entry of two Chinese oaks for the Garden Club of Barrington. "Plectranthus, well-grown and interesting" was the comment of the judges on her entry.

For the Countryside Garden Class, Mrs. Orin Wold received the second place red ribbon for her entry of a pair of tree geraniums in full bloom, each plant having about 14 large rose-colored blossoms. Mrs. Arthur Donovan received the fourth place award on a grapefruit tree.

The regular meeting of Countryside Garden class was held Friday at the home of Mrs. Nelson Hammond. A program of period gardens and the restoration of Williamsburg was given by Mrs. Frank Bernard.

The study class of the Garden Club of Barrington met at the home of Mrs. Frank Zancker Monday afternoon.

A lecture of interest for local garden club members will be held in the Men's Grill of Carson Fire Boat & Co. in Chicago Friday, April 8, when Mrs. Constance Spry will give an illustrated talk on cut flower arrangements. Mrs. Spry "did" the flower for the wedding of the Duke and Duchess of Windsor. It was reported, and she will have a number of unusual containers, wooden buckets, gourds, shells and lanterns, to use in her talk.

A number of persons from Barrington are expected to attend the lecture.

Would Hold Special Election If Supervisor Vacancy Occurs

A special election will be held to fill the vacancy created if H. D. Kelsey is successful in his campaign for the Illinois general assembly; it was learned at the annual meeting of the town of Cuba held at the Standard Motor Sales room, 203 Railroad street, Tuesday afternoon.

Should Mr. Kelsey be elected, and from all present indications he will lead the republican ticket for that office in the primary election Tuesday, it will be necessary for him to resign as supervisor of the town of Cuba in order to take the higher post.

Both J. J. Claude and Edwin Gross, members of the town board, are in agreement with Mr. Kelsey following his statement that an election should be held. The question as to what might happen and how the vacancy would be filled was brought up by Leo Riley.

Mr. Kelsey told him that he proposed to tender his resignation, if he received the republican nomination for representative (under the senatorial election) agreements are made by both parties nomination is tantamount to election, in sufficient time to allow a special election to be called. This possibly could be held in October, he felt.

His resignation would be effective a few days following the general election November 7, and the successor to the office of supervisor could take over his duties immediately, Mr. Kelsey said.

Both Mr. Claude and Mr. Gross stated they were opposed to filling the vacancy by appointment, indicating that themselves would resign from the town board rather than take that action, which, they felt, was not the proper method to fill the office and did not represent the wishes of the town electors.

Other items of importance transacted at the meeting was the approval of \$4150 for the general town purposes and the adoption of the 20c on \$100 valuation for relief expenditures. The motion to extend the levy for relief purposes was made by Fred Koelsch, seconded by William Foelschow.

Reports from observers in the three counties in the eighth assembly district, Lake, McHenry and Boone, indicated H. D. Kelsey, supervisor of the town of Cuba and candidate for the Illinois general assembly on the republican ticket, will lead his party ticket in the representative race.

Mr. Kelsey has been making a strong and active campaign to gain the party nomination as state representative. He has carried his tour into the three counties, and, based on the reports that have been returning, has made a favorable impression.

Supporters of his campaign have adopted the slogan of "one cross one name" and "three votes." This is true due to the fact that only two republicans and one democrat are to be elected. Since only two republicans can be checked on that party ballot and the primary Tuesday, each of the candidates receiving the check mark are given a vote and one-half.

Mr. Kelsey's followers are requesting his friends and neighbors to vote only for him, thus giving him three votes on the tally.

If this program is adopted at the local election and in other points, Mr. Kelsey will receive many votes, observers stating they felt he would lead the ticket. This is Mr. Kelsey's first attempt in seeking a state office.

Reports Possibility of County Line Road Paved East of Here

According to information received from Rudolph Berg, village trustee, the Cook county highway department is surveying the County Line road east of Barrington with the possibilities of paving that strip east to Rand road.

The surveyors were here Monday and Mr. Berg stated he was informed that the improvement was included in the county's road program. From the Northwest highway to Rand road the distance is estimated to be about 4 1/2 miles.

Mr. Carboneau, who has had his training in a sewing machine factory, has his shop at 111 North Fourth street in cooperation with the Cuba Electric Shop.

He will also service all household electric appliances for Cuba Electric.

Attains High Standing
Howard T. Garst of Barrington will not be required to attend classes at DePaul university for the remainder of the present term, according to the optional class attendance list released this week by the registrar's office. All juniors and seniors having maintained an average grade of B during their college years including the first semester of the following year are eligible for this exemption. A total of 35 men and 29 women students made the required grade average.

Injured Right Ankle
William Washo, 212 Washington street, is suffering from a sprained right ankle.

Little Activity in School District's Election Saturday

Four Running for Board, One for President; Districts to Vote Also

Candidates for members of the board of education of school district No. 4 have not participated in any active campaigning to date, although the election will be held Saturday. The polls will be in the public school gymnasium on Fourth street and will be open from 2 p. m. to 8 p. m.

The terms of president and two members of the board expire this year. Alfred D. Church is the only candidate for the presidency will be in Kraus' store and Mrs. Elsie Kirby is unopposed in seeking reelection to the board of education of the district.

Rural school districts in all sections in this vicinity will elect trustees this Saturday also. The polling place for each district will be located in the respective school houses.

Both the terms of president and members of the board are for three years.

The Community high school, district No. 123, of Cuba township, will also hold an annual election Saturday. The chairman will be in Kraus' store and Mrs. Elsie Kirby is unopposed in seeking reelection to the board of education of the district.

Rural school districts in all sections in this vicinity will elect trustees this Saturday also. The polling place for each district will be located in the respective school houses.

Express Fear That Cold Weather and Snow May Injure Young Buds

Fear was expressed Wednesday that cold weather and the heavy snowfall, estimated at approximately 5 inches, which began at midnight Tuesday and continued for 14 hours, would prove harmful to early budding plants and trees. Though no local records are available, the fall was reported as the heaviest witnessed in this community during the month of April by many old timers. The actual moisture precipitation as recorded by the gauge at the village treatment plant, was 34 inches.

The heavy snow raised havoc with traffic conditions all through this area. Countless cars were stuck in drifts or ditches and state, county and village maintenance departments were pressed into immediate action to open the roads.

Wednesday was the first time in two years the snow has been so persistent of streets, found it necessary to use a snow plow on the village streets.

The state and county departments were handicapped due to the fact that all heavy-duty plows had already been placed in storage and only the lighter-type were available to move the heavy, clogging snow.

During the month of March the rainfall total in the village was 5.17 inches, according to the report made by Fred Hager, treatment plant operator. This is the first year the village has maintained a rain gauge so no comparative records are available.

Following is the daily rainfall record for March:

March 2	11 inches
March 4	50 inches
March 5	46 inches
March 7	30 inches
March 16	05 inches
March 19	05 inches
March 22	11 inches
March 24	30 inches
March 25	34 inches
March 30	34 inches

Police officers who were dispatched to clear the streets of snow were surprised to find that the snow had melted and the streets were clear.

Local Campaigns Swing Into Final Week of Activity

Primaries Tuesday, April 12; Polling Places Are Listed

Political campaigns of candidates for republican and democratic nominations are swinging into the final wind-up with primary elections next Tuesday, April 12. Local interest centers around the campaign being made by H. D. Kelsey, supervisor of the town of Cuba, for republican candidate for representative from the eighth assembly district, and the contest for local committee offices. The polls will open at 6 a. m. and close at 5 p. m. Tuesday in all precincts.

In Barrington township A. G. Gleske, republican committeeman of Barrington township, is unopposed. He is seeking election for a second term in the office. The decision of H. R. Brintlinger, democratic committeeman of Barrington township, not to be a candidate for re-election developed the strongest contest locally.

R. F. Kocher Sr. and Kenneth P. Scher are both seeking the office. John Hilgenberg Jr. was also a candidate, but has withdrawn and is supporting Mr. Kocher. Both men have been active, organizing clubs and making a canvass of the township for votes.

Rudolph Berg is unopposed in seeking Cuba township where he is seeking re-election as republican precinct committeeman. He is completing his first term. The contest for the democratic precinct committeeman job of Cuba township is a three-cornered affair. The candidates, in the order they will appear on the ballot, are as follows: Vernon J. Gallagher, John J. Trestitz and Cornelius C. Snyder. Mr. Snyder is a former committeeman and Mr. Trestitz is completing his first term.

Four polling places are listed for the four Cubans township precincts. In district 1 the polling place is the Gold Star Motor building and the following are the judges and clerks: Mrs. Edna Paddock, Mrs. D. D. Hawley and Irving Landwehr, judges; Mrs. Ruth Kocher, clerk.

Discuss Liability on Signs; to Draft Village Ordinance

The subject of public liability resulting from ornamental or business signs was introduced at the village board meeting Monday night by Trustee John Daeschler, who reported that an annual insurance premium of \$177.50 would protect the village against any claims arising from accidents caused by falling signs or obstructions on the streets.

He stated that there are 53 awnings, 35 metal holes, 13 square sidewalk entrances, 67 display signs and four basement entrances in the business district. Each of these, Mr. Daeschler stated, is a potential liability claim against the village in the event of an accident to a pedestrian.

A license, requiring payment of a fee sufficient to cover the village's insurance cost and making a property owner's bond mandatory, was his suggestion to eliminate the condition. The fee, he thought, should be prorated to cover the cost of the insurance premium and the bond furnished by the property owner. It would provide protection for the pedestrian who might be injured by a falling sign or by some obstruction.

D. B. Maloney, village attorney, was instructed to prepare an ordinance to cover the provisions outlined at the meeting. Mr. Maloney is also to prepare an ordinance prohibiting the dumping of rubbish or garbage in the village.

Village Trustee John H. Blanke was embarrassed each time he buys a candy bar and is forced to throw the wrapper on the street, he told members of the board of trustees at the meeting held Monday night.

In order to save himself that embarrassment, he proposed that the village purchase waste boxes that can be placed on the streets in the business district for the purpose of collecting waste paper.

Despite the humorous introduction of the plan, Mr. Blanke was instructed to inquire into the cost of such boxes. His suggestion was coupled with the village's plan of an active clean-up this spring.

Names W. Foelschow
As Deputy Assessor

C. H. Miller, assessor for the town of Cuba, announced Wednesday that he had appointed William C. Foelschow deputy assessor to assist him in making the annual survey this year. Mr. Miller stated he would start work next week.

Due to a large amount of additional work in connection with making the assessments, Mr. Miller stated it was impossible for him to handle the work alone and he had found it necessary to have a deputy.

Mr. Foelschow will devote his time to making personal property assessments in the village of Barrington and the real estate work.

Wine Variety Award

Glenn Hager of Barrington, athletic star at DePaul university, was recently awarded his letter for participation in varsity basketball. Director of athletics, D. C. Moffett, announced the awarding of \$100 "D's" to members of the Old Gold basketball team. Others will be \$50 trophies, 18 sets of freshman numerals, two manager's letters, one trainer's monogram, and five assistant's numerals.
