**Non-Citizens Are Dropped From WPA**

In compliance with a provision of the emergency relief appropriation act of 1937, the Illinois works progress administration has dropped 2256 non-citizens from its rolls to date. Of them, 1593, or considerably more than half the total for the state, were released in the Chicago area. WPA State Administrator Charles E. Miner issued instructions that the act be complied with promptly and completely but that no drastic measures be taken immediately against those workers about whose citizenship status there is reasonable doubt.

While the WPA has been dropping non-citizens from its payroll, nevertheless it is maintaining its classes in citizenship to help un-naturalized foreign born persons to become citizens. At the present time there are nearly six thousand un-naturalized foreign born persons receiving instructions in the WPA citizenship classes throughout the state.
