

### 2nd Crystal Lake Woman Victim of Daylight Burglars

Miss Dalste Griffin, Crystal Lake beauty parlor operator, became the third victim of holdup thugs in McHenry county Sunday afternoon when she was bound, gagged and dumped into the coal bin of her apartment by the booters who have specialized in robbing women.

Miss Griffin's apartment is just around the corner from the residence of Mrs. Leon Viall, who was left bound and gagged in the bathroom of her home on January 7. The other burglary occurred in Woodstock January 5 when Miss Maisie Conway, drug store owner, was also bound.

In the burglary of Miss Griffin's place, two men did the work while in the two previous instances one man only was reported. Police authorities believe the burglaries were done by the same men working as a team.

Sixty-five dollars in cash, a wrist watch, several rings, a new fur coat and camera were taken Sunday.

Unable to free herself, Miss Griffin remained in the coal bin for several hours before being found by friends visiting her who had left earlier in the afternoon to go skating on Crystal Lake.

### Lew Hendee Enters County Clerk Race

With the entry of Lew A. Hendee, former county clerk of Lake county, as a candidate for the republican nomination for county clerk at the April 13 primary there are four men campaigning for the party nomination.

### Others in the field are Jay B. Morse, former county treasurer; William J. Stralton, former secretary of state, and J. Russell Miller, an assistant supervisor from Shields township.

The only democratic candidate for nomination is Russ Alford, who will seek re-election.

### Hold Inquest Here on Man Killed Near Elgin By Machine

A verdict of manslaughter with the recommendation that police officers continue their search for the driver of the vampire car was returned here Wednesday morning by a coroner's jury investigating the death of Peter Schmidt, 75 years old, of Elgin, who was fatally injured by a hit-and-run car Tuesday evening.

The accident occurred on U. S. Route 20 at the outskirts of Elgin and because that portion lies in Cook county the body was brought to the Danielson and Willmering Funeral Home, 149 W. Main street, for the inquest.

There were no eyewitnesses of the accident, but a bracket from a car bumper was found at the scene and police hope to locate the driver of the car through it. According to testimony, Schmidt was walking on the south side of the road and was struck from behind. Death was almost instantaneous.

### Flynn Fraud-Proof Election System Is Praised by Experts

By RAYMOND T. O'KEEFE JR. Michael J. Flynn, county clerk of Cook county, has just completed installation of a permanent registration system that is termed by experts "not the first, but the biggest system in the country." After extensive study and observation of "honest ballot" plans operating in other parts of the nation, Mr. Flynn incorporated the best features of each into his own fool-proof, fraud-proof system.

Chicago has had its permanent registration in effect for over 25 years but the rest of the county initiates its own setup in the forthcoming April primaries. "Already it has eliminated dead men's votes," registrations and other illegal votes from the election list," Flynn said, "and above all has disclosed that thousands of aliens have heretofore been casting ballots as voters."

Prominent men including doctors, lawyers, dentists and even some important public officials never know they weren't citizens until they receive their registration card, which they must take with them at their naturalization papers at the court wherein they were naturalized. Mr. Flynn declared.

Each registrant in Cook county is required to fill out registration cards in triplicate—the first goes into the master file, the second into the precinct file for the county elections, and the third is kept by village officials for local elections. Each contains the voter's signature which must be matched at the polls before he receives a ballot.

Uncle Sam checks on voters who haven't cast a ballot for four or more years as revealed by their record on the registration card. These are sent another non-forwardable card, which if returned indicates that the registrant has moved from the precinct.

### Seelig Eye Work Is Meeting Topic

Continued from page 1 sought technical knowledge at a university. Through his work with German Shepherd dogs, Jack Humphrey had come in contact with Mrs. Harrison Eustis, now president of the Seelig Eye. Mrs. Eustis had started the Fortunate Fields project a study in breeding the German Shepherd for higher intelligence and the practical application of such intelligence in the field of actual, not theoretical service. Because of her ability to recognize potential values, it was Jack Humphrey whom she chooses to assist her in this work for she realized that here was a man whose knowledge of breeding not only theoretical, but practical, was so broad as to ensure the success of her project.

### Monument to the Sea Gull

In Salt Lake City a granite column about sixteen feet high stands on a granite pedestal in a basin thirty feet in diameter. The column supports a granite ball upon which two bronze-gilt gulls are represented as alighting gently. The monument commemorates the saving by gulls of the pioneers of Utah, in 1848, from hordes of grasshoppers that threatened to devour every leaf and blade of their fields. The monument bears the inscription—"See Gull Monument. Erected in Grateful Remembrance of the Mercy of God to the Mormon Pioneers."
