Mr. and Mrs. Herbert Lohman spent Sunday at the home of Mr. and Mrs. Harold Rudinski in Wauconda.

The basketball teams of Ela

**INTO THE KETTLE**

Among the suggestions from Review readers which we shall pop "into the kettle" this week are four suitable for one of those delightful buffet suppers or informal luncheons particularly pleasant at this time of year when guests enjoy filling their plates and sitting around a fireplace as they munch. The main dish is a meat soufflé suggested by Mrs. Ruben Plagge whose recipe is as follows:

**MEAT SOUFFLE**  
2 cups chopped meat (raw or cooked).  
1 cup broth (simply made by dissolving 1 beef cube in 1 cup boiling water).  
2 tablespoons butter.  
2 tablespoons flour.  
2 tablespoons dry bread crumbs.  
3 eggs.  
3/4 tablespoon onion juice.  
1 cup milk.  
Melt butter. Add crumbs and flour, then liquids and boil. Add meat gradually, then beaten egg yolks. Mix well. Allow to cook one-half hour. Fold in beaten whites. Bake 40 minutes in moderate oven—baking dish set in pan of boiling water. Garnish with parsley.

Green beans in Mexican style make an attractive and delicious accompaniment to the soufflé. Mrs. Donald Titterton contributed the following recipe:

**GREEN BEANS (Mexican Style)**  
3/4 cup chopped onions.  
6 tablespoons salad oil.  
2 No. 2 cans green string beans (drained).  
1 Bean, can tomato sauce.  
2 tablespoons sugar.  
1 teaspoon salt.  
2 teaspoons lemon juice.

Pepper.  
Cook onion in oil until tender. Add remaining ingredients, tossing with fork. Serve hot.  
A variation in your favorite muffin recipe may be gained by adding candied orange peel, cut in small sections. Mrs. Charles Foster reported, adding that recent guests at her home were enthusiastic over

high school split a double-header with Palatine Friday evening, the heavyweights winning by a score of 22 to 20 and the lights losing 17 to 22.

the orange muffins she had served. As a finale to the meal suggested today, we offer Mrs. Plagge's recipe for frozen salad—equally delightful as salad or dessert:

**FROZEN SALAD**  
1 pkg. soft, white, cream cheese.  
1 cup crushed pineapple.  
3/4 lb. marshmallows, cut fine.  
Mix. Let stand overnight. Beat well in morning and add 3/4 pt. cream, whipped stiff. Freeze in refrigerator tray 3 hours. Cut in squares to serve. Garnish with maraschino cherries, green grapes or nut meats.

All suggestions for this column will be greatly appreciated. We want you Review readers to feel it is YOURS. For an exchange of ideas to further the joy of home making and entertaining, address communications to B.B. Thank you.

Mrs. C. W. Anderson has been ill for the past week.  
L. R. Pearson made a business trip to New York this past week.  
Mr. and Mrs. Bert Wallace are enjoying the winter in Florida. Mrs. Wallace has been in Miami since October where she was joined this week by her husband. They plan to remain there for several months.

**Early Lawn Feeding Insures Good Growth**

By THE MASTER GARDENER  
To have a beautiful lawn, you must feed that lawn—furnish it with all the elements growing grass needs. Many people fail to realize the amount of plant food removed from the soil each year by growing grass. They do not realize the necessity of replacing that plant food. They wonder why their lawn becomes thin, straggy and

ELGIN

weedy—and why reseeded alone does not solve the problem.  
The most desirable method of feeding is to apply a complete, balanced plant food—odorless, economical, and easy to apply. Plant food, to be of greatest benefit to grass, should be applied to the established lawn very early in the spring. The most favorable time to apply it is just as soon as spring thawing begins because—  
1. The ground is still honey-combed from the effects of freezing and thawing and the plant food readily finds its way to the grass roots.  
2. The nourishment is available to the roots, just as soon as root action begins, and when all conditions are favorable for growth.
