Compile Data From Job Questionnaire Sent to Graduates

Questionnaire Reveals Facts for Class Study at Public School

A number of interesting facts were disclosed by Miss Althea Christenson, member of the high school faculty, in the compilation of a questionnaire sent out about a month ago to Barrington high school graduates of classes from 1933 through 1937. A 44 per cent return has been received thus far with the number of men answering being slightly higher than the women.

This is the status of the women graduates answering the questionnaire:

Employed	49
At school	19
Married and at home	19
Unemployed or not stated	8
Total	75

The women employed are engaged in the jobs of secretary, typist, clerk, bookkeeper, computer operator, landscape gardener, nursemaid, and maid. This list gives some valuable first hand information to the girls in Barrington high school as to the type of jobs graduates have secured.

The B.H.S. men graduates, according to the questionnaire, are classified as follows:

Employed	59
At school	14
Unemployed or not stated	11
Total	84

The employed male graduates have the jobs of clerk (most numerous), mechanic, salesman, bookkeeper, instructor, printer, truck driver, farmer, meter reader, milkman, decorator, accountant, janitor, engineer, carpenter, electrician, student pastor, ironsmith, machinist, proprietor, bowling pin setter, and reporter.

Most of the B.H.S. graduates had a job at least three months after graduation, unless they went on to college or university.

The amounts B.H.S. graduates received on their first job varied considerably. The salary of the girls ranged from \$6 to \$25 a week, with \$12.50 to \$15 for most of them. In the higher salary group are those who graduated from college. The boys received from \$5 to approximately \$22 a week; also many were paid on an hourly basis ranging from 25c to 60c an hour. The groups ranging from about \$10 to \$25 a week were graduates of colleges.

The following is a summary of the salary groups. Not all salaries were stated, but some idea is given in these replies.

Women Men	
\$10 or under a week	6
\$11 to \$15 a week	8
\$16 to \$20 a week	16
\$21 to \$25 a week	11
\$26 to \$30 a week	4
\$31 to \$35 a week	19
\$36 to \$40 a week	1
\$41 or over a week	1

Hold Last Rites for Mrs. Brandt Monday

Last rites for Mrs. Edward Brandt, 417 N. Hough street, were held at the late residence and Salem Evangelical church Monday afternoon. Rev. W. A. Stauffer officiated and burial took place in Evergreen cemetery.

Mrs. Brandt died Friday morning of a cerebral hemorrhage. She was suddenly taken ill Wednesday evening and removed to the Sherman hospital in Elgin Thursday evening.

Sarah L. Kampert, daughter of Mr. and Mrs. Kampert, was born in Barrington on February 1, 1877 and resided in this community all her life. She was married to E. P. Brandt on October 8, 1908.

Surviving besides her husband are five children, Raymond, Miss Mae Brandt, Mrs. Grace Meyer, James B. and Henry, all of Barrington; 12 brothers and sisters, John Kampert of California, Mrs. Emma Peterson of Arlington Heights, Mrs. Laura Lageschulte and Herbert Kampert of Wauconda, Willis Kampert of Fairmont, Minn., Mrs. Henrietta Norris of Peatonica, Ill., Mrs. Kate Brandt, Mrs. Clara Meloy, Mrs. Amanda Strickland, Edna Elfrink, Mrs. Addie Homuth and Mrs. Mabel Koss, all of Barrington, and six grandchildren.

Mrs. Brandt was a member of Barrington and an active worker in missionary and Philanthropic class of her church.

Several Hundred Attend Party at Biltmore Saturday Night

A group of about 40 men and women from the several hundred guests at the party given for H. D. Kelsey at Biltmore Country club Saturday night is shown here. The guests came from many communities throughout Lake county with some from McHenry and Boone counties. Several county and district candidates for office and Lake county officials were introduced, although no political speeches were given. Mr. Kelsey is candidate for state representative from the eighth legislative district. He is supervisor of Cuba township.

Village President Urges Concerted Spring Clean-Up

Earl Hatje Asks Community to Join Plan; May 2 Tentative Date

An annual village spring clean-up campaign with all civic and other organizations participating was the desire expressed by Earl Hatje, village president, at a board meeting Monday night. A date has been set tentative to the final report of the street committee headed by Trustee Rudolph Berg. The clean-up would start on Monday, May 2, and continue until the following Saturday, if that time is made definite.

Mr. Hatje stressed a number of reasons for a thorough spring cleaning, citing many instances where it is necessary and explaining why it will be easier to carry out this year. No construction work is being undertaken by the village that might interfere as was in the past several years when the new sewers were being installed, he pointed out.

Also, in keeping with the program of the Village Garden club of Barrington in its tree planting undertaking, he felt that the village should cooperate and extend the movement.

Boy scout troops, religious and civic groups and many other organizations are to be invited to join Mr. Hatje's enterprise.

Already crews under the supervision of Paul Purcell, superintendent of streets, are cleaning dirt and debris from the streets. To date over 150 yards of rubbish have been hauled away and only a few loads of the streets are completed. A large part of the work on the streets is washed there from unpaved house driveways, it was pointed out.

The village fire department has offered to burn off weeds in vacant residential property and Mr. Purcell will superintend the burning of weeds on parkways. Last year a meeting in this matter was pursued by the village to cut unsightly weeds in parkways during the year.

Proposal to Finger Print Peddlers Is Rejected By Board

A proposal that the village install a system of finger printing to maintain police control over itinerant peddlers was made by Trustee John Blanke at the board meeting Monday but the matter was tabled as too expensive and not sufficiently practical. Trustee John Carroll estimated the cost might reach \$200.

Mr. Blanke suggested that finger prints be taken by E. W. Baude, chief of police, of each solicitor for peddlers, to Washington, D. C., for comparison with a federal bureau of investigation's files. Other board members felt the system would be expensive in addition to the money to install the filing system and would require that Mr. Baude devote too much time to the matter.

A plan to use a card system was also discussed but no action was taken.

Play on Program at Chicago Hall

Caroline Langdale, Norrine Beerman, and Elaine Paulker of Barrington and Mary Anne Beckelman of Palatine played an arrangement of the "Three Kings" by Carl von Weber for two pianos at the Lyon and Healy concert hall in Chicago Saturday. Polly Ann Broome and Nancy Hansen, also of Barrington, played "Two Waltzes" Brahms-Mel on the same program.

4 G.O.P. Candidates in Field for Probate Clerk of Lake County

Four candidates are in the field for the republican nomination for clerk of probate court in Lake county. Through error The Review stated last week that all had withdrawn from the race except one. "Dabney" Bullock, present clerk, has withdrawn because of questionable health.

The candidates include Roy Reardon, Allan J. Nelson, Leonard D. Hook and George Strang.

Reports Total of Voters Registered in Country Towns

Cook County Clerk M. Flynn Checks Permanent List for Primaries

Michael J. Flynn, county clerk of Cook county, today completed the tabulation of all cards of persons who have registered under the permanent registration system which became effective in July, 1937.

The tabulation as listed by Mr. Flynn shows the comparable election of 1934, the total registration of the presidential election of 1936 and the number registered under the new permanent registration system.

The number of persons registered under the permanent system exceeds the number eligible to vote in the year 1934 which was a comparable election year. The figures reflect the true situation in each township as the cards of persons who have become deceased since registering and those who have moved out of the jurisdiction are not included in the number.

Transfers of cards of persons who have moved from one precinct to another have been made and there is no duplication in the number.

Tear Gas Outfit to Protect Village's Vault Is Discussed

If the sales talk of A. L. Song of Chicago was persuasive enough, the village of Barrington may become the possessor of a tear gas outfit to protect the vaults and records in the clerk's and treasurer's office.

Mr. Song appeared before the board Monday night and exhibited the outfit, which could be attached to the vault in the village hall. It is set into operation only if the smaller vault is broken or the vault. A glass tube containing the interocular gas is broken when the mechanism is struck. The suggestion was tabled for a future meeting.

Will Select Winners Friday in Public School Posture Contest

A posture contest to determine the boy and girl possessing the best carriage is being conducted in the Barrington public high school this week. Paul Clark, director of boys' athletics, and Miss Grace Wasidke, director of girls' athletics, are supervising the contest.

The winner in each division will be selected Friday afternoon in a test to be held in the school auditorium. Before being able to qualify for the test, each student is being required to maintain a certain standard.

Starting with Monday all pupils were given cards, representing the posture contest. As each day progressed additional cards are given. However, if at any time

Barrington and Cuba Town Meetings Apr. 5

The date for the annual meetings of Barrington and Cuba towns is set for Tuesday, April 5, in the respective townships. Both meetings will be held at 2 p. m.

Residents of the town of Cuba will meet in the Standard Motor Co. salesroom, 202 Railroad street, and residents of the town of Barrington will meet in the council room of the village hall on Hough street.

Reports of officers will be read at the meetings and appropriations for town expenses during the coming fiscal year will be made. An item of importance to residents of both towns is levy of poor relief funds. According to the present laws it is necessary to make a 5c levy on each \$100 valuation in order to participate in the sales tax allotment.

In Cook county this has not worked out satisfactorily due to the fact that tax collections are nearly a year behind. Consequently, the sale of tax anticipation warrants is difficult.

No other matters of great importance are to come before the group, it was learned.

81 Vaccinated for Small Pox Tuesday

The program for immunization against small pox in the Barrington public school was started Tuesday morning when 81 children were vaccinated by local physician, Miss Lillian McLeish, R.N., reported.

Although the number being vaccinated Tuesday was considerably smaller than hoped for, Miss McLeish stated, it was encouraging to have the program underway.

Miss McLeish also said the X-ray machine and audiometer for testing those children who showed positive in the recent tuberculosis tests are not immediately available for use here. Due to programs started in other Cook county schools earlier than in Barrington the equipment is needed there. She stated the apparatus should be here early in April.

Has Pneumonia

Gordon Brockway, small son of Mr. and Mrs. Russell Brockway of West Lake street is ill with pneumonia and under the care of a nurse.

Robert K. Burns Returns to Speak at P.-T. A. Meeting

Public Will Have Opportunity of Hearing Lecture April 1

Interest is centering around the return appearance of Robert K. Burns, research assistant in economics at the University of Chicago,

ROBERT K. BURNS

who will speak before the Parent-Teacher association in the high school auditorium April 1.

Mr. Burns addressed the Barrington Woman's club in January on "New Careers for Youth." His talk was received with great interest, and the P.-T.A. officers are bringing him back in order to give others an opportunity to hear him.

Mr. Burns has consented to use some of his time to tell young persons about opportunities and occupations. He will discuss their value and point out how they can be used to advantage in earning a way through college. In speaking of the so-called expensive proposition of higher education, he said, "I propose to explode this erroneous view and show them what the fact really are."

He has had considerable experience doing research work in connection with education and employment. In 1934-35 he was a member of the United States debating team and in 48 debates in 23 countries did not lose a single decision. Mr. Burns has made two world tours.

Former Barrington Boy Placed on All Star Cage Teams

Placed on five all star basketball selections, Russell Anderson, formerly of Barrington, is completing a successful career at Bethany college, Bethany, Okla. Five different judges, each selecting a mythical conference all-star team, placed Anderson in their line-ups.

Anderson is a grandson of W. T. Riecke, Walter Beaverson or Paul Riecke, and this was the basis for the volunteer fire department to extinguish grass fires. Only one has been answered by the department. That was a grass fire threatening the C. Q. Wright residence west of town Tuesday afternoon.

On the other six calls either Victor Riecke, acting fire chief, stated there have been seven calls for the volunteer fire department to extinguish grass fires. Only one has been answered by the department. That was a grass fire threatening the C. Q. Wright residence west of town Tuesday afternoon.

Make Two Proposals for Parking Changes

Parking problems were discussed at the village board meeting Monday night with two proposals being made for improvements. The first is to create a two-hour parking time limit all over the village and the second is banning of all-night parking.

Trustee John Daeschler reported the results of several conferences with property owners who had objected to cars being parked in front of their homes all day. This, he said, developed when two-hour parking went into effect in the business district. Commuters who had previously left their cars parked all day in the business district started to leave them on streets in the residential districts. Mr. Daeschler said that parking lots are necessary to correct the condition.

Carl Hatje, village president, advanced the second plan on parking problems when he advocated elimination of all-night parking. He contended that cars parked without lights are traffic hazards and also made police work harder. Night patrolmen, he said, have no cause now to investigate when cars are parked all night. If the machines were ordered from the street the police could make a more thorough check for suspicious persons and cars. Mr. Daeschler stated that 44 cars were found parked all night on the village streets in a check made by the night patrolmen.

The situation is being studied by the trustees.

To Install Cinder Sidewalk on Hough

Trustee Rudolph Berg reported to the village board Monday that the street and sidewalk committee had received numerous complaints because a sidewalk was lacking between the E. J. & E. tracks and the Flint creek bridge on the west side of Hough street.

In order to rectify the condition, he stated, a cinder walk will be installed. The railroad will install concrete on its property, and from that point north cinders are to be laid.

Children walking to school are forced to go onto the concrete pavement, and this was the basis of most complaints, he stated.

Urges Care in Lighting Grass Fires to Save Village Expense

Spring brings many things—prairie fires included. This assumption has been borne out in Barrington and in every community around here in the past week. Victor Riecke, acting fire chief, stated there have been seven calls for the volunteer fire department to extinguish grass fires. Only one has been answered by the department. That was a grass fire threatening the C. Q. Wright residence west of town Tuesday afternoon.

On the other six calls either Victor Riecke, acting fire chief, stated there have been seven calls for the volunteer fire department to extinguish grass fires. Only one has been answered by the department. That was a grass fire threatening the C. Q. Wright residence west of town Tuesday afternoon.

His department will burn off vacant property in town during the next several weeks while on fire drills, he reported to the village board Monday night. Mr. Purcell, superintendent of streets, will take care of the parkways.

Not quite as heavy as in other places. In one day the Waukegan department was called 15 times. Eight times in Lake Park and the highest of all was in Highland Park where 23 calls were answered.

Residents use all care possible in lighting fires and guard against their uncontrolled spread. When high winds prevail, it is not a logical time to try and burn off a large tract of grass land, he stated.

His department will burn off vacant property in town during the next several weeks while on fire drills, he reported to the village board Monday night. Mr. Purcell, superintendent of streets, will take care of the parkways.

Not quite as heavy as in other places. In one day the Waukegan department was called 15 times. Eight times in Lake Park and the highest of all was in Highland Park where 23 calls were answered.

Items of Interest to Farmers Listed in Want Ad Columns

A gravel truck, Holstein bull calves, team of work horses, seed barley, Hampshire gilts for spring farrow, among the marketable items needed by farmers and listed for sale in the Review Want Ads, page 16, this week.

A gasoline motor found, caretakers who want work, positions open, houses and farms for rent and sale, money to loan, and other items listed in these columns.

The want ads make interesting reading which by line every week. They help many persons to make or save money in the course of a year.
