Local Automobile Dealers Cooperate in National Sale

Countrywide Used Car Exchange Week Planned for March 5-12

A national drive to sweep the American automobile industry out of the current recession and stimulate American business generally was announced here today by Alvan Macaulay, speaking for every American automobile manufacturer and the nation's 46,000 automobile dealers.

The campaign, to be known as "National Used Car Exchange Week" and scheduled for March 5 to 12, is an outgrowth of recent conferences at the white house between President Roosevelt and leaders of the automobile industry, Mr. Macaulay said. The president has been advised of plans for the campaign, which is the first cooperative effort ever undertaken in which all American automobile manufacturers have taken part.

The campaign is timed at the outset of the spring selling season when both new and used cars usually begin to move in greatest volume, Mr. Macaulay said. It is aimed primarily at stimulating the disposal of used car stocks now in dealer hands. Once this is accomplished, a substantial increase in car manufacturing schedules and employment of wage earners in the automobile factories is anticipated.
