

Committee Named for National Air Mail Week in May

L. B. Paddock, Postmaster, Selects Local Group to Publicize Event

Committees were appointed this week by L. B. Paddock, Barrington postmaster, to plan observance of national air mail week, which will be celebrated throughout the nation from May 16 to May 21. In

addition to publicizing the event through committee workers, the Barrington public school is joining the movement and will participate in poster and essay contests, for local, state and national prizes are being offered. Essays are based on the subject, "Wings Across America" and the poster contest is based on the idea "Posters relating to the air mail service of the present and future and its adaptability to the needs of the nation."

Finances Important, Questionnaire Reveals

Continued from page 1 hour-\$10 a month; general household and care of children, received room and board at a private home in return for four hours of work each day. Thirty-one boys indicated they were helping to earn their college finances—10 solely and 19 partially. Boys seem to find jobs more easily than do girls at school. These are examples of some of the jobs done by boys, as given on the questionnaire: waiter, cleaning, and NYA—clerical, \$15-\$25 a month; clerical and personnel, \$40 a month; landscaping and bookkeeping, \$50 an hour; shopwork, \$15 a month; waiter, helper on research, odd jobs, \$40 a month; walter, \$10 and \$30 a month; laboratory work, about 50 per cent of college expenses; library work, \$15 a month; dishwashing, \$15 a month; wait on tables, soften water, sell "hot dogs", \$40 a month; library, art work, checking coats at dances, \$15 a month; library, working, chauffeuring, industrial research, \$50 an hour; NYA ass't steward men's cooperatives, hour and in fraternity, \$40 an hour.

From the data listed on this questionnaire, most college students are really working hard to get a higher education and deserve praise for their efforts. In response to the question, "What would you advise B. H. S. students to do in order to go to school after graduation?", many worthwhile suggestions were given. "Try first for a scholarship. Have a desire to get ahead. Anyone who wants to sufficiently can go to college. Pick a suitable college or university..."

"I think it is better to work until one has accumulated the necessary funds rather than work while learning..." "Investigate every possible chance of getting a scholarship; select a school with high scholastic standing and relatively low tuition due to sufficient endowment; don't be afraid to do menial tasks..."

I would advise every student who possibly can to go. It is becoming very necessary for young people to seek higher education. "First, have in mind that the following years will be ones of hard work, not a college spree; second, find the school providing the best program of the work best suited to him or her; third, if work is necessary, contact the school before the school session begins and find what you can be had..."

"By all means start as a freshman to work for a scholarship. Boys can work their way through college, but it is inadvisable for girls to try. Important—Learn to study while in high school..." "Keep up scholastic standing, have a definite objective in view, work during summer vacations, or even one or two years in order to establish some financial foundation. During those years try constantly to build character; think in terms of your aims. Don't let little things change your original course..."
