"TIME" MISSES ITS MARK

Time Magazine prides itself on its ability to get not only the cold reality but also the warm glow of the human situation.

The speakers were all conservatives, the article stated, "liberals" to the Time reporter apparently mean the LaFollette type of liberals.

It was not a prodigious politico-religious piping. The audiences have not been surprised with religion, and no speaker has mixed religion with partisan politics.

The meetings have been an inspirational series of lectures, more than most of the religious lectures of the past.

Probably few people realize that a gas price war is in progress in the Bannington area, nearly all of the stations are the aggressors, and at the same time the losers.

For nearly half a year the local price of regular gasoline has been 19 cents a gallon. About a week ago, the stations cut the price to 18 cents, but without getting any lower price from the wholesalers.

The fact behind the situation is that in the matter of gasoline prices, the manufacturer is the one who has the power, the manufacturer or wholesaler. For years the Chicago price has been below the Barrington price.

Now the stations are selling at a lower price but are cutting into their profits to do it. Unless the wholesale price discrimination is eliminated, operators cannot continue to sell at a price below the Chicago price.

THIS WEEK IN BARRINGTON

By RALPH E. CURCH
Representative, 103 Congressional District

Washington, D. C. Jan. 30. Much has been said in recent weeks about the "New Deal" and its position in the process of providing relief for the needy.

One can really know to what extent the administration of Roosevelt has been able to help the most needy and most loyal and hardy to be deamed, even by the most ardent and most loyal and hardy.
