The 1939 Ford V-8 represents the broadest experience in building cars any manufacturer ever had. You will find values in it far beyond what any other maker can put into a car at the low Ford price.

Ford performance, traditional for a generation, has reached new heights in the 1939 V-8.

And now Ford style leadership is equally outstanding. "The smartest cars on the road" is the way owners describe their new Fords. Smartest in action. Smartest in appearance. Leaders, as they deserve to be.

JOHN CARROLL, Veteran of Village Board, Agrees To Seek Re-election

Has Been In The Foreground of Fight for Civic Betterment

Although JOHN CARROLL has served during the ten (10) most trying years for Barrington, he has agreed to seek re-election for another term and to help solve the ever increasing need of some action concerning delinquent taxes and delinquent mortgages which are retarding the growth of Barrington, and to take some action concerning the greatly reduced corporate income.

JOHN CARROLL has been a resident of Barrington for a number of years. For many years while serving as a locomotive engineer for the Chicago and North Western Railroad Company he devoted much of his spare time to plans for improving the condition of railroad men. He was an important place in the Council of the Brotherhood of Locomotive Engineers.

In 1930 when the very serious condition of Barrington Special Assessment Board was known, Carroll headed a Citizens' group who aided in the protection of Barrington Bond Investors. Later when he was elected to the Village Board he initiated proceedings for the clearing up of this unhappy condition. While the damage resulting from the maddened condition could not be entirely removed CARROLL has constantly worked to restore Barrington to a sound financial condition.

During the past four (4) years JOHN CARROLL has served as Chairman of the Citizens' Committee. Co-operating with the other members of the Village Board and the Village President in an effort to regain the prestige which the Village of Barrington had and should have retained as its good Government and financial stability.

The measure of success achieved along this line can be best evidenced by the fact that in 1927 the Village of Barrington did its General Obligation Bonds in full. Co-operating with the other members of the Village Board he has secured and successfully completed a sewer project of more than four (4) miles. In financing the sewer project about the same time the sewer water revenue bonds and Village Water Bonds were issued. The measure of success achieved along this line can be best evidenced by the fact that in 1927 the Village of Barrington did its General Obligation Bonds in full.
