Hotels of Old Sahara

With most of the conveniences of city hostelries a chain of hotels stretching across the Sahara desert has been opened. They are at Touggourt, in the province of Oued Rhir; Igouffle-Biskra railway; at the oasts of Ouargla and El Goléa, south of Touggourt; at Fort Abbes, south of Colomb Bechar; and at Timimoun, 400 miles south of Oran, in the midst of the wildest desert. The number of rooms varies from 12 to 30, and each has running water. There are 56 bathrooms, and baths would require too large a water supply. Showerbaths are available, however.

Gov. Horner Donates Trophy to Pet Show

Governor Henry Horner has offered to award a trophy for the "most ideal companion" class of the pet show to be held at the Harry Muhlbradt home on Miller road August 26, according to Mrs. Muhlbradt, general chairman. An extensive list of other prizes has been collected for the pet show, which is an outgrowth of a large number of entries.

The show is not limited to children only, adults as well may enter their pet dog, cat, duck, pig or any other animal. All entries must be in by August 24.

Additional information concerning the show may be secured from Mrs. Muhlbradt or Irene Lipofsky, who is in charge of Barrington entries.

Hotel Industry Booming

The North Africa highway that joins Italy with Egypt and permits excellent motoring facilities and increased steamship and air services across the Mediterranean has created a boom in Libya's hotel industry. A chain of modern hotels has been built to provide every resort convenience comparable to the best on the Mediterranean's northern shores. Miles of palm-fringed beaches and the imposing ruins of Imperial Roman African cities, notably, Leptis Magna, provide other attractions for Libya's new tourist population.

Recipe for Receipt

Modern dictionaries all indicate that the word receipt refers to a formula or list of ingredients of a mixture, giving the exact proportions together with proper directions for compounding." However, it is cannot be forgotten that the same definition, since the 17th century or longer, has also fitted the word receipt. In other words, either word may correctly be employed in this sense; but the present tendency is to restrict this meaning either to medicine or cooking, to the word recipe.
