Not a six but an EIGHT! 1940 Buick Wildcat... Here's what we're shooting at! You'll understand why when you know what we were aiming for. We wanted to combine in one car all the best we've learned in our 36 years in this business. We think we've got it now. A stand-out sparkling car with action power and staying power. It would be hopeless to try to list the whole range of new features — there are some 72 in all. But you can't drive this car a mile without knowing that you have got hold of something that tops anything you ever handled. It's smoother, steadier, firmer on the line. It gets up and goes right now, and keeps going without wadding, tailing or wind-sweave. It takes the roughest roads in its stride, and while we don't want to go hitting about it, this eager baby can do forty-five in first! The sudden, soaring, millrace power of its matchless Dynafab straight-eight engine, electrically balanced after assembly to microprecision perfection, is velocity smoothed to velvet. Yes, this beauty is our all-time high — the car we've been shooting at for all these many years. Come drive it and you'll see why.

**A Word to Barrington Motorists**  
I HAVE been asked many times why I left my former business. Those who asked said "you seemed to enjoy a good business there." Yes, I did have a good business and there is probably no better oil company to be associated with than the one I was with. I have no ax to grind with this company or its officials. We parted the best of friends and I received their best wishes for success in my new venture.  
The reason I made the change was because I wanted a business of my own.  
I have started my new company with the knowledge that GASOLINE PRICES IN BARRINGTON ARE TOO HIGH. I see no reason why motorists in this town should pay a premium for their gasoline while other communities enjoy lower prices. I believe this community needs the type of service I am offering. In other places all over the country people are able to save money on their gasoline and oil purchases so I decided I should be the first to give Barrington motorists a break.  
I am NOT selling a cheap gasoline. I am BUYING 72 OCTANE GASOLINE and bringing it to my service station in my own truck. You'll find no difference in its performance in your car compared with any other advertised brand of gasoline sold in this community.  
The best proof is to try it. The saving, whether you buy all or part of your gasoline at my place, will be very much worth your while.
