TELEPHONE, BARRINGTON NO. 1

NOW IS OUR CHANCE!
A means by which some of the community's problems may be solved was suggested during meeting of the general committee on Town-Warming at the school house Thursday night.

President Hatje's proposal to organize such a unit was enthusiastically received by some 40 representatives of local clubs, lodges and societies, and following a vote of approval, he was authorized to form a committee which would prepare the groundwork structure.

If and when this new coordinating agency is put into working order it should receive the whole-hearted support of all residents of Barrington, both in the village and the countryside.

Properly directed, it should go a long way in combining all the local civic, fraternal and religious units and political organizations into an effective working force for the community. This group could help solve many village matters and could direct the drafting of a community program.

We are sure that it is the opportunity available and wholeheartedly for we firmly believe that such a league is needed to make a progressive and coordinated community here in Barrington. We have often expressed the need for such an organization, and we now have a chance to have one let's do something about it.

Law on THE FARM

Ill.—Blooded beekeepers have long been aware of the losses caused by contagious bee disease, but they have not been able to control it.
The state department of agriculture has issued a new regulation which will help beekeepers to control the disease.
