GIVE THANKS

Thanksgiving approaches again this year, and on this occasion the presence of God makes more important than ever our American habit of passing a day celebrating our blessings. Even the difference of opinion this year concerning the date on which the event will be celebrated points to something American for which we ought to be thankful.

We should be thankful, in a world at war, that we are at peace with all nations and that our country is a public to peace. We should be grateful for our system of representative democracy, which guarantees the fact that this public will to peace will be heard.

But we must not be thankful for this opportunity is also an obligation. That obligation lies in our making every effort to use the advantages we have here to the utmost—not to be faint-hearted, not to neglect the opportunities that arise here, not to abuse the freedom we are granted.

Thus Thanksgiving this year ought at once to be a day in which we count our blessings, and one on which we remember the responsibilities that are ours.

CHRISTMAS DECORATIONS

The Christmas season approaches rapidly (possibly too soon for an unsuspecting budget) and it will be considered a program whereby the community can reflect a Yuletide spirit. Remembering back the past several years we recall the lack of Christmas spirit Barrington seemed.

The lack of decorations in the business district was very evident and efforts should be directed to remedy that condition.

The Barrington Lions club was approached Monday night with the request that they should be appointed to work with other business men for the purpose of drafting a decoration plan.

A concerted program here during the Christmas period will be a tremendous help to our community spirit.

Law on THE FARM

Division Fences—In the absence of statute fixing the method of construction and maintenance of division fences, each owner is bound to repair it. Who repairs is up to the other owner...

For the law on division fences, see the revised statutes, chapter 54, sections 1-21.

Clippings

Postscript: Flattery is 36 cent per word, and soap is 36 cent per word.

Wife (to husband in sex room): "My dear, what are you operating that machine for?"

Head: "With a can opener, naturally. What do you think it is?"

Wife: "Well, I thought from your looks that you were operating it with a prayer."

The old wives about turning America back to the Indians may be more correct for service than the National Resources Commission...

"What the deuce are you doing here, fellow, when the outfit has buried the road?"

Man: "That's my job, boss." "Well, replied the hen, "I'm simply laying in a supply of coal."

Prospective Employer: "Have you any references?" Applicant: "Yes, lots of them."

Applicant: "Well, when you told me that you were looking for a job, I said, 'Well, man, to tell the truth, they're just looking for a job, none of them do me any business.'"

And as one pet put it, "Everything I want to do is either illegal, immoral, or fattening."

A certain amount of opposition to a great bill to the livestock industry is a challenge. Kites rise against the wind, they're just like wind in a field, none. No person ever worked their passage in better than this.

YOUR FARM COLUMN

By BILL RUSK

Reports, Farm Friends: As Bill in answer to the Pioneer... He had two tractors with plows and a combine... A law also took effect last Saturday at A. Brader's turkey farm on Deerpark road about 10 miles north of Chicago...

Because the turf became more greater because of its lower level of soil fertility... The necessary nutrients must first be present in the soil...

How Illinois what farmers have been doing to make a farm program have signified their interest in participating in the 1940 wheat program... The only thing that can be done...
